Department of National Service Scheme (NSS)

Academic Year 2018 - 2019

Name of Activity : Blood Donation Camp and Tree Plantation

Date : 13th July 2018

No of Participated Students: 40

Aim –

Creating Awareness about the Importance of Blood Donation and Tree Plantation in volunteers.

Objective –

1) To Explain the Importance of Blood to Save the Lives of Patients and through Tree Plantation save environment.
2) To motivate the volunteers to participate in Large Number in this activity.

Tree Plantation Drive

Tree Plantation Drive

Tree Plantation Program: Principal, Dr. Balkrishna Zaware and Vice-Principal Dr. S. K. Dhage planted trees in the Post-Graduate Research Department area and the College premises. Total 58 trees were planted: (Neem 17, Pimpal - 12, Sonchafa - 04, Boganlimb 14, Gulabi Sonchafa - 11). As per the global warming the tree plantation is very important and creating awareness in volunteers.

Trees give off oxygen that we need to breathe. Trees reduce the amount of storm water runoff, which reduces erosion and pollution in our waterways and may reduce the effects of flooding. Many species of wildlife depend on trees for habitat. Trees provide food, protection, and homes for many birds

Scanned with OKEN Scanner

Blood Donation Camp: On the occasion of the Birthday of **Hon. Ajitdada Pawar Saheb** (Former Deputy Chief Minister, of Maharashtra State and President, of Pune District Education Association), a Blood Donation Camp was organized in the college in collaboration with**GholapBlood Bank, Pune**. The shortage of Blood in the PCMC area isdue to the demand.

NSS volunteers participated in this drive. When actual HB was checked that time many girls faced HB very Low.A total of 40 students and volunteers from the College donated blood.

सांगवीत स्वच्छतेची शपथ

लोकमत न्यूज नेटवर्क

पिंपळे गुरव : स्वच्छ भारत पंधरवडा अंतर्गत पुणे जिल्हा शिक्षण मंडळाच्या बाबूरावजी घोलप महाविद्यालय, नवी सांगवी येथील विद्यार्थी, प्राध्यापक आणि प्रशासकीय सेवक यांनी स्वच्छतेची शपथ घेतली.

विद्यार्थ्यांनी व प्राध्यापकांनी वर्षातील शंभर तास व आठवड्यातून २ तास महाविद्यालय परिसर स्वच्छ ठेवण्याचा संकल्प केला. तसेच गाव स्वच्छ ठेवून अन्य १०० जणांना स्वच्छता करण्यासाठी प्रवृत्त करण्याची प्रतिज्ञा केली.

प्राचार्य डॉ. बाळकृष्ण झावरे यांनी विद्यार्थ्यांना महाविद्यालयाचा परिसर स्वच्छ ठेवण्यासाठी आवाहन करून मार्गदर्शन केले. या वेळी उपप्राचार्य डॉ. एस. के. ढगे, महाविद्यालय विकास समितीचे डॉ. एन. एस. गिरी, डॉ. एस. व्ही. जगताप, प्रा. प्रवीण येवले, अशोक कोंढावळे, शारीरिक शिक्षण संचालिका प्रा. विद्या पठारे, कार्यक्रमाधिकारी डॉ. एस. एस. जगताप, प्रा. डी. एस. जांभुळकर, प्रा. अमृता इनामदार, तसेच एन. एन. एस.चे कमिटी मेंबर प्रा. विपुल घेमुड, प्रा. धनश्री कुलकर्णी, प्रा. प्रीती जोशी, प्रा. संतोष सास्तुरकर उपस्थित होते.

रवींद्र मोरे, दिनेश भगत, श्रीधर मंगरुळकर, सुयोग पाटील, अंकिता परदेशी, अर्चना देशपांडे, पौर्णिमा पाटील, नंदिनी सपकाळे, रुतुजा भोसले या विद्यार्थ्यांनी विशेष सहभाग घेतला. प्रा. डी. एस. जांभुळकर यांनी आभार मानले.

स्वच्छतेची शपथ : नवी सांगवी येथील बाबूरावजी घोलप महाविद्यालयातील विद्यार्थी, प्राध्यापक आणि सेवक यांनी गाव स्वच्छतेची शपथ घेतली.

Baburaoji Gholap College Sangvi, Pune – 27

Department of National Service Scheme (NSS)

Name of Activity – Pledge held in College Campus "Swach Bharat Abhiyan"

Date: 13-Aug-18

No of Participated Students – 310

Aim – To inculcate a sense of responsibility and awareness among students and faculty members about the importance of cleanliness and sanitation.

Objective – to maintain a clean and hygienic environment within the campus and promote these values in the broader community.

Activity:-

The "Swachh Bharat Abhiyan" (Clean India Campaign) is a nationwide cleanliness and sanitation campaign launched by the Indian government in 2014. The campaign aims to make India clean and free of open defecation by October 2, 2019, which was the 150th birth anniversary of Mahatma Gandhi.

In college campuses across India, students and faculty members have actively participated in the Swachh Bharat Abhiyan by taking the "Swachhata Pledge." This pledge is a commitment to maintain cleanliness and hygiene in their surroundings and to actively contribute to the cleanliness of the nation. The pledge typically includes promises to:

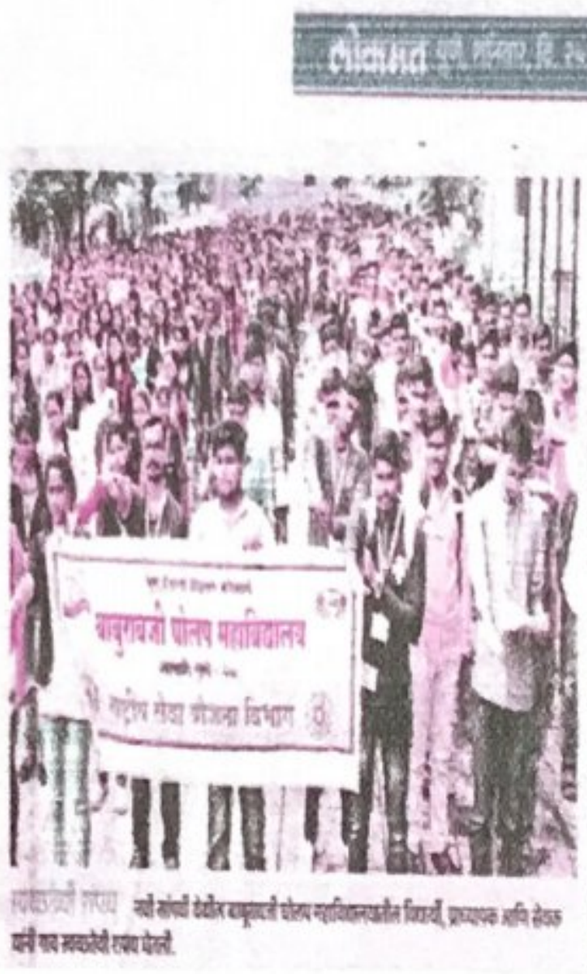
- Keep my surroundings and environment clean and green.
- Properly dispose of waste in dustbins and avoid littering.
- Promote the use of toilets and proper sanitation facilities.
- Encourage others to participate in cleanliness drives and awareness campaigns.
- Contribute to making India open defecation-free.

Taking the Swachhata Pledge is a symbolic and public commitment to support the goals of the Swachh Bharat Abhiyan and to actively work towards a cleaner and more hygienic India. College campuses often organize cleanliness drives, awareness programs, and other initiatives to engage students and promote a culture of cleanliness and hygiene.

It's worth noting that while the official deadline for achieving the Swachh Bharat Abhiyan's goals was October 2, 2019, the campaign's efforts to maintain

Scanned with OKEN Scanner

cleanliness and sanitation continue beyond that date, and individuals and institutions are encouraged to sustain their commitment to cleanliness and hygiene. Pledge of cleanness swachh Bharat Fortnight N.S. Giri , Dr. S.V. Jagtap under Pune District Board of Education Prof. Praveen Yewelw ,Ashok Kodhai, B.G. College, New Director of Physical Education ,Prof. Students professors and administrative servants of Sangvi S. jagtap, vidya pathare program officer Dr. Prof.D.S jambhulkar, Prof Amrita Inamdar Took an oath of cleanliness . The students and professors as well as NSS committee and 100 hours and import 2 Prof. vipul Dhemudra ,Prof. Dhanashree Tas College Campus Swatchh. He also promised to motivate 100 other people to keep the village clean 310 student participate in this event.



सांगवीत स्वच्छतेची शपथ

लोकमत न्यूज नेटवर्क

विखळे सूत्र : सकल भारत घोलपाड संलग्न पुणे जिल्हा शिक्षण मंडळाच्या बाबुराव घोलप महाविद्यालय, सांगवी येथील विद्यार्थी, प्राध्यापक आणि प्रशासकीय सेवक यांनी स्वच्छतेची शपथ घेतली.

विद्यार्थी व प्राध्यापकांनी स्वच्छतेविषयी जनजागृती व्हावी यासाठी महाविद्यालय परिसर स्वच्छ ठेवण्याचा संकल्प केला. तसेच शहर स्वच्छ ठेवण्यासाठी अन्य ठिकाणी स्वच्छता कार्यक्रमांचे प्रमुख कार्यक्रमही घेण्यात येणार आहेत.

प्राचार्य डॉ. बाळकृष्ण झांबरे यांनी विद्यार्थ्यांना महाविद्यालयाचा परिसर स्वच्छ ठेवण्यासाठी आवाहन केल्यानंतर सेवेने, या सेवेचे सदस्यांनी डॉ. एस. के. हाके, महाविद्यालय विकास समितीचे डॉ. एस. एस. निंबे, डॉ. एस. पी. जगताप, प्र. प्रवीण येवले, बाळासाहेब कोंडाळकर, सांस्कृतिक विभाग संयोजिका प्र. विद्या पवार, कार्यक्रमाधिकारी डॉ. एस. एस. जगताप, प्र. डॉ. एस. जोशीपुरकर, प्र. अमृता इनामदार, सहाय्य एस. एस. एस चे कमिटी मेंबर प्र. विपुल पेंडूर, प्र. धनश्री कुलकर्णी, प्र. प्रीती जोशी, प्र. संतोष मालकृपाळ उपस्थित होते.

स्वीट बोले, रिंकेश भगत, वीरेश गोलवाळकर, सुयोग पाटील, अंकिता पाटोळे, अर्चना देशपांडे, पौर्णिमा पाटील, गौरी सपकाळे, रुतुजा पोलाने या विद्यार्थ्यांनी विशेष सहभाग घेतला. प्र. डॉ. एस. जोशीपुरकर यांनी आभार मानले.

स्वच्छतेची शपथ सांगवी येथील बाबुराव घोलप महाविद्यालयातील विद्यार्थी, प्राध्यापक आणि सेवक यांनी घेतली.

Baburaoji Gholap College Sangvi, Pune – 27

Department of National Service Scheme (NSS)

Academic Year 2018 - 2019

Name of Activity – Management : **Collection of Funds for Kerala Flood Disaster**

Date – : **03rd September 2018**

No of Participated Students : **100**

Aim – Awareness about the Importance of society work in students and Volunteers for Nation Building.

Objective –The objective of the fund collection campaign for Kerala Flood Disaster Management was to mobilize financial support from the community to provide immediate relief and aid to the flood-affected regions of Kerala.

1) To create awareness in students for social Activities

In response to the devastating floods in Kerala, the National Service Scheme (NSS) Department of Savitribai Phule Pune University (SPPU) in collaboration with PDEA's Baburaoji Gholap College initiated a fund collection campaign to support the Kerala Disaster Management activities. The funds were collected from various localities, including Old and New Sanvi and Pimple Gurav areas, through the dedicated efforts of volunteers and teachers.

2. Fund Collection Campaign

The fund collection campaign was carried out diligently, with the following key details:

Amount Collected: A total of Rs. 34,470/- was collected from generous contributions by people in the aforementioned areas.

Collection Methods: The funds were collected through door-to-door visits, interactions with shopkeepers, approaching people at rickshaw stands, and engaging with pedestrians. Volunteers demonstrated dedication and resilience in their interactions with a wide range of individuals.

Volunteer Teams: Teams of dedicated volunteers and teachers were formed to manage and oversee the collection process. Each team played a crucial role in reaching out to different segments of the community.

3. Donor Engagement

During the collection campaign, volunteers shared their experiences of engaging with various donors. They reported that donors from diverse backgrounds were supportive and empathetic toward the cause. This interaction helped raise awareness about the situation in Kerala and fostered a sense of unity and solidarity.

Scanned with OKEN Scanner

Baburaoji Gholap College
PDEA
Sangvi, Pune-27

4. Fund Transfer

After the successful collection of funds, the amount of Rs. 34,470/- was transferred to Savitribai Phule Pune University (SPPU) using the NEFT (National Electronic Funds Transfer) method. This ensured the secure and efficient transfer of the collected funds to the designated account for Kerala flood relief.

5. NSS Volunteers' Participation

As part of the larger NSS community, 100 NSS volunteers actively participated in the Kerala Disaster Management activity. Their involvement showcases the commitment of young individuals to contribute to the welfare of those affected by natural disasters.

6. Conclusion

The fund collection campaign organized by the NSS Department of SPPU, in partnership with PDEA's Baburaoji Gholap College, was a resounding success. The generous contributions from the residents of Old and New Sanvi, Pimple Gurav area, amounted to Rs. 34,470/-. The efforts of volunteers, teachers, and the entire community reflect the spirit of unity and compassion during times of crisis.

This report serves as a testament to the dedication and commitment of all those involved in collecting funds for Kerala flood disaster management. The funds collected will undoubtedly make a meaningful impact on the relief and recovery efforts in Kerala.

Funds collected from the area Old and New Sangvi staff and students

Activities "NCC Pakhwada Programme"

-College Campus Cleanness, Swachhata Abhiyan Rally, Statue Cleanness, Shramdan and Speech on "Environment Awareness" 15th Sept.-2nd Oct. 2018

Aim: To clean the campus and Botanical garden in college also Aundh Hospital.

Objectives: -To spread the awareness among the students regarding importance of cleanliness and its benefits.
-To maintain the clean environment and prevent the students to add trash in surrounding areas and inculcate the values of cleanliness
-To aware students about plants and its uses

Report: NCC unit of college has organized the environment wareness week in third week of September 2019. In this activity, NCC Cadets cleaned the college campus especially the garden area also in Aundh Hospital. They also gathered the plastic from campus. They also did the weeding in the Botanical garden. The efforts was made to collect the plastic from college building, canteen, parking areas and from the playing ground. NCC Cadets also carried out the activities like-College Campus Cleanness, Swachhata Abhiyan Rally, Statue Cleanness, Shramdan. During this Dr. Rani Bhagat from Botany Dept. gave talk on "Environment Awareness" . She especially empasised her talk on plant resources which are useful to be eat from forest areas. Also gave information on poisonous plants. She also told about the significance of plant identification and its use during the Army campaign when they are on special mission when there will be scarcity of food. **Total 54 (Fifty Four)** NCC Cadets are participated in this activity. The activity is co-ordinated by Mr. Vitthal Naikwadi Co-Ordinator of NCC unit. These activities are supported by Principal Dr. B. N. Zaware and members of NCC committee.

Outcome:

- Students get to learn the to keep clean environment at college premises, and surrounding areas as well at their residence.
- They learned the use of plant resources and its importance when they will be on any mission in remote areas.

Baburaoji Gholap College Sangvi, Pune – 27

Department of National Service Scheme (NSS)

Academic Year 2018 - 2019

Name of Activity : Mahatma Gandhi and Lal Bahadoor Shashri Birth Anniversary cleanliness drive.

Date : 02nd October 2018

No of Participated Students : 25

Aim – On the occasion of Mahatma Gandhi and Lal Bahadur Shastri's Birth Anniversary, Baburaoji Gholap College in Sangvi, Pune, organized a cleaning drive as a tribute to these great leaders who championed cleanliness and hygiene as essential aspects of nation-building.

Objectives

- To pay homage to Mahatma Gandhi and Lal Bahadur Shastri by actively participating in activities that reflect their values and principles.
- To promote cleanliness, hygiene, and environmental responsibility among the college community and the wider community in Sangvi.

Activities:-

The cleaning drive encompassed a range of activities:

Campus Cleaning: Students, teachers, and staff came together to clean various areas within the college campus, including classrooms, corridors, and outdoor spaces. Special emphasis was given to waste segregation and disposal in an eco-friendly manner.

Street Cleaning: A group of volunteers extended their efforts beyond the college campus to clean the surrounding streets and public areas. This not only enhanced the aesthetics of the locality but also contributed to public health and sanitation.

Awareness Campaign: An awareness campaign was conducted to educate participants and the local community about the significance of cleanliness in

our daily lives. Pamphlets and posters emphasizing cleanliness, waste reduction, and environmental conservation were distributed.

Tree Plantation: As a symbol of commitment to environmental sustainability, a tree plantation drive was organized within the college premises. Several saplings were planted to enhance the green cover.

Cleanliness Pledge: A cleanliness pledge was administered to all participants, emphasizing their role in maintaining cleanliness and sanitation not only on this occasion but in their daily lives.

4. Participation and Enthusiasm

The cleaning drive witnessed enthusiastic participation from college students, teaching and non-teaching staff, as well as local residents. The collective effort and energy displayed by everyone involved reflected a shared commitment to Mahatma Gandhi's vision of a clean and hygienic India.

The cleaning drive on the occasion of Mahatma Gandhi and Lal Bahadur Shastri's Birth Anniversary at Baburaoji Gholap College, Sangvi, Pune, was a resounding success. It served as a fitting tribute to these leaders' legacies by promoting cleanliness, hygiene, and environmental responsibility. The participation and dedication of all those involved underscored the importance of collective action in building a cleaner and greener future.

A survey of plant diversity and its significance at village Ghotawade

The biodiversity and its significance have been largely guided by the academic communities. The academic interest in biodiversity and its significance is strongly motivated through interdisciplinary approach. The college have carried out a survey for plant diversity and its significance through participation of students and teachers from botany department. The NSS volunteers were made aware of the plant diversity around the village Ghotawade. It was a great experience for the students in knowing the biodiversity. This survey was done on 15th January, 2019. In all two teachers and twenty students were involved in the survey.

The students involved in plant diversity survey at village Ghotawade

The students interacted with villagers while surveying at village Ghotawade

In India majority of the rural population is directly or indirectly dependent on biodiversity and ecosystems for almost their entire basic needs: water, food, medicine,

clothing, housing etc. Our natural areas are rich treasure of medicinal plants. The local people were aware of its use. The forests are an important source of many ecological services. So to understand the current status of these resources, our college has decided to survey these resources through the participation of students and teachers.

The survey objectives were aimed to prepare an exhaustive list of plant species and documentation of agricultural crops. The surveys for plant biodiversity assessment were conducted in and around the village Ghotawade (Mulshi) of Pune District. The village lies in the Western Ghats and situates approximately 45 Km from Pune. The general topography of the area is hilly with steep slopes to undulating land. It is marked with isolated agricultural farms and a river. The main land use pattern is single crop agriculture, settlements, and reserved forest. We prepared a simple plan for plant diversity studies at village level with the help of our students. The floristic studies were based on extensive exploration of the village area. Observations were also made on the agricultural patterns, agricultural weeds and cultivated and introduced plant species.

Observations and Results:

The natural vegetation/ forest type in this area is moist to dry deciduous. Large to medium-sized trees along with shrubs constitute majority of the vegetation. Diversity of herbaceous species is always more in monsoon months and declines as the rainy season recedes. The summers are hot and dry. The extensive field surveys (supported by literature surveys) resulted in documentation of 455 plant species distributed in 311 genera and 81 families indicating the floristic richness of village Ghotawade. The most represented plant families were Fabaceae (52 species), Asteraceae (41 species), Poaceae (40 species), Euphorbiaceae (20 species), Convolvulaceae (19 species) and Acanthaceae (18 species). Similarly, the most abundant genera were *Euphorbia, Ipomoea* (8 species each), *Cassia, Ficus* and *Indigofera* (7 species each), and *Acacia* and *Alysicarpus* (6 species each). The habit-form wise analysis presented a predominance of herbs (43%) and trees (18%) followed by shrubs (16%), climbers (13%) and grasses (10%).

Ecosystem Service:

Ecosystem services – also called ‘ecological services’ are the benefits that people obtain from ecosystems. The students were made aware of the ecological services that are obtained from plant resources.

Food: Crops, livestock, poultry, wild foods

Timber: *Terminalia, Lagerstroemia, Tectona, Haldina, Mitragyna*, etc.

Biomass fuel: Fuel wood and charcoal, grain for ethanol production, dung

Fresh Water: Freshwater for drinking, cleaning, cooling, and household purpose.

Genetic Resources: Genes used to increase crop resistance.

Bio chemicals: Medicines, biocides, food additives

Natural Medicines: crude drugs obtained from plants.

Air quality regulation: Water body and vegetation as carbon sink.

Water quality regulation: Permeable soils facilitate aquifer recharge. River floodplains and wetlands retain water.

Climate regulation at global and regional scale: Forests capture and store carbon dioxide.

Water purification and waste treatment: Wetlands remove harmful pollutants from water by trapping metals and organic materials. Soil microbes degrade organic waste, rendering it less harmful.

Disease and pest regulation: Predators from nearby forests – such as bats, toads and snakes – consume crop pests.

Pollination: Bees from nearby forests pollinate crops.

Recreation and ecotourism: Hiking and bird watching.

Ethical values: Spiritual fulfilment derived from sacred lands and rivers.

Nutrient recycling: Decomposition of organic matter contributes to soil fertility.

Primary production: Plants transforms sunlight and nutrients into biomass, thereby forming the base of the food chain in ecosystems.

Water cycling: Transfer of water from soil to plants, plants to air, and air to rain.

The medicinal plants include Shatawari, Ashwagandha, Dhayati, Kala-kuda, Nirgudi, Gulvel, Beheda, Awala, Akkalkara, Jambhul, Maka, Bhuiringani, Aghada, Bibba, Chandan, Tulsi, Chitrak, Bhuiawali, Khajkuili, Adulsa, Anantmul, Talimkhana, Murudsheng, Kal-lawi, Sadaphuli, Bahava, Punarnawa, Kalmegh, Vekhand, Bel, Shikekai, Khair, and Gunj.

Agriculture:

Traditional farming, especially paddy fields, were observed in the village area. Agriculture is the traditional occupation of local people in Ghotawade. The farmers takes the traditional crops like *Eleusine coracana.* The major crops were Rice (*Oryza sativa*), Chana (*Cicer arieatinum*) and *Eleusine coracana* (Nachani). The leafy vegetable crops were *Spinacia oleracea* (Palak), *Raphanus sativus* (Mula), *Coriandrum sativum* (Kothambir), and *Amaranthus sp.* A number of local varieties/ landraces of rice, and ragi are cultivated

occasionally. The important fruit plants were *Mangifera indica* (Mango), *Psidium guajava,* and *Syzigium cumini* (Jamun). The wild fruit species are *Ziziphus mauritiana, Emblica officinalis,* and *Cordia dichotoma*. The open areas around the agricultural fields and open foothills are infested with highly invasive weeds like *Eupatorium odoratum, and Hyptis suaveolens*. Other common herbs include *Cassia tora, Alysicarpus, Sida, Celosia, Desmodium, Acanthospermum, Phyllanthus, Ageratum, Tephrosia, Vigna, Alternanthera, Vernonia, Achyranthes, Euphorbia, Crotolaria, etc.*

List of various crops is given in following table.

Table: Agricultural crops under cultivation/ wild

Crop Type	**Crops species**
Cereals	Rice (*Oryza sativa*)
Millets and minor millets	Finger millet (*Eleusine coracana*), foxtail millet (*Setaria italica*), and common millet (*Panicum miliaceum*)
Oilseeds	Sesame (*Sesamum indicum*), Niger (*Guizotia abyssinica*), and Linseed (*Linum usitatissimum*)
Fruits	Mango (*Mangifera indica*), Jackfruit (*Artocarpus heterophyllus*), Lemon (*Citrus limon*), Custard apple (*Annona squamosa*), and Guava (*Psidium guajava*)
Medicinal and Aromatic Plants	*Embelia tsjeriam-cottam, Garcinia indica, Gloriosa superba, Pueraria tuberosa,* and *Rubia cordifolia*
Leguminous vegetables	Cowpea (*Vigna unguiculata*), and lablab bean (*Lablab purpureus*) are important leguminous vegetables.
Shoots and leafy vegetables	*Alocasia, Amaranthus viridis, A. spinosus,* and *Celosia argentea*
Vegetables	*Canavalia ensiformis* and *Solanum torvum.*
Fruits	*Carissa spinarum, Cordia myxa, Dillenia indica, Phoenix sylvestris, Syzygium cumini* and *Ziziphus mauritiana.*
Beverages	*Phoenix sylvestris*
Dye yielding plants	*Butea monosperma* and *Indigofera cassioides*

Summary and Conclusion:

20 students under the guidance of teachers have created an excellent database. Their valuable contribution covers many aspects of village biodiversity, such as: plant diversity of land and water, wild plants used as food, medicinal plants and their uses and crop varieties. Crop and cultivated fruit species documented were 34. In all 33 medicinal plants were listed. The students were made aware of the rich plant diversity, its importance and need for its conservation through people's participation. The local people have valuable knowledge about biodiversity that should be documented and protected. Students and teachers gaining first-hand knowledge of plant diversity. Student get exposed to environmental problems faced by villagers.

Annexure-I: List of plant species.

Botanical Name	Local Name	Habit	Family	Status
Abrus precatorius	Gunj	Climber	Fabaceae	Frequent
Abutilon indicum	Mudra	Shrub	Malvaceae	Frequent
Acacia auriculiformis	Austrelian Babhul	Tree	Mimosaceae	Frequent
Acacia catechu	Khair	Tree	Mimosaceae	Frequent
Acacia chundra	Lal-khair	Tree	Mimosaceae	Frequent
Acacia concinna	Shikekai	Climber	Mimosaceae	Frequent
Acacia leucophloea	Hivar	Tree	Mimosaceae	Frequent
Acacia nilotica	Babhul	Tree	Mimosaceae	Frequent
Acalypha hispida	Khokli	Herb	Euphorbiaceae	Abundant
Acalypha indica	Khokli	Herb	Euphorbiaceae	Abundant
Acalypha malabarica	Khalifa	Herb	Euphorbiaceae	Abundant
Acanthospermum hispidum	Shingada-kata	Herb	Asteraceae	Abundant
Achyranthes aspera	Aghada	Herb	Amaranthaceae	Abundant
Acorus calamus	Vekhand	Herb	Araceae	Occasional
Aegle marmelos	Bel	Tree	Rutaceae	Occasional
Aeschynomene indica L.	Kinomin	Shrub	Fabaceae	Abundant
Ageratum conyzoides	Osadi	Herb	Asteraceae	Abundant
Ageratum houstonianum		Herb	Asteraceae	Frequent
Albizia lebbeck var. *lebbeck*	Shireesh	Tree	Mimosaceae	Frequent
Albizia procera	Kinai	Tree	Mimosaceae	Frequent
Allamanda cathartica	Allamanda	Shrub	Apocynaceae	Cultivated
Alloteropsis cimicina		Grass	Poaceae	Abundant
Aloe vera	Korphad	Shrub	Liliaceae	Scarce
Alstonia scholaris	Satvin	Tree	Apocynaceae	Frequent
Alternanthera bettzichiana		Herb	Amaranthaceae	Abundant
Alternanthera sessilis	Chubukata	Herb	Amaranthaceae	Abundant
Alysicarpus bupleurifolius		Herb	Fabaceae	Frequent
Alysicarpus longifolius	Shevra	Herb	Fabaceae	Abundant
Alysicarpus monilifer	Shevra	Herb	Fabaceae	Abundant
Alysicarpus pubescens	Durangi-shevra	Herb	Fabaceae	Abundant
Alysicarpus tetragonolobus	Lal-shevra	Herb	Fabaceae	Abundant
Alysicarpus vaginalis (L.) DC.	Shevra	Herb	Fabaceae	Abundant
Amaranthus spinosus	Katemath	Herb	Amaranthaceae	Abundant
Amaranthus tricolor	Chaulai	Herb	Amaranthaceae	Frequent
Amaranthus viridis	Math	Herb	Amaranthaceae	Abundant
Ammannia baccifera	Bhar-jambhal	Herb	Lythraceae	Abundant
Ammannia multiflora		Herb	Lythraceae	Abundant
Anacardium occidentale	Kaju	Tree	Anacardiaceae	Scarce
Anagallis arvensis	Indraneel	Herb	Primulaceae	Abundant
Andrographis paniculata	Kalmegh	Herb	Acanthaceae	Frequent

Botanical Name	Local Name	Habit	Family	Status
Andropogon pertussis	Kusal	Grass	Poaceae	Abundant
Andropogon triticeus	Kusal	Grass	Poaceae	Abundant

National Service Scheme Department -Academic Year -2020-21

Activity Name: 'Road Safety Week' **Date: 5th Feb 2021**

Aim: Creating awareness about Road Safety instructions among NSS Volunteers

Objective:

1) To decrease the number of road accidents that occur on shorter and longer journeys

Due to non-observance of traffic rules, the number of accidents has increased. Therefore, while celebrating the road safety campaign, it is necessary for the students to take constructive intervention in road safety by creating public awareness about traffic rules and being aware of social responsibility, Gholap College will definitely be an ideal college in the road safety campaign, said the Maharashtra State Liaison of the National Service Planning Department. Officer Dr. By Prabhakar Desai.

He was speaking at the inauguration of road safety campaign organized on the occasion of Gholap Week in association with National Service Scheme Department and National Student Army at Baburaoji Gholap College, Sangvi, Pune District Education Board. Principal Dr. Nitin Ghorpade, Police Inspector Satish Nandurkar, Police Sub-Inspector Mohan Jadhav, Retired Transport Officer Anil Pantoji
Other dignitaries were present.

While introducing the inaugural program, the principal of the college Dr. Nitin Ghorpade explained the objective and importance behind organizing road safety campaign. He also gave information about various social activities organized by Gholap College. Satish Nandurkar, Police Inspector of Sangvi Traffic Department, who was present as the chief dignitary on the occasion, explained the importance of road safety campaign to the students. At the same time, on the occasion of road safety campaign, an appeal was made to strictly follow the traffic rules by giving information about the traffic rules.

Retired Transport Officer Anil Pantoji, who was present as the keynote speaker in the second session of the campaign, first explained the history of the Indian vehicle sector and gave information on the essential elements for the implementation of traffic rules. Also, giving detailed information on road colors, motor act, vehicle license, overtaking rules, signals, symbol boxes, traffic caution signs, traffic information signs, traffic mandatory signs, flashing signals etc. Chosen as messenger. The coordinator of the said program Prof. Saddam Hussain expressed his gratitude to Dr. Done by Arjun Doke.

Scanned by CamScanner

More than 270 students participated in this campaign including 60 through offline media. For the success of the program National Service Scheme Program Officer Prof. Dnyaneshwar Jambhulkar, Prof. Amrita Inamdar, Prof. Rushant Nandkhile, Dr. Arjun Doke, Prof. Vitthal Naikwadi, Prof. Dhanshree Kulkarni, Prof. Ratna Chaudhary, Praneet Pavle, Viren Chavan provided special support.

National Service Scheme Department –

Academic Year – 2020 - 2021

Activity Name: 'Cleanliness Drive at Dehu on National Tourism Day'

Date: 25th Jan 2021

Aim: Creating awareness about cleanliness through National Tourism Day among NSS Volunteers

Objectives:

1) To encourage students for cleanliness and make them habitual to keep the nearby campus clean.
2) To promote holy pilgrimage tourism in PCMC area among NSS volunteers

On the occasion of National Tourism Day, the NSS Volunteers and students of TTM department of Baburaoji Gholap College took the initiative to conduct a cleanliness drive in the historic village of Dehu, Pune. The objective was to contribute to the upkeep of significant pilgrimage sites and promote cleanliness as an integral part of responsible tourism.

Activities:

Early Morning Rally: The day commenced with an early morning rally led by NSS volunteers, spreading awareness about the importance of cleanliness and the impact of responsible tourism on the community.

Clean-Up of Pilgrimage Sites:

- Sant Chokhamela Ghat: Volunteers actively participated in the cleaning of Sant Chokhamela Ghat, ensuring a pristine environment for visitors and locals.
- Indrayani Ghat: The cleanliness drive extended to Indrayani Ghat, focusing on the riverfront and surrounding areas.
- Dehu Temple: The NSS team worked diligently to clean the premises of the Dehu Temple, maintaining the sanctity of the religious site.

Baburaoji Gholap College
Pune - 27.
Sangvi

Educational Session:

NSS volunteers organized an educational session on the importance of cleanliness and sustainable tourism for the local community, emphasizing the role each individual plays in maintaining a clean environment.

Guidance and Participation of College Authorities:

Principal Dr. Nitin Ghorpade guided students about importance of cleanliness at pilgrimage sites and mentioned that Cleanliness at pilgrimage sites is crucial for maintaining their spiritual sanctity and cultural significance. A clean environment fosters a sense of reverence, allowing pilgrims to engage in religious practices and meditation without distractions. Additionally, a well-maintained pilgrimage site attracts more visitors, contributing to tourism and the local economy. Beyond aesthetics, cleanliness promotes public health, ensuring a safe and hygienic space for pilgrims to gather. Overall, prioritizing cleanliness at pilgrimage sites is a collective responsibility that preserves the sacredness, cultural heritage, and overall positive experience for worshippers and visitors alike. Vice Principal Dr. Latesh Nikam also provided guidance to students and both have been actively participated in the cleanliness campaign, setting an example for the students.

Recognition and Acknowledgments:

Local Community Appreciation: The efforts of NSS volunteers were acknowledged and appreciated by the local community, reinforcing the positive impact of community engagement.

Appreciation by College authorities: Efforts taken by students was appreciated by Principal and vice principal of college also.

Impact:

The cleanliness drive not only contributed to the visual enhancement of the pilgrimage sites but also instilled a sense of responsibility and civic duty among the NSS volunteers and the community at large.

On this occasion, Principal Dr. Nitin Ghorpade and Vice Principal Dr. Latesh Nikam was felicitated Mr Madhukar Maharaj More, Chairman of Temple Committee. Also, there was a discussion about making a memorandum of understanding for increasing tourism in Dehu region. Vishal Maharaj More, Manik Maharaj More, Bhanudas Maharaj More and other dignitaries were present on this

Baburaoji Gholap Colle...

occasion. President of Abhang Pratishthan Sunil Kand and Vinod Ranpise provided special support for the planning of this entire program.

For the success of the program, Dr. Arjun Doke, Prof. Dnyaneshwar Jambhulkar, Prof. Vitthal Naikwadi, Prof. Saddam Ghatwale, Prof. Nagesh Bhalerao, Praneet Pavle worked hard. On the occasion of National Tourism Day, seeing the concept of cleaning the pilgrimage area, which is an important element of religious tourism, all the people of Dehu praised Baburaoji Gholap College and its students.

One Day Workshop

Life Managing Skills

Notice

I-CASH committee of B G C is organizing one day workshop "Life Managing Skills" on 4th February 2021. It would be conducted through online mode Google Meet. Students from all faculties can register online. The link will be provided by the subject teachers on their respective WhatsApp groups. It would be a joint venture between Ambedkar College, Aundh and Baburao Gholap Junior College, Sangvi. Eminent speakers will speak on different topics which will strengthen your overall personality. Dr Digamber Darekar, Department of Psychology, Lonawala College will talk on 'mental and intellectual skills'. Dr. Vidya Pathare, Physical Director, B G College, Sangvi will enlighten students about 'Physical and Mental Fitness'. Principal Dr Pundlik Rasal, Sinner College, Nashik will talk on 'Virtue of Respect'. Students will get certificate of participation after filling the feedback form. The link will be provided at the end of the third session.

ONE DY WORKSHOP
ON
LIFE MANAGING SKILLS
Thursday, 4TH FEBRUARY 2021

I-CASH committee of PDEA's B G College, Sangvi organized "one day workshop" of "Life Managing Skills" on Thursday 4th February 2021 for girl and boy students of the college. Arts, Commerce and Science and B Voc students took active part in the online workshop. Hundred students registered for the workshop. All the participants got the e-certificate of participation. The workshop was inaugurated by the auspicious hands of Principal Dr Arun Andhale, Ambedkar College, Aundh. Mrs. Surywanshi, the Headmistress of Baburaoji Gholap Vidyalaya was the chief Guest of the inauguration program, Principal Andhale asked students to focus more on their career which will take them away from all physical and mental disturbances. Mrs. Suryawanshi talked about changing role of women in the society and asked all girls to understand their responsibility about their family and society. Dr Sangita Ghodake, the coordinator of the workshop gave a welcome speech and talked about planning and execution of the workshop. Three resource persons from various branches of knowledge guided the students about social, psychological and intellectual interaction. Dr Digamber Darekar, Department of Psychology, Lonawala College delivered hi speech as a resource person in the first session of the workshop. He talked about mental and intellectual skills that can be used to maintain relationship. Vidya Pathare, Director of Physical Education, BGC, inspired students about physical and mental fitness. She gave a PPT presentation on :Self Defense" in the second session of the workshop. The third session was an interactive session in which Principal Dr Pundlik Rasal, Sinner College talked about a virtue of "Respect". He asked students to utter a sentence "I respect you" instead of saying "I Love You". Principal Dr Nitin Ghorpade talked as the president of the function. He sked students to be responsible and kind enough with the fellow citizen so that there would not have a need of committees like ICASH. Dr Arjun Doke offered vote of thanks in the end. Ms. Kirti Karanjawane, HoD, Political Science, was the anchor for the workshop.Coordinator

Preface

A large section of India's population lives in rural areas. It was thus relevant to know the quality of life of the people in the villages. The village people largely depended on the facilities available to the villages. The policy interventions aimed at improving the quality of life in the villages demanded information on the facilities available to the people of rural India.

To understand the ground reality about the facilities and resources available in rural areas, our college has decided and undertaken the village surveys in Maval Tahsil of Pune District.

The survey included the collection of information on availability of facilities in the village. Understanding the socioeconomic transformation of rural society/economy has been in the agenda of social scientists for last many years. Better understanding of rural/village society facilitates policy makers to initiate appropriate policies to set in the motion of rural transformation. For understanding the rural society, social scientists have devised different methods of enquiry and established a rich tradition of intensive and in-depth village studies. Several scholars have followed a multi-disciplinary approach to understand various issues of villagers.

Baseline survey of a village involved systematic collection and compilation of data on the following areas like basic data, demographic data, housing, economic status of households, land-holding pattern, agriculture, animal husbandry, non-farm activities and its potential, health & nutritional status of women & children, educational dynamics, availability of infrastructure (physical, social, economic), social dynamics and strengths, availability of civic bodies/civil society groups, banking & credit, and coverage under various development schemes.

The Baseline Survey resulted in identifying the major socio-economic indicators of the village, and important development needs of the village.

Adv. Sandeep Kadam
Hon. Secretary
Pune District Education Association
Erandwane, Pune-411038

CERTIFICATE

This is to certify that the work incorporated in this report entitled "**A Village Baseline Study of Village Kusgaon (Tal. Maval, Dist. Pune)"** prepared by the students and teachers of various departments of Baburaoji Gholap College, Sangvi, Pune-411027 was carried out under my supervision. The findings in this report are solely primary data obtained through the field surveys made in February 2021.

ACKNOWLEDGEMENTS

I am grateful to authorities of Pune District Education Association for their kind support and encouragement for this kind of work. I am grateful to my fellow colleagues for their enthusiasm and interest in my dream work of village surveys. I would like to express my deepest feelings of gratitude towards the authorities of village Kusgaon for providing support throughout filed surveys. I also express my profound gratitude to teaching, technical and non-teaching staff members of Baburaoji Gholap College for supporting in my interest. I would also like to express my gratitude towards the village leaders for providing me access to the study area.

I am thankful to all those who directly or indirectly helped and contributed at various stages of this work.

Prin. Dr. Nitin L. Ghorpade

CHAPTER-1
INTRODUCTION

The living standards of people in rural areas of Maharashtra has limited dimensions. The facilities available in rural areas are limited, and access to these facilities is another problem. To understand the ground reality about the facilities and resources available in rural areas, our college has decided and undertaken the village surveys in Maval Tahsil of Pune District. The idea of village survey was conceived by Hon. Prin. Dr. Nitin Ghorpade. Under his able guidance, the college has selected the village Kusgaon in Maval Tehsil of Pune District (Maharashtra).

The overall objective of the study was to create a dataset of various natural resources (Plants, Crops, Wildlife, Soil, Water, etc.), to capture the cultural, political, and socio-economic dynamics of the Kusgaon village. The purpose is to assess the pace, process and pattern of rural change by means of survey in the selected village. The focus was on socio-economic, political and agricultural change and changing pattern of rural livelihoods and its implication for future development. The study also evaluates the efficacy of government interventions in rural areas and key drivers of changes in village economy. The study will also provide a clear picture about diagonally opposite view regarding success or failures of development schemes, besides providing panel data for policy formulations.

The college has designed a questionnaire to obtain relevant information from the villages. The information was collected through student's participation. A detailed enquiry on village facilities was conducted. The surveys on village facilities included questions on availability of nonconventional energy sources, electricity, drinking water, irrigation and drainage systems, cooperative societies and self-help groups was enquired into, and also whether any Government development schemes relating to drinking water, housing, sanitation, approach road, employment generation, pension, literacy, etc., was in force. The distance of the villages from the nearest bus stop, railway station, market, primary school, hospital, etc., and from facilities for the disabled was also recorded. The results of the enquiry on village facilities are presented in this report.

Village survey studies are complex and multidisciplinary in nature. It requires clear idea regarding village society, their livelihood, faith and beliefs. Village studies are often influenced by the alien concepts (of the researchers) and in many cases are not representative in nature. Village studies also have a tendency to exaggerate the unity and self-sufficiency of the village. In many instances, the scholars tried to study village community in a biotic frame of reference. They practically ignore a basic reality that Indian village is a synthesized community.

CHAPTER-2

Spatial Historiography of Kusgaon

Prof. Jitendra Wadshingkar and Prof. Savitri Jadhav

Department of History

The goal: To consider the historical and cultural significance of the village through the study of the history of the village.

Objectives: Studying local history is the social of the village, To study economic, cultural, religious life and tradition.

Assuming- The following assumptions are made in connection with the history of Prastutgaon.

1. 28 km from Pune. There is a village and the educational progress in this village is not so much.
2. Convenience has been developed in modern times.
3. Social change has taken place and all the people are enjoying Gunya Govinda.
4. The economic situation has improved due to the migration of the youth from the village to the city. However, the status of women has not changed.

Preface - Everyone wants to know their past. People need to know the history of their village. If you don't know the history of your village, then how do you know the history of the country? The history of the country is studied in a systematic way. The history of the village will be the history of the country.

The recent history is beyond the personal life of the kings and palaces, the study of history is Saurashtra. Local history is a project of history. One of the objectives is to study the social, political, economic and life traditions of the local Kusgaon.

Historical background of Kusgaon

The village is in Mulshi area. Kusgaon is a small village with hills on the Chohu side. The name Kusgaon is derived from the fact that there are hills around Kusgaon. There are four wadis in the village, Jadhav Vasti, Kedari आळी, Kashiai Vasti, Kaduskar Settlement

Village social life:

The village and the society seem to be developing according to the ancient times. In the social system, there is a family system together. There is a patriarchal system in the family. All the virtues in the family seem to be inhabited by Govinda. Society appears to be monolithic in economic matters. All castes and tribes are treated equally in the village based

on the structure of the society, so the atmosphere in the village is calm, if not any kind of ethnic groups. People of all castes and religions live in harmony in the village.

Housing- Kusgaon is surrounded by mountains on all sides, so it receives a lot of rainfall. Therefore, the structure of the houses in the village is of sloping roofs.

Economic life - The village has a traditional farming business. The main crops are wheat, paddy, sugarcane, maize and sorghum. Similarly, milk business and animal husbandry are seen as ancillary businesses to agriculture. There is no grocery shop in the village. We have to go to Hinjewadi for bajra for weeks. Young children in the village seem to be attracted to the city for jobs. So the village seemed to be financially prosperous. Near the village Kasarasai within the dam Boating Ongoing So is tourism Walk And helps in the economic development of the village Were.

Educational development of the village- The village has a Zilla Parishad primary school. The school is computerized. The school has been running since 1947. And for secondary education one has to go to Hinjewadi.

Religious life- The village is very important from a religious point of view. There are a total of 6 temples in the village. And there is a Majid. Maruti in the village, Bhairavnath, Kanifnath, Kashiai, and Waghjai etc. There are temples. The village celebrates Bhairavnath on the full moon day of Vaishakhi. Every year a week fills the temple of Bhairavnath. Bhajan Kirtan Mahaprasad is organized during the week. Small and big Sun Anandans are celebrated in the village. At this time people of all castes and tribes come together. The village has Hanuman Tarun Mitra Mandal, Kanifnath Bhajani Mandal and Waghjai Mahila Bhajani Mandal.

Political life- The population of the village is 1314 and there is a Gram Panchayat in the village. Sakharam Genu Kedari from the village, And Sunil Tukaram Kedari are members of the Panchayat Samiti. Kusgaon is the office of the Gram Sevak in a renowned village in the field of wrestling. It was established in 1970. The village talathi office is in this village. Sakharam Genu Kedari became the first Sarpanch of the village in 1970Done. There are 18 houses of Muslim community in the village. The Tanta Mukti Kendra fills the Bhairavnath temple in the village. There is a small library in the village. All the members of Gram Panchayat have been elected unopposed without holding elections in this village. This is the first village in Mulshi taluka.

Conclusion-

- The village is not much developed as it is situated in the hills.
- The village did not develop due to lack of modern facilities.
- There is a need for educational development of this village.
- The social status of women needs to be improved.
- There is a need to improve the social status of the castes in the village.
- The youth of the village are attracted to the city in large numbers. It is necessary to stop and develop the village.

- As the village is situated on a hillock, the people of the village are ready to vote on various issues. The people there are very stubborn and hardworking.
- The road to the village is very bad.
- The village needs to fill the weekly market.

Measure plan -

- Due to high rainfall in this area, there is a need to implement a horizontal water supply scheme.
- The village needs industrial development.
- Due to the presence of predators in the village, various measures need to be taken to protect agriculture from them.
- Due to the fact that the village is in the foothills of the mountains, measures should be taken to alleviate the heavy rains.
- Employment opportunities should be provided in the village.
- The village has a boating business as it is close to the Kasarasai dam but it needs to be expanded to attract the people of the city for tourism.
- The nature of the village should be used for tourism.
- The village cultivates flowers and needs to be developed.

Interviews: 1) Shankar Kedari

2) Victory Tukaram Kedari Former Sarpanch

3) Baloo Dashrath Gaikwad

Legend- A legend is told that in the village once the crisis had come. Vijay Tukaram Kedari at that time His grandfather it's nine Days on your lap dT. Was sitting with. Then they were nine, the rest of the day was fasting. Your Take care of the crisis in the village to bring Him thus Yours Had contributed. Their contribution to his village in a small temple the statue is installed.

CHAPTER-3

कुसगावची लोकपरंपरा

प्रा.डॉ. महादू बागुल आणि प्रा.सुवर्णा खोडदे
मराठी विभाग

प्रास्ताविक:

कुसगाव महाराष्ट्रातील पुणे जिल्ह्यातील मावळ तालुक्यातील छोटेसे गाव आहे. या गावाच्या चहुबाजूने सह्याद्रीच्या पर्वतरांगा आहेत. निसर्गाच्या कुशीत वसलेले कुसगाव आहे. गावात चार वाड्या आहेत. वाघजाई वस्ती, जाधव वस्ती, कशिआई वस्ती, कडुस्कर वस्ती या वाड्या आहेत. केदारी, सुतार आळी, गुरव, शेख. तोंडे, आडनावाच्या लोकांची वसाहत आढळून आली. या गावामध्ये वय वर्ष ७० वृद्ध व्यक्ती सुधा शेतामध्ये काम करताना दिसतात. या गावातील राहणीमान साधी असून या गावातील लोकांचा स्वभाव मायाळू व दुसऱ्याला मदत करणारी आहे असे एकूण गावाचा संशोधन करताना दिसून आले.

गावामध्ये एकत्र कुटुंब पद्धतीमध्ये समता दिसून आली आहे . गावातील तरुण मंडळी रोजगाराच्या निमित्ताने शहराकडे स्थलांतर झाली आहे. घराची रचना ही एकासारखी नसून अस्तव्यस्त स्वरुपात आहेत. या गावातील महिलांच्या व पुरुषांच्या पोषाखामध्ये नागरी संस्कृतीचा प्रभाव दिसतो. कुसगाव परिसरात पावसाचे प्रमाण जास्त असल्यामुळे गावातील प्रमुख पिक भात आहे. या गावाची लोकसंस्कृती लोकगीते, लोककथा, सणउत्सवाची गाणी हळू हळू लुप्त होत चालली आहेत. गावात चौथी पर्यंत जिल्हा परिषद प्राथमिक शाळा आहे. त्यामुळे पुढील शिक्षणासाठी मुलांना दुस-या गावी किवा पुणे शहरात जावे लागते.

उद्दिष्ट

१) गावातील लोकसंस्कृती, लोकसमजुती लोकसाहित्याच्या अंगाने आभ्यास करणे.
२) लोकजीवनातील होणारे परिवर्तन तपासून पाहणे.
३) प्रसारमाध्यमेमुळे बोली भाषेवर पडलेला प्रभाव.

अभ्यास पद्धती:

सदर लोकवाङ्मयाचा आभ्यास करताना मुलाखती, चर्चा आणि निरीक्षण या पद्धतीचा वापर केला.

लोकगीते:

मौखिक परंपरेने चालत लग्नातील गावयाची गाणी त्या निर्मितीमागे असलेल्या संस्कारित मनाचे प्रतिबिंब ओवीगीतामध्ये दिसून येतात. लोकसाहित्य म्हणजे पारंपरिक लोकजीवन पद्धती, लोक माणसाची अभिव्यक्ती, लोकश्रध्दा, लोकसमजुती, लोकभ्रम, लोकरूढी, लोकविधी, परंपरेने चालत आलेल्या प्रथा, आचार, विचार, तसेच लोककला आणि मौखिक रूपातील शब्द इत्यादी बाबींचा समावेश लोकसाहित्यात येत असल्याने, लोकसाहित्य लोकजीवनाला व्यापले असेच म्हणता येईल. मौखिक रुपातील शब्द अविष्कारात लोककथा, लोकगीते, लोककला, उखाणे म्हणी यांचा समावेश होतो.

मांडवाच्या दारी चौघडा
हातात भरला हिरवा चुडा
पायात सजला चांदीचा तोडा
झाला साखर पुडा
नारळ आता फोडां
वरातीला आणा हिरवा रंगी घोडा
..... रावच्या आणि माझा राम सीतेचा जोड ''

अशा प्रकारे लोकसाहित्यातील उखाणे गोलनी उत्सवाची गाणी हळदी ची गाणी जात्यावरची गाणी ऐकण्याची संधी या भेटी दरम्यान मिळाली.

हळदीचे गाणे
नवरी हाय गोरी, तिला हळद लावली थोडी
लेकीच्या करता जावयाची गोडी,
माझे लेक आहे खडीसाखरेची पुडी
जावयाचा मान एवढा केला कशासाठी
लेकी राजबाई तुझ्या जीवा साठी
माहेराची वाटी ठेवली बोहोल्याच्या कोना
लक्ष्मिबाइ आली मागच्या दारण
कडा उघडावी धाकट्या दिरान
लक्ष्मिबाइ आली सई सांजच्या भरात
कुंकवाची पुडी साक्ष ठेवली दारात

वरील गीतातून सासरी जाणाऱ्या मुलीचे वर्णन केले आहे.

कुसगाव परिसरातील बोलीवर प्रभाव:
जात्यावरील ओव्या
आरव्या ग वनामध्ये, कोण रडत आहे आईका
कोण रडत आईका, कोण रडत आईका
बोरी बाभळी बायका, बोरी बाभळी बायका
सीतेला ग समजावया, बोरी बाभळी बायका

आज शिक्षण, प्रसारमाध्यम, जागतिकीकरण वैज्ञानिक शोध व वाढता विकास यामुळे अनेक नागरी आणि पाश्चात्य संस्कृतीचा प्रभाव कुसगाव गावाच्या बोलीवर पडलेला असला तरी, त्यांच्या लोकगीतातून, म्हणी, उखाना, पोशाख, खानपान, सण-उस्तव, चालीरीती, रूढी, व्यावसाय आणि बोलीभाषेतून लोकसंस्कृतीचा झरा अजून ही वाहताना दिसत आहे.

भाषेतील बदल सहज लोकांनी स्वीकारले. न्याहारी एवजी नास्ता, संडासला गेले एवजी टॅालेटला गेले, पंजाबी, सूट, पेस्ट, परकर, गाऊन, कंडक्टर, ब्लाउज, बिस्किट, कार, बस, तिकीट, चेक, पेमेंट, सिलेंडर, कुलर, टेबल असे कितीतरी शब्दांचा ग्रामीण बोलीमधून पहावयास मिळते.

मावळ तालुक्यातील बोलीभाषेवर प्रसार माध्यमाचा फार मोठा प्रभाव दिसतो इंग्रजी, हिंदी मराठी या भाषांचा प्रभाव पुढील प्रमाणे दिसतो. उदा. star प्रवाह, माझा, वाहिनी, व्हील, स्मार्ट सुनबाई, डॉक्टर, क्लोजप, नॉनमॉटरीक सुपर डान्सर, BREAKING NEWS OK YES रेडिओ, मोबाईल, कॉमप्यूटर, सीरिअल, sms, message, delete, contacts, image, menu, inbox, sent, erecharge, sound, clops या सारखी कितीतरी शब्द कुसंगावग्रामीण बोलीतून येऊ लागली आहे. आज खेड्यापाड्यात सुधा वर्तमानपत्रापेक्षा आकाशवाणी आणि दूरदर्शन, मोबाईल या प्रसारमाध्यमांचा जास्त प्रभाव दिसतो. कारण दूरदर्शनच्या माध्यमातून लोककलावंत व अभिजन कलावंत, शहरीभाषा, ग्रामीण भाषा, परप्रांतीय भाषा, पाश्चात्य भाषा. विविध बोलीभाषांचा प्रभाव कुसगाव गाव परिसरातील बोलीभाषेवर पडलेला दिसतो.

निष्कर्ष:

- बोली भाषेतील काही शब्द लुप्त होत आहेत.
- लोककथा, लोकगीते, लोककला आणि म्हणी हे लोकवाङ्मय यामध्ये परिवर्तन झालेले दिसले.
- रोजगार नसल्यामुळे तरुणांचा शहराकडे ओढ असल्यामुळे ग्रामसंस्कृती व कृषीसंस्कृती नाहीशी होत आहे.
- या गावात सरकारी योजना नसल्यामुळे अस्वच्छता, रस्ता, आरोग्य केंद्र, शाळा यांची समस्या जाणवली.
- या गावातील शेतकरी महिला एकमेकाच्या शेतावर एकोप्याने व आनंदाने एकमेकांना मदत करतात.
- ग्रामीण भागातील माणुसकी अजून जिवंत आहे.

CHAPTER-4

कुसगावच्या राजकीय आणि सामाजिक स्थितीचा अभ्यास

किर्ति करंजवणे आणि प्राजक्ता कुंभार
राज्यशास्त्र विभाग

- **ध्येय:-** कुसगाव या गावची राजकीय व सामाजिक स्थिती अभ्यासणे.
- **उद्दिष्टे :-**
  १. कुसगाव गावातील नागरिकांच्या राजकीय सहभागाचा अभ्यास करणे.
  २. कुसगावचा सामाजिक विकास अभ्यासणे.
  ३. कुसगावातील नागरिकांची राजकीय जडणघडण तपासणे.
  ४. ग्रामपंचायतीची विकास कामे अभ्यासणे.

- **गृहीतके :-**
  १. कुसगाव गावातील नागरिक राजकीयदृष्ट्या जागरूक आहे.
  २. कुसगावच्या विकासात राजकीय नेतृत्वाचा सहभाग आहे.
  ३. कुसगावच्या राजकारणात महिलांचा सक्रीय सहभाग आहे.
  ४. कुसगावचा सामाजिक विकास शासकीय योजनांच्या अवलंबनाने झाला आहे.

- **अभ्यास/संशोधन पद्धती :-**
  कुसगावचा राजकीय व सामाजिक अभ्यास हा केसस्टडी पद्धतीने केला आहे. ग्रामस्थांच्या मुलाखती घेऊन राजकीय स्थितीचा अभ्यास केलेला आहे. प्राथमिक व दुय्यम साधनांद्वारे अभ्यास केलेला आहे.

- **प्रस्तावना :-**
  कुसगाव मुळशी तालुक्यातील एक गाव आहे. या गावाच्या चारही बाजूस डोंगर रांगा असल्यामुळे या गावाला कुसगाव हे नाव पडले आहे.गावामध्ये छोट्या छोट्या वस्त्या आहेत. या वस्त्यांमध्ये गाव विभागले गेले आहे. उदाहरणार्थ- वाघजाई वस्ती, जाधव वस्ती, केदारे आळी, कडुस्कर वस्ती. अशा या शहरापासून जवळ असलेल्या परंतु आपले ग्रामीण ढाचा/बाणा जपलेल हे कुसगाव आहे.

- **सामाजिक स्थिती :-**
  गावाच्या एकंदरीत पहाणीवरून व काही ग्रामस्थांच्या मुलाखतींमधून असे स्पष्ट जाणवले की या गावात हिंदू समाज मोठ्या प्रमाणात आहे तर बौद्ध आणि मुस्लिम हा समाज तुलनेने लहान आहे तरीही या गावातील निर्णय प्रक्रियेमध्ये अल्पसंख्यांक असलेल्या दोन्ही समाजाला सामावून घेतले जाते ही एक लक्षणीय बाब आहे.

या गावातील प्रमुख व्यवसाय शेती आहे. शेतीला पूरक असे जोड धंदे म्हणजे दुग्ध व्यवसाय आणि पशुपालन होय. गावामध्ये किराणा मालाचे एकमेव दुकान आढळून आले.

आरोग्याच्या बाबतीत जनजागृती आढळून आली कारण या गावात आठवड्यातून एक दिवस फिरता दवाखाना येतो. गावकऱ्यांसाठी विविध आरोग्य शिबिरे राबविली जातात कोरोना महामारीच्या काळात ग्रामपंचायतीच्यामार्फत सॅनीटायजर, साबण, मास्क यांचे वाटप करण्यात आले. या गावात कोरोनाचे ८ रुग्ण सापडले होते. त्यांची योग्य ती काळजी घेण्यात आली होती व या महामारीच्या संदर्भात आवश्यक ती जनजागृती करण्यात आली होती.

- **शैक्षणिक परिस्थिती :-**

शैक्षणिकदृष्ट्या गाव मागास असल्याचे निदर्शनास आले कारण गावामध्ये एक अंगणवाडी आणि एकच जिल्हा परिषद प्राथमिक शाळा आहे. सोळाशे ते सतराशे इतकी लोकसंख्या असलेल्या गावात एकच प्राथमिक शाळा असणे ही एक शोकांतिकाच म्हणावी लागेल. या शाळेतील एकूण विद्यार्थ्यांची संख्या ९४ आहे ते देखील १ ते ७. त्यात मुलींची संख्या अधिक असल्यामुळे ती एक समाधानकारक बाब आहे. मुलींची संख्या ५८ तर मुलांची संख्या ३६ आहे. त्यामानाने शिक्षकांची संख्या चांगली आहे. ५ शिक्षक या शाळेसाठीआहेत.माध्यमिक शिक्षणासाठी मात्र गावातील मुलांना नेर्हे व चांदखेड या गावी जावे लागते तर उच्च शिक्षणासाठी सांगवी, हिंजवडी या ठिकाणी जावे लागते.

- **राजकीय अभ्यास:-**

कुसगाव मावळ विधानसभा आणि लोकसभा मतदार संघात येते. या गावचे आमदार सुनील शेळके आहेत. तसेच बारामती लोकसभा मतदार संघाअंतर्गत हे गाव येत असल्यामुळे सध्या सुप्रियाताई सुळे या लोकसभा मतदार संघातील लोकसभा खासदार आहेत. गावामध्ये ग्रामसेवकाचे कार्यालय आहे. गावातील भैरवनाथ मंदिरात तंटा मुक्ती केंद्र भरते.

कुसगाव ग्रामपंचायतीची स्थापना १९७० साली झाली. गावातील पहिले सरपंच बनण्याचा मान १९७० साली सखाराम गेनू केदारी यांना मिळाला होता.२०२० मध्ये झालेल्या ग्रामपंचायत निवडणूक ही बिनविरोध झालेली आहे यातून गावचा सामाजिक एकोपा दिसून येतो. गावच्या राजकीय इतिहासात आत्तापर्यंत तीन वेळा बिनविरोध निवडणुका झालेल्या आहेत. मुळशी तालुक्यातील हे पहिले गाव आहे की जेथील सर्व सदस्य बिनविरोध निवडून आले. ग्रामपंचायत निवडणूक ही बिनविरोध झालेली असली तरी अजूनही येथे सरपंच व उपसरपंच निवडलेला नाही ही प्रक्रिया लवकरच पूर्ण केली जाणार आहे. सर्वात उल्लेखनीय बाब म्हणजे येथे सरपंच पद हे महिलांसाठी आरक्षित असल्यामुळे महिला सरपंच म्हणून गावाला मिळणार आहे. ग्रामपंचायती मध्ये सात सदस्यांचे पॅनेल बिनविरोध निवडून आले आहे यामध्ये चार महिला सदस्यांचा समावेश आहे. या पॅनेलमधील सदस्य असलेले सागर केदारी यांनी ग्रामपंचायतीमध्ये महिलांचे प्रतिनिधित्व समतुल्य असल्याचे सांगितले आहे. त्यामुळे या गावातील महिला राजकारणामध्ये सक्रीय असल्याचे आढळून आले. ही सक्रियता विविध उपक्रमातून महिला दर्शवित असतात उदा. गावातील सर्व महिलांनी एकत्र येऊन पाण्याचा प्रश्न सोडविण्यासाठी ग्रामपंचायतीवर पिण्याचे पाणी भरण्यासाठी जो हंडा वापरतात ते हंडे वाजवत मोर्चा काढला होता.

बिनविरोध निवडून आलेल्या सर्व ग्रामपंचायत सदस्यांची नावे खालीलप्रमाणे

१. उमेश यशवंत केदारी
२. कोमल सागर केदारी
३. सागर अशोक केदारी
४. सुनिता नवनाथ तोंडे
५. संगीता तानाजी केदारी
६. अतिश बाबासाहेब केदारी
७. बायडा बाळू कावडे

- **कुसगाव विकास:-**

  १९७० साली स्थापन झालेल्या ग्रामपंचायती मार्फत गावामध्ये आज पर्यंत अनेक विकास कामे झाली आहे. ती पुढीलप्रमाणे

  १. स्वजलधारा योजनेअंतर्गत विहिरीचे काम झाले आहे तरीही पाण्याचा प्रश्न गंभीर आहे.
  २. गावात इयत्ता १ली ते ७ वी पर्यंत शिक्षणाची सोय आहे. म्हणजेच प्राथमिक शिक्षणाची सोय आहे.
  ३. विद्यार्थ्यांसाठी पोषक आहार योजना राबविली जाते.
  ४. आठवड्यातून गावामध्ये एक फिरता दवाखना येतो.
  ५. गावात विविध आरोग्य शिबिरे घेतले जातात.

- **निष्कर्ष:-**

  १. खुल्या गटातील नागरिकांचे विशेषतः मराठा समाज मोठ्या प्रमाणात गावात आहे.
  २. OBC आणि SC प्रवर्गातील समाज गावामध्ये आहे.
  ३. मुस्लीम व बौद्ध धर्मीय देखील गावात आहेत परंतु त्यांचे प्रमाण अल्प आहे.
  ४. राजकीय प्रक्रियेमध्ये महिलांचा सहभाग आहे.
  ५. महिलांनी सरपंच हे प्रमुख पद भूषविलेले आहे आणि या वर्षीदेखील म्हणजे २०२१ मध्ये देखील महिलाच सरपंच होणार आहे.
  ६. विविध शासकीय योजनांद्वारे विकासाची काहीप्रमाणात कामे झालेली आहेत पण प्रमुख समस्या मात्र अजूनही सुटलेल्या नाहीत, जसे की पाणी प्रश्न, रस्ते दुरुस्ती, सरकारी दळणवळण साधनांचा अभाव, स्मशानभूमी दुरुस्ती

- **निरीक्षण:-**

  १. गावामध्ये राष्ट्रवादी काँग्रेस पक्षाचा प्रभाव आणि वर्चस्व आहे.
  २. ग्रामपंचायत असूनही पाणी, रस्ते, दळणवळण, स्मशानभूमी बाबतचे प्रश्न आजही अनुत्तीर्ण आहेत.
  ३. ग्रामपंचायत निवडणूक बिनविरोध होते.
  ४. शासनाच्या योजनांमुळे गावाचा काहीप्रमाणात विकास झालेला आहे.

५. गावात फक्त प्राथमिक शिक्षणाची सोय आहे. माध्यमिक व उच्च शिक्षणासाठी गावाच्या बाहेर जावे लागते.
६. डिजिटल इंडिया या संकल्पनेनुसार ग्रामपंचायतीमध्ये संगणक, इंटरनेट सुविधा आहेत त्याचा वापर केला जातो.

- **सूचना:-**
  १. सर्वात महत्वाचे माध्यमिक व उच्च शिक्षणाची सोय गावासाठी आवश्यक आहे.
  २. गावामध्ये जाण्यासाठी जो रस्ता आहे तो अतिशय खराब आहे त्यामुळे रस्त्याची सोय करणे आवश्यक आहे.
  ३. जीवनासाठी आवश्यक अशा पाण्याचा प्रश्न सुटणे आवश्यक आहे.

- **मुलाखतदारांची यादी:-**
  १. सागर भिमाजी केदारी
  २. जनाबाई सावळेराम केदारी
  ३. ज्ञानेश्वर गावडे
  ४. तुकाराम बाजीराव केदारी
  ५. बाळकृष्ण गणपत शिंगाडे

CHAPTER-5

SOCIO-ECONOMIC SURVEY OF KUSGAON

प्रा संतोष सास्तूरकर
अर्थशात्र विभाग

पुणे जिल्ह्यातील मावळ तालुक्यातील कुसगाव कृषी क्षेत्रांमध्ये होत असलेली आधुनिक आणि नव्या प्रगतीकडे वाटचाल होताना पहावयास मिळते कुसगाव हे विविध जाती धर्माने सामाजिक बांधिलकी जोपासलेले आणि आर्थिक प्रगतीकडे वाटचाल करत असलेले मावळ तालुक्यामध्ये त्याचा समावेश होतो कुसगाव येथे बहुतांशी लोकांचे पुनर्वसन झालेले आहे त्यामुळे पारंपारिक शेती या गावात दिसून येत नाही परंतु पूर्वीपासून जे शेतकरी कार्यरत होते.

उद्दिष्टे : प्रगतिशील शेती आणि पर्यटनामुळे लोकांची आर्थिक स्थिती बळकट होत आहे.

कुसगाव येथे लोक शेतीच्या सहाय्याने अधिक प्रमाणात भाजीपाला, टोमॅटो, डाळिंब इत्यादी फळबागा विकसित झालेल्या आहेत. शेतकरी पारंपरिक जीवनाकडून आधुनिक शेती व्यवसायाकडे आपली वाटचाल करताना दिसतो.

रोजगार स्थिती:

कुसगाव गाव येथे युवकांना महिलांना तसेच जे मजूर काम करतात त्यांना हॉटेल व्यवसाय पर्यटन शेती व्यवसाय भाजीपाला विक्री मासे विक्री अशा वेगवेगळ्या व्यवसायाच्या माध्यमातून रोजगार प्राप्त होतो प्राप्त होणाऱ्या रोजगाराच्या प्रतिमहा दरडोई बारा हजार ते पंधरा हजार रुपयापर्यंत आहे त्यामुळे वार्षिक उत्पन्न सरासरी एक लाखापेक्षा अधिक पोहोचते.

सांस्कृतिक वारसा:

गावामध्ये लोक सामाजिक बांधिलकी ठेवून एकत्र राहतात. यामध्ये जातिभेद दिसून येत नाही, त्यामुळे लोकांना परस्परांविषयी आदर आणि सन्मान वाटतो. एकमेकांच्या अडचणीच्या वेळेस गाव पातळीवरील लोक एकत्र येताना कुसगाव येथे दिसून आले, यामुळे येथील सामाजिक आणि सांस्कृतिक स्थितीचे दर्शन पहावयास मिळाले. त्या गावांमध्ये युवकांना प्राथमिक शिक्षणाच्या माध्यमातून पायाभरणी होताना दिसून येते. शिक्षण हे सर्वांना मिळाले पाहिजे हेच ब्रीद वाक्य गाव पातळीच्या व्यवस्थेतून दिसून येते.

रोजगारप्रकार:

अ.न.	रोजगार प्रकार	लोकसंख्या
1	नोकरी	255
2	शेती	920
3	श्रम	516
4	पर्यटन	22
5	अवलंबून	210
6	इतर	627
एकूण		**2550**

प्राथमिक सर्वेक्षण कुसगाव,तालुका-मावळ,जिल्हा पुणे.

वरील तक्त्यावरून असे दिसून येते की कुसगाव येथे शेती व्यवसाय बरोबरच नोकरी, मजुरी, शेतीपूरक व्यवसाय, पर्यटन व्यवसाय इत्यादी रोजगार प्रकारातून लोक आपली उपजीविका करतात. त्यामुळे पुण्यातून सुद्धा कुसगाव येथे पर्यटक येताना दिसून येतात तसेच या तलावातून मासेमारी सुद्धा लोक करतात. त्यामुळे हॉटेल व्यावसायिक सुद्धा विकसित झाल्याचे प्राथमिक सर्वेक्षणाच्या माध्यमातून दिसून आले.

कुसगाव येथील लोकांचे आर्थिक आणि सामाजिक स्थिती

अ. न	**घरे**	**उत्पन्न मर्यादा**
1	410	1 लाखापर्यंत
2	388	1 ते 2 लाखापर्यंत
3	58	2 लाखापेक्ष्या अधिक
एकूण	**856** (घरे)	

प्राथमिक सर्वेक्षण कुसगाव, तालुका-मावळ, जिल्हा पुणे:

वरील तक्त्यावरून असे दिसून येते की कुसगाव मध्ये 410 घरे यांचे वैयक्तिक उत्पन्न एक लाखापर्यंत आहे 388 घरांचे वैयक्तिक उत्पन्न एक लाख ते दोन लाख पर्यंत आहे आणि 58 घरे यांचे उत्पन्न दोन लाखापेक्षा अधिक असल्याचे सर्वेक्षणाच्या आधारे आढळून आले यावरून कुसगाव येथील लोक आर्थिक प्रगतीकडे आपली वाटचाल करताना दिसून येतात त्यामुळे लोकांचे राहणीमान उंचावत चाललेली आहे

कुसगाव मधील लोकांच्या सुविधा दिवसेंदिवस उत्पन्न वाढत चालल्याने लोक चार चाकी वाहन आणि दुचाकी यांचा सर्रास वापर करताना दिसून येते तसेच घरामध्ये टीव्ही, फॅन, फ्रिज, इस्त्री, गॅस, इत्यादी आधुनिक सुविधा सुद्धा लोक घेत असल्याचे दिसून येते.

थोडक्यात,वरील प्राथमिक सर्वेक्षणावरून असे दिसून आले की शेती आणि पर्यटन व्यवसायामुळे लोकांचे उत्पन्नात दिवसेंदिवस वाढ होत आहे त्यामुळे त्यांची आर्थिक स्थिती अधिक बळकट होत चाललेली आहे. या सर्वेक्षणांमध्ये अर्थशास्त्र विभागातील डॉ एस. एन. माने, प्रा व्ही व्ही मालतुमर, प्रा दिपाली चिंचवडे, प्रा सविता वासुंडे, प्रा रोहिणी येवले आधी प्राध्यापक सहभागी होते.

मावळ तालुक्यातील कुसगाव धरणग्रस्त क्षेत्रातील शेतकऱ्यांचा पाणलोट क्षेत्रात गेलेल्या जमीन मोबदला गुंतवणुकीचा चिकित्सक अभ्यास.

डॉ. वंदना पिंपळे आणि अरबाज सय्यद
वाणिज्य विभाग

उद्दिष्टे:

१) कुसगाव धरणग्रस्त शेतकऱ्यांच्या पाणलोटक्षेत्रात गेलेल्या जमिनीचा अभ्यास करणे.

२) मिळलेल्या सरकारी परताव्याच्या रकमेच्या गुंतवणुकीचा अभ्यास करणे.

माहितीसंकलन स्रोत

प्रश्नावली मार्फत प्राथमिक माहिती गोळा करण्यात आली.

दिनांक ०६ फेब्रुवारी २०२१ रोजी मु. पो. कुसगाव ता. मावळ, जि. पुणे येथे बाबुरावजी घोलप महाविद्यालयातील वाणिज्य विभागातर्फे "Best Practice – Village Survey" ह्या सर्वेक्षणासाठी एकूण ४ व्यक्ती गेले होते त्यातील एक प्राध्यापक वर ३ विद्यार्थी होते. सर्वेक्षण करीत असताना विद्यार्थ्यांनी ग्रामस्थांसोबत संवाद साधला व पाणलोट क्षेत्रात गेलेल्या जमिनींची एकंदरीत माहिती घेतली. सदर सर्वेक्षण हा एकूण ३४ कुटुंबांचा केलेला आहे.

सर्वेक्षण करीत असताना विद्यार्थ्यांनी तेथील ग्रामस्थांच्या गेलेल्या जमिनीचा आढावा घेतला आणि त्यातून विद्यार्थ्यांना घेतलेल्या माहितीनुसार 80% कुटुंबियांच्या जमिनी ह्या जिरायती होत्या व 20% कुटुंबियांच्या जमिनी ह्या बागायती होत्या.

अ. क्र.	गेलेल्या जमिनीचा प्रकार	टक्केवारी (३४ कुटुंबीयांची)
०१)	जिरायती	80%
०२)	बागायती	20%

३४ कुटुंबीयांचा सर्वे करीत असताना असे लक्षात आले कि काही कुटुंबीयांचा प्रमुख व्यवसाय हा शेती होता, काही कुटुंबीयांचा व्यवसाय हा उद्योग होता तर काही कुटुंब नोकरी करणारे होते. शेती करणारे एकूण २६ कुटुंब होते ज्यांची जमीन हि पाणलोट क्षेत्रात गेली व ते पूर्णतः त्यावर अवलंबून होते.तर तसेच उद्योग करणारे २ कुटुंबीय आणि नोकरी करणारे एकूण ६ कुटुंबीय होते.

अ. क्र.	**व्यवसाय**	**टक्केवारी (३४ कुटुंबीयांची)**
०१)	शेती	७६.४७%
०२)	उद्योग	५.८८%
०३)	नोकरी	१७.६४%

वरील दिलेल्या माहितीनुसार ७६.४७% कुटुंबीय हे शेती करीत होते तर तसेच ५.८८% कुटुंबीय उद्योग आणि १७.६४% हे नोकरी करत होते. ३४ कुटुंबीयांचा सर्वे करीत असताना असे लक्षात आले कि ३४ पैकी एक कुटुंबाची विहीर सुद्धा पाणलोट धरणक्षेत्रात गेली. त्या मोबदल्यात संबंधित कुटुंबाला शासनाने रोख रक्कम दिली. सर्वेक्षण करीत असताना कुटुंबियांच्या सामाजिक व आर्थिक बाबींसंदर्भात प्रश्न विचारण्यात आले. त्यामध्ये प्रामुख्याने त्यांची वैयक्तिक माहिती,त्यांच्याकडील जमीनप्रमाणं, जलसिंचन स्रोत, पूरक व्यवसाय, पाणलोटक्षेत्र जमीनप्रमाण, मिळालेली रक्कम, विविध स्रोतांमध्ये केलेली पैशांची गुंतवणूक या संदर्भात प्रश्नावली मार्फत माहिती गोळा केली.

शेतीपासून सरासरी उपन्न मिळणाऱ्या कुटुंबीयांचा आढावा घेतला असता अशे लक्षात आले कि १८ कुटुंबियांचे सरासरी उत्पन्न हे २ लाख पेक्षा जास्त होते तर ६ कुटुंबियांचे उत्पन्न २ लाखापेक्षा कमी होते तर २ कुटुंबियांचे सरासरी उत्पन्न हे १ लाख पेक्षा कमी होते.

अ. क्र.	**शेतीपासून उपन्न**	**टक्केवारी (३४ कुटुंबीयांची)**
०१)	१ लाख पेक्षा कमी	0७.६९ %
०२)	२ लाखापेक्षा कमी	२१.४२%
०३)	२ लाख पेक्षा जास्त	६९.२३%

३४ कुटुंबीयांचा सर्वे करीत असताना २६ कुटुंबीय हे शेतीस पूरक व्यवसाय करीत होते. त्यामध्ये प्रामुख्याने कुकूट पालन तसेच शेतीपालन करणारे कुटुंब होते. शेती पूरक व्यवसाय करीत असताना 26 पैकी १० कुटुंबीय हे कुकूट पालन हा व्यवसाय करीत होते तर १६ कुटुंबीय हे शेतीपालन करणारे होते.

अ. क्र.	शेतीस पूरक व्यवसाय	टक्केवारी (३४ कुटुंबीयांची)
०१)	कुकूट पालन	३८.४६%
०२)	शेतीपालन	६१.६३%
०३)	इतर	0%

वरील माहितीनुसार कुकूट पालन करणारे ३८.४६% होते तर ६१.६३% एवढे कुटुंब हे शेतीपालन करणारे होते. सर्वेक्षण करीत असताना असे लक्षात आले कि ३४ कुटुंबीयांपैकी १६ कुटुंबियांचे बँकेत खाते आहे तर १८ कुटुंबियांचे बँकेत खाते नाही आहे.

पाणलोट धरणक्षेत्रात देण्यात आलेल्या जमिनी ह्या ग्रामस्थांच्या स्वइच्छेने दिलेल्या आहेत.

एकंदरीत कुसगाव धरणग्रस्त क्षेत्रातील बाधित शेतक-यांना शासनाने मोबदला म्हणून जमीन दिले तर काही कुटुंबीयांनी जमिनीच्या मोबदल्यात रोख रक्कम घेतली. मिळालेल्या रकमेची गुंतवणूक हि उत्पादित स्रोत आणि अनुत्पादित स्रोत ठिकाणी ग्रामस्थांच्याद्वारे करण्यात आली.

सर्वेक्षण कार्यामध्ये वाणिज्य विभागातील प्रा.अरबाज सैय्यद आणि वाणिज्य विभागातील विद्यार्थी गणेश कारवार, शुभम बाराथे, करण बाराथे यांनी प्रत्यक्ष ग्रामस्थांकडून प्रश्नावली भरून वरील सर्वेक्षण पूर्ण गेले आहे. वाणिज्य विभाग प्रमुख डॉ.वंदना पिंपळे यांनी प्रश्नावली तयार करून सर्वेक्षण संदर्भात मार्गदर्शन केले तसेच वाणिज्य विभागातील प्रा.प्रकाश पांगारे, डॉ. एन.एस. गिरी, प्रा. अमृता इनामदार, प्रा. एस.व्ही. सोनार, डॉ. एम.सी. त्र्यंबके यांनी सर्वेक्षणासाठी मार्गदर्शन केले.

Tourism Potential at Kusgaon

Prof. Saddamhusen Ghatwale

Department of Travel and Tourism Management

Kus Gaon is Village situated in the foothills of Maval Taluka in Pune District. Under the best practices activity of Baburaoji Gholap College various departments of college conducted village survey campaign. In this regard the Department of Travel and Tourism Management of the College launched an expedition on February 6, 2021considering the rich historical and natural heritage of Kus Gaon as well as the importance of Kasarsai Dam and its importance to the Tourism Business.

Aim of the Survey

1) Underlining the rich potential of Tourism.
2) Impact of Covid - 19 in Local Tourism Business.

Rich Potential of Tourism

a) Cultural Tourism

While surveying the village and visiting the locals, it was noticed that the village has got a great cultural gift along with nature. Features old folk song and poems in Marathi language which are disappearing with the passage of time, which describe the rich life and traditions of Rural areas were found here. Therefore, researchers and tourists who are interested in studying the culture and literature of the village in Cultural Tourism which is an important form of Tourism, will definitely enjoy interacting them after visiting the place.

b) Agro Tourism

Farmers are turning to Agro Tourism as a major source of income for supplementary business. The overall survey conduct in this village shows that a large of number of people here depend on agriculture for their livelihood. Also, as mentioned above, there are many avenues for the growth of Agro Tourism in the Village.

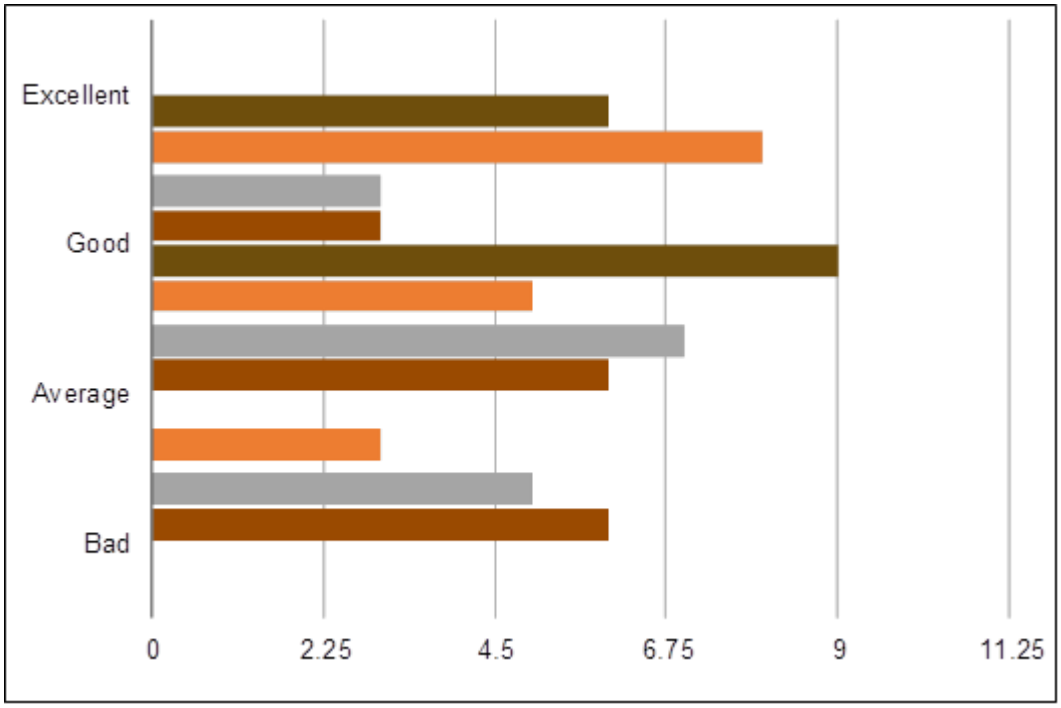
c) Adventure Tourism

In the current situation a boat safari service has been provided in the vicinity of Kasar Sai Dam to enjoy water sport. At the same time, there will be no problem in implementing the adventure tourism policy by providing various facilities to the Tourists for water sports.

Impact of Covid - 19 on Local Tourism Business

Due to the close proximity to Pune City, the number of tourists visiting Kus Gaon is high through out the year. This shows a significant number of those who depend upon on the tourism business for employment. However due to Covid - 19, tourism has come to complete

standstill. Also, if we leave some young tourists while visiting, the absence of tourists was felt by the parkers and as a result the shops of small shopkeepers in this place were closed.



Data Analysis

The Department of Travel and Tourism conducted 15 samples on the basis of major 4A's of Tourism (Accessibility, Accommodation, Attraction and Amenities)

Conclusion:

1) To develop Cultural Tourism rural language compositions known to locals specially women here can be made available to the locals in the same way that the music programs are held at various tourist destinations.
2) To promote Agro Tourism in the village, information on Agro Tourism Policy 2020 issued by the Maharashtra State Tourism Directorate as well as various initiatives and schemes implemented by the Maharashtra Tourism Development Corporation can be disseminated to the villagers through workshops or special camps.
3) Given the poor condition of the roads, there is a need for better quality roads as well as more public transport during the tourist season.

CHAPTER-6

NATURAL RESOURCES: PLANTS

D.M. Mahajan
Department of Botany

Title: A plant diversity survey of Kusgaon Village

The idea of village survey was conceived by Hon. Prin. Dr. Nitin Ghorpade. Under his able guidance, the college has selected the village Kusgaon in Maval Tehsil of Pune District (Maharashtra). Department of Botany have carried out a survey for plant diversity and its significance on 02nd February 2021. It was a great experience for students who got hands-on-experience while working with the local people. In all one teacher and four students were involved in the survey.

Introduction:

The Western Ghats are exceptionally rich in plant and animal species. Unfortunately due to heavy human pressures this tremendous biodiversity is getting destroyed fast. This region is rich not only for wild biodiversity but also for the crop species and varieties. We had many local varieties of crops and fruit plants of which we had very high diversity. Our natural areas are rich treasure of medicinal plants. The local people were aware of its use. The forests are overexploited due to high developmental pressures, encroachments for agriculture, dams etc. The forests are an important source of many ecological services. Decline in forest resources is linked to poor quality life in villages. This further results in large scale migration to urban areas. The unplanned development in this region is harmful to the ecosystem and biodiversity; and therefore, any kind of development being proposed in Western Ghats should be responsive to the fragility and rich biodiversity.

Hypothesis:

Our villages are exceptionally good in natural resources such as plants, crops, animals, medicinal plants, soils, water, etc. Unfortunately due to heavy anthropogenic pressures these enormous resources are getting destroyed fast. Biological resources are vanishing fast due to uncontrolled encroachments and exploitation. Water resources are drying up and getting less in quantity for the growing population. So to understand the current status of these resources, our college has decided to survey these resources through the participation of students and teachers.

Aim:

Documentation of plant diversity of village Kusgaon, Tal. Maval (Part of Northern Western Ghats)

Objectives:

To prepare the plant species checklist of village Kusgaon.
To enlist endemic and RET species
Documentation of ethno-botanically important and wild vegetable plants
Documentation of agricultural crops.

Materials and Methods

Study area: Kusgaon

The surveys for plant biodiversity assessment were conducted in and around the Kusgaon village (Maval) of Pune District. The village lies in the Western Ghats and situated approximately 25 Km from Pune. The general topography of the area is hilly with steep slopes to undulating land. It slopes towards north-east direction. It is marked with agricultural farms and Kasarsai Dam. The main land use pattern is single crop agriculture, settlements and reserved forest. The average elevation of land surface is observed to be 646 m above the MSL.

Plant surveys

We prepared a simple plan for plant diversity studies at village level with the help of our students. The plan was worked out with the participation of students and teachers. A reconnaissance survey was carried out to have an overview of the species composition of the area. The surrounding area exhibits a land use pattern that mainly consists of reserved forests and agricultural land with sparse trees on the bunds. The reserved forests and agriculture fields were interspersed with settlements. The sampling locations were determined by considering the land use pattern. The geology, topography, climate and the soil have a close bearing on the nature of vegetation. These features were taken into account while selecting the sampling sites.

The biodiversity surveys were conducted to document the terrestrial and aquatic flora of the area (Photo-1). The area is dominated more or less sparse vegetation with diverse species composition. Intensive field surveys were made for documenting the various floral species. We used random walk method for listing the floral species. More emphasis was given to document and quantify the maximum possible number of species.

Identification

The methods followed in the field were based on the procedure outlined in ‘The Flora of Maharashtra State’ and ‘Flora of Khandala’. The floristic studies were based on extensive exploration of the village area. The field surveys involved the preparation of an inventory of different species of plants including trees, shrubs, climbers, and herbs in the area. All plant species were identified with the help of expert taxonomist and literature published by Botanical Survey of India. Observations were also made on the agricultural patterns, agricultural weeds and cultivated and introduced plant species.

Observations and Results:

The topography of Kusgaon village is almost hilly with undulating to steep slopes. The natural vegetation/ forest type in this area is dry deciduous. Large to medium-sized trees along with shrubs constitute majority of the vegetation. Diversity of herbaceous species is always more in monsoon months and declines as the rainy season recedes. The summers are hot and dry.

As per Champion and Seth (1968) the forest type is Subgroup 3B/C2. Forest canopy is almost fragmented. Trees attain height of 20 to 25 m or more. The dominant species are moist deciduous in nature. Relatively small number of species together form the greater part of forest canopy and relatively pure association are fairly frequent. Some evergreen species are dominant but they are few. These species provides more or less evergreen appearance throughout the year.

The hillsides are covered with dense mixed forest. Epiphytes are infrequent in appearance. Climbers are frequent. The undisturbed soil supports more or less evergreen shrubs. Especially the *Carvia callosa* forms large thickets on slopes, and *Carrisa congesta* on gentle slopes. The main composition of these forest is *–Mangifera indica, Terminalia elliptica, Ficus racemosa, Bombax ceiba,* and the undergrowth of shrubs like *Carrisa,* and *Pogostemon benghalensis* along with few other species. The only bamboo species was *Dendrocalamus strictus*. Here and there it forms virtually pure patches in the hills.

Total number of subspecies, species, genera, families

Flora refers to the plant species occurring in area. The extensive field surveys (supported by literature surveys) resulted in documentation of 392 plant species. The taxonomic distribution of documented plant species is illustrated in **Table 1**, and **Appendix-I** (Check list of flowering plants). The list includes the botanical name of species, habit, family, and status.

Table 1: Taxonomic attributes

Plant Type	No. of Species	No. of Genera	No. of Families
Angiosperms	392	271	74
Pteridophytes	07	07	07
Bryophytes	05	05	05
TOTAL	**404**	**283**	**86**

The documented species belonged to 283 genera and 404 species of 86 families (including Angiosperms, Pteridophytes, and Bryophytes) indicating the floristic richness of Kusgaon. The most dominant group is Angiosperms having 392 species that are distributed in 271 genera and 74 families. Other groups also represented very well forming a unique amalgamation of flora and vegetation. Among angiosperms the most represented family (**Table 2**) was Fabaceae (43 species), Poaceae (40 species), Asteraceae (38 species), Acanthaceae and Euphorbiaceae (16 species each). Similarly, the most abundant genera

(**Table-3**) were *Ipomoea* (08 species), *Cassia* and *Indigofera* (7 species each), *Euphorbia*, *Alysicarpus*,and *Acacia* (6 species each).

Table 2: Abundant families

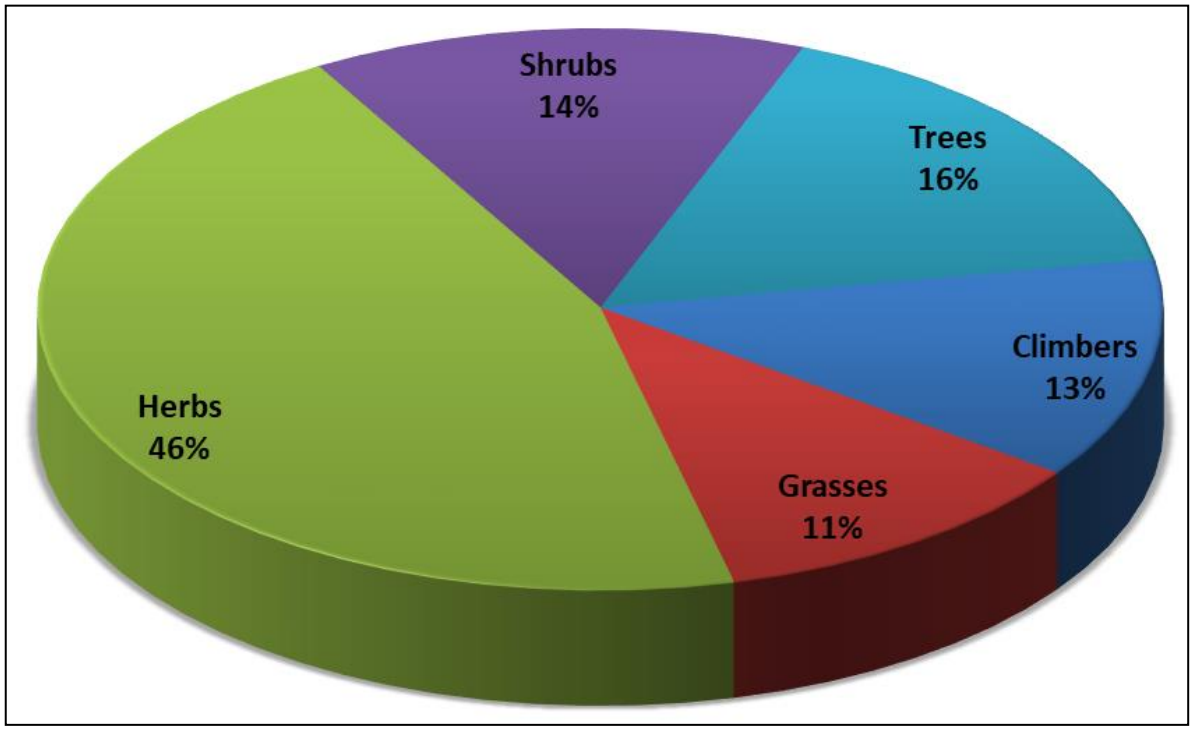
Family	No. of Species
Fabaceae	43
Poaceae	40
Asteraceae	38
Acanthaceae	16
Convolvulaceae	16
Euphorbiaceae	16
Caesalpiniaceae	12
Lamiaceae	12
Amaranthaceae	10
Malvaceae	10

Table 3: Abundant genera

Genus Name	No. of Species
Ipomoea	8
Cassia	7
Indigofera	7
Ficus	7
Euphorbia	6
Alysicarpus	6
Acacia	6
Ziziphus	4
Cyperus	4
Crotalaria	4

The habit-form wise analysis (**Figure-1**) presented a predominance of herbs (46%) and trees (16%) followed by shrubs (14%), and climbers (13%) and grasses (8%). The Pteridophytes and Bryophytes are represented by 7 and 5 species respectively.

Figure-1: Distribution of habit-forms of plant species



Lower group flora:

Cryptogams have a fundamental role in ecosystem function. They play central roles in the formation and stabilizations of soils, the decomposition of dead organic material and nutrient cycling. They form symbiotic relationships with most vascular plants and are an important food source for many other organisms.

The lower group of plants needs very specific habitats and environmental conditions. Ecologically, these are probably most important as primary colonizers and stabilizers. They are very sensitive to their habitats. The Kusgaon village provides a good habitat for lower flora.

Pteridophytes:

The pteridophytes have an important and subtle ecological role, both in water-retention and stabilizing mobile surfaces like landslips, and scree slopes. They provide shelter and humidity for a remarkable diversity of invertebrates. Pteridophytes are an integral part of the food web in many of our important habitats. The Pteridophytes documented in this area are listed in **Table 4**.

Table 4: List of Pteridophytes

Botanical Name	Habit	Family
Adiantum lunulatum	Herbs	Adiantaceae
Blechnum orientale	Herbs	Blechanaceae
Cheilanthus albomarginata	Herbs	Cheilanthaceae
Pteris biaurita	Large herbs	Pteridoideae
Azolla pinnata	Aquatic herbs	Salviniaceae
Selaginella ciliaris	Small Herb	Selaginellaceae
Nephrolepis sp.	Herbs	Thelypterideae

Bryophytes:

Bryophyte is a collective term for mosses, liverworts and hornworts. Bryophytes have fragmented distributions. Bryophytes are typically associated with more moist habitats where they grow on soil, tree trunks and branches, fallen timber, debris and rocks. Many of them are found only in small scattered and isolated populations of very small numbers of plants with little ecological resilience and apparently not capable of spreading to other un-colonised but seemingly suitable areas. This presents particular conservation problems. The bryophyte flora of the village is moderately rich. This region provides good micro-habitats for the growth and survival of bryophytic flora. The bryophyte species that are documented during field work are listed in **Table 5**.

Table 5: List of bryophytes

Botanical Name	Family	Habitat and Distribution
Antheceros erectus	Anthocerotaceae	Damp soils
Plagiochasma sp	Aytoniaceae	On wet rocky or soil surface
Cyathodium sp.	Cyathodiaceae	Wet and damp cutting of hill and rock

Botanical Name	Family	Habitat and Distribution
Pogonatum sp.	Polytrichaceae	Laterite soils
Riccia discolour	Ricciaceae	Moist soils, shady and exposed places

Threatened and Endemic Species:

As the village area falls in Western Ghats, it represents few number of endemic and threatened plant species. The list of endemic and threatened plant species is provided in **table-6**. In all 22 species fall in a category of 'endemic to India', out of which one is in vulnerable category of Botanical Survey of India and IUCN, and 05 are at lower risk. Four species are endemic to Maharashtra. Out of remaining species that are not endemic, one is in vulnerable status.

Table 6: Threatened and endemic plant species.

Botanical Name	Local Name	Habit	Family	Status
Achyranthus coynei	Lal-aghada	Herb	Amaranthaceae	EM/LR
Amorphophallus commutatus	Suran	Herb	Araceae	EI/LR
Argyreia boseana	Gayri	Climber	Convolvulaceae	EM
Argyreia sericea	Gavel	Climber	Convolvulaceae	EI
Arisaema murrayi	Sapkanda	Herb	Araceae	EI/VU
Begonia crenata	Kapru	Herb	Begoniaceae	EI

Vernonia indica	Sahdevi	Herb	Asteraceae	EI

EI: - Endemic to India; EM:- Endemic to Maharashtra; VU: Vulnerable; LR:- Lower Risk; LC: Least Concerned

Ecosystem Service:

Most of the ecosystem services on which we and much of the agricultural system rely are being degraded or overexploited. Unpredictable weather, floods, overuse of chemical fertilizers and declines in soil fertility are severely impacting our agricultural system. The degradation of ecosystem services such as freshwater provision, climate regulation and soil fertility clearly has implications for the long-term viability of the businesses dependent on them.

Ecosystem services – also called 'ecological services' are the benefits that people obtain from ecosystems. Examples include freshwater, timber, climate regulation, and protection from natural hazards, erosion control and recreation.

Provisioning services:

Food: Crops, Livestock, poultry, Wild foods
Timber: *Terminalia, Lagerstroemia, Tectona, Haldina, Mitragyna*, etc.
Biomass fuel: Fuel wood and charcoal, grain for ethanol production, dung
Fresh Water: Freshwater for drinking, cleaning, cooling, and household purpose.
Genetic Resources: Genes used to increase crop resistance.
Bio chemicals: Medicines, biocides, food additives
Natural Medicines: crude drugs obtained from plants
Pharmaceuticals: *Nothapodytes, Gloriosa, Chlorophytum*, Camptothecin as basis for cancer drugs, extracts used for pest control.

Regulating services:

Air quality regulation: Water body and vegetation as carbon sink.
Water quality regulation: Permeable soils facilitate aquifer recharge. River floodplains and wetlands retain water.
Climate regulation at global and regional scale: Forests (capture and store carbon dioxide).

Water purification and waste treatment: Wetlands remove harmful pollutants from water by trapping metals and organic materials. Soil microbes degrade organic waste, rendering it less harmful.
Disease and pest regulation: Predators from nearby forests – such as bats, toads and snakes – consume crop pests.
Pollination: Bees from nearby forests pollinate crops.

Cultural services:
Recreation and ecotourism: Hiking, camping and bird watching.
Ethical values: Spiritual fulfilment derived from sacred lands and rivers.

Supporting Services:
Nutrient recycling: Decomposition of organic matter contributes to soil fertility.
Primary production: Plants transforms sunlight and nutrients into biomass, thereby forming the base of the food chain in ecosystems.
Water cycling: Transfer of water from soil to plants, plants to air, and air to rain.

Agriculture:

Traditional farming and terrace farming, especially paddy fields, were observed in the village area. Agriculture is the traditional occupation of local people in Kusgaon. The traditional agriculture is still under practice at some places, where the crops like *Eleusine coracana* are produced. The main land-use around the village is farming, mainly cultivated with crops like Rice (*Oryza sativa*), and Chana (*Cicer arieatinum*). The other crops taken are *Eleusine coracana* and *Amaranthus hybridus*. **Table 7** lists the various crops cultivated in the village. The leafy vegetable crops are *Spinacia oleracea*, *Raphanus sativus*, *Coriandrum sativum*, and *Amaranthus sp.* A number of local varieties/ landraces of rice, and ragi are cultivated occasionally.

The important fruit plants are *Mangifera indica* (Mango), *Psidium guajava*, and *Syzigium cumini* (Jamun). The wild fruit species are *Ziziphus mauritiana*, *Emblica officinalis*, and *Cordia dichotoma*. The farms are interspersed with human habitation, villages and townships.

The open areas around the agricultural fields and open foot hills are infested with highly invasive weeds like *Eupatorium odoratum, and Hyptis suaveolens*. Other common herbs include *Cassia tora, Alysicarpus, Sida, Celosia, Desmodium, Acanthospermum, Phyllanthus, Ageratum, Tephrosia, Vigna, Alternanthera, Vernonia, Achyranthes, Euphorbia, Crotolaria, etc.*

Table 7: Agricultural crops under cultivation/ wild

Crop Type	**Crops species**
Cereals	Rice (*Oryza sativa*)
Millets and minor millets	Finger millet (*Eleusine coracana*), foxtail millet (*Setaria italica*), and common millet (*Panicum miliaceum*)

Crop Type	**Crops species**
Oilseeds	Sesame (*Sesamum indicum*), Niger (*Guizotia abyssinica*), and Linseed (*Linum usitatissimum*)
Fruits	Mango (*Mangifera indica*), Jackfruit (*Artocarpus heterophyllus*), Lemon (*Citrus limon*), Custard apple (*Annona squamosa*), and Guava (*Psidium guajava*)
Medicinal and Aromatic Plants	*Embelia tsjeriam-cottam, Gloriosa superba, Pueraria tuberosa,* and *Rubia cordifolia*
Leguminous vegetables	Cowpea (*Vigna unguiculata*), and lablab bean (*Lablab purpureus*) are important leguminous vegetables.
Shoots and leafy vegetables	*Alocasia, Amaranthus viridis, A. spinosus,* and *Celosia argentea*
Vegetables	*Canavalia ensiformis* and *Solanum torvum.*
Fruits	*Carissa spinarum, Cordia myxa, Dillenia indica, Phoenix sylvestris, Syzygium cumini* and *Ziziphus mauritiana.*
Beverages	*Phoenix sylvestris*
Dye yielding plants	*Butea monosperma* and *Indigofera cassioides*

Summary and Conclusion:

The students under the guidance of teachers have created an excellent database. Their valuable contribution covers many aspects of village biodiversity, such as: plant diversity of land and water, wild plants used as food, medicinal plants and their uses and crop varieties.

In all 404 plant species were documented. The documented species belonged to 283 genera and 86 families (including Angiosperms, Pteridophytes, and Bryophytes) indicating the floristic richness of Kusgaon. The most dominant group was Angiosperms having 392 species that are distributed in 271 genera and 74 families. Other groups also represented very well forming a unique amalgamation of flora and vegetation. Among angiosperms Fabaceae, Asteraceae, Poaceae, Acanthaceae and Euphorbiaceae families represents majority of the vegetation. Similarly, the most abundant genera were *Ficus, Ipomoea, Acacia, Euphorbia, Cassia, Impatiens* and *Indigofera*.

Crop and cultivated fruit species documented were 34.

The rare, endangered and threatened plants were 30, out of which 22 species fall in a category of 'endemic to India'. Out of these 2 are in vulnerable category of Botanical Survey of India and IUCN, and 05 are at lower risk. Four species are endemic to Maharashtra, out of which one is under vulnerable category and two are under lower risk.

Suggestions /Recommendations:

Realizing the situation of plant diversity following suggestions are made

- The rich plant diversity should be conserved through people's participation
- The importance of sustainable use of biodiversity should be highlighted
- There should be fair and equitable share of benefits from use of bio-resources.

- The valuable knowledge about biodiversity that our people is having should be documented and protected.

Significance of this Exercise:

- Students and teachers gaining first-hand knowledge of plant diversity
- Students become efficient communicators
- Student get exposed to environmental problems faced by villagers
- Environmental education is compulsory for the colleges
- Science students of colleges are required to submit student research projects for their examination. The students can utilise their work on village level biodiversity for preparing these reports
- The teachers will be able to familiarise with much of plant diversity and environment in their surroundings and can use such experiences for better teaching
- Young teachers can identify and choose research programmes of their choice related to biodiversity/ecology.
- The work under this activity can be considered as extension education and help in making environmental awareness among the society.
- The students will be moulded into better, eco-conscious citizens in the future.

CHAPTER-7

Faunal Biodiversity of Kusgaon - A Survey

Dr. Vaishali M Bansod
Department of Zoology

Biodiversity: Biodiversity is the variety of living organisms on the earth.

Aim and objective: The purpose of survey of biodiversity is to provide information regarding the presence of fauna or wild animals in kousgaon.

Kousgaon is located 20 km from Pimpri Chinchwad, Pune. In the survey total 60 different animals were found out of which Aves/birds were 22, Arthropoda present were 22 out of which 18 insects, 1 annelid, 7 reptiles, 01 Amphibia and 7 mammals. The list is as follows along with the scientific names.

Sr. no.	Common name	Scientific name	Group
1.	White throated kingfisher	*Halycon smyrensis*	Aves
2.	Cattle Egret	*Bubulcus ibis*	
3	Eagle	*Nisaetus cirrhatus*	
4	Pond heron	*Ardeola grayii*	
5	Red Wattled Lapwing	*Vanellus indicus*	
6	Common Hawk cuckoo	*Hierococcyx varius*	
7	Owl	*Bubo bubo*	
8	Red Munia/ Strawberry finch	*Red Avadavat/ Amandava*	
9	Crow Pheasant/ Coucal	*Centropus sinensis*	
10	Black drongo	*Dicrurus macrocercus*	
11	Sparrow	*Passer domesticus*	
12	Crow	*Corvus splendens*	
13	Bulbul / Nightingale	*Pycnonotus cafer*	
14	Duck	*Anas*	
15	Pigeon	*Columba livia*	
16	Eagle	*Haliaeetus*	
17	Pond Heron	*Ardeola grayii*	
18	Baya Weaver bird	*Ploceus*	
19	Domestic hen- indigenous	*Gallus gallus domesticus*	
20	Indian Cormorant	*Phalacrocorax fuscicollis*	
21	Peacock	*Pava cristatus*	
22	kingfisher	*Alcedoatthis*	

Sr. no.	Common name	Scientific name	Group
1.	Leopard butterfly	*Phalanta phalantha*	Arthropoda- Insecta
2.	Yellow butterfly	*Dypsis*	,,
3	Green Grasshopper	*Poekilocerus*	,,
4	Honey bee	*Apis cerana indica*	,,
5	Brown spotted butterfly	*Melanitis*	,,
6	Sahyadri birdwing	*Triodes minos*	,,
7	Mosquito	*Anopheles*	,,
8	Great Bush Cricket	*Tettigonia*	,,
9	Grasshopper	*Melanoplus*	,,
10	Garden ant	*Lasius niger*	,,
11	Household ant	*Monomorium*	,,
12	Water strider	*Aquarius remigis*	,,
13	Whirlgig beetle	*Gyrinus*	,,
14	Leaf hopper	*Amrasca*	,,
15	Lemon butterfly	*Papilio demoleus*	,,
16	Field- fire ant	*Solenopsis*	,,
17	Red Cotton Bug	*Dysdercus cingulatis*	,,
18	Stick insect	*Carausius*	
19	Jumping Spider	*Telamonia dimidiata*	Arachnida
20	Spiders- orb weaver spider	*Lynx spp*	,,
21	Scorpion	*Hadogenes*	,,
22	Crab	*Scylla*	Crustacean

Sr. no.	Common name	Scientific name	Group
1.	Rat snake	*Ptyas mucosa*	Reptilia
2.	Indian Sand Boa	*Eryx johnii*	,,
3	Banded krait	*Bangarus fasciatus*	,,
4	Green Vine snake	*Ahactulla nasuta*	,,
5	Tree python	*Python*	,,
6	Garden Lizard/ chameleon	*Calotes vesicolor*	,,
7	Garden skink	*Eutropis carinata*	,,

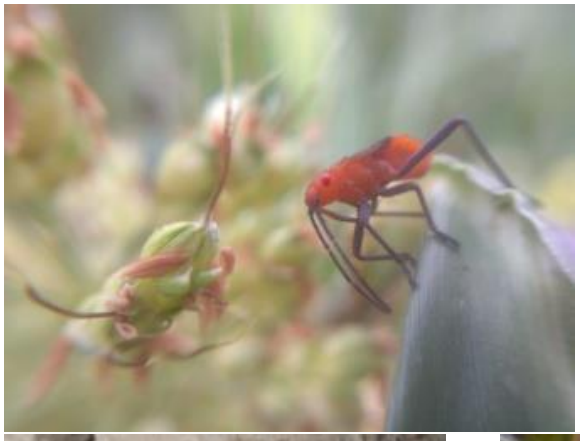
4	Rabbit	*Lepus nigricollis*	,,	wild
5	Mongoose	*Herpestes*	,,	wild
6	Goat	*Capra hircus*	,,	domestic
7	Dog	*Canis lupus familiaris*	,,	domestic

Sr. no.	Common name	Scientific name	Group
1.	Indian common toad	*Duttaphrynus melanostictus*	Amphibia



Prevalence of Vitamin A deficiency in rural children: a survey using Bitot's test in Kusgaon village in Pune

Vaishali M. Bansod
Department Of Zoology
E-mail: vaishalib.20@gmail.com

Abstract

The deficiency of Vitamin A is prevalent in many areas. It is more profound in the rural areas in India. It is mostly found where the major diet of the population is rice. The survey of Vitamin A deficiency was done by using Bitot's test. Presence of the Bitot's spot is the indication of the vitamin A deficiency in the body. The spots are a sign of vitamin A deficiency and associated with drying of the cornea. It typical is dry, foamy appearance to an ocular examination. *Bitot's* spots can be easily identified by keratin located superficially in the conjunctiva of human's eyes. The *Bitot's* spots are roughly triangular, gray plaques of keratinized conjunctival debris overlying an area of conjunctiva, which is protective covering of the eye ball. A survey was undertaken for the prevalence of Vitamin A deficiency in Kousgaon village. The author's main objective was to understand the prevalence and spatial distribution of vitamin A deficiency (VAD) among children in Kusgaon village. The Kousgaon village is located 20 km from Pimpri Chinchwad town city of Pune.

Keywords: Vitamin A deficiency, Bitot's test, Kusgaon

Abbreviation: VAD – Vitamin A deficiency

Introduction

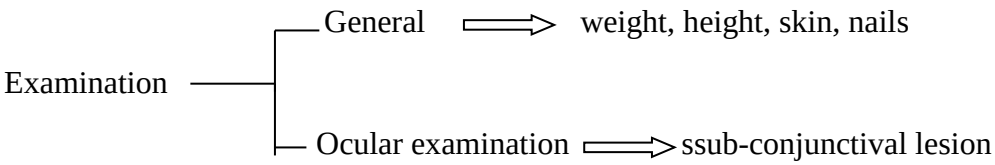
Vitamin A deficiency also referred to as VAD is lack of vitamin A in the body tissue. In 1863, French physician Pierre BitotFirat described the spot (Shukla M).It is prevalent in the developing and under developed countries. It is found in children and also in women of reproductive ages. VAD occurs because of inadequate intake or no proper absorption of fat and also due to liver disorder. If deficiency occurs then the symptoms of VAD can be noticed in an individual. The symptom is rashes and typical ocular effects. It is called as Xerophthalmia. Vitamin A is also called S retinol. It has very important role in the functioning of body. Vitamin A is required in sufficient amount by daily dietary intake. Vitamin A helps in body's natural defence against illness and infection. The most important function is helping vision in dim light. The daily recommended intake of vitamin A can be 3000mcg. It also helps in immune system and prevents the breakout of skin.

In a study by Liang Ming Lin et al there was significant difference in the serum level of Vitamin A between ages and no significant difference between genders. Vitamin A deficiency is prevalent in most part of the India and that prevalence of subclinical deficiency may still be high which enhances the susceptibility to infection and may lead to high mortality. Shvali Suriet al. In a study in rural Kenya Grace Ettyang, Aggrey Olooet al the risk of vitamin A deficiency in breastfed infants older than 6 months was high. According to World Health Organization VAD in developing countries is a significant concern, as it

estimated 250,000- 500,000 children in developing countries become blind each year due to VAD. Wikipedia. VAD not only hampers the health but is also a major determinant to deleteriously impact the economic status of population in low income countries as it is associated with dietary intake (Saeed Akhtar, Anwar Ahmed et al)India has the highest prevalence of clinical VAD among South Asian countries as 62% of children are reported having VAD. Pre- School children and pregnant women are at higher risk of VAD, likely due to increased demand for Vitamin A. (Stephen Abrams). VAD can be detected by a simple test called as Bitot's spot test. The spots appears on the conjunctiva of the eyeball that are caused due to vitamin A deficiency. Bitot's spot is build up keratin located superficially in the conjunctiva of the eyes (Wikipedia). The peak age group of VAD is 3- 6 years in which Bitot's spot can be seen. (Clare Gilbert).

Material and Method

A survey of Vitamin A deficiency was undertaken in Kousgaon village. It is located 20km away from Pimpri-Chinchwad twin city of Pune. The subject surveyed were the children of 3 years to 15 years of age. The children are the residents of Kousgaon village and also residing at the proximity of the village. Night blindness in which the child cannot see in dim light and Bitot's spot were assessed. An opaque white deposit on the conjunctiva of the eye is the characteristic sign of vitamin A deficiency. Eyes of the children were examined. The data collected is directly from the subject. The survey has two main items. The first is the assess selection and the other is assess measurement. It was followed by the analysis of the collected data. The data was then evaluated based on the degree of certainty of the evidence. Detail synthesis was done using Bitot's spot which is a subclinical method of measuring VAD. Results were then compared with WHO level of Public health importance. It is 1% night blindness and 0.5% Bitot's spot. Along with it the height in meter and the weight in kg of the individual child was also recorded. The condition of the teeth, lesions on the skin, and also examination of the nails were done during the survey.



Result and Discussion

The collected data of Bitot's spot was analyzed. The subclinical assessment method that is bitot's spot having unilateral lesion (CV Raghuveer*et al*) is used for the analysis and result of the VAD. Total 50 students were examined. Out of them 09 were found to have the whitish Bitot's spot. The VAD is common in school children. It is prevalent in developing and underdeveloped countries. In the present survey the prevalence of subclinical VAD is 18%. However the data is too less and cannot be applied for the population as whole. The age group of the children are the years of growth and development. For this there is higher requirement of the nutrition including vitamin A and other minor elements required by the body like zinc. The staple food of population in Kousgaon is millet, wheat and rice, pulses and seasonal vegetables. The Bitot's spot is the indication of intake of food which is not rich in vitamin A.

Recommendation

Vitamin A is required for the development of normal epithelium. VAD causes Bitot's spot which dwells in conjunctiva of eye. Mainly caused by malnourishment. Children ar at higher risk as there is high nutritional demand (Umesh Krishna *et al*). It is a fully reversible condition with oral vitamin A replacement. However, if untreated, it heralds the complete loss of vision. (K Mishra *et al*). A supplementation coverage must be carried out by the health professionals. An awareness among the people including the pregnant women must be spread about the adequate intake of the diet rich in vitamin A by the primary health workers.

Acknowledgment

The author would like to thank the study participants, data collectors- students of SYBSc. Department of Zoology, B.G. College, Sangvi and residents of Kusgaon village. The author is also grateful to Prin Dr. Nitin Ghorpade sir, B.G College, Sangvi, for guiding and giving the opportunity to work at community level.

CHAPTER-7

NATURAL RESOURCES: SOIL AND WATER

Latesh Nikam, Sujata Modhave and Rushant Nandkhile

Department of Chemistry

Under the guidance of Principal Dr. Nitin Ghorpade, Department of Chemistry carried out water and soil analysis project at **Kusgaon** on 6th Feb. 2021. It was a great pleasure and enjoyed working with the peoples of **Kusgaon**, Citizen helped us to collect the sample and carry out further analysis by our 5 students along with 3 staff members.

Aim: Prelimnary analysis of soil and water

Objectives:

- To create awareness amongst citizens about soil and water analysis.
- To know studnets about application of knowledge of science for social issues.

Introduction: Under the guidance of Principal Dr. Nitin Ghorpade, Department of Chemistry carried out water and soil analysis project at **Kusgaon** on 6th Feb. 2021. It was a great pleasure and enjoyed working with the peoples of **Kusgaon**, Citizen helped us to collect the sample and carry out further analysis by our 5 students along with 3 staff members. pH meter, conductometer instruments were taken to Kusgaon for performing anaylsis in front of citizines of Kusgaon. Studnets demonstrated analysis process at Kusgaon

Method:

Analysis of water: Water samples from various sources were collected in clenaned plastic bottles and conductance and pH of the samples were measured at Kusgaon. Hardness, Turbidity sulphate and TDS measurements were done in college. Standard methods of measurement as per manual were followed for measurement of all these properties.

Analysis of Soil: Soil samples were collected as per standard norms in plastic bag and closed tightly. Organic carbon, Moisture content, pH. Analysis of Na, K, Ca and P were done in laboratory using standatrd methods available in lieterature.

Observations

The observations and result of water sample is as given below.

Analysis of Water

Name of User: Public Water supply

Sr. No	Property	Value
1	pH	7.93
2	Hardness	130

Sr. No	Property	Value
3	Turbidity	1.3
4	Sulphate	BDL
5	TDS	115 ppm
6	Chloride	5ppm
7	Alkalinity	110
8	Sodium	4.59 ppm
9	Potassium	1.12 ppm
10	Calcium	2.30 ppm

(BDL: Below Detection Limit)

Name of User: Farm Well Water

Sr.No	Property	Value
1	pH	6.35
2	Hardness	80
3	Turbidity	2.1
4	Sulphate	BDL
5	TDS	90 ppm
6	Chloride	8ppm
7	Alkalinity	130
8	Sodium	1.15 ppm
9	Potassium	1.2 ppm
10	Calcium	2.7 ppm

BDL: Below Detection Limit

Name of User: Dam Water

SrNo	Property	Value
1	pH	7.8
2	Hardness	90
3	Turbidity	10.11
4	Sulphate	BDL
5	TDS	120 ppm
6	Chloride	BDL
7	Alkalinity	135
8	Sodium	1.21 ppm
9	Potassium	6.9
10	Calcium	120

(BDL: Below Detection Limit)

Name of User: Shirke Wasti Well Water

Sr. No.	Property	Value
1	pH	7.3

Sr. No.	Property	Value
2	Hardness	133
3	Turbidity	2.7
4	Sulphate	BDL
5	TDS	130ppm
6	Chloride	11ppm
7	Alkalinity	145
8	Sodium	1.98ppm
9	Potassium	4.22ppm
10	Calcium	2.14ppm

(BDL: Below Detection Limit)

Conclusions:

1. The **pH** of pure **water** is 7. In general, **water** with a **pH** lower than 7 is considered acidic, and with a **pH** greater than 7 is considered basic. The normal range for **pH** in surface **water** systems is 6.5 to 8.5, and the **pH** range for groundwater systems is between 6 and 8.5.

2. **Hardness** is most commonly expressed as milligrams of calcium carbonate equivalent per liter. **Water** containing calcium carbonate at concentrations below 60 mg/l is generally considered as soft; 60–120 mg/l, moderately hard; 120–180 mg/l, hard; and more than 180 mg/l, very hard.

3. Public **Drinking Water** Standards require **chloride** levels not to exceed 250 mg/L. Criteria for protection of aquatic life require levels of less than 600 mg/L for chronic (long-term) exposure and 1200 mg/L for short-term exposure.

4. Na- **drinking-water sodium** not exceeds 20 mg/L. In order to avoid adverse effects on taste

II. Analysis of Soil:

Sample 1: Farm (Shubham Tonde)

Sr. No.	Property	Value
1	Organic Carbon	0.268%
2	Moisture Content	0.09g
3	pH	In KCL+= 6.43 In H_2O = 7.20
4	Sodium	1.99ppm
5	Potassium	1.11ppm
6	Calcium	3.34ppm
7	Phosphate	2%

Sample 2: River side (Shubham Tonde lake side)

Sr. No.	Property	Value
1	Organic Carbon	0.346%
2	Moisture Content	1.7g
3	pH	In KCL+= 6.85 In H_2O = 7.52
4	Sodium	1.64
5	Potassium	1.66
6	Calcium	3.17
7	Phosphate	3.7%

Sample 3: Nilesh Tonde

Sr. No.	Property	Value
1	Organic Carbon	0.209%
2	Moisture Content	1.11g
3	pH	In KCL+= 5.71 In H_2O = 6.90
4	Sodium	1.5
5	Potassium	1.17
6	Calcium	4.37
7	Phosphate	4%

Conclusion-

1. Organic carbon-Soil organic carbon is the basis of **soil** fertility. It releases nutrients for plant growth, promotes the structure, biological and physical health of **soil**, and is a buffer against harmful substances. ... **Organic** material is manufactured by plants using **carbon** dioxide from the air and water.

2. Soil moisture is a key environmental control of plant growth and microbial activity, affecting both organic **carbon** (C) inputs and CO_2 outputs of **soil**. ... **Soil moisture**, temperature, pH, inorganic nutrients, texture and porosity of **soil** also impact organic matter decomposition or heterotrophic (microbial) respiration

CHAPTER-9

NATURAL RESOURCES: ENERGY

Bharat U. Kangude, Satish U. Ekar and Anant Pawar

Department of Physics and Electronics

Introduction:

Every geographical region has its own patterns of energy consumption and its needs. According to fundamentals of energy science every unit of energy saved is energy generated. It means that careful and optimistic use of electricity helps in the development of the economy of the nation. There is a great divide in the energy consumption pattern of urban and rural areas in Maharashtra, it implies that, in rural areas the use of non-conventional energy sources should be the basic priority for the development. The Department of Physics and Electronics of Baburaoji Gholap College conducted an energy survey of the Kusgaon village in the Maval tehsil. This activity was coordinated by national service scheme (NSS) department of the college on 6th February 2021.

Objectives:

The study of energy consumption patterns and problems faced by village people was the main objective of the study. Following three major parameters were used for the present study.

1. Energy sources available and equipment being used in the village.
2. Energy availability and its efficient use at public places
3. Energy conservation and extent of use of non-conventional energy sources.

Methodology:

The survey and questionnaire method was used to obtain the data of energy use pattern and villagers' energy needs at Kusgoan. Following four prominent steps were taken in survey and questionnaire method.

1. Observations and interviews of family.
2. In questionnaire, the questions related to the equipment used in household and in agriculture were introduced.
3. Survey of 75 houses was completed.
4. The recommendations and suggestions are based upon the observations and inputs in the survey.

Using the above-mentioned methodology, survey for energy consumption and energy needs of the villagers was carried out.

Sr. No.	Total houses in the village	Families participated in survey	Families denied participation in the survey	Total number of families surveyed
1.	150	70	05	75

Observations:

In the survey it has been observed that out of 70 families 16 were agricultural labourers, 03 were having transport business and remaining 51 families livelihood depending upon agriculture (Farmers).

Energy equipment used in Kusgaon

Sr. No.	Electrical equipment	Number of families using
1	LED lamps	70
2	Television	50
3	Electric water heater	00
4	Solar water heater	01
5	Electric motor	05
6	Electric iron	03
7	Solar lantern	05
8	Agricultural waste for heating water	60
9	LPG for preparing food	40
10	Cow dung	27

It has been observed that in almost all families LED lamps were being used. The most advanced electrical equipments were not found in the majority of the family. In the cases of emergency of power cuts, people use candles, charging battery and traditional oil lamps. The electrical energy is being used only for domestic purpose. No commercial use is observed. All families have their monthly electric consumption bill is around Rs. 600/-. The per capita power consumption is lower than the national per capita consumption. Government (Public Distribution System department) has stopped the supply of kerosene to households and it compels the villagers to use conventional lamps and candles for the lightning purposes. The agriculture produced west is being used in majority of the houses for water heating. Looking at their economic income status, it has been found that the prices of electric supply and equipment is out of their reach. That is why the conventional energy sources are being used on the large scale. At the public places the use of electricity is much less and the lightning arrangement is inadequate. For many days the power cut/load shedding is almost for more than 4 hours. The villagers have to face a great hardship. The government LPG scheme for poor is known to the villagers but still today 30% families are not being benefited. Like other villages in the state the basic energy needs of these people are at primary level and it is needed to be improved. Villagers are needed to be trained about the equipment using non-conventional energy sources such as solar energy and wind energy

Instructions:

Looking at this scenario, street lamp equipment is very much needed to be installed on the commutation roads. Government offers 40% subsidy for this program. Villagers are not aware about the use of solar energy and it is recommended that people should be we made aware about the benefits of using non-conventional energy appliances. Energy saving and energy conservation should be the two basic programs that the villagers should be made aware about. They should be provided some financial help from the government and NGOs.

Recommendations:

According to the results of survey, it is recommended that the authorities should implement the programs, to make aware the villagers about the non-conventional energy sources such as solar Energy equipment. The agricultural west should not be used as a fuel for domestic purposes. Use of CFL lamp, go bar gas etc. and associated schemes are needed to be implemented on war footing. The government authorities and Gram Panchayat should lead in this awareness program.

CHAPTER-10

SUMMARY

The village under study has seen a little development due to awareness among people. Its village have adequate primary educational facilities and higher education facilities within 20 km. The village, especially the women and youth of the village are earning through tourism, agriculture and hotel business. The main occupation of this village is agriculture. Dairy business and animal husbandry are complementary to agriculture. Rice, Wheat and Sugarcane are chief crops. The bore well and River are important source of irrigation. The irrigation method used was drip and flooding. The only grocery store was found in the village. The youth of the village is attracted to urban life due to more employment opportunities.

The social structure is well integrated through unique traditions. Hindu community is large in this village, while the Buddhist and Muslim communities are relatively small; yet its noteworthy that both the minority communities are included in the decision making process in the village. Due to overall development in communication and other technological progress, there seems to change in livelihood. Many words and sayings of local language and some traditions are disappearing slowly.

Kusgaon comes under Maval Assembly and Lok Sabha constituencies. The MLA of this village is Sunil Shelke and as this village comes under Baramati Lok Sabha constituency, Supriyatai Sule is currently a Lok Sabha MP from this Lok Sabha constituency.

The Gram Panchayat elections held in 2020 have been held without any opposition, which shows the social cohesion of the village. The village has held three unopposed elections so far in its political history. It is the first village in Maval taluka where all its members were elected unopposed.

Development is done through government schemes. Primary education is available. There is no consistency in availability of electricity in the village. Toilets are constructed by villagers at their own expense. Under 'Digital India' mission Gram Panchayat has computer with internet facility; however, load-shading and untrained staff are the limitations.

As the village of Kusgaon has been blessed with a rich cultural heritage and natural richness, the head of the Department of Travel and Tourism Management Under the guidance of Saddam Ghatwale, the students interacted with villagers as well as professionals who depend on the tourism business to learn about the problems created by the corona and discuss tourism growth.

Vitamin A deficiency survey was undertaken for the students of primary school. It was done by using Bitot test. Total 50 students were examined. Out of them 09 were found to have the whitish Bitot's spot. The VAD is common in school children. It is prevalent in developing and underdeveloped countries. In the present survey the prevalence of subclinical VAD is 18%. The data was handed over to primary school teacher. The diet to be included in children's food was explained. The village was also surveyed for faunal diversity. It was rich in faunal diversity. In the survey total 60 different animals were found out of which Aves/birds were 22, Arthropoda present were 22 out of which 18 insects, 1 annelid, 7 reptiles, 01 Amphibia and 7 mammals.

The floral and crop diversity surveys were also made which resulted in documentation of 404 plant species indicating rich diversity. Out of these 47 were under threat categories. Crop and cultivated fruit species documented were 34. The habit-form wise analysis represented a predominance of herbs (46%) and trees (16%) followed by shrubs (14%), and

climbers (13%) and grasses (8%). The Pteridophytes and Bryophytes are represented by 7 and 5 species respectively.

The pH of pure water is 7. The normal range for pH in surface water systems is 6.5 to 8.5, and the pH range for groundwater systems is between 6 and 8.5. Hardness is most commonly expressed as milligrams of calcium carbonate equivalent per liter. Water containing calcium carbonate at concentrations below 60 mg/l is generally considered as soft; 60–120 mg/l, moderately hard; 120–180 mg/l, hard; and more than 180 mg/l, very hard. Public Drinking Water Standards require chloride levels not to exceed 250 mg/L. Criteria for protection of aquatic life require levels of less than 600 mg/L for chronic (long-term) exposure and 1200 mg/L for short-term exposure.

Soil organic carbon is the basis of soil fertility. It releases nutrients for plant growth, promotes the structure, biological and physical health of soil, and is a buffer against harmful substances. Organic material is manufactured by plants using carbon dioxide from the air and water.

Soil moisture is a key environmental control of plant growth and microbial activity, affecting both organic carbon (C) inputs and CO_2 outputs of soil. Soil moisture, temperature, pH, inorganic nutrients, texture and porosity of soil also impact organic matter decomposition or heterotrophic (microbial) respiration

The energy surveys were made. Villagers were not aware about the use of solar energy and it is recommended that people should be made aware about the benefits of using non-conventional energy appliances. According to the results of survey, it is recommended that the authorities should implement the programs, to make aware the villagers about the non-conventional energy sources such as solar Energy equipment. The agricultural west should not be used as a fuel for domestic purposes. Use of CFL lamp, go bar gas etc. and associated schemes are needed to be implemented on war footing. The government authorities and Gram Panchayat should lead in this awareness program.

CHAPTER-11

SUGGESTIONS

- The village needs to be developed as it is situated in the hills.
- The village is in need of modern facilities.
- The social status of women needs to be improved.
- There is a need to improve the social status of the castes in the village.
- The youth of the village are attracted to the city in large numbers.
- The road to the village needs to be developed.
- The village needs a weekly market.
- The road leading to the village is very bad so the road needs to be paved.
- The problem of water, which is essential for life, needs to be solved.
- The village should have access to secondary and higher secondary education.
- The water and soil quality is to be maintained.
- Realizing the situation of plant, crop and animal diversity, it should be conserved through people's participation; the importance and sustainable use of plant, crop and animal diversity should be highlighted; there should be fair and equitable share of benefits from use of plant and animal resources; and the valuable knowledge about biodiversity that our people is having should be documented and protected.
- A nursery can be established to grow saplings of rare, endangered and threatened plant species. These RET species can be re-established in their natural habitats.
- According to the results of survey, it is recommended that the authorities should implement the programs, to make aware the villagers about the non-conventional energy sources such as solar Energy equipment. The agricultural west should not be used as a fuel for domestic purposes. Use of CFL lamp, go bar gas etc. and associated schemes are needed to be implemented on war footing. The government authorities and Gram Panchayat should lead in this awareness program.
- Vitamin A is required for the development of normal epithelium. VAD causes Bitot's spot which dwells in conjunctiva of eye. Mainly caused by malnourishment. Children are at higher risk as there is high nutritional demand (Umesh Krishna et al). It is a fully reversible condition with oral vitamin A replacement. However, if untreated, it heralds the complete loss of vision. (Mishra et al). A supplementation coverage must be carried out by the health professionals. An awareness among the people including the pregnant women must be spread about the adequate intake of the diet rich in vitamin A by the primary health workers.
- The village Kusgaon has been blessed with a rich cultural heritage and natural richness. So it's suggested to promote tourism activities.

ANNEXURE-I

List of plant species observed within Kusgaon village

Botanical Name	**Local Name**	**Habit**	**Family**	**Status**
Abrus precatorius	Gunj	Climber	Fabaceae	Frequent
Abutilon indicum	Mudra	Shrub	Malvaceae	Frequent
Acacia auriculiformis	Austrelian Babhul	Tree	Mimosaceae	Frequent
Acacia catechu	Khair	Tree	Mimosaceae	Frequent
Acacia chundra	Lal-khair	Tree	Mimosaceae	Frequent
Acacia concinna	Shikekai	Climber	Mimosaceae	Frequent
Acacia leucophloea	Hivar	Tree	Mimosaceae	Frequent
Acacia nilotica	Babhul	Tree	Mimosaceae	Frequent
Acalypha hispida	Khokli	Herb	Euphorbiaceae	Abundant
Acalypha indica	Khokli	Herb	Euphorbiaceae	Abundant
Acalypha malabarica	Khalifa	Herb	Euphorbiaceae	Abundant
Acanthospermum hispidum	Shingada-kata	Herb	Asteraceae	Abundant
Achyranthes aspera	Aghada	Herb	Amaranthaceae	Abundant
Acorus calamus	Vekhand	Herb	Araceae	Occasional
Aegle marmelos	Bel	Tree	Rutaceae	Occasional
Aeschynomene indica L.	Kinomin	Shrub	Fabaceae	Abundant
Ageratum conyzoides	Osadi	Herb	Asteraceae	Abundant
Ageratum houstonianum		Herb	Asteraceae	Frequent
Albizia lebbeck var. *lebbeck*	Shireesh	Tree	Mimosaceae	Frequent
Albizia procera	Kinai	Tree	Mimosaceae	Frequent
Alloteropsis cimicina		Grass	Poaceae	Abundant
Aloe vera	Korphad	Shrub	Liliaceae	Scarce
Alstonia scholaris	Satvin	Tree	Apocynaceae	Frequent
Alternanthera bettzichiana		Herb	Amaranthaceae	Abundant
Alternanthera sessilis	Chubukata	Herb	Amaranthaceae	Abundant
Alysicarpus bupleurifolius		Herb	Fabaceae	Frequent
Alysicarpus longifolius	Shevra	Herb	Fabaceae	Abundant
Alysicarpus monilifer	Shevra	Herb	Fabaceae	Abundant
Alysicarpus pubescens	Durangi-shevra	Herb	Fabaceae	Abundant

Botanical Name	**Local Name**	**Habit**	**Family**	**Status**
Alysicarpus tetragonolobus	Lal-shevra	Herb	Fabaceae	Abundant
Alysicarpus vaginalis	Shevra	Herb	Fabaceae	Abundant
Amaranthus spinosus	Katemath	Herb	Amaranthaceae	Abundant
Amaranthus tricolor	Chaulai	Herb	Amaranthaceae	Frequent
Amaranthus viridis	Math	Herb	Amaranthaceae	Abundant
Ammannia baccifera	Bhar-jambhal	Herb	Lythraceae	Abundant
Ammannia multiflora		Herb	Lythraceae	Abundant
Andropogon pertussis	Kusal	Grass	Poaceae	Abundant
Andropogon triticeus	Kusal	Grass	Poaceae	Abundant
Anisomeles indica	Gopali	Herb	Lamiaceae	Frequent
Annona reticulata	Ramphal	Tree	Annonaceae	Cultivated
Annona squamosa	Sitaphal	Shrub	Annonaceae	Cultivated
Anthistria cilliata		Grass	Poaceae	Abundant
Argyreia involucrata	Kondani	Climber	Convolvulaceae	Frequent
Argyreia nervosa	Samudrashok	Climber	Convolvulaceae	Frequent
Aristida setacea		Grass	Poaceae	Abundant
Artemisia nilagirica	Dhor-dawna	Shrub	Asteraceae	Frequent
Asclepias curassavica	Haldi-kunku	Shrub	Asclepiadaceae	Scarce
Asparagus racemosus	Shatavari	Climber	Liliaceae	Scarce
Asystasia dalzelliana		Herb	Acanthaceae	Frequent
Azadirachta indica	Neem	Tree	Meliaceae	Scarce
Bacopa monnieri	Nirbrahmi	Herb	Scrophulariaceae	Occasional
Bambusa arundinacea	Bambu	Shrub	Poaceae	Frequent
Barleria cristata	Koranti	Herb	Acanthaceae	Scarce
Barleria prionitis	Katekoranti	Shrub	Acanthaceae	Occasional
Bauhinia racemosa	Aapta	Tree	Caesalpiniaceae	Frequent
Bidens biternata		Herb	Asteraceae	Abundant
Biophytum sensitivum	Lajwanti	Herb	Oxalidaceae	Abundant
Blainvillea acmella		Herb	Asteraceae	Abundant
Blepharis repens		Herb	Asteraceae	Abundant
Blumea lacera	Burando	Herb	Asteraceae	Abundant
Boerhavia erecta	Punarnava	Herb	Nyctaginaceae	Abundant

Botanical Name	**Local Name**	**Habit**	**Family**	**Status**
Boerhavia repens	Punarnava	Herb	Nyctaginaceae	Abundant
Bombax ceiba	Katesavar	Tree	Bombacaceae	Abundant
Bougainvillea spectabilis	Boganvel	Climber	Nyctaginaceae	Cultivated
Brachiaria mutica		Grass	Poaceae	Abundant
Bridelia retusa	Asana	Tree	Euphorbiaceae	Abundant
Buchnera hispida	Karanji	Herb	Scrophulariaceae	Frequent
Butea monosperma var. monosperma	Palas	Tree	Fabaceae	Frequent
Caesalpinia decapetala	Chilhar	Climber	Caesalpiniaceae	Frequent
Caesalpinia pulcherrima	Shankasur	Shrub	Caesalpiniaceae	Cultivated
Caesulia axillaris	Maka	Herb	Asteraceae	Abundant
Cajanus scarabaeoides	Rantur	Herb	Fabaceae	Abundant
Canna indica	Kardal	Herb	Cannaceae	Cultivated
Canscora diffusa	Kilwar	Herb	Gentianaceae	Abundant
Cardiospermum helicacabum	Kapalphodi	Climber	Sapindaceae	Abundant
Carica papaya	Papai	Shrub	Caricaceae	Scarce
Carissa congesta	Karvand	Shrub	Apocynaceae	Abundant
Carthamus tinctorius	Ambadi	Herb	Asteraceae	Frequent
Caryota urens	Bherli-mad	Tree	Arecaceae	Frequent
Casearia tomentosa	Bokhada	Tree	Flacoutiaceae	Scarce
Cassia absus	Chimar	Herb	Caesalpiniaceae	Abundant
Cassia alata		Shrub	Caesalpiniaceae	Frequent
Cassia fistula	Bahava	Tree	Caesalpiniaceae	Frequent
Cassia occidentalis		Shrub	Caesalpiniaceae	Frequent
Cassia siamea	Kasod	Tree	Caesalpiniaceae	Cultivated
Cassia tora	Takla	Herb	Caesalpiniaceae	Abundant
Cassia uniflora	Ran-takla	Herb	Caesalpiniaceae	Frequent
Casuarina equisetifolia	Suru	Tree	Casuarinaceae	Cultivated
Catharanthus roseus	Sadaphuli	Herb	Apocynaceae	Cultivated
Cayratia trifolia	Ambat-vel	Climber	Vitaceae	Frequent
Celosia argentea	Kurdu	Herb	Amaranthaceae	Abundant
Cenchrus ciliaris		Grass	Poaceae	Abundant
Cestrum nocturnum	Ratrani	Shrub	Solanaceae	Cultivated

Botanical Name	**Local Name**	**Habit**	**Family**	**Status**
Chloris barbata		Grass	Poaceae	Abundant
Chlorophytum tuberosum	Kuli	Herb	Liliaceae	Abundant
Chrysopogon fulvus	Kusal	Grass	Poaceae	Abundant
Chrysopogon schoenanthus	Kusal	Grass	Poaceae	Abundant
Cleome gynandra	Pandhri-tilwan	Herb	Cleomaceae	Abundant
Cleome rutidisperma		Herb	Cleomaceae	Scarce
Cleome viscosa	Pivli-tilvan	Herb	Cleomaceae	Abundant
Clerodendrum inerme	Koynel	Shrub	Verbenaceae	Frequent
Clitoria ternatea var. ternatea	Nila-Gokarn	Climber	Fabaceae	Frequent

Report of Self Defence Program 8th March 2021

Self defence training program for the girls and women in the College

The Department of Physical Education of Pune district Education Association's Baburaoji Gholap College, Sangvi, Pune- 27 organised a Self defence training program for the girls and women in the college under the guidance of Dr NitinGhorpade, the Principal of the College. Dr. Nitin Ghorpade inaugurated the program. Dr.Vidya Pathare, the Director of Physical Education of the College explained the aims and objectives of the training program. At the time of inauguration of this program Principal, Dr.Nitin Ghorpade memorized Rajmata Iijau for the development of the personality of Chhatrapati Shivaji Maharaj. While talking to the participants, he expressed his grief that the women harassment events are increasing day by day and to prevent such type of happenings the women should be encouraged and empowered and they should be ready to prevent such type of anti socialincidencies. He also appealed all the participants to be powerful and to oppose such type of anti socialincidencies. Prof. AnuradhaEdake, Sahu Lakshmi Kala Krida Academy trained all the participate in relation to LathiKathi training. She appreciated the initiative taken by the college for this training program .Along with Prof. AnuradhaEdake, Mr Raj tamboli and all the trained students of Shahu. Lakshmi Kala Krida Academy provided the training to the women present on this occasion.

महिलांना दिले स्वसंरक्षणासाठी लाठीकाठी प्रशिक्षण

लोकमत न्यूज नेटवर्क

सांगवी : पुणे जिल्हा शिक्षण मंडळाच्या सांगवी येथील बाबूरावजी घोलप महाविद्यालयामध्ये जागतिक महिला दिनानिमित्त प्राचार्य डॉ. नितीन घोरपडे यांच्या मार्गदर्शनाखाली महाविद्यालयातील सर्व महिला सहकाऱ्यांना स्व-संरक्षणाचे धडे मिळावे, या उद्देशाने जिमखाना विभागाच्या वतीने लाठी-काठी प्रशिक्षणाचे आयोजन केले होते. या वेळी प्राचार्य डॉ. नितीन घोरपडे, डॉ. वंदना पिंपळे, प्रा. विद्या पाठारे आदी मान्यवर उपस्थित होते.

प्रा. विद्या पाठारे यांनी आजचे प्रशिक्षण कार्यक्रम आयोजित करण्यामागे असलेले उद्देश व महत्त्व स्पष्ट केले. प्राचार्य डॉ. नितीन घोरपडे यांनी सर्वप्रथम महाराष्ट्राचे आराध्य दैवत छत्रपती शिवाजी महाराजांना घडवणाऱ्या राजमाता जिजाऊ यांच्याविषयी माहिती सांगितली. शाहू लक्ष्मी कला क्रीडा अकादमीच्या प्रा. अनुराधा एडके यांनी लाठी-काठी प्रशिक्षण कार्यक्रमाचे आयोजन केल्याबद्दल महाविद्यालयाचे कौतुक केले.

सांगवी येथील बाबूरावजी घोलप महाविद्यालयात महिला दिनानिमित्ताने लाठीकाठी प्रशिक्षणप्रसंगी उपस्थित महिला व विद्यार्थिनी.

या वेळी शाहू लक्ष्मी कलाक्रीडा अकादमीच्या प्रा. अनुराधा एडके व राज तांबोळी यांच्यासहित अकादमीच्या प्रशिक्षित विद्यार्थ्यांनीनी लाठी-काठी चालवण्याचे प्रशिक्षण व स्व-संरक्षणाचे धडे उपस्थित महिला वर्गाला दिले. या वेळी अर्थशास्त्र संशोधन केंद्राच्या डॉ. सविता वासुंदे व डॉ. रोहिणी येवले यांना सावित्रीबाई फुले पुणे विद्यापीठाची विद्यावाचस्पती पदवी मिळाल्याबद्दल मान्यवरांच्या हस्ते सत्कार करण्यात आला. या वेळी डॉ. माया माईनकर यांनी सूत्रसंचालन तर, डॉ. वंदना पिंपळे यांनी आभार मानले.

National Service Scheme Department -Academic Year -2020-21

Activity Name: National Webinar **Date: 6 June 2020**

Aim: Creating awareness about planning and implementation of NSS activities in pandemic situation

Objectives:

1) To provide information about regular NSS activities in pandemic situation
2) To enrich knowledge of NSS Program officers about conducting special camp activities in pandemic situation, facing challenges and overcome them effectively

NSS Department of college has organized National Webinar on **"Organization and Management of NSS Activities in Pandemic World"** 6th June 2020. While helping the underprivileged sections of the society, a volunteer in the National Service Scheme works to fulfill his duty towards the society without expecting any help. Also, the National Service Scheme, which is making a significant contribution to help the underprivileged at the grassroots level in the wake of the Corona virus, is not just a working system but a way of life, asserted R.S.Y.O. Directorate New Delhi Assistant Program Preacher Dr. By Kamal Kumar Kar. R.S.Y.O. Department Regional Directorate Maharashtra and Goa, R.S.Yo. Dept. State of Maharashtra, Res.Se.Yo. Dept. Savitribai Phule Pune University, Pune, R.S.Y.O. The department was speaking at the inauguration of a one-day national webinar organized on 'Organization and Management of NSS Activities in Post Pandemic World' in association with Baburaoji Gholap College, Sangvi. At this time R.S.Yo. Director of Department Regional Directorate, Maharashtra and Goa D. Kartigan, Pune District Education Board Joint Secretary (Administration) A. M. Jadhav, Savitribai Phule Pune University National Service Scheme Department Coordinator Dr

Scanned by CamScanner

Prabhakar Desai, Principal Dr. Nitin Ghorpade, Youth Officer Ajay Shinde and other dignitaries were present.

After the outbreak of Corona virus, Principal Dr. Dr. Nitin Ghorpade said that the National Service Scheme is a system of living with society. Due to which the students get the necessary experiences to build their future life while contributing to the society in the areas of health, education, environment, personality development etc. in their college life. He also expressed optimism that this kind of webinar will definitely help to bring about new changes in the traditional working system by exchanging ideas.

R.S.Y.O. Department Regional Directorate Maharashtra and Goa Director D. Kartigan has attended Mumbai University in Maharashtra, SavitribaiPhule Pune University, Poet Bahinabai Chaudhary North Maharashtra University Jalgaon, Shivaji University Kolhapur, Dr. Babasaheb Ambedkar Marathwada University Aurangabad etc informed about the various social activities done by the students of the National Service Scheme affiliated to the University. Also, Savitribai Phule Pune University was specially congratulated for producing the maximum number of masks in terms of masks, which are an important factor during the Corona virus.

Pune District Education Board Joint Secretary (Administration) A. M. Jadhav giving a brief information about the establishment and purpose of National Service Scheme, Bapuravji Gholap College National Service Scheme Department Principal Dr. He congratulated the college for the various social welfare activities implemented under the guidance of Nitin Ghorpade. This inaugural session was moderated by Prof. Amrita Inamdar and Dr. By Prabhakar Desai.

In the second session of the webinar, the regular R.S.Y.O after the corona virus. UNICEF's Dr. Aparna Deshpande gave very insightful information using graphs regarding the spread of Corona in the world and in India. He also gave detailed guidance regarding the contribution of the National Service Scheme in the

Scanned by CamScanner

elimination of economic crisis, unemployment, poverty, impact on the education system, increase in crime. Gujarat University, Gandhinagar Dr. Neeraj Silwat made a detailed statement about how the responsibility of National Service Yojana will increase in view of the current social situation and how a new self-reliant India can be developed through the contribution of National Service Yojana volunteers while implementing new schemes of the Central Government. This session was moderated by Dr. Pune District Covid 19 Nodal Officer. Savita Kulkarni and Nodal Officer of Ahmadnagar District Covid-19 Dr. By Bharti Danve.

R.S.Y.O. In the third session of the webinar, R.S.Y.O. Director of Department Regional Directorate, Chennai Dr. Samuel Chellai and R.S.Yo. Director of Department Regional Directorate, Bhubaneswar Dr. N. B. Khuntia was an expert present.

Dr. In the beginning of his speech, Samuel Chellai stated that problems and challenges are an integral part of our life and it is necessary to accept the reality and expressed the opinion that there is a need for new guidelines for the National Service Scheme camp and social awareness through various means. Also Dr. N. B. While organizing the National Service Scheme camp, Khuntia highlighted the factors such as how to choose and clean the camp site, how to orient the volunteers, how to create awareness among themselves and the society. This session was moderated by Nashik District Covid-19 Nodal Officer Dr. Dr. Pushkar Padekar, Vice-Principal of Thanking University. By Latesh Nikam.

Vice-Chancellor of SavitribaiPhule Pune University who was present as the chief guest at the conclusion of the said National Webinar. Nitin Karamalkar while guiding the audience said that in the background of corona virus, it is necessary to follow the social etiquette like keeping social distance, using mask and sanitizer etc. Also, through Savitribai Phule Pune University, in the time of corona virus, making ventilators at low cost, manufacturing covid life patches and giving

Scanned by CamScanner

information about the importance of the national webinar about the National Service Scheme, which is an important element in the supply chain and always supports the society in every challenge. Special congratulations to Directorate of National Service Scheme and Baburaoji Gholap College for organizing. Savitribai Phule Pune University Management Council Member Dr. Sanjay Chakne also guided the attendees on how to change the traditional working system and adopt the new working system. The closing program was coordinated by Prof. Bharat Kangude and Principal Dr. Done by Nitin Ghorpade.

1500 National Service Scheme Program Coordinators, District Program Officers, College Programs affiliated to various universities in Maharashtra, Goa, Tamil Nadu, Gujarat, Rajasthan, Uttar Pradesh, Kashmir, Punjab, Karnataka, Andhra Pradesh, Chhattisgarh, Odisha, Delhi etc. Officers were involved.

For the success of this national webinar, R.S.Y.O. Program Officer Prof. DnyaneshwarJambhulkar, Dr. Arjun Doke, Prof. RushantNandkhile, Dr. Yogesh Khollam, Prof. VidyaPathare, Prof. VitthalNaikwadi, Prof. Saddam Hussain Ghatwale, Prof. All the teachers and non-teaching staff of the college along with ManjushaPatil worked hard.

National Service Scheme Department -Academic Year -2020-21

Activity Name: 'Swachh Wari Swasth Wari Nirmal Wari Harit Wari '

Date: 30 June 2020 to 3 July 2020

Activities Conducted in this program:

1) Valuable guidance of Resource Persons on Health is Wealth, Importance of Tree Plantation and Significance of Cleanliness Campaign.
2) College campus cleaning by NSS Volunteers.
3) Motivating students and for cleaning campus and Tree Plantation near residence of NSS Volunteers.
4) Tree Plantation in College Campus.

It sounds like a significant and impactful program conducted by the NSS Department of P.D.E.A's Baburaoji Gholap College in Sangvi, Pune. The event appears to have focused on various important aspects such as cleanliness, health, and environmental awareness. It's commendable that notable figures like Mr. Rajesh Pande, a Management Council member of Savitribai Phule Pune University (SPPU), and Santosh Parchule, SDO, SPPU, Pune, were present as chief guests.

The emphasis on tree plantation, college campus cleaning, and guidance about health being wealth reflects a holistic approach towards fostering a sense of responsibility among the students and creating a sustainable and healthy environment.

Mr Rajesh Pande in his chairman's address described the **importance of Tree plantation** as trees play a vital role in mitigating climate change by absorbing carbon dioxide during photosynthesis and releasing oxygen. Additionally, they contribute to biodiversity by providing habitats for various species of plants and animals. Tree

planting helps prevent soil erosion, as their roots anchor the soil, reducing the risk of landslides and maintaining soil fertility. Furthermore, trees act as natural filters, purifying air and water by trapping pollutants. Planting trees in urban areas enhances the overall aesthetic, providing shade and reducing the urban heat island effect. From an economic standpoint, tree planting can generate employment opportunities in forestry and related industries. Therefore he emphasized that community involvement in tree plantation fosters a sense of environmental stewardship, encouraging sustainable practices for future generations.

Dr Santosh Parchure described that **cleanliness** by NSS volunteers and by society as a whole is also important in fostering a healthy and sustainable environment. Firstly, they contribute to public health by reducing the spread of diseases and creating hygienic living conditions. NSS volunteers play a pivotal role in raising awareness about the importance of sanitation and personal hygiene practices within communities. Additionally, these programs address environmental concerns, promoting waste management and the proper disposal of garbage to prevent pollution. Clean surroundings also enhance the aesthetic appeal of local areas, instilling a sense of pride and well-being among residents. **Principal Dr. Nitin Ghorpade** informed that NSS-led cleanliness initiatives foster a spirit of community involvement and teamwork, instigating positive behavioral changes towards maintaining cleanliness in public spaces. Furthermore, these programs serve as educational tools, imparting knowledge about the impact of cleanliness on overall well-being. Ultimately, the efforts of NSS volunteers in cleanliness programs contribute to building a healthier, more sustainable, and socially responsible society.

It's great to see the involvement of authorities like Santosh Dhore, a Senate member of SPPU Pune, Vice Principal Dr Latesh Nikam, NSS Program Officer Dr. Arjun Doke, Mr. Dnyaneshwar Jambhulkar, and Dr. Dnyanesh Mahajan, indicating strong support from the academic community. Encouraging students to participate in tree plantation near their residences is a positive step towards instilling a sense of

Scanned by CamScanner

Baburaoji Gholap College
Pune - 27.
Sangvi

environmental responsibility at an individual level. Such initiatives contribute not only to the immediate surroundings but also to the larger goal of promoting a green and sustainable future. By actively engaging in tree planting initiatives, students not only contribute to carbon sequestration and improved air quality but also play a direct role in combating climate change. This hands-on experience instills a sense of environmental stewardship, teaching students the significance of preserving nature for future generations. Moreover, tree plantation initiatives empower students to take ownership of their surroundings, creating a lasting impact on both local ecosystems and global environmental health. Through such efforts, students become champions of environmental conservation, promoting a greener and healthier planet.Overall, it appears to have been a well-rounded program with a focus on both environmental and personal well-being, aligning with the principles of Swachh Wari, Swasth Wari,Nirmal Wari, and Harit Wari.

Suryanamskar Activity 2020-2021

Date-13.12.2020

Aim: Organize a Suryanamaskar activity for staff and students of PDEA to achieve and maintain the health of individuals.

Objectives:

- To engage the students and staff to carry out Suryanamasakar daily to achieve and maintain this state of health.
- To show the right steps to do the Suryanamaskar
- To know the benefits of Suryanamaskar

Report:

Department of Physical education on occasion of celebration of Hon. Chief Minister, Govt. of Maharashtra Hon. Ajit Pawar organized the various activities like- Suryanamskar program. Exercise is highly important for students to prepare well for sports. Through such activities students were also given the message that regular exercise plays significant role in maintaining physical and mental health, so that complete balance can be achieved and they can be free from various ailments. The Suryanamaskar initiative was organized by Pune District Education Association on the occasion of Former Central Agriculture Minister, Padma Vibhushan Sharad Chandraji Pawar's birthday which received spontaneous response.

Director of Physical Education & Sports

Sangvi, Pune - 411027

Baburaoji Gholap College Sangvi Pune 411027

Pune District Education Association's
Baburaoji Gholap College, Sangvi, Pune-27

On the occasion of Sharad Chandraji Pawar's 80th birthday, a target of 80,000 Surya Namaskar was set in all schools and colleges affiliated to Pune District Education Education. Due to the spontaneous response of students and teachers, 1,68,984 Surya Namaskar were completed, twice the target. 13,468 students and 1,535 teachers from 80 schools and colleges participated in these online activities organized using Google Meet and Zoom App. The participating students and teachers were then registered through Google Form.

Mhalsakant Vidyalaya at Akurdi recorded the highest number of 33,130 Surya Namaskar while Annasaheb Magar College Hadapsar, Pirangut English School Pirangut, Shri Shahaji High School Supe recorded more than 10,000 Surya Namaskar. This Surya Namaskar initiative was organized by Pune District Education Association through Baburaoji Gholap College at Sangvi.

Under the guidance of Principal Dr. Nitin Ghorpade, the Director of Physical Education in the college, Prof. Vidya Pathare planned this project.

Outcome:

- Overall 1,68,984 staff and students from Pune District Education Association get benefited by this activity
- It can promote weight loss, improve cardiovascular health, and assist tone muscles.
- It strengthens heart function and enhances blood circulation.
- The breathing process is stimulated by Surya Namaskar since each movement is timed with the breath.
- The blood's oxygen content is raised by Surya Namaskara's rhythmic breathing. The body's oxygenation is improved as a result, particularly in the heart and brain.

Director of Physical Education & Sports
Baburaoji Gholap College
Sangvi, Pune - 411027

- Surya Namaskar is also advantageous for the health of the digestive system and other bodily systems.
- Engaging in regular Surya Namaskar practice enhances concentration, boosts self-esteem, and fosters self-control.

Department Of NSS, NCC & Physical Education

Name of Activity- Tree plantation-World Record Date-23/06/2019

Aim: Train the students to prepare seed balls and add in nearby forests to multiply the trees naturally to develop into forest cover

Objective: -To inculcate the values of nature conservation and protection
-To motivate the students for sustainable development and increase forest cover

Report: On the occasion of Late Baburaoji Gholap Smruti Saptah department of NSS has organized a training programme on making handballs and plantlets. Mr.Kiran Ghotkule from Nisarg Raja Mitra Jivanche an NGO guided the students for the same activity. The director of Nisarga Raja Mitra Jivanche Mr. Rahul Gholap was also present during this activity. The plantlets developed were distributed to ladies during the Haldi-Kunku Programme. During this programme Dr. Dnyaneshwar Jambhulkar, Dr. Nanda Rashinkar, Prof. Amruta Inamdar, Mr. Rushan Nandkhile, Dr. Arjun Doke, Dr. Vaishali Bansod, Dr. D. M. Mahajan, Prof. Savitri Jadhav, Mr. Santosh Sasturkar, Mrs. Kalyani Shitole was present.

Outcomes: A total of 151 students have benefited from this activity.

Department - National Service Scheme(N.S.S.) Academic Year: 2019-20

Program: Sapling Distribution program – Tree Plantation World record at SPPU, Pune

Date: 23.6.2019

Aim: Environment conservation through community engagement

Objective:

1) To promote the conservation of natural habitats, wildlife and biodiversity by planting trees that provide food and shelter for various species.
2) To help in reducing greenhouse gas emissions and combat global warming.
3) Sapling distribution program had the following primary objectives:
4) Raise awareness about environmental conservation and the significance of afforestation
5) Distribute a variety of tree saplings to local residents
6) Engage NSS volunteers in community service and environmental activities

I) Planning and Preparations:

The planning phase encompassed the following key activities:

- Identification of Location: The program was conducted at SPPU, Pune, chosen for its accessibility and visibility.
- Selection of Tree Species: A diverse range of tree species was selected to cater to the local environment and preferences.
- Coordination with NSS: 151 NSS volunteers from BaburaojiGholap College were actively involved in the program, assisting in various capacities.
- Sourcing of Saplings: Saplings were sourced from local nurseries, and the cost was covered through a collaboration with [Sponsor's Name].
- Promotion and Publicity: Social media, posters, and word of mouth were used for publicity.

II) Program Execution:

The Sapling Distribution Program was executed as follows:

- Registration and Orientation: Volunteers and participants were registered and briefed about the program's objectives and guidelines.
- Distribution Day: The event was well-organized, with designated areas for different tree species, informative posters, and a smooth flow of activities.

- Sapling Distribution: NSS volunteers actively participated in distributing 500 saplings to local residents who attended the event. Each recipient received information on proper planting and care.
- Awareness Workshops: A workshop on tree care and environmental conservation was conducted, engaging participants in interactive sessions.
- Community Engagement:
- Community Participation: Approximately 300 local residents attended the program, making it a significant success. 500 saplings were distributed.
- Volunteer Engagement: NSS volunteers from BaburaojiGholap College played a pivotal role in the program's success. They were enthusiastic and actively engaged in all aspects of the event.

III) Outcomes and Impact:

- The program's outcomes and impact include:
- Number of Saplings Distributed: 500 saplings of various species were distributed.
- Environmental Impact: The event contributed to the local environment by increasing the green cover and promoting biodiversity.
- Community Awareness: The program successfully raised awareness about environmental issues and the importance of afforestation among the local population.
- Volunteer Development: NSS volunteers gained practical experience in community service and environmental conservation, enhancing their personal and professional growth.

IV) Challenges Faced:

Unpredictable weather conditions were a minor challenge, but contingency plans were in place.

V) Recommendations:

- For future sapling distribution programs:
- Consider conducting the program in more remote areas with lower green cover.
- Expand promotional efforts to reach a wider audience.
- Collaborate with local schools for broader educational outreach.

VI) Conclusion:

The Sapling Distribution Program, organized by the NSS Department of SPPU Pune in collaboration with NSS volunteers from BaburaojiGholap College, was a significant success. It achieved its objectives of promoting environmental conservation, distributing saplings, and engaging the community in environmental activities. We extend our appreciation to all volunteers, participants, and sponsors who contributed to the program's success.

The Savitribai Phule Pune University (SPPU) Sunday attempted to create a Guinness World record by distributing 16,631 saplings of neem to volunteers of the National Service Scheme (NSS), linked to more than 350 colleges. The saplings are likely to be planted along the Pune-Pandharpur pilgrimage route taken by warkaris during Ashadhi Wari. With the record attempt, the SPPU announced the start of its 'Green Wari' initiative, which combines ecological awareness with the larger objective of promoting conservation of water resources and regenerating the tree cover. Chief Minister DevendraFadnavis, Pune Guardian Minister Chandrakant Patil, Mayor Mukta Tilak, District Collector Naval Kishore Ram and SSPU Vice Chancellor Nitin Karmalkar, among others, were present at the event.

NOTICE

DATE: 25.7.2019

All NSS Volunteers are hereby informed that NSS Department of BG College is going organize Blood Donation program on 1st August 2019 in seminar hall of our college. Donation of blood can save the life of needy people. In this camp, you come to know your Haemoglobin level also. So maximum NSS volunteers should come for the activity.

Place of Activity: Seminar Hall of College.

Time: 9.30 am

Instructions: All NSS Students should Carry college I Card.

Department - National Service Scheme(N.S.S.)

Academic Year: 2019-20

Program: Blood Donation Camp **Date: 01.08.2019**

Aim: Creating awareness about the constant need for blood and encourage individuals to become regular donors.

Objective:

1) To save lives by providing a vital resource for patients who require blood transfusions due to surgeries, medical treatments, accidents, or medical conditions like anemia, cancer, and hemophilia.

2) To maintain a sufficient and readily available blood supply.

Introduction: On August 1, 2019, the National Service Scheme (NSS) organized a successful Blood Donation Camp in collaboration with the Gholap Blood Bank, Pune. The event took place at the seminar hall of BaburaojiGholap College, Sangvi, Pune-27. This report provides an overview of the camp's proceedings and outcomes.

Event Highlights:

1. Preparation and Setup:

The NSS team, consisting of 57 volunteers, worked diligently to prepare for the event. This included setting up registration desks, arranging donor beds, and ensuring the availability of necessary medical equipment.

2. Collaboration with Gholap Blood Bank:

The Gholap Blood Bank played a crucial role in the camp's success. They provided trained medical staff, equipment, and ensured the safe collection and storage of donated blood.

3. Awareness Campaign:

Prior to the camp, an extensive awareness campaign was conducted by NSS volunteers. This included distributing pamphlets, using social media platforms, and reaching out to the local community to encourage participation.

4. Registration and Medical Screening:

Donors were welcomed by our volunteers at the registration desk. Each donor underwent a thorough medical screening to ensure their eligibility for blood donation. This step was crucial to guarantee the safety of both donors and recipients.

5. Blood Donation Process:

Eligible donors proceeded to the donation area, where trained medical professionals collected blood units. The process was carried out with utmost care and adherence to safety protocols.

6. Refreshments and Rest:

After donating blood, donors were provided with refreshments and a resting area to recover their strength. NSS volunteers ensured their comfort and well-being.

7. Certificates of Appreciation:

All donors received certificates of appreciation from NSS for their selfless contribution to the community.

8. Quantitative Results:

A total of [Specify the number of blood units collected] units of blood were collected during the camp. This significant contribution will aid in saving numerous lives.

Conclusion: The Blood Donation Camp organized by NSS in collaboration with the Gholap Blood Bank at Baburaoji Gholap College, Sangvi, Pune-27, on August 1, 2019, was a resounding success. It showcased the commitment of NSS volunteers to the noble cause of blood donation and community service. The collected blood will undoubtedly make a significant impact on the lives of patients in need. In this activity 57 NSS volunteers have been donated blood.

National Service Scheme Department -Academic Year -2019-20

Activity Name: 'College Campus Cleaning Drive' Date:14th August 2019

Aim: Promote health and hygiene among NSS volunteers

Objective:

1) To motivate NSS volunteers to do cleanliness activity in their day to day life.
2) To encourage students to keep college campus clean and give information about importance of cleanliness.

Introduction: On August 14, 2019, the National Service Scheme(NSS) Department of our college organized a campus cleaning drive. The event aimed to promote cleanliness and environmental consciousness among students and contribute to the Swachh Bharat Abhiyan, an initiative by the Government of India for a cleaner and greener India.

Event Details: The cleaning drive commenced at 8:00 AM with a brief orientation and guidance session led by Prof. Dnyaneshwar Jambhulkar, the NSS Program Officer. He emphasized the significance of maintaining a clean and hygienic campus environment and encouraged active participation from all attendees.

Activities:

1. Cleaning of Common Areas: The participants were divided into groups and assigned specific areas of the college campus to clean. These areas included classrooms, corridors, lawns, and the library.

2. Waste Segregation: To ensure proper disposal of waste, separate bins for biodegradable and non-biodegradable waste were placed around the campus. The participants actively segregated waste during the cleaning drive.

3. Awareness Campaign: Mrs. Amruta Inamdar conducted an awareness campaign on the importance of waste management, recycling, and the significance of trees in maintaining a healthy ecosystem.

Achievements: The cleaning drive was highly successful, with significant achievements:

- Cleaner Campus: The college campus saw a remarkable transformation, with visibly cleaner and tidier surroundings.
- Waste Segregation: Proper waste segregation was practiced, which will contribute to effective waste management in the future.
- Awareness: The awareness campaign helped educate participants about their role in maintaining a clean and green environment.

Conclusion: The college campus cleaning drive on August 14, 2019, organized by the National Social Service Department, was a resounding success. It not only resulted in a cleaner and more attractive campus but also raised awareness among students about their responsibility towards environmental conservation. The event's success was a testament to the commitment of the participants and the dedication of the organizing team led by Prof. DnyaneshwarJambhulkar. Such initiatives play a crucial role in promoting cleanliness and environmental consciousness in society. 42 NSS Volunteers have been participated in this activity

Map Reading Programme

Report:

A map reading hands-on training activity was conducted for NCC cadets. The training was led by PI staff Jasvinder Singh. PI Staff Jasvinder Singh, an experienced and dedicated instructor, conducted the map reading training. He brought a wealth of knowledge and practical experience to the session. His leadership was essential in ensuring the effectiveness of the training. Lt. Vitthal Naikwadi and cadets were present in the program.

Aim:

The objective of this activity was to enhance the cadets' map reading skills, a crucial aspect of their training and preparedness.

Training Objectives:

1. **Basic Map Reading Skills:** To impart fundamental map reading skills to the cadets, ensuring that they can understand and interpret topographic maps effectively.
2. **Terrain Familiarization:** To help cadets become familiar with the terrain and landmarks depicted on the maps, enabling them to translate the information into real-world navigation.
3. **Route Planning:** To teach cadets how to plan routes using maps, taking into account distances, elevations, and obstacles.
4. **Practical Application:** To provide hands-on experience by having cadets navigate using maps in the field.

PDEA's Baburaoji Gholap College, Sangvi Pune-27
National Cadet Corps (NCC)
Name of the Activity: Map Reading Programme
Date-20.09.2019

Practical Map Interpretation: Cadets were given topographic maps and tasked with interpreting map features, and landmarks, and plotting grid references.

1. **Map Reading Programme** Cadets were divided into small groups and provided with compasses and maps. They practiced navigating to specific points on the map while observing the actual terrain.

2. **Route Planning Exercise:** Teams were given scenarios that required planning a route from one location to another, considering various factors like elevation changes and natural obstacles.

3. **Field Exercises:** Cadets put their knowledge into practice by navigating through the terrain, using maps and compasses to reach designated checkpoints.

Outcomes and Feedback:

The map reading hands-on training activity received a great success. Cadets demonstrated a significant improvement in their map reading skills, with a better understanding of map interpretation, grid references, and route planning. They gained valuable experience in navigating unfamiliar terrain, a skill that will be crucial in their NCC activities and future military service.

Map Reading Programme

Conclusion:

The map reading hands-on training activity for NCC cadets, led by PI Staff Jasvinder Singh, was an essential step in enhancing the cadets' navigation skills. By combining theoretical knowledge with practical exercises, the training ensured that the cameras were better equipped to handle map reading in real-world scenarios. This training will undoubtedly contribute to their success in the NCC and beyond.Total 32 cadets participated in this activity

Academic Year: 2019-20

Program: Cleaning Drive on NSS Day **Date: 24.9.2019**

Aim: Awareness of cleanliness among NSS Volunteers

Objective:

1) To promote the conservation of natural habitats, wildlife, and biodiversity by planting trees that provide food and shelter for various species.
2) To help in reducing greenhouse gas emissions and combat global warming

Participants:

- 35 NSS Volunteers

Locations Cleaned:

1. Balkalyan Centre, Ganeshkhind: The volunteers conducted a cleaning drive at Balkalyan Centre, Ganeshkhind, contributing to the cleanliness of the area.

2. Dapodi Railway Station, Dapodi: The team actively participated in cleaning the Dapodi Railway Station premises, ensuring a cleaner environment for commuters.

3. District Hospital, Aundh: The volunteers visited the District Hospital in Aundh and engaged in cleaning activities, enhancing the sanitation of the healthcare facility. Cleaning activity is done by 27 NSS volunteers.

Additional Activities: On the occasion of NSS Day, a team of 8 students accompanied by one Program Officer, Mr. Dnyaneshwar Jambhulkar, attended a session at Dnyaneshwar Sabhagruh, SPPU, Pune. This session was organized by the NSS Department of Baburaoji Gholap College Sangvi. It provided an opportunity for NSS volunteers to engage in discussions and activities related to NSS and community service.

Conclusion:

The NSS volunteers actively participated in the Cleaning Drive at various locations, contributing to the noble cause of cleanliness and hygiene. The session attended at SPPU, Pune, on NSS Day provided valuable insights and inspiration for further community service activities.

Activity : Mutha River Cleaning Campaign **Date:** 02/10/2019

Aim: Promoting cleanliness and environmental awareness along the Mutha River.

Objective:

1. Mobilize NSS volunteers and the local community for a cleaner and greener environment.

2. Commemorate the birthdays of Mahatma Gandhi and Lal Bahadur Shastri by engaging in a meaningful community service activity.

The Mutha River Campaign, organized by the NSS Department of Baburaoji Gholap College in collaboration with local authorities and community members, was conducted near Aundh on the occasion of Rashtrapita Gandhi Jayanti and Lal Bahadur Shastri Jayanti on the 2nd of October 2019. This report outlines the objectives, planning, execution, and outcomes of this significant environmental initiative.

Planning and Preparations:

The planning phase included the following key activities:

1. Location Identification: The campaign focused on the Mutha River near Aundh, chosen due to its significance and proximity to the local community.

2. Collaboration: Coordination was established with local authorities, environmental organizations, and community leaders to ensure a unified effort.

3. Resource Allocation: Necessary resources such as cleaning equipment, safety gear, and refreshments were arranged for the volunteers.

4. Volunteer Recruitment: NSS Department of Baburaoji Gholap College mobilized volunteers from the college and the local community.

5. Promotion: The campaign was publicized through social media, flyers, and word of mouth to maximize community participation.

Program Execution:

The Mutha River Campaign unfolded as follows:

1. Inauguration: The campaign was inaugurated with a brief ceremony that paid homage to Mahatma Gandhi and Lal Bahadur Shastri, emphasizing their commitment to cleanliness and community service.

2. Clean-up Drive: NSS volunteers and local residents actively participated in a clean-up drive along the riverbanks, collecting litter and waste materials.

3. Environmental Workshops: Educational sessions were conducted on the importance of river conservation, waste management, and sustainable living practices.

4. Tree Plantation: As a part of the campaign, tree saplings were planted to enhance the green cover near the riverbanks.

Community Engagement:

1. Community Participation: The campaign witnessed a significant turnout, with over 200 volunteers and local residents actively participating.

2. Volunteer Engagement: NSS volunteers exhibited remarkable enthusiasm and dedication throughout the event, displaying a strong commitment to community service.

Outcomes and Impact:

The program's outcomes and impact include:

1. Cleaner Environment: The campaign resulted in the removal of a substantial amount of litter and waste from the Mutha River area, contributing to a cleaner and healthier environment.

2. Awareness: Participants gained a better understanding of environmental issues and pledged to adopt more responsible practices.

3. Community Bonding: The event fostered a sense of community and collective responsibility among the participants.

Challenges Faced:

- Weather conditions were a challenge, but the campaign continued with necessary adjustments.

Recommendations:

For future environmental campaigns:

- Continue collaboration with local authorities and organizations for sustained impact.
- Expand educational outreach efforts to schools and communities.
- Establish regular clean-up and awareness programs to maintain the cleanliness of the river.

Conclusion: The Mutha River Campaign organized by the NSS Department of Baburaoji Gholap College on the occasion of Rashtrapita Gandhi Jayanti and Lal Bahadur Shastri Jayanti successfully achieved its objectives of promoting cleanliness, community engagement, and environmental awareness. The active participation of NSS volunteers and local residents demonstrated their commitment to Mahatma Gandhi's ideals of cleanliness and service.In this activity 32 students have been participated.

Department - National Service Scheme (N.S.S.)

Academic Year: 2019-20

Activity : Voting Awareness Program **Date- 16/10/2019**

Aim:- Educating and raising awareness among citizens about the importance of voting, electoral procedures, and their role in shaping the democratic process.

Objectives:

1. To increase voter awareness and participation in the electoral process.
2. To educate citizens about their voting rights and responsibilities.
3. To promote the importance of informed and responsible voting.

Target Audience:

Eligible voters of all age groups. Community leaders, schools, and local organizations.

Activities:

Voter Education Workshops:

Directed intelligent studios in schools, public venues, and public gatherings. Covered subjects like citizen enlistment, the discretionary interaction, and the meaning of decisions, Conveyed enlightening leaflets and handouts.

Mindfulness Missions: Coordinated mindfulness crusades through web-based entertainment, banners, and flags, Participated in house to house peddling to connect with the local area, used radio and transmissions for more extensive effort

Mock Elections: Held mock elections in schools and colleges to simulate the voting process. Provided hands-on experience to first-time voters. Demonstrated the use of electronic voting machines (EVMs).

Voter Registration Drives: Collaborated with local election authorities to organize voter registration camps. Assisted eligible citizens in completing the registration process. Raised awareness about the importance of having a valid voter ID. The involvement of Dr. Nitin Ghorpade, the Principal, as well as the guidance of Mr. Dnyaneshwar Jambhulkar, NSS Program Officer, and Mrs. Amruta Inamdar, Coordinating Officer, played a pivotal role in the success of this Program initiative.

The NSS volunteers emerged from this Program session. This effort exemplifies the commitment of educational institutions like Baburaoji Gholap College towards voting rights and responsibilities. In this activity 58 students have been participated

Activity Report: Tree Plantation at Tukai Hills, Baner

Date: 20th October 2019

Aim: To enhance the local environment by planting trees, increasing green cover, and contributing to ecological balance.

Objectives:

1) Raising awareness about the significance of trees,
2) Fostering community engagement and promoting sustainable practices among participants.

.

The Tree Plantation Activity was jointly organised at Tukai Hills, Baner, Pune on the 20th of October 2019 by Environment NGO ***Vasundhara Abhiyan***, Baner, Pune and 9 NSS volunteers of P.D.E.A's Baburaoji Gholap College, Sangvi have been participated in this activity. Participation of our college is initiated by NSS Prorgam Officer, Mr D.S. Jambhulkar. Following activities were carried out for achievement of objectives of this program.

Environmental Conservation: The main aim of this tree plantation activity was to contribute to environmental conservation by increasing the green cover in the Banner Hills area. Trees play a crucial role in improving air quality, preventing soil erosion, and providing habitat for wildlife. By planting a significant number of trees, we aimed to reduce the carbon footprint and make a positive impact on the local environment.

Awareness and Education: This activity also aimed to raise awareness among the participating students and the community about the importance of trees and the role they play in maintaining ecological balance. By engaging in hands-on tree planting, students learned about the process, the types of trees planted, and the environmental benefits of their actions.

Community Engagement: The tree plantation activity served as a platform for community engagement. By collaborating with Vasundhara Abhiyan, we aimed to strengthen the connection between the educational institution and the local

Scanned with CamScanner

environmental organization, fostering future partnerships and environmental initiatives.

Promoting Sustainable Practices: We aimed to encourage sustainable practices and environmental responsibility among students. By participating in this activity, students learned the importance of taking care of the trees they planted and the necessity of continued nurturing and protection of these trees.

Inspirational Leadership: The activity provided an opportunity for students to develop leadership skills by taking responsibility for planting trees, organizing the event, and motivating their peers to participate in the activity. This allowed them to grow as responsible and environmentally conscious citizens.

In conclusion, the Tree Plantation Activity at Tukai Hills, Baner was a successful outdoor camp event that not only contributed to environmental conservation but also served as an educational and awareness-building initiative. The event fostered a sense of community and sustainability among the participants, inspiring them to continue their efforts in protecting the environment and promoting green practices.

Name of Activity:- Aids Awareness Programme

Date- 1/12/2019

Aim :- To create awareness regarding AIDS and its consequences and precautions to be taken

Objective:-

- to show global unity against the pandemic and to increase awareness of HIV/AIDS.

Report:

Physical health of students is based on mental health. It is necessary to improve the mental health of the youth, for that it is necessary for them to do regular exercise and yoga. Principal Dr.Nitin Ghorpade said that there is a need to remove the misconceptions about AIDS. A program 'Rashtriya Arogya Abhiyan' was organized in co-ordination with the All India institute of Local Self Government Kothrud, and in association with Nehru Yuva Kendra, Aundh along with Baburaoji Gholap College celebrated the World AIDS Day.

Raising awareness can completely prevent HIV infection. Raising public knowledge of the epidemic's occurrence and spread is therefore crucial to shielding the populace from it. The National AIDS Control Programme places a strong focus on spreading knowledge, education, and communication on HIV/AIDS prevention because of this. Therefore, one of the main focuses of the National AIDS Control Programme is changing people's understanding, attitudes, and behaviors as a means of preventing HIV/AIDS. In this connection Hon. Executive Director of Pune division of All India Institute of Local Self Government SG Chavhan,, Hon.Yashwant Mankhedkar, Dr.Rishi Andhalkar, Principal Rajkumar Tiwatane, Dr.Pradnya Joshi , Mrs. Alpita Patil, Smita Raut, NSS Programme officer Prof.Dnanyeshwar Jambhulkar, Tushar Paigude etc.were present at that time. Programme was co-ordinated by Prof. Jambhulkar, Programme officer of NSS, Mr. Santosh Sasturkar did comparing of the programme, Mr. Govind Namade proposed the vote of thanks.

Aim : NCC Pakhwada Programme-College Campus Cleanness, Swachhata Abhiyan Rally, Statue Cleanness and Shramdan

Objectives: -To create the awareness among the students to know the importance of cleanliness and its benefits.

-To maintain the hygienic environment and inhibit the students to add trash in nearby areas and to teach the values of sanitation.

Report: PDEA's Baburaoji Gholap College Sangvi and 2nd Maharashtra Battalion NCC Pune Jointly organised cleanliness activity and various programs under 'Swatchh Bharat Abhiyan, from 1st to 15th December 2020. The Program was inaugurated by Dr. by Principal Dr. Nitin Ghorpade, while speaking on this occasion he informed the NCC cadets about various social activities and educated them about issues like clean and healthy India, security of the country and asserted that if the young generation carries out a campaign for this, it will help in creating a sense of responsibility among the people. Cleanliness awareness campaign started with the cleaning of Karmayogi Baburaoji Gholap 's statue in college and then cleaned the premises of college, also the Military Defense district training centre Pune. Total **54 (Fifty four) cadets** are participated in this NCC Pakhwada programme. Mr. Vitthal Naikwadi Incharge of NCC co-ordinated the activity, Principal Dr. N.A. Ghorpadesupported it. All the NCC memebers along with college staff and students were participated in it.

Outcome:

- Students learned the values of clealiness and to keep surroundings clean.
- Staff and students awared about trash disposal at right place for processing and keeping environment clean.

घोलप महाविद्यालयातर्फे स्वच्छता पंधरवडा

पिंपरी, दि. १६ (प्रतिनिधी) - पुणे जिल्हा शिक्षण मंडळाचे बाबुरावजी घोलप महाविद्यालय आणि २ महाराष्ट्र बटालियन एनसीसी पुणे यांच्या संयुक्त विद्यमाने १ ते १५ डिसेंबर दरम्यान स्वच्छ भारत अभियान अंतर्गत स्वच्छता पंधरवाड्याचे व विविध कार्यक्रमांचे आयोजन करण्यात आले. या कार्यक्रमाचे उद्घाटन प्राचार्य डॉ. नितीन घोरपडे यांच्या हस्ते करण्यात आले.

यावेळी बोलतांना त्यांनी एनसीसी कॅडेट्सना विविध सामाजिक उपक्रमांची माहिती देऊन देशासमोरील स्वच्छ व निरोगी भारत, देशाची सुरक्षा यासारखे प्रश्नांबाबत माहिती देत, युवा पिढीने यासाठी अभियान राबविल्यास लोकांमध्ये जागृती होऊन जबाबदारीची भावना निर्माण होण्यास मदत होईल, असे प्रतिपादन केले.

स्वच्छता जनजागृती उपक्रमाची सुरुवात कर्मयोगी बाबुरावजी घोलप यांच्या पुतळ्याची स्वच्छता करत महाविद्यालयाचा परिसर, जिल्हा प्रशिक्षण केंद्र, पुणे (आरोग्य विभाग), मिलिटरी संरक्षण भिंतीच्या नजीकचा परिसर स्वच्छ केला. तर, नवी सांगवी, औंध रुग्णालय परिसरात 'स्वच्छता अभियान' फेरीमध्ये एनसीसी कॅडेट्सने भाग घेत भारत माता की जय, एक भारत श्रेष्ठ भारत, बेटी बचाओ, स्वच्छता ही सेवा, कदम से कदम मिलाना है भारत को स्वच्छ बनाना है, स्वच्छता अपनाना है, बीमारी को दूर भगाना है, आदी घोषणा देत व फलक दाखवून स्वच्छतेविषयी जनजागृती केली. तसेच जुनी सांगवी येथील वसंतदादा पाटील, दापोडीमध्ये असलेल्या छत्रपती शिवाजी महाराज स्मारक स्वच्छ केले. डॉ. नितीन घोरपडे व २ महाराष्ट्र बटालियन एनसीसी युनिटने कर्नल एमपीएस मौर्या यांनी मार्गदर्शन केले. या उपक्रमांला डॉ. ज्ञानेश्वर महाजन, प्रा. विद्या पाठारे, डॉ. अर्जुन डोके, प्रा. प्रवीण येवले, प्रणित पावले यांनी सहकार्य केले.

Name of Activity : Special Winter Camp at Dongar Gaon, Tal Mulshi, Pune Date-10-16/12/2019

Aim: Special Winter Camp at Dongar Gaon, Tal Mulshi, Pune

Objective:

-To Make education more relevant to the present situation by supplementing the education of students with community experience

-To Provide opportunities for NSS volunteers to play their due roles in the implementation of various development programs by planning and executing development projects that help create durable community assets in rural areas and slums, and result in the improvement of the condition of weaker sections of the communities.

-To Encourage students and non-student youth to work along with adults in rural areas, thereby developing their character, social consciousness and commitment, discipline, and healthy and helpful attitudes toward the community

-To Build up potential youth leaders by exploring the latent potential among the campers, both students as well as local youth (rural and urban), with a view to involving them more intimately in development projects for longer periods

Outcome: A total of 91 Students have benefited from this activity

Report:

Pune Dist. Education Associations BG College, Sangvi has conducted the Special Winter camp of NSS. Adv. L.M. Pawar Treasurer of PDEA inagurated the programme. On this occasion Sarpanch Suvarna Durge of village Dongargoan was present. Principal Dr.Nitin Ghorpade gave the introduction. Adv. L. M. Pawar appealed to the students to lead a happy life instead of living under stress and anxiety. This time Prof.Mahadu Bagul, Prof.Dnyaneshwar Mahajan, Prof.Rushikesh Nadhikhile, Prof. Kalyani Shitale, and Prof.Saddam Hussein Ghatwale were present. Prof. D.S. Jambhulkar was introduced. Dr. Amruta Inamdar moderated the activity and Dr.Arjun Doke proposed the vote of thanks.

Programs held during this camp are as follows:

Creation of Continuous Contour Trenches (CCT) which can store 2.5 lakh litre water in 10 rains at Dongargaon.

Awareness activities: Campus Cleaning, Created awareness of Water Management, Local Resource management, Village Survey

Organization of Guest lecturers to create awareness regarding the Role and Responsibilities of NSS Volunteers, the Role of NSS in Personality Development, Benefits of Exercise, Disaster Management, etc.

Daily activities: Yoga, Pranayam, and Exercise.

Cultural Program: Awareness through Bharud, Singing Competition, Talent Hunt Program, Musical Chair, and Drawing Competition for school students.

ACKNOWLEDGEMENTS

I am grateful to authorities of Pune District Education Association for their kind support and encouragement for this kind of work. I am grateful to my fellow colleagues for their enthusiasm and interest in my dream work of village surveys. I would like to express my deepest feelings of gratitude towards the authorities of village Kusgaon for providing support throughout filed surveys. I also express my profound gratitude to teaching, technical and non-teaching staff members of Baburaoji Gholap College for supporting in my interest. I would also like to express my gratitude towards the village leaders for providing me access to the study area.

I am thankful to all those who directly or indirectly helped and contributed at various stages of this work.

Prin. Dr. Nitin L. Ghorpade

CHAPTER-1
INTRODUCTION

The living standards of people in rural areas of Maharashtra has limited dimensions. The facilities available in rural areas are limited, and access to these facilities is another problem. To understand the ground reality about the facilities and resources available in rural areas, our college has decided and undertaken the village surveys in Mulshi Tahsil of Pune District. The idea of village survey was conceived by Hon. Prin. Dr. Nitin Ghorpade. Under his able guidance, the college has selected the village Dongargaon in Mulshi Tehsil of Pune District (Maharashtra).

The college has designed a questionnaire to obtain relevant information from the villages. The information was collected through student's participation. A detailed enquiry on village facilities was conducted. The surveys on village facilities included questions on availability of nonconventional energy sources, electricity, drinking water, irrigation and drainage systems, cooperative societies and self-help groups was enquired into, and also whether any Government development schemes relating to drinking water, housing, sanitation, approach road, employment generation, pension, literacy, etc., was in force. The distance of the villages from the nearest bus stop, railway station, market, primary school, hospital, etc., and from facilities for the disabled was also recorded. The results of the enquiry on village facilities are presented in this report.

CHAPTER-2

HISTORICAL REVIEWS

Jitendra Wadshingkar and Savitri Jadhav

Department of History

Aim: To study the historical importance of the village.

Objectives: To study the local history of the village as well as the social, economic, cultural, and religious life and traditions of the people.

Assumptions: Following assumptions have been made in relation to the study of the selected village.

1) In spite of being close to Pune the village has not made much progress.
2) The village lacks modern amenities.
3) Due to social change, people appear to be living in harmony.
4) Even though the youth of the village has migrated to city areas for employment, there has not been a very big change considering economic progress.

Introduction:

Every individual possesses the desire to understand his/her past. It is necessary to know the past of our respective village, otherwise how does one expect to understand the history of one's own country? This paper focuses on the study of the history of the village of Dongargaon. The study of history through the pyramid method involves the study of the world, continent, country, state, district, taluka and finally the village. Through this study, one forms the history of the nation. This is why the study of the village of Dongargaon has been taken up.

The history of kings, their lives and kingdoms are a thing of the past and can now only be found in books. Also, the subject matter of history has expanded. The scope of history is widening.

Local history is a subtype of history. The objective here is to study the local history of Dongargaon, its social, political, economic life and the customs and traditions of its people.

Historical background of Dongargaon

Dongargaon is a village in Mulshi surrounded by hill ranges. Dongargaon was a part of these hill ranges and hence the name- 'Dongargaon'. Following information came to light after meeting with the residents of the village. The village had a Bhairavnath temple due to which the residents faced obstacles. The village was then moved to the foot of the hills and the new village was given the name- Chikhalgaon. Primarily, there are three villages in this area- Chikhalgaon, Lolwan, Dongargaon. These villages have changed and increased in expanse between the periods of 1960-2019. Maharashtrian rural life is closely related to village life. The village being a self-sufficient unit, and its changes over the ages help us understand its social, economic and political life.

Social life in the village:
The village has seen progress since ancient times. We find the existence of the joint family system which is patriarchal in nature. Members in the family are found to be living in harmony. Social life is intimately connected with economic life. Each and every caste is treated equally, thus allowing for a peaceful environment in the village. We do not find any caste divisions.

Housing structure:
Chikhalgaon, on account of being surrounded by hill ranges experiences a lot of heavy rain. This is why the houses have a sloping roof. We do find some modern structures here and there to some extent. Some houses are built with cement and concrete.

Economic life:
The main occupation here is rice cultivation (paddy). Supplementary occupations include dairy and animal husbandry. The village has only one grocer (kirana). Since the village is small, weekly markets are not held. A weekly market is held at a place called Kolwan which the residents visit. The youth of the village seem to be attracted to the city life in matters of employment. The village might benefit from this economically. The village has an elementary school comprising of classes from first to fourth standard. The schools are computerized. The present school was set up in 1972. Children have to go to Kolwan and Paud to complete their high school education.

Religious life:
The village holds importance from religious point of view as it has three temples of the following deities- Bhairoba, Datta and Vitthal-Rukmini. The main local deity is Bhairoba. The religious fair in devotion to Bhairoba takes place in March. One week is kept aside every year for worship at the temple of Vitthal and Rukmini. Religious songs such as bhajan and kirtan are sung. The event of ‘Mahaprasad’ is organized. Other festivals are celebrated in the village with enthusiasm. People of all castes come together. The village has established a Ganpati Mandal.

Political life:
Considering the period between 1960 and 2019, the village has only 57 houses. Population is 1030. Three villages are brought together to form a gat gram panchayat. Keeping in mind the small population and expanse of the villages, “Bhagwanchandra Gaikwad” was elected as the member of the Gram Panchayat. Other civil boards are active in the village as well. Gaikwad, who has been elected to the position of the Sarpanch belongs to a Scheduled Caste.

Conclusion:
The village under study has not seen a lot of development due to its geographical location on a hilly terrain.
Its technological backwardness has hindered the progress of the village.

Educational facilities need to be developed.
The village, especially the women of the village are in need of social progress.
The youth of the village is attracted to urban life due to its employment opportunities. Their migration can reduce if the village is developed well.
The people of the village face many obstacles due to the fact that they live in a hilly terrain. They have overcome all these obstacles- a credit to their hardworking and stubborn nature.

Solution:
The village is in need of implementing 'pani adva pani jirva' as the village experiences frequent heavy rains.
The village is in need of environmental awareness.
Economic progress of the village is of the need.

CHAPTER-3

LIVELIHOOD AND ETHNICITY

M.M. Bagul

Department of Marathi

प्रास्ताविक:

डोंगरगाव महाराष्ट्रातील पुणे जिल्ह्यातील मुळशी तालुक्यातील छोटेसे गाव आहे. या गावाच्या चहुबाजूने सह्याद्रीच्या पर्वतरांगा आहेत. निसर्गाच्या कुशीत डोंगरगाव वसलेले आहे. या गावाची कुटुंब संख्या **१८०** इतकी वास्तव्यास असून या गावाची लोकसंख्या **८६०** इतकी आहे. या पैकी अनुसूचित जाती. ८७ आणि अनुसूचित जमाती ११ इतकी लोक्संध्या आहे. गावात चौथी पर्यंत जिल्हा परिषद प्राथमिक शाळा आहे. त्यामुळे पुढील शिक्षणासाठी मुलांना दुसर्या गावी किवा पुणे शहरात जावे लागते.

गावात समान 'कुळी' म्हणजे 'जोरी' या आडनावाची कुटुंबे प्रामुख्याने आढळून आली. गावामध्ये एकत्र कुटुंब पद्धती कमी प्रमाणात दिसून येते. गावातील तरुण मंडळी रोजगाराच्या निमित्ताने शहराकडे स्थलांतर झाली आहे आणि वृद्ध मंडळी गावात राहण्याचा प्रमाण जास्त आहे. घराची रचना हि एका राषेत नाही तर अस्थ्वेस्थ स्वरुपात आहे. या गावातील महिलांच्या व पुरुषांच्या पोषाखामध्ये नागरी संस्कृतीचा प्रभाव दिसतो. डोंगर्गाव्व्या परिसरात पावसाचे प्रमाण जास्त असल्यामुळे गावातील प्रमुख पिक भात आहे. या गावाची लोकसंस्कृती लोकगीते, लोककथा, सणउत्सवाची गाणी हळू हळू लुप्त होत चालली आहेत.

उद्दिष्ट

१)गावातील लोकसंस्कृती आभ्यास करणे.

२) लोकजीवनातील होणारे परिवर्तन तापुसून पाहणे.

३) प्रसार्माध्म्मामुळे बोली भाषेवर पडलेला प्रभाव.

आभ्यास पद्धती:

सदर लोकवाङ्मयाचा आभ्यास करताना मुलाखती, चर्चा आणि निरीक्षण या पद्धतीचा वापर केला.

लोकगीते:

मौखिक परंपरेने ओवीगीत त्या निर्मितीमागे असलेल्या संस्कारित मनाचे प्रतिबिंब ओवीगीतामध्ये दिसून येतात. जात्यावर दालन दळीत असताना अनेक ग्रामदैवत देवांविषयी, यांचे चित्रण हि ओवी गीतात दिसून येते. ह्या गीतातून जीवनातील सुख्दुखाच्या चानांचा अविष्कार ओविगीतातून आली आहेत. 'जात्यावरील' ओवी गीत गात असताना भक्तीचा आनंद मिळावा म्हणून अनेक ओव्यातून पंढरपूरचा विठ्ठल, अजंनी मत, हनुमान, भीमाशंकर, त्रिंबक राज्याल, महादेव पवर्ती, या देवतांचे वर्णन ओविगीतातून दिसून येते.

सरीला दळण माझ्या सुपात केवढा ग
पंढरीचा देव माझ्या भाबडा ग
सरली दळण खाली राहिली पायली ग
सोन्याची पांच फुला अंजनी मातेला वाहिली ग
सरली दळण खाली राहिली आठवा ग
सोन्याची पांच फुला भीमाशंकरलामातेला वाहिली ग
सरली दळण खाली राहिली शेर ग
सोन्याची छत्री त्रिंबक राजाला वाहिले ग
सरला दालन खाली राहिला पाच मुठ्ठी ग
मारुती देवाला वाहीन शेंदराची उटी ग
डोंगराच्या कळसुबाई जातेच्या माने मंधी फिरते ग
जातेच्या फेऱ्यामंधी फिरते महादेव ग
जात्याच्या शेंड्या मध्ये फिरते पार्वती ग
सरील दळण ग माझ्या सुपात केवढा ग
सरील दळण हात भरील चुद्यान ग

वरील गीतातून दळण दळतअसताना महादेव, पार्वती, मारुती, इ. देवतांचे नावे घेऊन जाते वाढण्याचे कष्ट कमी व्हावे म्हणून देवाचे नाव घेऊन ओवी गीते म्हटली जातात. परंतु आज जात्यावरील ओव्या अहिसे झाल्या आहेत. कारण जात्या एवजी पिठाची गिरण आली आहे. उखळ एवजी मिक्सर आले. चूल एवजी गॅस असे कितीतरी शब्द आज अजीबाईच्या व्यवहारात बोलत आहे.

डोंगरगाव परिसरातील बोलीवर प्रभाव:

आज शिक्षण, प्रसारमाध्यम, जागतिकीकरण वैज्ञानिक शोध व वाढता विकास यामुळे अनेक नागरी आणि पाश्चात्य संस्कृतीचा प्रभाव डोंगरगावाच्या बोलीवर पडलेला दिसतो आणि तो सहज लोकांनी स्वीकारले. न्याहारी एवजी नस्ता, संडासला गेले एवजी टॉलेटला गेले, पंजाबी, सूट, पेस्ट,

परकर, गाऊन, कंडक्टर, ब्लाउज, बिस्किट, कार, बस, तिकीट, चेक, पेमेंट, सिलेंडर, कुलर, टेबल असे कितीतरी शब्दांचा ग्रामीण बोलीमधून पहावयास मिळते.

मुळशी तालुक्यातील बोलीभाषेवर प्रसार माध्यमाचा फार मोठा प्रभाव दिसतो इंग्रजी, हिंदी मराठी या भाषांचा प्रभाव पुढील प्रमाणे दिसतो. उदा. star प्रवाह, माझा, IBM लोकमत, ETV वाहिनी, व्हील, स्मार्ट सुनबाई, डॉक्टर, क्लोजप, नॉनमॉटरीक सुपर डान्सर, BREAKING NEWS OK YES रेडिओ, मोबाईल, कॉमप्यूटर, सीरिअल, sms, message, delete, contacts, image, menu, inbox, sent, erecharge, sound, clops या सारखी कितीतरी शब्द डोंगरगावग्रामीण बोलीतून येऊ लागली आहे. आज खेड्यापाड्यात सुधा वर्तमानपत्रापेक्षा आकाशवाणी आणि दूरदर्शन, मोबाईल या प्रसारमाध्यमांचा जास्त प्रभाव दिसतो. कारण दूरदर्शनच्या माध्यमातून लोककलावंत व अभिजन कलावंत, शहरीभाषा, ग्रामीण भाषा, परप्रांतीय भाषा, पाश्चात्य भाषा. विविध बोलीभाषांचा प्रभाव डोंगरगाव परिसरातील बोलीभाषेवर पडलेला दिसतो.

निष्कर्ष:

- बोली भाषेतील काही शब्द लुप्त होत आहेत.
- लोककथा, लोकगीते, लोककला आणि म्हणी हे लोकवाङ्मय यामध्ये परिवर्तन झालेले दिसले.
- रोजगार नसल्यामुळे तरुणांचा शहराकडे ओढ असल्यामुळे ग्रामसंस्कृती व कृषीसंस्कृती नाहीशी होत आहे.
- या गावात सरकारी योजना नसल्यामुळे अस्वच्छता, रस्ता, आरोग्य केंद्र, शाळा यांची समस्या जाणवली.

CHAPTER-4

POLITICAL VIEWS

Nanda A. Rashinkar and Prajakta Kumbhar

Department of Politics

Aim: To Study the Social Political States of Dongargaon

Objectives:

1) To study the politically active participation of the people of Dongargaon village.
2) To check the government schemes role in the social development of Dongargaon village.
3) To study the Project implemented by Grampanchayat for the development of the village.

Hypothesis:

1) The People of Dongargaon are aware of politics
2) The development of has been done by the implementation of government scheme
3) The participation of the political leader in the development of Dongargaon.

Research Methodology:

Dongargaon's political and social a case study conducted by conducting interviews with villagers. The political situation has been studied. Observation and government report are studied by primary and secondary studied by means.

Introduction:

Dongargaon is a village in Mulshi taluka of Pune district. The structure of the village is the lower place and upper place in the way. Mountain On the three sides of the village and the river is SSone side. There is a one meter narrow bridge over the river to get to the village.

Social status:

The population of Dongargaon as per census of 2011 is 860. Only huge pass rainfall in this area. This village has all the caste population. The Hindus and the Buddhist.

Table 4.1: The caste wise classification of the citizens of Dongargaon

Sr. No.	Caste Group	Population	Percentage
1.	Unreserved	762	88.66%
2.	Scheduled Caste	87	10.11%
3.	Schedule Tribe	11	1.27%

Table 4.2: Female and Male gender classification

	Male	Female	Total	Percentage
Total	444 (51.62)	416 (48.37)	860	100%
Unreserved	394 (51.70)	368 (48.29)	762	88.66%
Scheduled Caste	46 (52.84)	41 (47.12)	87	10.11%
Schedule Tribe	4 (36.36)	7 (63.63)	11	1.27%

There is no mention of the number of OBCs in the census of 2011. In unreserved category the proportion of Marathas among the citizens is 88.66%. The proportion of Scheduled Castes citizens is 10:11. It Includes Buddhist religious citizens. The population of Buddhists is very close to the main population. Among Buddhist population the person name Bhagwan Gaikwad is building a temple from his own money for the sake of the people. Dalit and Maratha community the opinion of the villagers (reference interview Namdev Maruti Pasalkar) was also suggested that the communities are live separately. There are three temples for the people of unreserved category (Gramdaivat Bhairoba, Vitthal Rukmini, Datta Mandir).

Participation of Women in Business:

There are two women's Self Help groups in the village. Most women do housework, farm work, and so on. Quick Poultry farming and dairy are practiced in two to three houses. For women, the literacy rate is 63.49%.References Bhagwan Gaikwad has been appointed Sarpanch in the Scheduled Castes group.

Political Studies – Constituency:

Preface:

Dongargaon village belongs to the Legislative Assembly of Bhor Constituency. Sangram Anantrao Thopate is a member of the Bhor Constituent Assembly. Dongargaon comes under Baramati Lok Sabha constituency. Right now Supriya Sule is a member of the Baramati Lok Sabha constituency.

Gram Panchayat - Group Gram Panchayat Kolvan:

Kolvan, Hotale, Dongargaon, together with three villages, are located in the Group Gram Panchayat at Kolvan. This Gram Panchayat was established in 1965. Presently, Mrs. Kavita Sudam Dunde is the Sarpanch. Sarpanch post an open group woman is given the opportunity, even for the male open group (Reference Interview Bharat Satpute). Mrs. Shobha Narayan Jori is the Deputy Sarpanch. The choice of Sarpanch and Deputy Sarpanch is always elected without conflict (Reference Interview Bharat Satpute Dt. 7/10/2019). Both positions are currently women of unreserved category. According to the Gram Panchayat Act all persons belonging to the caste group are in the Gram Panchayat. The member's tribal community of the present Gram Panchayat is not included.

Political participation of women:

The political participation of women in Dongargaon is voting in the Gram Panchayat elections, running the office of Gram Panchayat through Contesting the election of Gram Panchayat, work as a member and office holder of gram Panchayat. Currently, there are women in both the posts of Sarpanch and Deputy Sarpanch.

Dongargaon Development:

Gram Panchayat was established in 1965 with three villages of Dongargaon, Kolvanand Hotale. The Gram Panchayat has done many development works through the Development Fund. Priority given to the roads, electricity, water, education.

1. Wells are created from Swajaldhara Yojana. Drinking water is made available through tapes.

2. The standard of education in the village is from 1st to 4th. The Knowledge Design Debate Program was organized.

३. The program "Advanced Education Maharashtra" is implemented.

४. A nutritious diet plan is implemented.

५. During the period of Ashok Mohol Member of Parliament the bridge was constructed on the river about 20 years ago, earlier, a river walk or a boat was used to enter the village.

Conclusion:

१. The highest proportion of open-group citizens. (Maratha Samaj)

२. Hindu religious ratio is high. - Muslims religious are not present.

३. Women are involved in the political process.

४. Women are led by the Gram Panchayat.

५. Many development works have been done in the village through various schemes.

Observation:

4. There are various parties in the village, but the NCP is the influence of this party.
5. Gram Panchayat made improvements in water, electricity, bridges.
6. The Gram Panchayat elections were unopposed.
7. Development is done through various schemes of Government.
8. Muslims are not present just Hindus and Buddhists.
9. Education is available only up to 4th standard.
10. There is no electricity in the village for 2 days a week. Toilets are constructed by villagers at their own expense.
11. There is no employment except rice cultivation.
12. There is no business with saving groups.
13. According to this concept of Digital India, Gram Panchayat has computer, internet facilities. But Lack of electricity and lack of trained staff, due to this work is not

Suggestions:

१. The village should have access to education.

२. To go to the village, the bridge needs to be repaired.

List of interviewers:

1 Eknath Jori
2) Gajanan Jadhav – Member
3) Namdev Maruti Pasalkar
4) Rupali Shejwal – (Gram Panchayat Staff) ,
5) Ankush Kanojeere
6) Bharat Satpute
7) Bhagwan Gaikwad - (Former Sarpanch)

CHAPTER-5

SOCIO-ECONOMIC SURVEYS

Arjun Doke

Department of Geography

Location:

Dongargoan is lactated in Mulshi tehsil of Pune district in Maharashtra state, India. It is situated 14 km away from sub-district headquarter Paud and 45 km from district headquarter Pune. Kolwan is the gram panchyat of Dongargaon village. Extend village Dongargoan is 73° 30′30″ E to 73° 34′00″ E longitude and 18° 33′00″ N to 18° 34′00″ N latitude (**Figure 5.1**). Total geographical area is 634 hectare as around the more than 6km^2.

Population characteristic:

Dongargoan local language is Marathi. As per the 2011 census the total population is 860 and total household are 180. Female population is 416 (48.40%) and male population is 444 (51.60%). Village Facility: Village have one ATM. One Post office, three fare price shop, one Milk Cooperative/Collection Centre, one Bus Stop, five Common Sanitation complexes.

Land use: Forest cover 1400 acre area of village Dongargoan. The agriculture covers 240 acre area. Area under water bodies is 10 acre. Common lands cover 10 acre area of village Dongargoan.

Cropping Pattern: Rice, Wheat and Sugarcane is main crop in the village Dongargoan. The Bore well and River is main source of irrigation. The irrigation method is Drip and Flooding.

Livestock Assets: Total number of livestock is 103. Average daily production of milk 90 litres and total animal waste is 56 kg per day.

Occupation Pattern: The 62 male and 44 female working with your own land. Skilled Wage Workers 4 within 3 male and 1 female. Unskilled wage workers 29 within 24 male and 5 female. Salaried Employment in private sector is 6 within 4 male and 2 female.

Average annual income: The average annual income of SC category is Rs. 27857. OBC category is Rs. 40000 and General category is Rs. 29711.

Energy Source: The village Dongargaon have 100 percent registered electricity connection.

CHAPTER-6

NATURAL RESOURCES: PLANTS

D.M. Mahajan and R.B. Bhagat

Department of Botany

The idea of village survey was conceived by Hon. Prin. Dr. Nitin Ghorpade. Under his able guidance, the college has selected the village Dongargaon in Mulshi Tehsil of Pune District (Maharashtra). Department of botany have carried out a survey for plant diversity and its significance on 7th October 2019. It was a great experience for students who learnt lot many things while working with the local people. In all three teachers and three students were involved in the survey.

Students Involved:

1. Kamble Pradnya Rahul SYBSc
2. Nikam Sapana Sadashiv SYBSc
3. Shinde Manasi Tanaji SYBSc

Introduction:

India is one of the 12 mega-biodiversity countries of the world. Majority of the rural population in India is directly dependent on biodiversity and ecosystems for almost their entire basic needs: water, food, medicine, clothing, housing etc. Western Ghats is one of the 34 biodiversity hotspots of the world. The Western Ghats are exceptionally rich in plant and animal species. Unfortunately, due to heavy human pressures this tremendous biodiversity is getting destroyed fast. Water resources are drying up and getting less in quantity for the growing population.

This region is rich not only for wild biodiversity but also for the crop species and varieties. We had many local varieties of crops and fruit plants of which we had very high diversity. Our natural areas are rich treasure of medicinal plants. The local people were aware of its use. The forests are overexploited due to high developmental pressures, encroachments for agriculture, dams etc. The forests are an important source of many ecological services. Now a days, we are facing the consequences (floods, landslides, threats to wildlife, loss of endemic species, etc.) of forest degradation. We have fragmented our forests, as a result the plant diversity is declining. Decline in forest resources is linked to poor quality life in villages. This further results in large scale migration to urban areas. The unplanned development in this region is harmful to the ecosystem and biodiversity; and therefore, any kind of development being proposed in Western Ghats should be responsive to the fragility and rich biodiversity.

Hypothesis:

Our villages are exceptionally good in natural resources such as plants, crops, animals, medicinal plants, soils, water, etc. Unfortunately, due to heavy anthropogenic

pressures these enormous resources are getting destroyed fast. Biological resources are vanishing fast due to uncontrolled encroachments and exploitation. Water resources are drying up and getting less in quantity for the growing population. So, to understand the current status of these resources, our college has decided to survey these resources through the participation of students and teachers.

Aim:

Documentation of plant diversity of village Dongargaon, Tal Mulshi (Part of Northern Western Ghats)

Objectives:

To prepare the plant species checklist of village Dongargaon
To enlist endemic and RET species
Documentation of ethno-botanically important and wild vegetable plants
Documentation of agricultural crops.

Materials and Methods

Study area: Dongargaon

The surveys for plant biodiversity assessment were conducted in and around the Dongargaon village (Mulshi) of Pune District. The village lies in the Western Ghats; Mulshi valley and located at 18° 34’ 14” N latitude and 73° 32’ 28” E longitude; and situated approximately 62 Km from Pune. The general topography of the area is hilly with steep slopes to undulating land. It slopes towards north-east direction. It is marked with isolated agricultural farms and a river. The main land use pattern is single crop agriculture, settlements and reserved forest. The average elevation of land surface is observed to be 600 m above the MSL.

Plant surveys

We prepared a simple plan for plant diversity studies at village level with the help of our students. The plan was carried out experimentally with the participation of students and teachers. A reconnaissance survey was carried out to have an overview of the species composition of the area. The surrounding area exhibits a land use pattern that mainly consists of reserved forests and agricultural land with sparse trees on the bunds. The reserved forests and agriculture fields were interspersed with settlements. The sampling locations were determined by considering the land use pattern. The geology, topography, climate and the soil have a close bearing on the nature of vegetation. These features were taken into account while selecting the sampling sites.

The biodiversity surveys were conducted to document the terrestrial and aquatic flora of the area. The area is dominated more or less dense vegetation with diverse species composition. Intensive field surveys were made for documenting the various floral species. We used random walk method for listing the floral species. More emphasis was given to document and quantify the maximum possible number of species.

Identification

The methods followed in the field were based on the procedure outlined in 'The Flora of Maharashtra State' and 'Flora of Khandala'. The floristic studies were based on extensive exploration of the village area. The field surveys involved the preparation of an inventory of different species of plants including trees, shrubs, climbers, and herbs in the area. All plant species were identified with the help of expert taxonomist and literature published by Botanical Survey of India. Observations were also made on the agricultural patterns, agricultural weeds and cultivated and introduced plant species.

Observations and Results:

The topography of Dongargaon village is almost hilly with undulating to steep slopes. The natural vegetation/ forest type in this area is moist deciduous. Large to medium-sized trees along with shrubs constitute majority of the vegetation. Diversity of herbaceous species is always more in monsoon months and declines as the rainy season recedes. The summers are hot and dry.

As per Champion and Seth (1968) the forest type is Subgroup 3B/C2. Forest canopy is almost fragmented. Trees attain height of 20 to 25 m or more. The dominant species are moist deciduous in nature. Relatively small number of species together form the greater part of forest canopy and relatively pure association are frequent. Some evergreen species are dominant, but they are few. These species provide more or less evergreen appearance throughout the year.

The hillsides are covered with dense mixed forest. Epiphytes are infrequent in appearance. Climbers are frequent. The undisturbed soil supports more or less evergreen shrubs. Especially the *Carvia callosa* forms large thickets on slopes, and *Carrisa congesta* on gentle slopes. The main composition of these forest is – *Syzygium cumini, Bridelia retusa, Mangifera indica, Terminalia elliptica, Terminalia chebula, Terminalia bellirica, Ficus racemosa, Ficus nervosa, Bombax ceiba, Lagerstroemia lanceolaria, Mallotus philippense,* and the undergrowth of shrubs like *Ixora, Flacourtia, Catunaregum, Carrisa, Gnedia glauca, Leea asiatica,* and *Pogostemon benghalensis* along with few other species. The only bamboo species was *Dendrocalamus strictus*. Here and there it forms virtually pure patches in the hills. The epiphytic orchids reported include *Aerides crispum, Rhynchostylis,* and *Dendrobium*.

Total number of subspecies, species, genera, families:

Flora refers to the plant species occurring in area. The extensive field surveys (supported by literature surveys) resulted in documentation of 560 plant species. The taxonomic distribution of documented plant species is illustrated in **Table 6.1**, and **Annexure-I** (Check list of flowering plants). The list includes the botanical name of species, habit, family, and status.

Table 6.1: Taxonomic attributes

Plant Type	No. of Species	No. of Genera	No. of Families
Angiosperms	560	358	90
Pteridophytes	11	09	09
Bryophytes	10	09	08
TOTAL	**581**	**376**	**107**

The documented species belonged to 376 genera and 581 species of 107 families (including Angiosperms, Pteridophytes, and Bryophytes) indicating the floristic richness of Dongargaon. The most dominant group is Angiosperms having 560 species that are distributed in 358 genera and 107 families. Other groups also represented very well forming a unique amalgamation of flora and vegetation. Among angiosperms the most represented family (**Table 6.2**) was Fabaceae (59 species), Asteraceae (45 species), Poaceae (40 species), Acanthaceae (25 species) and Euphorbiaceae (24 species). Similarly, the most abundant genera (**Table 6.3**) were *Ficus* (12 species), *Ipomoea* (10 species), *Acacia* and *Euphorbia* (9 species each), *Cassia*, *Impatiens and Indigofera* (7 species each), *Alysicarpus*, *Crotalaria and Grewia* (6 species each).

Table 6.2: Abundant families

Family	No. of Species
Fabaceae	59
Asteraceae	45
Poaceae	40
Acanthaceae	25
Euphorbiaceae	24
Convolvulaceae	23
Lamiaceae	16
Mimosaceae	16
Moraceae	14
Malvaceae	13

Table 6.3: Abundant genera

Genus Name	No. of Species
Ficus	12
Ipomoea	10
Acacia	9
Euphorbia	9
Cassia	7
Impatiens	7
Indigofera	7
Alysicarpus	6
Crotalaria	6
Grewia	6

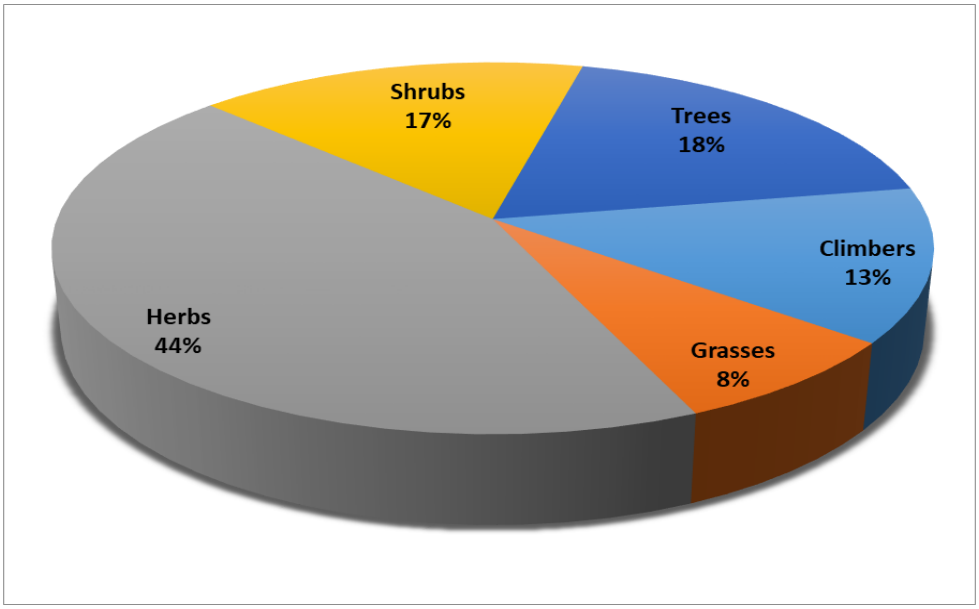
The habit-form wise analysis (**Figure 6.1**) presented a predominance of herbs (44%) and trees (18%) followed by shrubs (17%), and climbers (13%) and grasses (8%). The Pteridophytes and Bryophytes are represented by 11 and 10 species respectively.

Lower group flora:

Cryptogams have a fundamental role in ecosystem function. They play central roles in the formation and stabilizations of soils, the decomposition of dead organic material and nutrient cycling. They form symbiotic relationships with most vascular plants and are an important food source for many other organisms.

The lower group of plants needs very specific habitats and environmental conditions. Ecologically, these are probably most important as primary colonizers and stabilizers. They are very sensitive to their habitats. The Dongargaon village provides a good habitat for lower flora.

Figure 6.1: Distribution of habit-forms of plant species



Pteridophytes:

The Pteridophytes have an important and subtle ecological role, both in water-retention and stabilizing mobile surfaces like landslips, and scree slopes. They provide shelter and humidity for a remarkable diversity of invertebrates. Pteridophytes are an integral part of the food web in many of our important habitats. The Pteridophytes documented in this area are listed in **Table 6.4**.

Table 6.4: List of Pteridophytes

Botanical Name	**Habit**	**Family**
Adiantum incisum	Herbs	Adiantaceae
Adiantum lunulatum	Herbs	Adiantaceae
Cheilanthus albomarginata	Herbs	Cheilanthaceae
Lycopodium sp.	Climber	Lycopodiaceae
Pleopeltis sp.	Epiphytic herbs	Polypodiaceae
Pteris biaurita	Large herbs	Pteridoideae
Azolla pinnata	Aquatic herbs	Salviniaceae
Selaginella ciliaris	Small Herb	Selaginellaceae
Selaginella delicatula	Suberect herb	Selaginellaceae
Tectaria sp.	Herbs	Tectariaceae
Nephrolepis sp.	Herbs	Thelypterideae

Bryophytes:

Bryophyte is a collective term for mosses, liverworts and hornworts. Bryophytes have fragmented distributions. Bryophytes are typically associated with more moist habitats where they grow on soil, tree trunks and branches, fallen timber, debris and rocks. Many of them are found only in small scattered and isolated populations of very small numbers of plants with little ecological resilience and apparently not capable of spreading to other un-colonised but seemingly suitable areas. This presents particular conservation problems. The bryophyte flora of the village is moderately rich. This region provides good micro-habitats for the growth and survival of bryophytic flora. The bryophyte species that are documented during field work are listed in **Table 6.5**.

Table 6.5: List of bryophytes

Botanical Name	**Family**	**Habitat and Distribution**
Antheceros erectus	Anthocerotaceae	Damp soils
Asterella sp.	Aytoniaceae	On calcareous walls
Plagiochasma sp	Aytoniaceae	On wet rocky or soil surface
Bryum sp.	Bryaceae	On calcareous soils and walls
Cyathodium sp.	Cyathodiaceae	Wet and damp cutting of hill and rock
Notothylas sp.	Notothyladaceae	Damp plaines
Pogonatum sp.	Polytrichaceae	Laterite soils
Riccia discolor	Ricciaceae	Moist soils, shady and exposed places
Riccia glauca	Ricciaceae	Moist soils and stream banks
Targionia sp.	Targionaceae	Damp soils

Threatened and Endemic Species:

As the village area falls in Western Ghats, it represents fairly good number of endemic and threatened plant species. The list of endemic and threatened plant species is provided in **table 6.6**. In all 35 species fall in a category of ‘endemic to India’, out of which 7 are in vulnerable category of Botanical Survey of India and IUCN, 04 are at lower risk, and only one is endangered. Six species are endemic to Maharashtra, out of which one is under vulnerable category and two are under lower risk. Out of remaining 6 species that are not endemic, one in vulnerable status, 4 are under lower risk and 01 least concerned.

Table 6.6: Threatened and endemic plant species.

EI: - Endemic to India; EM:- Endemic to Maharashtra; VU: Vulnerable; EN: Endangered; LR:- Lower Risk; LC: Least Concerned

Ecosystem Service:

Most of the ecosystem services on which we and much of the agricultural system rely are being degraded or overexploited. Unpredictable weather, floods, overuse of chemical fertilizers and declines in soil fertility are severely impacting our agricultural system. The degradation of ecosystem services such as freshwater provision, climate regulation and soil fertility clearly has implications for the long-term viability of the businesses dependent on them.

Ecosystem services – also called 'ecological services' are the benefits that people obtain from ecosystems. Examples include freshwater, timber, climate regulation, and protection from natural hazards, erosion control and recreation.

Provisioning services:

Food: Crops, Livestock, poultry, Wild foods
Timber: *Terminalia, Lagerstroemia, Tectona, Haldina, Mitragyna,* etc.
Biomass fuel: Fuel wood and charcoal, grain for ethanol production, dung
Fresh Water: Freshwater for drinking, cleaning, cooling, and household purpose.
Genetic Resources: Genes used to increase crop resistance.
Bio chemicals: Medicines, biocides, food additives
Natural Medicines: crude drugs obtained from plants
Pharmaceuticals: Nothapodytes, Gloriosa, Chlorophytum, Camptothecin as basis for cancer drugs, extracts used for pest control.

Regulating services:

Air quality regulation: Water body and vegetation as carbon sink.
Water quality regulation: Permeable soils facilitate aquifer recharge. River floodplains and wetlands retain water.
Climate regulation at global and regional scale: Forests (capture and store carbon dioxide).
Water purification and waste treatment: Wetlands remove harmful pollutants from water by trapping metals and organic materials. Soil microbes degrade organic waste, rendering it less harmful.
Disease and pest regulation: Predators from nearby forests – such as bats, toads and snakes – consume crop pests.
Pollination: Bees from nearby forests pollinate crops.

Cultural services:

Recreation and ecotourism: Hiking, camping and bird watching.
Ethical values: Spiritual fulfilment derived from sacred lands and rivers.

Supporting Services:

Nutrient recycling: Decomposition of organic matter contributes to soil fertility.
Primary production: Plants transforms sunlight and nutrients into biomass, thereby forming the base of the food chain in ecosystems.
Water cycling: Transfer of water from soil to plants, plants to air, and air to rain.

Agriculture:

Traditional farming and terrace farming, especially paddy fields, were observed in the village area. Agriculture is the traditional occupation of local people in Dongargaon. The traditional agriculture is still under practice at some places, where the crops like *Eleusine coracana* are produced. The main land-use around the village is farming, mainly cultivated with crops like Rice (*Oryza sativa*), and Chana (*Cicer arieatinum*). The other crops taken are *Eleusine coracana* and *Amaranthus hybridus*. **Table 6.7** lists the various crops cultivated in the village. The leafy vegetable crops are *Spinacia oleracea, Raphanus sativus, Coriandrum sativum,* and *Amaranthus sp.* A number of local varieties/ landraces of rice, and ragi are cultivated occasionally.

The important fruit plants are *Mangifera indica* (Mango), *Psidium guajava,* and *Syzigium cumini* (Jamun). The wild fruit species are *Ziziphus mauritiana, Emblica officinalis,* and *Cordia dichotoma*. The farms are interspersed with human habitation, villages and townships.

The open areas around the agricultural fields and open foothills are infested with highly invasive weeds like *Eupatorium odoratum, and Hyptis suaveolens*. Other common herbs include *Cassia tora, Alysicarpus, Sida, Celosia, Desmodium, Acanthospermum, Phyllanthus, Ageratum, Tephrosia, Vigna, Alternanthera, Vernonia, Achyranthes, Euphorbia, Crotolaria, etc.*

Table 6.7: Agricultural crops under cultivation/ wild

Crop Type	**Crops species**
Cereals	Rice (*Oryza sativa*)
Millets and minor millets	Finger millet (*Eleusine coracana*), foxtail millet (*Setaria italica*), and common millet (*Panicum miliaceum*)
Oilseeds	Sesame (*Sesamum indicum*), Niger (*Guizotia abyssinica*), and Linseed (*Linum usitatissimum*)
Fruits	Mango (*Mangifera indica*), Jackfruit (*Artocarpus heterophyllus*), Lemon (*Citrus limon*), Custard apple (*Annona squamosa*), and Guava (*Psidium guajava*)
Medicinal and Aromatic Plants	*Embelia tsjeriam-cottam, Garcinia indica, Gloriosa superba, Pueraria tuberosa,* and *Rubia cordifolia*
Leguminous vegetables	Cowpea (*Vigna unguiculata*), and lablab bean (*Lablab purpureus*) are important leguminous vegetables.
Shoots and leafy vegetables	*Alocasia, Amaranthus viridis, A. spinosus,* and *Celosia argentea*
Vegetables	*Canavalia ensiformis* and *Solanum torvum.*
Fruits	*Carissa spinarum, Cordia myxa, Dillenia indica, Phoenix sylvestris, Syzygium cumini* and *Ziziphus mauritiana.*
Beverages	*Phoenix sylvestris*
Dye yielding plants	*Butea monosperma* and *Indigofera cassioides*

Summary and Conclusion:

The students under the guidance of teachers have created an excellent database. Their valuable contribution covers many aspects of village biodiversity, such as: plant diversity of land and water, wild plants used as food, medicinal plants and their uses and crop varieties.

In all 581 plant species were documented. The documented species belonged to 376 genera and 107 families (including Angiosperms, Pteridophytes, and Bryophytes) indicating the floristic richness of Dongargaon. The most dominant group was Angiosperms having 560 species that are distributed in 358 genera and 90 families. Other groups also represented very well forming a unique amalgamation of flora and vegetation. Among angiosperms Fabaceae, Asteraceae, Poaceae, Acanthaceae and Euphorbiaceae families represents majority of the vegetation. Similarly, the most abundant genera were *Ficus, Ipomoea, Acacia, Euphorbia, Cassia, Impatiens* and *Indigofera*.

Crop and cultivated fruit species documented were 34.

The rare, endangered, and threatened plants were 47, out of which 35 species fall in a category of 'endemic to India'. Out of these 7 are in vulnerable category of Botanical Survey of India and IUCN, 04 are at lower risk, and only one is endangered. Six species are endemic to Maharashtra, out of which one is under vulnerable category and two are under lower risk. Out of remaining 6 species that are not endemic, one in vulnerable status, 4 are under lower risk and 01 least concerned.

Suggestions /Recommendations:

Realizing the situation of plant diversity following suggestions are made

- The rich plant diversity should be conserved through people's participation
- The importance of sustainable use of biodiversity should be highlighted
- There should be fair and equitable share of benefits from use of bio-resources.
- The valuable knowledge about biodiversity that our people is having should be documented and protected.

Significance of this Exercise:

- Students and teachers gaining first-hand knowledge of plant diversity
- Students become efficient communicators
- Student get exposed to environmental problems faced by villagers
- Environmental education is compulsory for the colleges
- Science students of colleges are required to submit student research projects for their examination. The students can utilise their work on village level biodiversity for preparing these reports
- The teachers will be able to familiarise with much of plant diversity and environment in their surroundings and can use such experiences for better teaching
- Young teachers can identify and choose research programmes of their choice related to biodiversity/ecology.
- The work under this activity can be considered as extension education and help in making environmental awareness among the society.
- The students will be moulded into better, eco-conscious citizens in the future.

CHAPTER-7

NATURAL RESOURCES: ANIMALS

Vaishali M. Bansod and Sharad V. Giramkar

Department of Zoology

On 07th October 2019 Department of Zoology in collaboration with NSS committee conducted survey of Dongargaon village of Pune city. Dr. Vaishali M. Bansod and Dr. Sharad V. Giramkar and 7 students of First year and second year participated in the survey.

It is located in Taluka Mulshi, of Pune city. As the name Dongargaon suggest that it is nestled in the mountains. The day experienced 31°C temperature. The survey was conducted from morning 10 am to 2:30 pm.

The survey was done on

- Biodiversity of animals in Dongargaon village and
- Vitamin A deficiency in school children. (VAD)

Biodiversity of animals in Dongargaon village:

In the biodiversity varied fauna were recorded. The animals belonging to phylum Arthropoda, Nematoda, were found in invertebrates. Varied animals belonging to class Pisces, Aves, Reptilia were also found. The data was prepared, and the animals were classified. Total 45 animal species were found. Some of them are listed

The animals found in phylum Arthropoda:

Black ants, Gundhi bug, Tree hoppers, Leaf hoppers, Dragon fly, white Lace butterfly, Lemon butterfly, water strider, Silver fish- soil, Flea, Green bot fly, White spotted Black butterfly, Green spotted butterfly, Red Dragon fly, Plant lice, Spider, Tarantula, Stick insects, blue bristles dragon fly, paddy grasshoppers, Stem borers, Honey bees, Ticks on Cattles, Mites on Chicken, Bird lice, crabs, scorpion-the species found were *Hetrerometrus xantha, Orthochirus bicolor, Mesobuthus fullpus, Dermestid* beetle., *Dematophagoides* mite found in feathers of domestic hens.

Very few Molluscs were found, probably because the village mostly carried out rice farming. Such fields provide optimum favourable conditions for the snails, they are considered to be the enemies of paddy field, and it feeds on the roots of the paddy. It remains in the burrows in the paddy field. Common snails, apple snails were found.

The amphibian animals found were Toads, The green line Steemit frog. It was found in the roadside puddle.

The variety of birds found were King fisher, hummingbird, cattle egret, domestic hens, parrots, Black crested birds, Yellow lapwing bird, house sparrows, crows, mynah, peacock, black winged stilt, paddy field pipit, rock pigeon, Asian koel, common hawk, spotted owlet, hoopoe, Baya weaver, common grass yellow, swift, and bee-eater.

Retiles found were House lizard, gecko, common garden calotes, grass skink,

Mammals found were 05 striped squirrel, bandicoot, domestic cows, goat, and buffaloes. Dogs, domestic cats,

Vitamin 'A' Deficiency Surveys:

Similarly, Vitamin A deficiency survey was undertaken for the students of Primary school. It was done by using Bitot test. The test includes examination of Eyeballs, skin, hair. They showed white spot on the eyes. Bitot's spots are the build-up of keratin located superficially in the conjunctiva of human´s eyes. They can be oval, triangular, or irregular in shape. The spots are a sign of vitamin A deficiency and associated with drying of the cornea. The data of Height and weight of the school children were also recorded.

From the data it was observed that maximum number of school children was having vitamin A deficiency. The data was given to primary school teacher. The diet to be included in children's food was explained.

The students of First Year zoology actively participated in the survey. Two groups were made for 2 different data collection.

Photographs of the animal found in nature were taken. Note was made of the birds and others which could not be captured in camera.

The data revealed a rich and varied biodiversity in Dongargaon. The unusual butterflies, moths, frogs found. The animals were different from the animals found in the urban areas. The students also got to learn the burrows prepared by the frogs in paddy field.

The department of Zoology is grateful to NSS committee. The department is thankful to Prin. Dr. Nitin Ghorpade Sir for giving us the opportunity to expose our students to the village with regard to rich biodiversity.

CHAPTER-7

NATURAL RESOURCES: SOIL AND WATER

Latesh Nikam, Sujata Modhave and Rushant Nandkhile

Department of Chemistry

Under the guidance of Principal Dr. Nitin Ghorpade sir we have carried water and soil analysis project at Dongargoan on 7th Oct. 2019. It was a great pleasure and enjoyed working with the peoples of Dongargoan, They helped us to collect the sample and carry out further analysis by our 11 students along with 3 staff members. The observations and result of water sample is as given below:

Students Involved: UG (T.Y.B.Sc. students)

Archana Deshpande	Pratik Yede
Pournima Patil	Rohan Gaikwad

PG [M.Sc. –II (Analytical)]

Omkar Kale	Sachin Kadam
Dipali Dumbre	Amit Thorat
Pooja Kumkar	Suraj Singhan
Shubham Pisal	Vishal Nawadkar

I. Water Analysis:

Name of User: Vitthal Jori (DW-1)
Public Water supply

Table 8.1: Water Analysis (DW-1)

Sr. No	Property	Value
1	pH	6.93
2	Hardness	120
3	Turbidity	1.8
4	Sulphate	BDL
5	TDS	125 ppm
6	Chloride	7ppm
7	Alkalinity	140
8	Sodium	4.99 ppm

Sr. No.	Property	Value
8	Sodium	1.08ppm
9	Potassium	4.03ppm
10	Calcium	2.64ppm

BDL: Below Detection Limit

II. Analysis of Soil:

Sample 1: Farm:

Table 8.5: Soil Analysis (Farm)

Sr. No.	Property	Value
1	Organic Carbon	0.168%
2	Moisture Content	0.1g
3	pH	In KCL+= 5.43; In H_2O = 6.20
4	Sodium	1.03ppm
5	Potassium	1.31ppm
6	Calcium	3.24ppm
7	Phosphate	3%

Sample 2: River side:

Table 8.6: Soil analysis (River side)

Sr. No.	Property	Value
1	Organic Carbon	0.246%
2	Moisture Content	1.3g
3	pH	In KCL+= 5.85; In H_2O = 6.52
4	Sodium	1.04
5	Potassium	1.36
6	Calcium	2.97
7	Phosphate	2.7%

Sample 3: Lake Side:

Table 8.7: Soil analysis (Lake Side)

Sr. No.	Property	Value
1	Organic Carbon	0.169%
2	Moisture Content	1.21g
3	pH	In KCL+= 4.71; In H_2O = 6.90
4	Sodium	1.03
5	Potassium	1.37
6	Calcium	3.37
7	Phosphate	5%

Analysis Report

Water Analysis:

Water quality of various sources of water available in Dongargaon have been tested and found that

i) Hardness and TDS is not less than 150 ppm

ii) pH is in the range 6-7

iii) Chloride, calcium content is low.

iv).Water is clear.

Conclusion: Water available from Grampanchyat Vihir (C/O Jori) is having good quality and suitable for drinking

Soil Analysis:

Soil samples form three different areas were tested in Laboratory and it has been found that soil is not chemically contaminated and enriched with Nitrogen, Phosphorous and Potassium other constituents present are Calcium and carbon to some extent.

CHAPTER-9

NATURAL RESOURCES: ENERGY

Bharat U. Kangude and Satish U. Ekar

Department of Physics

Aim: Survey of Energy Consumption Patterns and Energy Needs

Introduction:

Every geographical region has its own patterns of energy consumption and its needs. According to fundamentals of energy science every unit of energy saved is energy generated. It means that careful and optimistic use of electricity helps in the development of the economy of the nation. There is a great divide in the energy consumption pattern of urban and rural areas in Maharashtra, it implies that, in rural areas the use of non-conventional energy sources should be the basic priority for the development. The Department of Physics of Baburaoji Gholap College conducted an energy survey of the Dongargaon village in the Mulshi tehsil. This activity was coordinated by national service scheme (NSS) department of the college on 7th October 2019.

Objectives:

The study of energy consumption patterns and the problems faced by village communities was the basic motive of the study. Following three major objectives were set.

1. Study of energy sources available and the equipment being used in the village.
2. Energy availability and its efficient use at public places in Dongargaon
3. Energy conservation and extent of use of non-conventional energy sources at Dongargaon.

Methodology:

We have used survey and questionnaire method to obtain the data of energy use pattern and villagers' energy needs at Dongargaon. We have used the following four prominent methods.

1. Observations and interviews of family.
2. In questioner the questions were related to the equipment used in household and in agriculture.
3. Survey of 44 houses was completed.
4. The recommendations and suggestions are based upon the observations and inputs in the survey.

Using the above-mentioned methodology we conducted a survey for energy consumption and energy needs of the villagers.

Table 9.1: Number of families involved in energy survey

Sr. No.	Total houses in the village	Families participated in survey	Families denied participation in the survey	Total number of families surveyed
1.	57	43	01	44

Observations:

In the survey it has been observed that out of 43 families 10 were agricultural labourers, 02 were having transport business and remaining 31 families livelihood depending upon agriculture (Farmers)

Table 9.2: Energy equipment used in Dongargaon

Sr. No.	Electrical equipment	Number of families using
1	LED lamps	43
2	Television	43
3	Electric water heater	00
4	Solar water heater	01
5	Electric motor	02
6	Electric iron	01
7	Solar lantern	02
8	Wood for heating water	43
9	LPG for preparing food	22
10	Cow dung	21

It has been observed that in almost all families four LED lamps were being used. The most advanced electrical equipment were not found in any of the family. In the cases emergency of power cuts, people use candles, charging battery and traditional oil lamps. The electrical energy is being used only for domestic purpose. No commercial use is observed. All families have their monthly electric consumption bill is around Rs. 300/-. The per capita power consumption is much lower than the national per capita consumption. Government (PDS department) has stopped the supply of kerosene to households and it compels the villagers to use conventional lamps and candles for the lightning purposes. The wood from nearby jungle is being used in all houses for water heating. Looking at their economic income status, it has been found that the prices of electric supply and equipment is out of their reach. That is why the conventional energy sources are being used on the large scale. At the public places the use of electricity is much less and the lightning arrangement is inadequate. For many days the power cut/load shedding is almost for more than 4 hours. The villagers have to face a great hardship. The government LPG scheme for poor is known to the villagers but still today 50% families are not being benefited. Like other villages in the state the basic energy needs of these people are at primary level and it is needed to be improved. Villagers are needed to be trained about the equipment using non-conventional energy sources such as solar energy and wind energy

Instructions:

Looking at this scenario, street lamb equipment is very much needed to be installed on the commutation roads. Government offers 40% subsidy for this program. Villagers are not aware about the use of solar energy and it is recommended that people should be we made aware about the benefits of using non-conventional energy appliances. Energy saving

and energy conservation should be the two basic programs that the villagers should be made aware about. They should be provided some financial help from the government and NGOs.

Recommendations:

According to the results of survey, it is recommended that the authorities should implement the programs, to make aware the villagers about the non-conventional energy sources such as solar Energy equipment. The jungle wood should not be used as a fuel for domestic purposes. Use of CFL lamp, gobar gas etc. and associated schemes are needed to be implemented on war footing. The government authorities and Gram Panchayat should lead in this awareness program

CHAPTER-10

SUMMARY

The village under study has not seen a development due to its geographical location on a hilly terrain. Its technological backwardness has hindered the progress of the village. Educational facilities need to be developed. The village, especially the women of the village are in need of social progress. The youth of the village is attracted to urban life due to employment opportunities.

The social structure is well integrated through unique traditions. The people are of Hindus and Buddhist communities. However, due to overall development in communication and other technological progress, there seems to change in livelihood. Many words and sayings of local language and some traditions are disappearing slowly.

There are various political parties in the village, however, Nationalist Congress Party is the influential. The Gram Panchayat elections were unopposed. Gram Panchayat made improvements in facilities like water, electricity, and bridges. The village have an ATM facility, post-office, three fare price shops, a milk cooperative/ collection center, bus stop, and five common sanitation complexes.

Development is done through government schemes. Primary education is available. There is no electricity in the village for 2 days a week. Toilets are constructed by villagers at their own expense. Under 'Digital India' mission Gram Panchayat has computer with internet facility; however, load-shading and untrained staff are the limitations.

There is no employment except agriculture. Rice, Wheat and Sugarcane are chief crops. The bore well and River are important source of irrigation. The irrigation method used was drip and flooding. Average daily milk production was 90 litres. The important land use was forest and agriculture. The average annual income of SC category was Rs. 27857/-, OBC category Rs. 40000/- and general category Rs. 29711/-.

Vitamin A deficiency survey was undertaken for the students of primary school. It was done by using Bitot test. From the data it was observed that maximum number of school children were having vitamin A deficiency. The data was handed over to primary school teacher. The diet to be included in children's food was explained. The village was also surveyed for faunal diversity. It was rich in faunal diversity. The unusual butterflies, moths, and frogs were observed.

The floral and crop diversity surveys were also made which resulted in documentation of 581 plant species indicating rich diversity. Out of these 47 were under threat categories. Crop and cultivated fruit species documented were 34.

The water and soil analysis was carried out. Water available from Grampanchyat Vihir (C/O Jori) is having good quality and suitable for drinking. Soils are not chemically contaminated and enriched with nitrogen, phosphorous and potassium; other constituents present were calcium and carbon to some extent.

The energy surveys were made. Villagers were not aware about the use of solar energy and it is recommended that people should be made aware about the benefits of using non-conventional energy appliances. Energy saving and energy conservation should be the two basic programs that the villagers can be made aware about. They should be provided some financial help from the government and NGOs.

CHAPTER-11

SUGGESTIONS

- The village is in need of implementing 'pani adva pani jirva' as the village experiences frequent heavy rains. Economic progress of the village is need of the hour.
- The village should have access to secondary and higher secondary education.
- A new broad bridge is to be constructed on River for easy access and transportation.
- The water and soil quality is to be maintained.
- Realizing the situation of plant, crop and animal diversity, it should be conserved through people's participation; the importance and sustainable use of plant, crop and animal diversity should be highlighted; there should be fair and equitable share of benefits from use of plant and animal resources; and the valuable knowledge about biodiversity that our people is having should be documented and protected.
- According to the results of energy survey, it is recommended that the authorities should implement the programs, to make aware the villagers about the non-conventional energy sources such as solar energy equipment. The jungle wood should not be used as a fuel for domestic purposes. Use of CFL lamp, gobar gas etc. and associated schemes are needed to be implemented on war footing. The government authorities and Gram Panchayat should lead in this awareness program

Annexure-I

List of plant species observed within Dongargaon village

Botanical Name	Local Name	Habit	Family	Status
Abelmoschus esculentus	Bhendi	Herb	Malvaceae	Cultivated

National Service Scheme (NSS)

Name of Activity : Fire Safety at home

Date-07/01/2020

Aim: To guide student by demonstrating how to protect themselves from a sudden fire

Objectives:

- To prevent the home or offices from potential hazard in any workplace during fire
- To aware students' precautions to be taken during any kind of fire

Report:

Guest from "Safe kids foundation" Hon. Ram Sathe, Milind Borde, Varsha Beladi guided the students about how to take precautions during fire. The NSS volunteers came to know how to protect themselves from a sudden fire in a public residential area and how to reduce the financial loss. Principal Dr. Nitin Ghorpade was present during the programme. NSS Program Officer Prof. D.S.Jambhulkar, Prof.Amruta Inamdar, Dr.Arjun Doke, Dr.Mahadev, Prashant Nanskhile, took efforts for the success of activity. Praneet Pawale took the photos of event. In this program total 56 students took benefit. Prof. D.S.Jambhulkar, proposed the vote of thanks.

Outcome: Students came to know the precautions to be taken during any kind of fire at workplace or at home

Department - National Service Scheme(N.S.S.)

Academic Year: 2019-20

Activity :Pulse Polio Training Activity **Date: 15.01.2020**

Aim: Educating and mobilizing NSS Volunteers for the Pulse Polio Immunization program.

Objective: To prepare NSS volunteers to actively participate in the nationwide effort to eradicate polio.

NSS Department of College and Health Department of PCMC, Pimple Nilakh have jointly organized Pulse polio Training program for NSS Volunteers on 15th Jan 2020. In this activity, training was given to NSS Volunteers and importance of good health for success of life was explained. The Pulse Polio Training organized by the NSS Department of BaburaojiGholap College, Sangvi, on January 15, 2020, was a significant step towards contributing to the nationwide effort to eradicate polio. The training equipped NSS volunteers with the knowledge and skills required to actively participate in the Pulse Polio Immunization Program.

The involvement of Dr. Nitin Ghorpade, the Principal, as well as the guidance of Mr. DnyaneshwarJambhulkar, NSS Program Officer, and Mrs. AmrutaInamdar, Coordinating Officer, played a pivotal role in the success of this training initiative.

The NSS volunteers emerged from this training session as informed and enthusiastic advocates for polio vaccination, ready to make a positive impact on the health and well-being of children in the community. This effort exemplifies the commitment of educational institutions like BaburaojiGholap College towards social responsibility and public health.

Event Highlights:

1. Immunization Training: The core focus of the event was to provide comprehensive training to NSS volunteers regarding the Pulse Polio Immunization Program. Expert trainers and healthcare professionals were invited to conduct informative sessions. These sessions covered topics such as the importance of

polio vaccination, the proper administration of the polio vaccine, and the significance of maintaining accurate records.

2. Role and Responsibilities: The NSS volunteers were briefed on their roles and responsibilities during the Pulse Polio vaccination drive. They were educated about the importance of spreading awareness in the community, assisting healthcare workers, and ensuring that every eligible child receives the polio vaccine.

3. Awareness Campaign: In addition to training, NSS volunteers were encouraged to actively participate in a local awareness campaign to inform parents and caregivers about the upcoming Pulse Polio immunization dates and the necessity of vaccinating children under the age of five.

4. Mock Vaccination Drills: Practical sessions were conducted to familiarize the volunteers with the process of administering the polio vaccine. Mock vaccination drills were organized to ensure that the volunteers were well-prepared for their roles during the actual immunization drive. 35 NSS Volunteers have been participated in this activity.

Activity-Workshop on Planting of Seeds **Date-31/01/2020**

Aim: Sharing the importance of plants, gardening, and the role of seeds in the natural world and train students about seed planting .

Objective: To educate participants about the process of planting seeds, provide hands-on experience, and promote an appreciation for gardening and the environment.

Activity:- Greet participants and explain the purpose of the workshop. Share the importance of plants, gardening, and the role of seeds in the natural world. Present a variety of seeds and their unique characteristics (e.g., flower colors, plant types, growth conditions). Discuss how to choose seeds based on local climate and available space.

Show participants how to prepare their containers by filling them with potting soil. Explain the proper depth and spacing for planting the chosen seeds.

Remember to adapt the workshop's duration and complexity based on the age group and gardening experience of the participants. The primary goal is to foster a love for gardening, environmental awareness, and the joy of watching seeds grow into thriving plants.

The involvement of Dr. Nitin Ghorpade, the Principal, as well as the guidance of Mr. Dnyaneshwar Jambhulkar, NSS Program Officer, and Mrs. Amruta Inamdar, Coordinating Officer, played a pivotal role in the success of this Program initiative. In this activity 40 students have been participated

शाळा, महाविद्यालयांत मराठीचा जागर

विद्यार्थ्यांसाठी वक्तृत्व, निबंध स्पर्धा

पिंपरी, ता. १६ : 'संत संगतीने वाढली मराठी, भजन-कीर्तनाने वाचली मराठी' असा माय मराठीचा जागर शाळा, महाविद्यालयांत झाला. मराठी भाषा संवर्धन पंधरवड्यानिमित्त महापालिकेतर्फे विविध शाळा, महाविद्यालयांसाठी शहरातील रसिकांसाठी आयोजित विविध कार्यक्रमांचे निमित्त होते. यात विद्यार्थ्यांसाठी वक्तृत्व व निबंध स्पर्धा झाली आणि रसिकांसह महाविद्यालयीन विद्यार्थ्यांसाठी कविसंमेलने रंगली.

पंधरवड्यात मराठी भाषा संवर्धनासाठी विविध उपक्रम राबविले. त्याचा समारोप गुरुवारी (ता. १६) सांगवीतील बा. रा. घोलप महाविद्यालय आणि पिंपरीतील महात्मा फुले महाविद्यालयात आयोजित कविसंमेलनांनी झाली. दोन्ही ठिकाणच्या संमेलनांचे उद्घाटन महापौर उषा ढोरे यांच्या हस्ते झाले.

त्या म्हणाल्या, ''मराठी भाषा ही आपली आई आहे. तिच्या शब्दांमधूनच आपण मत व्यक्त करीत असतो. तिच्या संवर्धनासाठी प्रयत्न करायला हवेत.'' नगरसेविका निकिता कदम, सहायक आयुक्त अण्णा बोदडे, जनसंपर्क अधिकारी रमेश भोसले आदी उपस्थित होते.

महाविद्यालयीन विद्यार्थ्यांसाठी आयोजित वक्तृत्व स्पर्धांनाही उत्स्फूर्त प्रतिसाद मिळाला. 'माझी माय मराठी' असा स्पर्धेचा विषय होता.

महात्मा फुले महाविद्यालय

कविसंमेलनाच्या अध्यक्षस्थानी प्राचार्य डॉ. पांडुरंग गायकवाड होते. प्रा. डॉ. संजय मिस्त्री उपस्थित होते. शुभम बरोट, गणेश सोनपारखे, तेजस्विनी नागराळे, ऐश्वर्या जोशी, विशाल कांबळे, सचिन वानरे या विद्यार्थ्यांसह कवी राजन लाखे, पुरुषोत्तम सदाफुले, राज अहेरराव, दिनेश भोसले, रघुनाथ पाटील, दत्तू ठोकळे, प्रदीप गांधलीकर, सुहास घुमरे, नंदकुमार मुरडे, किशोर केदारी आदींनी विविध रचना सादर केल्या. निलेश म्हसाये यांनी सूत्रसंचालन केले.

बा. रा. घोलप महाविद्यालय

कविसंमेलनाच्या अध्यक्षस्थानी प्राचार्य डॉ. नितीन घोरपडे होते. डॉ. एम. एस. बागूल उपस्थित होते. श्रावणी चितारे, भागवत तालीकोटी, विवेक मोरे, पल्लवी क्षीरसागर, चंद्रकांत ढगे, नंदकुमार कांबळे, सुरेश कंक, आय. के. शेख, निशिकांत गुमास्ते, सुभाष चव्हाण, आत्माराम हारे, मधुश्री ओव्हाळ, डॉ. भाग्यश्री कुलकर्णी, माधुरी विधाटे, देवेंद्र गावंडे, अरुण पवार यांनी विविध रचना सादर केल्या. डॉ. माया माईनकर यांनी सूत्रसंचालन केले. प्रा. डॉ. अर्जुन डोके यांनी आभार मानले.

सांगवी : घोलप महाविद्यालयात आयोजित मराठी भाषा पंधरवड्यानिमित्त वक्तृत्व स्पर्धेदरम्यान भाषण करताना विद्यार्थी.

सांगवीतील बाबुरावजी घोलप महाविद्यालयात वक्तृत्व स्पर्धा

पिंपळे गुरव - सांगवी येथील पुणे जिल्हा शिक्षण मंडळाचे बाबुरावजी घोलप महाविद्यालयात भाषा संवर्धन पंधरवडानिमित्त वक्तृत्व स्पर्धेचे आयोजन करण्यात आले होते. महाराष्ट्र शासनाच्या वतीने मराठी भाषेचे संवर्धन करण्यात यावे, मराठी भाषेला राजमान्यता मिळावी, मराठी भाषेला अभिजात भाषेचा दर्जा प्राप्त व्हावा, महाराष्ट्रात बोलली जाणारी प्रादेशिक भाषा मराठीचे गुणगाण गाताना संत ज्ञानेश्वर महाराजांनी आपल्या भावार्थदीपिकेत म्हटले आहे की, माझा मराठीची बोलू कौतुके। परी अमृता ते ही पैजा जिंके। ऐसी अक्षरे रसिके। मिळविण।। असे गौरवोद्‌गार काढले आहेत. अशा मराठी भाषा संवर्धन पंधरवड्य निमित्त विद्यालयात वक्तृत्व स्पर्धा घेण्यात आल्या. या स्पर्धेत एकूण १५ विद्यार्थ्यांनी सहभाग घेतला होता. एकविसाव्या शतकात भारतीय महिला सुरक्षित आहेत का? या विषयावर आपली मते मांडली. यातून स्त्रियांवर होणारे अन्याय अत्याचार सरकारी पातळीवरील प्रयत्न समाज माध्यमांच्या प्रभावातून मानसिक विकृती निर्माण होते. माणसाचे माणूसपण हरवत चालले आहे. हा त्या स्पर्धेत स्पर्धकांचा मुद्दा होता. स्पर्धेचे आयोजन प्राचार्य डॉ. घोरपडे यांच्या मार्गदर्शनाखाली मराठी विभाग प्रमुख डॉ. महादू बागूल यांनी केले. उपप्राचार्य डॉ. वंदना पिंपळे, प्रा. अपेक्षा जाधव, प्रा. सावित्री जाधव प्रा. कल्याणी शितोळे, प्रा. पीयूष तुळशी, प्रा. सद्दाम घाटीवाले या वेळी उपस्थित होते. डॉ. नंदा राशिनकर व प्रा. जितेंद्र वडशिंगीकर यांनी परीक्षक म्हणून काम पाहिले. भागवत तलिकोटे यांनी सूत्रसंचालन केले. प्रा. सुवर्ण खोडदे यांनी आभार मानले.

विषय : पुणे जिल्हा शिक्षण मंडळाचे बाबूरावजी घोलप महाविद्यालात भाषा संवर्धन पंधरवाड्यानिमित्त वक्तृत्व स्पर्धा संपन्न

महोदय.

पुणे जिल्हा शिक्षण मंडळाचे बाबूरावजी घोलप महाविद्यालात भाषा संवर्धन पंधरवाड्यानिमित्त वक्तृत्व स्पर्धेचे आयोजन करण्यात आले होते. महाराष्ट्र शासनाच्या वतीने मराठी भाषेचे संवर्धन करण्यात यावे. मराठी भाषेला राजमान्यता मिळावी. मराठी भाषेला अभिजात भाषेचा दर्जा प्राप्त व्हावा. महाराष्ट्रात बोलली जाणारी प्रादेशिक भाषा मराठी बोलली जाते. या भाषेचे महत्व संत ज्ञानेश्वरांनी 'माझा मराठीचि बोलू कौतुके , परी अमृतातें हि पैजा जिंके' असे मराठी भाषेचे कौतुक केले आहे. महानुभव संप्रदायाचे संस्थापक चक्रधरस्वामींनी देखील जाणीवपूर्वक मराठी भाषेतून ग्रंथ निर्माण करण्यात यावे असे सांगितले. तर महाराष्ट्राचे मुख्यमंत्री मा. उद्धव ठाकरे यांनी जाणीवपूर्वक सर्व विभागांना मराठीतच शेरा मारण्याची सक्ती केली आहे. या प्रसंगी बोलताना महाविद्यालयाचे प्राचार्य डॉ. नितीन घोरपडे यांनी ' महाविद्यालयातीलमराठी विभागाने निबंध स्पर्धा, वक्तृत्व स्पर्धा आयोजित करून मराठी भाषेचा अभिमान व्यक्त करताना मल्टीप्लेक्स मराठी चित्रपटांमुळे चालतात. तर मराठी भाषेच्या संवर्धनासाठी पंधरवडा साजरा करण्याची गरज का? असा सवाल उपस्थित केला. N.S.S., N.C.C., क्रीडा विभाग, वाड्मय मंडळ या माध्यमातून संधी उपलब्ध होतात. शिक्षणात वाचन, लेखन, भाषणाची गरज आहे. ' ऐकणार कुणी असेल तर बोलण्याला महत्व आहे.' असे आव्हान केले. या स्पर्धेत एकूण १५ स्पर्धकांनी सहभाग घेतला असून. एकविसाव्या शतकात भारतीय महिला सुरक्षित आहेत का? या विषयावर आपली मते मांडली. या तून स्त्रियांवर होणारे अन्याय अत्याचार, सरकारी पातळीवरील प्रयत्न, समाज माध्यमांच्या प्रभावातून मानसिक विकृती निर्माण होत. माणसाचे माणूसपण हरवत चालले आहे हाच या स्पर्धेत स्पर्धकांचा मुद्दा होता.

या वक्तृत्व स्पर्धेचे आयोजन प्राचार्य डॉ. नितीन घोरपडे यांच्या मार्गदर्शनाखाली मराठी विभाग प्रमुख डॉ. महादू बागुल यांनी केले होते. या कार्यक्रमास मा. उपप्राचार्या डॉ. वंदना पिंपळे, प्रा. अपेक्षा जाधव, प्रा. सावित्री जाधव, प्रा. कल्याणी शितोळे, प्रा. विक्रम मालातुमकर, प्रा. सद्दाम घाटीवाले, प्रा. पियुष तुळशी उपस्थित होते तर या कार्यक्रमाचे परीक्षक म्हणून डॉ. नंदा राशिनकर व प्रा. जितेंद्र वाडशिंगकर यांनी काम केले. तर कार्यक्रमाचे सूत्रसंचालन भागवत तालीकोटे यांनी केले. तर आभार प्रा. सुवर्णा खोडदे यांनी मानले. या कार्यक्रमास महाविद्यालयातील प्राध्यापक व प्रशासकीय सेवक उपस्थित होते.

पुढारी दि. 23/2/2020 पान - २ वरिष्ठ

महाविद्यालयीन युवकांकडून सिंहगड स्वच्छता अभियान

सव्वाशे पिशव्या कचरा केला गोळा; संत गाडगेबाबा जयंतीनिमित्त उपक्रम

वेल्हे : पुढारी वृत्तसेवा

सावित्रीबाई फुले पुणे विद्यापीठाचा राष्ट्रीय सेवा योजना विभाग, विद्यार्थी विकास मंडळ आणि सिंहगड परिसर ग्रामपंचायत व वन विभागाच्या वतीने रविवारी (दि. २३) संत गाडगेबाबा यांच्या जयंतीनिमित्त आयोजित सिंहगड स्वच्छता व संवर्धन अभियानात शेकडो महाविद्यालयीन युवकांसह अधिकारी, ग्रामस्थ सहभागी झाले होते. यात तरुणांनी प्लॅस्टिकसह सव्वाशे पिशव्या कचरा गोळा केला.

कुलगुरू डॉ. नितीन करमळकर, प्रकुलगुरू डॉ. एन .एस. उमराणी, उपवनसंरक्षक संजय कडू, वनपरिक्षेत्र अधिकारी दिपक पवार, व्यवस्थापन परिषद सदस्य राजेश पांडे, प्राचार्य डॉ. संजय चाकणे, अधिष्ठाता डॉ. पराग काळकर, प्राचार्य डॉ नितीन घोरपडे, उपसरपंच अमोल पढेर , रासेयो संचालक डॉ. प्रभाकर देसाई, विद्यार्थी विकास मंडळ संचालक डॉ. संतोष परचुरे आदीसह वनविभागाचे अधिकारी, सुरक्षा रक्षक सहभागी झाले होते.

प्लास्टिक बंदी असूनही प्रचंड कचरा

सिंहगडावर प्लास्टिकसह मद्यपान, मांसाहार ,सिगारेट बंदी आहे. गडावर वनविभागाच्या वतीने स्वच्छता केली जात आहे. मात्र अलिकडच्या दीड दोन महिन्यां पासून गडावर पर्यटकांची वर्दळ वाढली आहे. त्यामुळे प्लास्टिक च्या बाटल्या सह पिशव्या, कचरा वाढला आहे.गडावर प्लास्टिक बंदी असुनही प्लास्टिक सह तब्बल१२५ पिशव्या कचरा गोळा करण्यात आला. प्लास्टिक बंदीची काटेकोर पणे अमंलबजावणी करण्यात यावी अशी मागणी करण्यात आली.

शाहिर हेमंतराजे मावळे यांच्या पोवाड्याने छत्रपती शिवाजी महाराज, नरवीर तानाजी मालुसरे यांच्या शौर्याचा इतिहास जागा झाला.

शिवरायांचे गड किल्ले राष्ट्राचा मोठा ठेवा असून गडांची स्वच्छता ल संवर्धन करण्यासाठी विद्यार्थ्यांनी योगदान द्यावे असे आवाहन कुलगुरू डॉ. नितीन करमळकर यांनी केले. यावेळी सिंहगड स्वच्छतेबरोबर जिल्ह्यातील गडकोटांच्या संवर्धन आणि स्वच्छतेचा संकल्प करण्यात आला.स्वच्छता अभियानात वाराशे विद्यार्थी सहभागी झाले होते.

सिंहगडावरील स्वच्छता अभियानात प्लास्टिकच्या बाटल्या, कचरा गोळा करताना विद्यार्थी

'सिंहगडा'च्या स्वच्छतेसाठी तरुण सरसावले

स्वच्छता आणि संवर्धन अभियान: सव्वाशे पिशव्या कचरा जमा

खडकवासला : पुढारी वृत्तसेवा

सावित्रीबाई फुले पुणे विद्यापीठाच्या राष्ट्रीय सेवा योजना विभाग, विद्यार्थी विकास मंडळ आणि सिंहगड परिसर ग्रामपंचायत व वनविभागाच्या वतीने रविवारी संत गाडगेबाबा यांच्या जयंतीनिमित्त आयोजित केलेल्या सिंहगड स्वच्छता व संवर्धन अभियानात शेकडो महाविद्यालयीन तरुणांसह अधिकारी, ग्रामस्थ सहभागी झाले होते. तरुणांनी प्लास्टिकसह सव्वाशे पिशव्या कचरा गोळा केला.

कुलगुरू डॉ. नितीन करमळकर, प्र-कुलगुरू डॉ. एन. एस. उमराणी, उपवनसंरक्षक संजय कदू, वनपरिक्षेत्र अधिकारी दीपक पवार, व्यवस्थापन परिषद सदस्य राजेश पांडे, प्राचार्य डॉ. संजय चाकणे, अधिष्ठाता डॉ. पराग काळकर, प्राचार्य डॉ. नितीन

सिंहगड स्वच्छता अभियानात सहभागी झालेले विद्यार्थी.

पोरपडे, उपसरपंच अमोल पदेर, विद्यार्थी विकास मंडळ संचालक डॉ. रासेयो संचालक डॉ. प्रभाकर देसाई, संतोष परचुरे आदींसह वनविभागाचे अधिकारी, सुरक्षा रक्षक सहभागी झाले होते.

या वेळी डॉ. नितीन करमळकर म्हणाले, सावित्रीबाई फुले पुणे विद्यापीठ, ग्रामपंचायत, वनविभाग व महानगरपालिका यांच्या सहकार्याने सिंहगडावर स्वच्छता व संवर्धन अभियान राबविण्यासाठी भर देण्यात येणार आहे. शिवरायांचे गड-किल्ले राष्ट्राचा मोठा ठेवा असुन, गडांची स्वच्छता राखणे, त्यांचे संवर्धन करण्यासाठी विद्यार्थ्यांनी योगदान द्यावे, असे आवाहनही त्यांनी केले. या वेळी जिल्ह्यातील गडकोटांच्या संवर्धन आणि स्वच्छतेचा संकल्प करण्यात आला. या अभियानात बाराशे विद्यार्थी सहभागी झाले होते. या वेळी शाहीर मावळे यांचा पोवाडा सादरीकरणाचा कार्यक्रमही सादर करण्यात आला.

Department - National Service Scheme(N.S.S.)
Academic Year: 2019-20

Program: Cleaning Drive organized by NSS Dept, SPPU, Pune at Sinhagad Fort **Date: 23.02.2020**

Aim: Promote cleanliness and hygiene at the historical Sinhagad Fort.

Objective:

1) To Raise awareness about the importance of preserving heritage sites
2) To Engage NSS volunteers in community service and heritage conservation activities.

I. Introduction:

Nineteen enthusiastic NSS volunteers from BaburaojiGholap College, Sangvi, Pune-27, actively participated in a Cleaning Drive organized by the NSS Department of SavitribaiPhule Pune University (SPPU) at Sinhagad Fort on 23rd February 2020. The event aimed to promote cleanliness, heritage conservation, and community engagement. This report provides an overview of the event, including its objectives, execution, and outcomes.

II. Participants:

Nineteen NSS volunteers from Baburaoji Gholap College, Sangvi, Pune-27, participated actively in the event.

III. Event Details:

The event unfolded as follows:

Orientation: Participants were briefed about the significance of the event, safety precautions, and their roles.

Cleaning Drive: NSS volunteers actively participated in the cleaning of Sinhagad Fort. They collected litter, removed graffiti, and helped restore the cleanliness of the premises.

Awareness Session: An informative session on the historical and cultural importance of Sinhagad Fort was conducted to educate the volunteers about the heritage site.

Heritage Preservation: Volunteers were encouraged to handle the historical artifacts and structures with care and respect.

IV. Leadership and Guidance:

The event was conducted under the guidance and leadership of:

Principal: Dr. Nitin Ghorpade
NSS Program Officer: Mr. Dnyaneshwar Jambhulkar
NSS Program Coordinator: Mrs. Amruta Inamdar

V. Outcomes and Impact:

The program's outcomes and impact include:

Heritage Preservation: NSS volunteers gained a deeper understanding of the historical and cultural significance of the fort and actively participated in its preservation.
Community Engagement: The event fostered a sense of community and collective responsibility among the participants.

VI. Challenges Faced:

Weather conditions were a challenge, but volunteers were prepared with appropriate clothing and equipment.

VII. Conclusion:

The Cleaning Drive at Sinhagad Fort, organized by the NSS Department of SPPU Pune, and actively participated in by 19 NSS volunteers from Baburaoji Gholap College, Sangvi, Pune-27, successfully achieved its objectives of promoting cleanliness, heritage conservation, and community engagement. The event exemplified the commitment of NSS volunteers to preserving our cultural heritage and serving the community.

ACKNOWLEDGEMENTS

I am grateful to authorities of Pune District Education Association for their kind support and encouragement for this kind of work. I am grateful to my fellow colleagues for their enthusiasm and interest in my dream work of village surveys. I would like to express my deepest feelings of gratitude towards the authorities of village Kusgaon for providing support throughout filed surveys. I also express my profound gratitude to teaching, technical and non-teaching staff members of Baburaoji Gholap College for supporting in my interest. I would also like to express my gratitude towards the village leaders for providing me access to the study area.

I am thankful to all those who directly or indirectly helped and contributed at various stages of this work.

Prin. Dr. Nitin L. Ghorpade

CHAPTER-1
INTRODUCTION

The living standards of people in rural areas of Maharashtra has limited dimensions. The facilities available in rural areas are limited, and access to these facilities is another problem. To understand the ground reality about the facilities and resources available in rural areas, our college has decided and undertaken the village surveys in Mulshi Tahsil of Pune District. The idea of village survey was conceived by Hon. Prin. Dr. Nitin Ghorpade. Under his able guidance, the college has selected the village Dongargaon in Mulshi Tehsil of Pune District (Maharashtra).

The college has designed a questionnaire to obtain relevant information from the villages. The information was collected through student's participation. A detailed enquiry on village facilities was conducted. The surveys on village facilities included questions on availability of nonconventional energy sources, electricity, drinking water, irrigation and drainage systems, cooperative societies and self-help groups was enquired into, and also whether any Government development schemes relating to drinking water, housing, sanitation, approach road, employment generation, pension, literacy, etc., was in force. The distance of the villages from the nearest bus stop, railway station, market, primary school, hospital, etc., and from facilities for the disabled was also recorded. The results of the enquiry on village facilities are presented in this report.

CHAPTER-2

HISTORICAL REVIEWS

Jitendra Wadshingkar and Savitri Jadhav

Department of History

Aim: To study the historical importance of the village.

Objectives: To study the local history of the village as well as the social, economic, cultural, and religious life and traditions of the people.

Assumptions: Following assumptions have been made in relation to the study of the selected village.

1) In spite of being close to Pune the village has not made much progress.
2) The village lacks modern amenities.
3) Due to social change, people appear to be living in harmony.
4) Even though the youth of the village has migrated to city areas for employment, there has not been a very big change considering economic progress.

Introduction:

Every individual possesses the desire to understand his/her past. It is necessary to know the past of our respective village, otherwise how does one expect to understand the history of one's own country? This paper focuses on the study of the history of the village of Dongargaon. The study of history through the pyramid method involves the study of the world, continent, country, state, district, taluka and finally the village. Through this study, one forms the history of the nation. This is why the study of the village of Dongargaon has been taken up.

The history of kings, their lives and kingdoms are a thing of the past and can now only be found in books. Also, the subject matter of history has expanded. The scope of history is widening.

Local history is a subtype of history. The objective here is to study the local history of Dongargaon, its social, political, economic life and the customs and traditions of its people.

Historical background of Dongargaon

Dongargaon is a village in Mulshi surrounded by hill ranges. Dongargaon was a part of these hill ranges and hence the name- 'Dongargaon'. Following information came to light after meeting with the residents of the village. The village had a Bhairavnath temple due to which the residents faced obstacles. The village was then moved to the foot of the hills and the new village was given the name- Chikhalgaon. Primarily, there are three villages in this area- Chikhalgaon, Lolwan, Dongargaon. These villages have changed and increased in expanse between the periods of 1960-2019. Maharashtrian rural life is closely related to village life. The village being a self-sufficient unit, and its changes over the ages help us understand its social, economic and political life.

Social life in the village:
The village has seen progress since ancient times. We find the existence of the joint family system which is patriarchal in nature. Members in the family are found to be living in harmony. Social life is intimately connected with economic life. Each and every caste is treated equally, thus allowing for a peaceful environment in the village. We do not find any caste divisions.

Housing structure:
Chikhalgaon, on account of being surrounded by hill ranges experiences a lot of heavy rain. This is why the houses have a sloping roof. We do find some modern structures here and there to some extent. Some houses are built with cement and concrete.

Economic life:
The main occupation here is rice cultivation (paddy). Supplementary occupations include dairy and animal husbandry. The village has only one grocer (kirana). Since the village is small, weekly markets are not held. A weekly market is held at a place called Kolwan which the residents visit. The youth of the village seem to be attracted to the city life in matters of employment. The village might benefit from this economically. The village has an elementary school comprising of classes from first to fourth standard. The schools are computerized. The present school was set up in 1972. Children have to go to Kolwan and Paud to complete their high school education.

Religious life:
The village holds importance from religious point of view as it has three temples of the following deities- Bhairoba, Datta and Vitthal-Rukmini. The main local deity is Bhairoba. The religious fair in devotion to Bhairoba takes place in March. One week is kept aside every year for worship at the temple of Vitthal and Rukmini. Religious songs such as bhajan and kirtan are sung. The event of ‘Mahaprasad’ is organized. Other festivals are celebrated in the village with enthusiasm. People of all castes come together. The village has established a Ganpati Mandal.

Political life:
Considering the period between 1960 and 2019, the village has only 57 houses. Population is 1030. Three villages are brought together to form a gat gram panchayat. Keeping in mind the small population and expanse of the villages, “Bhagwanchandra Gaikwad” was elected as the member of the Gram Panchayat. Other civil boards are active in the village as well. Gaikwad, who has been elected to the position of the Sarpanch belongs to a Scheduled Caste.

Conclusion:
The village under study has not seen a lot of development due to its geographical location on a hilly terrain.
Its technological backwardness has hindered the progress of the village.

Educational facilities need to be developed.
The village, especially the women of the village are in need of social progress.
The youth of the village is attracted to urban life due to its employment opportunities. Their migration can reduce if the village is developed well.
The people of the village face many obstacles due to the fact that they live in a hilly terrain. They have overcome all these obstacles- a credit to their hardworking and stubborn nature.

Solution:
The village is in need of implementing 'pani adva pani jirva' as the village experiences frequent heavy rains.
The village is in need of environmental awareness.
Economic progress of the village is of the need.

CHAPTER-3

LIVELIHOOD AND ETHNICITY

M.M. Bagul

Department of Marathi

प्रास्ताविक:

डोंगरगाव महाराष्ट्रातील पुणे जिल्ह्यातील मुळशी तालुक्यातील छोटेसे गाव आहे. या गावाच्या चहुबाजूने सह्याद्रीच्या पर्वतरांगा आहेत. निसर्गाच्या कुशीत डोंगरगाव वसलेले आहे. या गावाची कुटुंब संख्या **१८०** इतकी वास्तव्यास असून या गावाची लोकसंख्या **८६०** इतकी आहे. या पैकी अनुसूचित जाती. ८७ आणि अनुसूचित जमाती ११ इतकी लोक्संध्या आहे. गावात चौथी पर्यंत जिल्हा परिषद प्राथमिक शाळा आहे. त्यामुळे पुढील शिक्षणासाठी मुलांना दुसर्या गावी किवा पुणे शहरात जावे लागते.

गावात समान 'कुळी' म्हणजे 'जोरी' या आडनावाची कुटुंबे प्रामुख्याने आढळून आली. गावामध्ये एकत्र कुटुंब पद्धती कमी प्रमाणात दिसून येते. गावातील तरुण मंडळी रोजगाराच्या निमित्ताने शहराकडे स्थलांतर झाली आहे आणि वृद्ध मंडळी गावात राहण्याचा प्रमाण जास्त आहे. घराची रचना हि एका राषेत नाही तर अस्थ्वेस्थ स्वरुपात आहे. या गावातील महिलांच्या व पुरुषांच्या पोषाखामध्ये नागरी संस्कृतीचा प्रभाव दिसतो. डोंगर्गाव्व्या परिसरात पावसाचे प्रमाण जास्त असल्यामुळे गावातील प्रमुख पिक भात आहे. या गावाची लोकसंस्कृती लोकगीते, लोककथा, सणउत्सवाची गाणी हळू हळू लुप्त होत चालली आहेत.

उद्दिष्ट

१)गावातील लोकसंस्कृती आभ्यास करणे.

२) लोकजीवनातील होणारे परिवर्तन तापुसून पाहणे.

३) प्रसार्माध्म्मामुळे बोली भाषेवर पडलेला प्रभाव.

आभ्यास पद्धती:

सदर लोकवाङ्मयाचा आभ्यास करताना मुलाखती, चर्चा आणि निरीक्षण या पद्धतीचा वापर केला.

लोकगीते:

मौखिक परंपरेने ओवीगीत त्या निर्मितीमागे असलेल्या संस्कारित मनाचे प्रतिबिंब ओवीगीतामध्ये दिसून येतात. जात्यावर दालन दळीत असताना अनेक ग्रामदैवत देवांविषयी, यांचे चित्रण हि ओवी गीतात दिसून येते. ह्या गीतातून जीवनातील सुख्दुखाच्या चानांचा अविष्कार ओविगीतातून आली आहेत. 'जात्यावरील' ओवी गीत गात असताना भक्तीचा आनंद मिळावा म्हणून अनेक ओव्यातून पंढरपूरचा विठ्ठल, अजंनी मत, हनुमान, भीमाशंकर, त्रिंबक राज्याल, महादेव पवर्ती, या देवतांचे वर्णन ओविगीतातून दिसून येते.

सरीला दळण माझ्या सुपात केवढा ग
पंढरीचा देव माझ्या भाबडा ग
सरली दळण खाली राहिली पायली ग
सोन्याची पांच फुला अंजनी मातेला वाहिली ग
सरली दळण खाली राहिली आठवा ग
सोन्याची पांच फुला भीमाशंकरलामातेला वाहिली ग
सरली दळण खाली राहिली शेर ग
सोन्याची छत्री त्रिंबक राजाला वाहिले ग
सरला दालन खाली राहिला पाच मुठ्ठी ग
मारुती देवाला वाहीन शेंदराची उटी ग
डोंगराच्या कळसुबाई जातेच्या माने मंधी फिरते ग
जातेच्या फेऱ्यामंधी फिरते महादेव ग
जात्याच्या शेंड्या मध्ये फिरते पार्वती ग
सरील दळण ग माझ्या सुपात केवढा ग
सरील दळण हात भरील चुद्यान ग

वरील गीतातून दळण दळतअसताना महादेव, पार्वती, मारुती, इ. देवतांचे नावे घेऊन जाते वाढण्याचे कष्ट कमी व्हावे म्हणून देवाचे नाव घेऊन ओवी गीते म्हटली जातात. परंतु आज जात्यावरील ओव्या अहिसे झाल्या आहेत. कारण जात्या एवजी पिठाची गिरण आली आहे. उखळ एवजी मिक्सर आले. चूल एवजी गॅस असे कितीतरी शब्द आज अजीबाईच्या व्यवहारात बोलत आहे.

डोंगरगाव परिसरातील बोलीवर प्रभाव:

आज शिक्षण, प्रसारमाध्यम, जागतिकीकरण वैज्ञानिक शोध व वाढता विकास यामुळे अनेक नागरी आणि पाश्चात्य संस्कृतीचा प्रभाव डोंगरगावाच्या बोलीवर पडलेला दिसतो आणि तो सहज लोकांनी स्वीकारले. न्याहारी एवजी नस्ता, संडासला गेले एवजी टॉलेटला गेले, पंजाबी, सूट, पेस्ट,

परकर, गाऊन, कंडक्टर, ब्लाउज, बिस्किट, कार, बस, तिकीट, चेक, पेमेंट, सिलेंडर, कुलर, टेबल असे कितीतरी शब्दांचा ग्रामीण बोलीमधून पहावयास मिळते.

मुळशी तालुक्यातील बोलीभाषेवर प्रसार माध्यमाचा फार मोठा प्रभाव दिसतो इंग्रजी, हिंदी मराठी या भाषांचा प्रभाव पुढील प्रमाणे दिसतो. उदा. star प्रवाह, माझा, IBM लोकमत, ETV वाहिनी, व्हील, स्मार्ट सुनबाई, डॉक्टर, क्लोजप, नॉनमॉटरीक सुपर डान्सर, BREAKING NEWS OK YES रेडिओ, मोबाईल, कॉमप्यूटर, सीरिअल, sms, message, delete, contacts, image, menu, inbox, sent, erecharge, sound, clops या सारखी कितीतरी शब्द डोंगरगावग्रामीण बोलीतून येऊ लागली आहे. आज खेड्यापाड्यात सुधा वर्तमानपत्रापेक्षा आकाशवाणी आणि दूरदर्शन, मोबाईल या प्रसारमाध्यमांचा जास्त प्रभाव दिसतो. कारण दूरदर्शनच्या माध्यमातून लोककलावंत व अभिजन कलावंत, शहरीभाषा, ग्रामीण भाषा, परप्रांतीय भाषा, पाश्चात्य भाषा. विविध बोलीभाषांचा प्रभाव डोंगरगाव परिसरातील बोलीभाषेवर पडलेला दिसतो.

निष्कर्ष:

- बोली भाषेतील काही शब्द लुप्त होत आहेत.
- लोककथा, लोकगीते, लोककला आणि म्हणी हे लोकवाङ्मय यामध्ये परिवर्तन झालेले दिसले.
- रोजगार नसल्यामुळे तरुणांचा शहराकडे ओढ असल्यामुळे ग्रामसंस्कृती व कृषीसंस्कृती नाहीशी होत आहे.
- या गावात सरकारी योजना नसल्यामुळे अस्वच्छता, रस्ता, आरोग्य केंद्र, शाळा यांची समस्या जाणवली.

CHAPTER-4

POLITICAL VIEWS

Nanda A. Rashinkar and Prajakta Kumbhar

Department of Politics

Aim: To Study the Social Political States of Dongargaon

Objectives:

1) To study the politically active participation of the people of Dongargaon village.
2) To check the government schemes role in the social development of Dongargaon village.
3) To study the Project implemented by Grampanchayat for the development of the village.

Hypothesis:

1) The People of Dongargaon are aware of politics
2) The development of has been done by the implementation of government scheme
3) The participation of the political leader in the development of Dongargaon.

Research Methodology:

Dongargaon's political and social a case study conducted by conducting interviews with villagers. The political situation has been studied. Observation and government report are studied by primary and secondary studied by means.

Introduction:

Dongargaon is a village in Mulshi taluka of Pune district. The structure of the village is the lower place and upper place in the way. Mountain On the three sides of the village and the river is SSone side. There is a one meter narrow bridge over the river to get to the village.

Social status:

The population of Dongargaon as per census of 2011 is 860. Only huge pass rainfall in this area. This village has all the caste population. The Hindus and the Buddhist.

Table 4.1: The caste wise classification of the citizens of Dongargaon

Sr. No.	Caste Group	Population	Percentage
1.	Unreserved	762	88.66%
2.	Scheduled Caste	87	10.11%
3.	Schedule Tribe	11	1.27%

Table 4.2: Female and Male gender classification

	Male	Female	Total	Percentage
Total	444 (51.62)	416 (48.37)	860	100%
Unreserved	394 (51.70)	368 (48.29)	762	88.66%
Scheduled Caste	46 (52.84)	41 (47.12)	87	10.11%
Schedule Tribe	4 (36.36)	7 (63.63)	11	1.27%

There is no mention of the number of OBCs in the census of 2011. In unreserved category the proportion of Marathas among the citizens is 88.66%. The proportion of Scheduled Castes citizens is 10:11. It Includes Buddhist religious citizens. The population of Buddhists is very close to the main population. Among Buddhist population the person name Bhagwan Gaikwad is building a temple from his own money for the sake of the people. Dalit and Maratha community the opinion of the villagers (reference interview Namdev Maruti Pasalkar) was also suggested that the communities are live separately. There are three temples for the people of unreserved category (Gramdaivat Bhairoba, Vitthal Rukmini, Datta Mandir).

Participation of Women in Business:

There are two women's Self Help groups in the village. Most women do housework, farm work, and so on. Quick Poultry farming and dairy are practiced in two to three houses. For women, the literacy rate is 63.49%.References Bhagwan Gaikwad has been appointed Sarpanch in the Scheduled Castes group.

Political Studies – Constituency:

Preface:

Dongargaon village belongs to the Legislative Assembly of Bhor Constituency. Sangram Anantrao Thopate is a member of the Bhor Constituent Assembly. Dongargaon comes under Baramati Lok Sabha constituency. Right now Supriya Sule is a member of the Baramati Lok Sabha constituency.

Gram Panchayat - Group Gram Panchayat Kolvan:

Kolvan, Hotale, Dongargaon, together with three villages, are located in the Group Gram Panchayat at Kolvan. This Gram Panchayat was established in 1965. Presently, Mrs. Kavita Sudam Dunde is the Sarpanch. Sarpanch post an open group woman is given the opportunity, even for the male open group (Reference Interview Bharat Satpute). Mrs. Shobha Narayan Jori is the Deputy Sarpanch. The choice of Sarpanch and Deputy Sarpanch is always elected without conflict (Reference Interview Bharat Satpute Dt. 7/10/2019). Both positions are currently women of unreserved category. According to the Gram Panchayat Act all persons belonging to the caste group are in the Gram Panchayat. The member's tribal community of the present Gram Panchayat is not included.

Political participation of women:

The political participation of women in Dongargaon is voting in the Gram Panchayat elections, running the office of Gram Panchayat through Contesting the election of Gram Panchayat, work as a member and office holder of gram Panchayat. Currently, there are women in both the posts of Sarpanch and Deputy Sarpanch.

Dongargaon Development:

Gram Panchayat was established in 1965 with three villages of Dongargaon, Kolvanand Hotale. The Gram Panchayat has done many development works through the Development Fund. Priority given to the roads, electricity, water, education.

1. Wells are created from Swajaldhara Yojana. Drinking water is made available through tapes.

2. The standard of education in the village is from 1st to 4th. The Knowledge Design Debate Program was organized.

३. The program "Advanced Education Maharashtra" is implemented.

४. A nutritious diet plan is implemented.

५. During the period of Ashok Mohol Member of Parliament the bridge was constructed on the river about 20 years ago, earlier, a river walk or a boat was used to enter the village.

Conclusion:

१. The highest proportion of open-group citizens. (Maratha Samaj)

२. Hindu religious ratio is high. - Muslims religious are not present.

३. Women are involved in the political process.

४. Women are led by the Gram Panchayat.

५. Many development works have been done in the village through various schemes.

Observation:

4. There are various parties in the village, but the NCP is the influence of this party.
5. Gram Panchayat made improvements in water, electricity, bridges.
6. The Gram Panchayat elections were unopposed.
7. Development is done through various schemes of Government.
8. Muslims are not present just Hindus and Buddhists.
9. Education is available only up to 4th standard.
10. There is no electricity in the village for 2 days a week. Toilets are constructed by villagers at their own expense.
11. There is no employment except rice cultivation.
12. There is no business with saving groups.
13. According to this concept of Digital India, Gram Panchayat has computer, internet facilities. But Lack of electricity and lack of trained staff, due to this work is not

Suggestions:

१. The village should have access to education.

२. To go to the village, the bridge needs to be repaired.

List of interviewers:

1 Eknath Jori
2) Gajanan Jadhav – Member
3) Namdev Maruti Pasalkar
4) Rupali Shejwal – (Gram Panchayat Staff) ,
5) Ankush Kanojeere
6) Bharat Satpute
7) Bhagwan Gaikwad - (Former Sarpanch)

CHAPTER-5

SOCIO-ECONOMIC SURVEYS

Arjun Doke

Department of Geography

Location:

Dongargoan is lactated in Mulshi tehsil of Pune district in Maharashtra state, India. It is situated 14 km away from sub-district headquarter Paud and 45 km from district headquarter Pune. Kolwan is the gram panchyat of Dongargaon village. Extend village Dongargoan is 73° 30′30″ E to 73° 34′00″ E longitude and 18° 33′00″ N to 18° 34′00″ N latitude (**Figure 5.1**). Total geographical area is 634 hectare as around the more than 6km^2.

Population characteristic:

Dongargoan local language is Marathi. As per the 2011 census the total population is 860 and total household are 180. Female population is 416 (48.40%) and male population is 444 (51.60%). Schedule Caste population is 87 in which 46 male and 41 female. Schedule Tribe population is 11 in which 4 male and 7 female. The literacy rate 74.15% in which male literacy rate is 84.05% and female literacy rate is 63.49. In village Dongargaon, total workers population is 599 whiten that 327 male and 272 female. 589 is main worker and 10 is marginal workers.

Village Facility: Village have one ATM. One Post office, three fare price shop, one Milk Cooperative/Collection Centre, one Bus Stop, five Common Sanitation complexes.

Land use: Forest cover 1400 acre area of village Dongargoan. The agriculture covers 240 acre area. Area under water bodies is 10 acre. Common lands cover 10 acre area of village Dongargoan.

Cropping Pattern: Rice, Wheat and Sugarcane is main crop in the village Dongargoan. The Bore well and River is main source of irrigation. The irrigation method is Drip and Flooding.

Livestock Assets: Total number of livestock is 103. Average daily production of milk 90 litres and total animal waste is 56 kg per day.

Occupation Pattern: The 62 male and 44 female working with your own land. Skilled Wage Workers 4 within 3 male and 1 female. Unskilled wage workers 29 within 24 male and 5 female. Salaried Employment in private sector is 6 within 4 male and 2 female.

Average annual income: The average annual income of SC category is Rs. 27857. OBC category is Rs. 40000 and General category is Rs. 29711.

Energy Source: The village Dongargaon have 100 percent registered electricity connection.

CHAPTER-6

NATURAL RESOURCES: PLANTS

D.M. Mahajan and R.B. Bhagat

Department of Botany

The idea of village survey was conceived by Hon. Prin. Dr. Nitin Ghorpade. Under his able guidance, the college has selected the village Dongargaon in Mulshi Tehsil of Pune District (Maharashtra). Department of botany have carried out a survey for plant diversity and its significance on 7th October 2019. It was a great experience for students who learnt lot many things while working with the local people. In all three teachers and three students were involved in the survey.

Students Involved:

1. Kamble Pradnya Rahul SYBSc
2. Nikam Sapana Sadashiv SYBSc
3. Shinde Manasi Tanaji SYBSc

Introduction:

India is one of the 12 mega-biodiversity countries of the world. Majority of the rural population in India is directly dependent on biodiversity and ecosystems for almost their entire basic needs: water, food, medicine, clothing, housing etc. Western Ghats is one of the 34 biodiversity hotspots of the world. The Western Ghats are exceptionally rich in plant and animal species. Unfortunately, due to heavy human pressures this tremendous biodiversity is getting destroyed fast. Water resources are drying up and getting less in quantity for the growing population.

This region is rich not only for wild biodiversity but also for the crop species and varieties. We had many local varieties of crops and fruit plants of which we had very high diversity. Our natural areas are rich treasure of medicinal plants. The local people were aware of its use. The forests are overexploited due to high developmental pressures, encroachments for agriculture, dams etc. The forests are an important source of many ecological services. Now a days, we are facing the consequences (floods, landslides, threats to wildlife, loss of endemic species, etc.) of forest degradation. We have fragmented our forests, as a result the plant diversity is declining. Decline in forest resources is linked to poor quality life in villages. This further results in large scale migration to urban areas. The unplanned development in this region is harmful to the ecosystem and biodiversity; and therefore, any kind of development being proposed in Western Ghats should be responsive to the fragility and rich biodiversity.

Hypothesis:

Our villages are exceptionally good in natural resources such as plants, crops, animals, medicinal plants, soils, water, etc. Unfortunately, due to heavy anthropogenic

pressures these enormous resources are getting destroyed fast. Biological resources are vanishing fast due to uncontrolled encroachments and exploitation. Water resources are drying up and getting less in quantity for the growing population. So, to understand the current status of these resources, our college has decided to survey these resources through the participation of students and teachers.

Aim:

Documentation of plant diversity of village Dongargaon, Tal Mulshi (Part of Northern Western Ghats)

Objectives:

To prepare the plant species checklist of village Dongargaon
To enlist endemic and RET species
Documentation of ethno-botanically important and wild vegetable plants
Documentation of agricultural crops.

Materials and Methods

Study area: Dongargaon

The surveys for plant biodiversity assessment were conducted in and around the Dongargaon village (Mulshi) of Pune District. The village lies in the Western Ghats; Mulshi valley and located at 18° 34’ 14” N latitude and 73° 32’ 28” E longitude; and situated approximately 62 Km from Pune. The general topography of the area is hilly with steep slopes to undulating land. It slopes towards north-east direction. It is marked with isolated agricultural farms and a river. The main land use pattern is single crop agriculture, settlements and reserved forest. The average elevation of land surface is observed to be 600 m above the MSL.

Plant surveys

We prepared a simple plan for plant diversity studies at village level with the help of our students. The plan was carried out experimentally with the participation of students and teachers. A reconnaissance survey was carried out to have an overview of the species composition of the area. The surrounding area exhibits a land use pattern that mainly consists of reserved forests and agricultural land with sparse trees on the bunds. The reserved forests and agriculture fields were interspersed with settlements. The sampling locations were determined by considering the land use pattern. The geology, topography, climate and the soil have a close bearing on the nature of vegetation. These features were taken into account while selecting the sampling sites.

The biodiversity surveys were conducted to document the terrestrial and aquatic flora of the area. The area is dominated more or less dense vegetation with diverse species composition. Intensive field surveys were made for documenting the various floral species. We used random walk method for listing the floral species. More emphasis was given to document and quantify the maximum possible number of species.

Identification

The methods followed in the field were based on the procedure outlined in 'The Flora of Maharashtra State' and 'Flora of Khandala'. The floristic studies were based on extensive exploration of the village area. The field surveys involved the preparation of an inventory of different species of plants including trees, shrubs, climbers, and herbs in the area. All plant species were identified with the help of expert taxonomist and literature published by Botanical Survey of India. Observations were also made on the agricultural patterns, agricultural weeds and cultivated and introduced plant species.

Observations and Results:

The topography of Dongargaon village is almost hilly with undulating to steep slopes. The natural vegetation/ forest type in this area is moist deciduous. Large to medium-sized trees along with shrubs constitute majority of the vegetation. Diversity of herbaceous species is always more in monsoon months and declines as the rainy season recedes. The summers are hot and dry.

As per Champion and Seth (1968) the forest type is Subgroup 3B/C2. Forest canopy is almost fragmented. Trees attain height of 20 to 25 m or more. The dominant species are moist deciduous in nature. Relatively small number of species together form the greater part of forest canopy and relatively pure association are frequent. Some evergreen species are dominant, but they are few. These species provide more or less evergreen appearance throughout the year.

The hillsides are covered with dense mixed forest. Epiphytes are infrequent in appearance. Climbers are frequent. The undisturbed soil supports more or less evergreen shrubs. Especially the *Carvia callosa* forms large thickets on slopes, and *Carrisa congesta* on gentle slopes. The main composition of these forest is – *Syzygium cumini, Bridelia retusa, Mangifera indica, Terminalia elliptica, Terminalia chebula, Terminalia bellirica, Ficus racemosa, Ficus nervosa, Bombax ceiba, Lagerstroemia lanceolaria, Mallotus philippense,* and the undergrowth of shrubs like *Ixora, Flacourtia, Catunaregum, Carrisa, Gnedia glauca, Leea asiatica,* and *Pogostemon benghalensis* along with few other species. The only bamboo species was *Dendrocalamus strictus*. Here and there it forms virtually pure patches in the hills. The epiphytic orchids reported include *Aerides crispum, Rhynchostylis,* and *Dendrobium*.

Total number of subspecies, species, genera, families:

Flora refers to the plant species occurring in area. The extensive field surveys (supported by literature surveys) resulted in documentation of 560 plant species. The taxonomic distribution of documented plant species is illustrated in **Table 6.1**, and **Annexure-I** (Check list of flowering plants). The list includes the botanical name of species, habit, family, and status.

Table 6.1: Taxonomic attributes

Plant Type	No. of Species	No. of Genera	No. of Families
Angiosperms	560	358	90
Pteridophytes	11	09	09
Bryophytes	10	09	08
TOTAL	**581**	**376**	**107**

The documented species belonged to 376 genera and 581 species of 107 families (including Angiosperms, Pteridophytes, and Bryophytes) indicating the floristic richness of Dongargaon. The most dominant group is Angiosperms having 560 species that are distributed in 358 genera and 107 families. Other groups also represented very well forming a unique amalgamation of flora and vegetation. Among angiosperms the most represented family (**Table 6.2**) was Fabaceae (59 species), Asteraceae (45 species), Poaceae (40 species), Acanthaceae (25 species) and Euphorbiaceae (24 species). Similarly, the most abundant genera (**Table 6.3**) were *Ficus* (12 species), *Ipomoea* (10 species), *Acacia* and *Euphorbia* (9 species each), *Cassia*, *Impatiens and Indigofera* (7 species each), *Alysicarpus*, *Crotalaria and Grewia* (6 species each).

Table 6.2: Abundant families

Family	No. of Species
Fabaceae	59
Asteraceae	45
Poaceae	40
Acanthaceae	25
Euphorbiaceae	24
Convolvulaceae	23
Lamiaceae	16
Mimosaceae	16
Moraceae	14
Malvaceae	13

Table 6.3: Abundant genera

Genus Name	No. of Species
Ficus	12
Ipomoea	10
Acacia	9
Euphorbia	9
Cassia	7
Impatiens	7
Indigofera	7
Alysicarpus	6
Crotalaria	6
Grewia	6

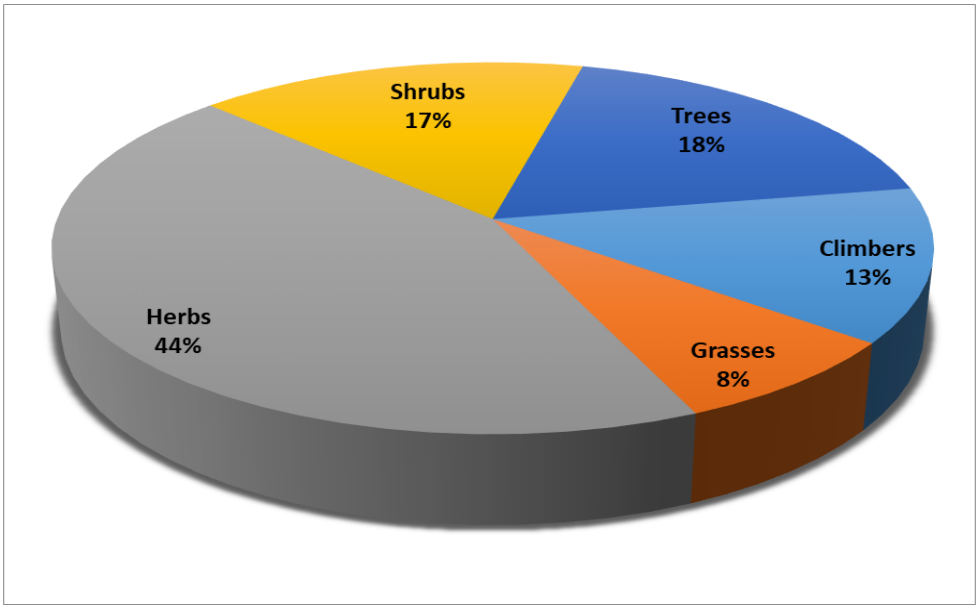
The habit-form wise analysis (**Figure 6.1**) presented a predominance of herbs (44%) and trees (18%) followed by shrubs (17%), and climbers (13%) and grasses (8%). The Pteridophytes and Bryophytes are represented by 11 and 10 species respectively.

Lower group flora:

Cryptogams have a fundamental role in ecosystem function. They play central roles in the formation and stabilizations of soils, the decomposition of dead organic material and nutrient cycling. They form symbiotic relationships with most vascular plants and are an important food source for many other organisms.

The lower group of plants needs very specific habitats and environmental conditions. Ecologically, these are probably most important as primary colonizers and stabilizers. They are very sensitive to their habitats. The Dongargaon village provides a good habitat for lower flora.

Figure 6.1: Distribution of habit-forms of plant species



Pteridophytes:

The Pteridophytes have an important and subtle ecological role, both in water-retention and stabilizing mobile surfaces like landslips, and scree slopes. They provide shelter and humidity for a remarkable diversity of invertebrates. Pteridophytes are an integral part of the food web in many of our important habitats. The Pteridophytes documented in this area are listed in **Table 6.4**.

Table 6.4: List of Pteridophytes

Botanical Name	**Habit**	**Family**
Adiantum incisum	Herbs	Adiantaceae
Adiantum lunulatum	Herbs	Adiantaceae
Cheilanthus albomarginata	Herbs	Cheilanthaceae
Lycopodium sp.	Climber	Lycopodiaceae
Pleopeltis sp.	Epiphytic herbs	Polypodiaceae
Pteris biaurita	Large herbs	Pteridoideae
Azolla pinnata	Aquatic herbs	Salviniaceae
Selaginella ciliaris	Small Herb	Selaginellaceae
Selaginella delicatula	Suberect herb	Selaginellaceae
Tectaria sp.	Herbs	Tectariaceae
Nephrolepis sp.	Herbs	Thelypterideae

Bryophytes:

Bryophyte is a collective term for mosses, liverworts and hornworts. Bryophytes have fragmented distributions. Bryophytes are typically associated with more moist habitats where they grow on soil, tree trunks and branches, fallen timber, debris and rocks. Many of them are found only in small scattered and isolated populations of very small numbers of plants with little ecological resilience and apparently not capable of spreading to other un-colonised but seemingly suitable areas. This presents particular conservation problems. The bryophyte flora of the village is moderately rich. This region provides good micro-habitats for the growth and survival of bryophytic flora. The bryophyte species that are documented during field work are listed in **Table 6.5**.

Table 6.5: List of bryophytes

Botanical Name	**Family**	**Habitat and Distribution**
Antheceros erectus	Anthocerotaceae	Damp soils
Asterella sp.	Aytoniaceae	On calcareous walls
Plagiochasma sp	Aytoniaceae	On wet rocky or soil surface
Bryum sp.	Bryaceae	On calcareous soils and walls
Cyathodium sp.	Cyathodiaceae	Wet and damp cutting of hill and rock
Notothylas sp.	Notothyladaceae	Damp plaines
Pogonatum sp.	Polytrichaceae	Laterite soils
Riccia discolor	Ricciaceae	Moist soils, shady and exposed places
Riccia glauca	Ricciaceae	Moist soils and stream banks
Targionia sp.	Targionaceae	Damp soils

Threatened and Endemic Species:

As the village area falls in Western Ghats, it represents fairly good number of endemic and threatened plant species. The list of endemic and threatened plant species is provided in **table 6.6**. In all 35 species fall in a category of ‘endemic to India’, out of which 7 are in vulnerable category of Botanical Survey of India and IUCN, 04 are at lower risk, and only one is endangered. Six species are endemic to Maharashtra, out of which one is under vulnerable category and two are under lower risk. Out of remaining 6 species that are not endemic, one in vulnerable status, 4 are under lower risk and 01 least concerned.

Table 6.6: Threatened and endemic plant species.

EI: - Endemic to India; EM:- Endemic to Maharashtra; VU: Vulnerable; EN: Endangered; LR:- Lower Risk; LC: Least Concerned

Ecosystem Service:

Most of the ecosystem services on which we and much of the agricultural system rely are being degraded or overexploited. Unpredictable weather, floods, overuse of chemical fertilizers and declines in soil fertility are severely impacting our agricultural system. The degradation of ecosystem services such as freshwater provision, climate regulation and soil fertility clearly has implications for the long-term viability of the businesses dependent on them.

Ecosystem services – also called 'ecological services' are the benefits that people obtain from ecosystems. Examples include freshwater, timber, climate regulation, and protection from natural hazards, erosion control and recreation.

Provisioning services:

Food: Crops, Livestock, poultry, Wild foods
Timber: *Terminalia, Lagerstroemia, Tectona, Haldina, Mitragyna,* etc.
Biomass fuel: Fuel wood and charcoal, grain for ethanol production, dung
Fresh Water: Freshwater for drinking, cleaning, cooling, and household purpose.
Genetic Resources: Genes used to increase crop resistance.
Bio chemicals: Medicines, biocides, food additives
Natural Medicines: crude drugs obtained from plants
Pharmaceuticals: Nothapodytes, Gloriosa, Chlorophytum, Camptothecin as basis for cancer drugs, extracts used for pest control.

Regulating services:

Air quality regulation: Water body and vegetation as carbon sink.
Water quality regulation: Permeable soils facilitate aquifer recharge. River floodplains and wetlands retain water.
Climate regulation at global and regional scale: Forests (capture and store carbon dioxide).
Water purification and waste treatment: Wetlands remove harmful pollutants from water by trapping metals and organic materials. Soil microbes degrade organic waste, rendering it less harmful.
Disease and pest regulation: Predators from nearby forests – such as bats, toads and snakes – consume crop pests.
Pollination: Bees from nearby forests pollinate crops.

Cultural services:

Recreation and ecotourism: Hiking, camping and bird watching.
Ethical values: Spiritual fulfilment derived from sacred lands and rivers.

Supporting Services:

Nutrient recycling: Decomposition of organic matter contributes to soil fertility.
Primary production: Plants transforms sunlight and nutrients into biomass, thereby forming the base of the food chain in ecosystems.
Water cycling: Transfer of water from soil to plants, plants to air, and air to rain.

Agriculture:

Traditional farming and terrace farming, especially paddy fields, were observed in the village area. Agriculture is the traditional occupation of local people in Dongargaon. The traditional agriculture is still under practice at some places, where the crops like *Eleusine coracana* are produced. The main land-use around the village is farming, mainly cultivated with crops like Rice (*Oryza sativa*), and Chana (*Cicer arieatinum*). The other crops taken are *Eleusine coracana* and *Amaranthus hybridus*. **Table 6.7** lists the various crops cultivated in the village. The leafy vegetable crops are *Spinacia oleracea, Raphanus sativus, Coriandrum sativum,* and *Amaranthus sp.* A number of local varieties/ landraces of rice, and ragi are cultivated occasionally.

The important fruit plants are *Mangifera indica* (Mango), *Psidium guajava,* and *Syzigium cumini* (Jamun). The wild fruit species are *Ziziphus mauritiana, Emblica officinalis,* and *Cordia dichotoma*. The farms are interspersed with human habitation, villages and townships.

The open areas around the agricultural fields and open foothills are infested with highly invasive weeds like *Eupatorium odoratum, and Hyptis suaveolens*. Other common herbs include *Cassia tora, Alysicarpus, Sida, Celosia, Desmodium, Acanthospermum, Phyllanthus, Ageratum, Tephrosia, Vigna, Alternanthera, Vernonia, Achyranthes, Euphorbia, Crotolaria, etc.*

Table 6.7: Agricultural crops under cultivation/ wild

Crop Type	**Crops species**
Cereals	Rice (*Oryza sativa*)
Millets and minor millets	Finger millet (*Eleusine coracana*), foxtail millet (*Setaria italica*), and common millet (*Panicum miliaceum*)
Oilseeds	Sesame (*Sesamum indicum*), Niger (*Guizotia abyssinica*), and Linseed (*Linum usitatissimum*)
Fruits	Mango (*Mangifera indica*), Jackfruit (*Artocarpus heterophyllus*), Lemon (*Citrus limon*), Custard apple (*Annona squamosa*), and Guava (*Psidium guajava*)
Medicinal and Aromatic Plants	*Embelia tsjeriam-cottam, Garcinia indica, Gloriosa superba, Pueraria tuberosa,* and *Rubia cordifolia*
Leguminous vegetables	Cowpea (*Vigna unguiculata*), and lablab bean (*Lablab purpureus*) are important leguminous vegetables.
Shoots and leafy vegetables	*Alocasia, Amaranthus viridis, A. spinosus,* and *Celosia argentea*
Vegetables	*Canavalia ensiformis* and *Solanum torvum.*
Fruits	*Carissa spinarum, Cordia myxa, Dillenia indica, Phoenix sylvestris, Syzygium cumini* and *Ziziphus mauritiana.*
Beverages	*Phoenix sylvestris*
Dye yielding plants	*Butea monosperma* and *Indigofera cassioides*

Summary and Conclusion:

The students under the guidance of teachers have created an excellent database. Their valuable contribution covers many aspects of village biodiversity, such as: plant diversity of land and water, wild plants used as food, medicinal plants and their uses and crop varieties.

In all 581 plant species were documented. The documented species belonged to 376 genera and 107 families (including Angiosperms, Pteridophytes, and Bryophytes) indicating the floristic richness of Dongargaon. The most dominant group was Angiosperms having 560 species that are distributed in 358 genera and 90 families. Other groups also represented very well forming a unique amalgamation of flora and vegetation. Among angiosperms Fabaceae, Asteraceae, Poaceae, Acanthaceae and Euphorbiaceae families represents majority of the vegetation. Similarly, the most abundant genera were *Ficus, Ipomoea, Acacia, Euphorbia, Cassia, Impatiens* and *Indigofera*.

Crop and cultivated fruit species documented were 34.

The rare, endangered, and threatened plants were 47, out of which 35 species fall in a category of 'endemic to India'. Out of these 7 are in vulnerable category of Botanical Survey of India and IUCN, 04 are at lower risk, and only one is endangered. Six species are endemic to Maharashtra, out of which one is under vulnerable category and two are under lower risk. Out of remaining 6 species that are not endemic, one in vulnerable status, 4 are under lower risk and 01 least concerned.

Suggestions /Recommendations:

Realizing the situation of plant diversity following suggestions are made

- The rich plant diversity should be conserved through people's participation
- The importance of sustainable use of biodiversity should be highlighted
- There should be fair and equitable share of benefits from use of bio-resources.
- The valuable knowledge about biodiversity that our people is having should be documented and protected.

Significance of this Exercise:

- Students and teachers gaining first-hand knowledge of plant diversity
- Students become efficient communicators
- Student get exposed to environmental problems faced by villagers
- Environmental education is compulsory for the colleges
- Science students of colleges are required to submit student research projects for their examination. The students can utilise their work on village level biodiversity for preparing these reports
- The teachers will be able to familiarise with much of plant diversity and environment in their surroundings and can use such experiences for better teaching
- Young teachers can identify and choose research programmes of their choice related to biodiversity/ecology.
- The work under this activity can be considered as extension education and help in making environmental awareness among the society.
- The students will be moulded into better, eco-conscious citizens in the future.

CHAPTER-7

NATURAL RESOURCES: ANIMALS

Vaishali M. Bansod and Sharad V. Giramkar

Department of Zoology

On 07th October 2019 Department of Zoology in collaboration with NSS committee conducted survey of Dongargaon village of Pune city. Dr. Vaishali M. Bansod and Dr. Sharad V. Giramkar and 7 students of First year and second year participated in the survey.

It is located in Taluka Mulshi, of Pune city. As the name Dongargaon suggest that it is nestled in the mountains. The day experienced 31°C temperature. The survey was conducted from morning 10 am to 2:30 pm.

The survey was done on

- Biodiversity of animals in Dongargaon village and
- Vitamin A deficiency in school children. (VAD)

Biodiversity of animals in Dongargaon village:

In the biodiversity varied fauna were recorded. The animals belonging to phylum Arthropoda, Nematoda, were found in invertebrates. Varied animals belonging to class Pisces, Aves, Reptilia were also found. The data was prepared, and the animals were classified. Total 45 animal species were found. Some of them are listed

The animals found in phylum Arthropoda:

Black ants, Gundhi bug, Tree hoppers, Leaf hoppers, Dragon fly, white Lace butterfly, Lemon butterfly, water strider, Silver fish- soil, Flea, Green bot fly, White spotted Black butterfly, Green spotted butterfly, Red Dragon fly, Plant lice, Spider, Tarantula, Stick insects, blue bristles dragon fly, paddy grasshoppers, Stem borers, Honey bees, Ticks on Cattles, Mites on Chicken, Bird lice, crabs, scorpion-the species found were *Hetrerometrus xantha, Orthochirus bicolor, Mesobuthus fullpus, Dermestid* beetle., *Dematophagoides* mite found in feathers of domestic hens.

Very few Molluscs were found, probably because the village mostly carried out rice farming. Such fields provide optimum favourable conditions for the snails, they are considered to be the enemies of paddy field, and it feeds on the roots of the paddy. It remains in the burrows in the paddy field. Common snails, apple snails were found.

The amphibian animals found were Toads, The green line Steemit frog. It was found in the roadside puddle.

The variety of birds found were King fisher, hummingbird, cattle egret, domestic hens, parrots, Black crested birds, Yellow lapwing bird, house sparrows, crows, mynah, peacock, black winged stilt, paddy field pipit, rock pigeon, Asian koel, common hawk, spotted owlet, hoopoe, Baya weaver, common grass yellow, swift, and bee-eater.

Retiles found were House lizard, gecko, common garden calotes, grass skink,

Mammals found were 05 striped squirrel, bandicoot, domestic cows, goat, and buffaloes. Dogs, domestic cats,

Vitamin 'A' Deficiency Surveys:

Similarly, Vitamin A deficiency survey was undertaken for the students of Primary school. It was done by using Bitot test. The test includes examination of Eyeballs, skin, hair. They showed white spot on the eyes. Bitot's spots are the build-up of keratin located superficially in the conjunctiva of human´s eyes. They can be oval, triangular, or irregular in shape. The spots are a sign of vitamin A deficiency and associated with drying of the cornea. The data of Height and weight of the school children were also recorded.

From the data it was observed that maximum number of school children was having vitamin A deficiency. The data was given to primary school teacher. The diet to be included in children's food was explained.

The students of First Year zoology actively participated in the survey. Two groups were made for 2 different data collection.

Photographs of the animal found in nature were taken. Note was made of the birds and others which could not be captured in camera.

The data revealed a rich and varied biodiversity in Dongargaon. The unusual butterflies, moths, frogs found. The animals were different from the animals found in the urban areas. The students also got to learn the burrows prepared by the frogs in paddy field.

The department of Zoology is grateful to NSS committee. The department is thankful to Prin. Dr. Nitin Ghorpade Sir for giving us the opportunity to expose our students to the village with regard to rich biodiversity.

CHAPTER-7

NATURAL RESOURCES: SOIL AND WATER

Latesh Nikam, Sujata Modhave and Rushant Nandkhile

Department of Chemistry

Under the guidance of Principal Dr. Nitin Ghorpade sir we have carried water and soil analysis project at Dongargoan on 7th Oct. 2019. It was a great pleasure and enjoyed working with the peoples of Dongargoan, They helped us to collect the sample and carry out further analysis by our 11 students along with 3 staff members. The observations and result of water sample is as given below:

Students Involved: UG (T.Y.B.Sc. students)

Archana Deshpande	Pratik Yede
Pournima Patil	Rohan Gaikwad

PG [M.Sc. –II (Analytical)]

Omkar Kale	Sachin Kadam
Dipali Dumbre	Amit Thorat
Pooja Kumkar	Suraj Singhan
Shubham Pisal	Vishal Nawadkar

II. Analysis of Soil:

Sample 1: Farm:

Table 8.5: Soil Analysis (Farm)

Sr. No.	Property	Value
1	Organic Carbon	0.168%
2	Moisture Content	0.1g
3	pH	In KCL+= 5.43; In H_2O = 6.20
4	Sodium	1.03ppm
5	Potassium	1.31ppm
6	Calcium	3.24ppm
7	Phosphate	3%

Sample 2: River side:

Table 8.6: Soil analysis (River side)

Sr. No.	Property	Value
1	Organic Carbon	0.246%
2	Moisture Content	1.3g
3	pH	In KCL+= 5.85; In H_2O = 6.52
4	Sodium	1.04
5	Potassium	1.36
6	Calcium	2.97
7	Phosphate	2.7%

Sample 3: Lake Side:

Table 8.7: Soil analysis (Lake Side)

Sr. No.	Property	Value
1	Organic Carbon	0.169%
2	Moisture Content	1.21g
3	pH	In KCL+= 4.71; In H_2O = 6.90
4	Sodium	1.03
5	Potassium	1.37
6	Calcium	3.37
7	Phosphate	5%

Analysis Report

Water Analysis:

Water quality of various sources of water available in Dongargaon have been tested and found that

i) Hardness and TDS is not less than 150 ppm

ii) pH is in the range 6-7

iii) Chloride, calcium content is low.

iv).Water is clear.

Conclusion: Water available from Grampanchyat Vihir (C/O Jori) is having good quality and suitable for drinking

Soil Analysis:

Soil samples form three different areas were tested in Laboratory and it has been found that soil is not chemically contaminated and enriched with Nitrogen, Phosphorous and Potassium other constituents present are Calcium and carbon to some extent.

CHAPTER-9

NATURAL RESOURCES: ENERGY

Bharat U. Kangude and Satish U. Ekar

Department of Physics

Aim: Survey of Energy Consumption Patterns and Energy Needs

Introduction:

Every geographical region has its own patterns of energy consumption and its needs. According to fundamentals of energy science every unit of energy saved is energy generated. It means that careful and optimistic use of electricity helps in the development of the economy of the nation. There is a great divide in the energy consumption pattern of urban and rural areas in Maharashtra, it implies that, in rural areas the use of non-conventional energy sources should be the basic priority for the development. The Department of Physics of Baburaoji Gholap College conducted an energy survey of the Dongargaon village in the Mulshi tehsil. This activity was coordinated by national service scheme (NSS) department of the college on 7th October 2019.

Objectives:

The study of energy consumption patterns and the problems faced by village communities was the basic motive of the study. Following three major objectives were set.

1. Study of energy sources available and the equipment being used in the village.
2. Energy availability and its efficient use at public places in Dongargaon
3. Energy conservation and extent of use of non-conventional energy sources at Dongargaon.

Methodology:

We have used survey and questionnaire method to obtain the data of energy use pattern and villagers' energy needs at Dongargaon. We have used the following four prominent methods.

1. Observations and interviews of family.
2. In questioner the questions were related to the equipment used in household and in agriculture.
3. Survey of 44 houses was completed.
4. The recommendations and suggestions are based upon the observations and inputs in the survey.

Using the above-mentioned methodology we conducted a survey for energy consumption and energy needs of the villagers.

Table 9.1: Number of families involved in energy survey

Sr. No.	Total houses in the village	Families participated in survey	Families denied participation in the survey	Total number of families surveyed
1.	57	43	01	44

Observations:

In the survey it has been observed that out of 43 families 10 were agricultural labourers, 02 were having transport business and remaining 31 families livelihood depending upon agriculture (Farmers)

Table 9.2: Energy equipment used in Dongargaon

Sr. No.	Electrical equipment	Number of families using
1	LED lamps	43
2	Television	43
3	Electric water heater	00
4	Solar water heater	01
5	Electric motor	02
6	Electric iron	01
7	Solar lantern	02
8	Wood for heating water	43
9	LPG for preparing food	22
10	Cow dung	21

It has been observed that in almost all families four LED lamps were being used. The most advanced electrical equipment were not found in any of the family. In the cases emergency of power cuts, people use candles, charging battery and traditional oil lamps. The electrical energy is being used only for domestic purpose. No commercial use is observed. All families have their monthly electric consumption bill is around Rs. 300/-. The per capita power consumption is much lower than the national per capita consumption. Government (PDS department) has stopped the supply of kerosene to households and it compels the villagers to use conventional lamps and candles for the lightning purposes. The wood from nearby jungle is being used in all houses for water heating. Looking at their economic income status, it has been found that the prices of electric supply and equipment is out of their reach. That is why the conventional energy sources are being used on the large scale. At the public places the use of electricity is much less and the lightning arrangement is inadequate. For many days the power cut/load shedding is almost for more than 4 hours. The villagers have to face a great hardship. The government LPG scheme for poor is known to the villagers but still today 50% families are not being benefited. Like other villages in the state the basic energy needs of these people are at primary level and it is needed to be improved. Villagers are needed to be trained about the equipment using non-conventional energy sources such as solar energy and wind energy

Instructions:

Looking at this scenario, street lamb equipment is very much needed to be installed on the commutation roads. Government offers 40% subsidy for this program. Villagers are not aware about the use of solar energy and it is recommended that people should be we made aware about the benefits of using non-conventional energy appliances. Energy saving

and energy conservation should be the two basic programs that the villagers should be made aware about. They should be provided some financial help from the government and NGOs.

Recommendations:

According to the results of survey, it is recommended that the authorities should implement the programs, to make aware the villagers about the non-conventional energy sources such as solar Energy equipment. The jungle wood should not be used as a fuel for domestic purposes. Use of CFL lamp, gobar gas etc. and associated schemes are needed to be implemented on war footing. The government authorities and Gram Panchayat should lead in this awareness program

CHAPTER-10

SUMMARY

The village under study has not seen a development due to its geographical location on a hilly terrain. Its technological backwardness has hindered the progress of the village. Educational facilities need to be developed. The village, especially the women of the village are in need of social progress. The youth of the village is attracted to urban life due to employment opportunities.

The social structure is well integrated through unique traditions. The people are of Hindus and Buddhist communities. However, due to overall development in communication and other technological progress, there seems to change in livelihood. Many words and sayings of local language and some traditions are disappearing slowly.

There are various political parties in the village, however, Nationalist Congress Party is the influential. The Gram Panchayat elections were unopposed. Gram Panchayat made improvements in facilities like water, electricity, and bridges. The village have an ATM facility, post-office, three fare price shops, a milk cooperative/ collection center, bus stop, and five common sanitation complexes.

Development is done through government schemes. Primary education is available. There is no electricity in the village for 2 days a week. Toilets are constructed by villagers at their own expense. Under 'Digital India' mission Gram Panchayat has computer with internet facility; however, load-shading and untrained staff are the limitations.

There is no employment except agriculture. Rice, Wheat and Sugarcane are chief crops. The bore well and River are important source of irrigation. The irrigation method used was drip and flooding. Average daily milk production was 90 litres. The important land use was forest and agriculture. The average annual income of SC category was Rs. 27857/-, OBC category Rs. 40000/- and general category Rs. 29711/-.

Vitamin A deficiency survey was undertaken for the students of primary school. It was done by using Bitot test. From the data it was observed that maximum number of school children were having vitamin A deficiency. The data was handed over to primary school teacher. The diet to be included in children's food was explained. The village was also surveyed for faunal diversity. It was rich in faunal diversity. The unusual butterflies, moths, and frogs were observed.

The floral and crop diversity surveys were also made which resulted in documentation of 581 plant species indicating rich diversity. Out of these 47 were under threat categories. Crop and cultivated fruit species documented were 34.

The water and soil analysis was carried out. Water available from Grampanchyat Vihir (C/O Jori) is having good quality and suitable for drinking. Soils are not chemically contaminated and enriched with nitrogen, phosphorous and potassium; other constituents present were calcium and carbon to some extent.

The energy surveys were made. Villagers were not aware about the use of solar energy and it is recommended that people should be made aware about the benefits of using non-conventional energy appliances. Energy saving and energy conservation should be the two basic programs that the villagers can be made aware about. They should be provided some financial help from the government and NGOs.

CHAPTER-11

SUGGESTIONS

- The village is in need of implementing 'pani adva pani jirva' as the village experiences frequent heavy rains. Economic progress of the village is need of the hour.
- The village should have access to secondary and higher secondary education.
- A new broad bridge is to be constructed on River for easy access and transportation.
- The water and soil quality is to be maintained.
- Realizing the situation of plant, crop and animal diversity, it should be conserved through people's participation; the importance and sustainable use of plant, crop and animal diversity should be highlighted; there should be fair and equitable share of benefits from use of plant and animal resources; and the valuable knowledge about biodiversity that our people is having should be documented and protected.
- According to the results of energy survey, it is recommended that the authorities should implement the programs, to make aware the villagers about the non-conventional energy sources such as solar energy equipment. The jungle wood should not be used as a fuel for domestic purposes. Use of CFL lamp, gobar gas etc. and associated schemes are needed to be implemented on war footing. The government authorities and Gram Panchayat should lead in this awareness program

Annexure-I

List of plant species observed within Dongargaon village

Botanical Name	Local Name	Habit	Family	Status
Abelmoschus esculentus	Bhendi	Herb	Malvaceae	Cultivated

Name of Activity- Mahatma Gandhi and Chale Jav Andolan Date - 09/08/2021

Aim : To celebrate the Mahatma Gandhi Jayanti and Chale Jav Andolan programme

Objectives:

- To organise guest lecture of Dr.Lahu Gaikwad an History expert personnel
- To inculcate the thoughts of Mahatma Gandhi among the students
- To give importance of Chale Jav Andolan and overall history

Report:

On the occasion of Mahatma Gandhi Jayanti Department of History and NCC unit organised the lecture of Hon.Lahu Gaikwad on Mahatma Gandhi and role played by him in Chale Jav Andolan. He spoke on the Gandhi's thoughts that "The future depends on what we do in the present". During this lecture Prin. Dr. Nitin Ghorpade sir said that Gandhiji thoughts that "You must be the change we wish to see in the World". And motivated students. During this lecture Dr. Jitendra Wadshingkar and Lt. Vitthal Naikwad were present on the dias. All students and staff are highly benifited by this lecture. This activity was canducted on both online and offline mode.Total 52 (Fifty two) students were particiapted in this programme. It was conducted online.

'पारंपरिक सणांमधील वैज्ञानिक दृष्टिकोन अभ्यासा'

पिंपळे गुरव, दि. १ (वार्ताहर) - श्रावण महिन्यातील महत्त्वाचा सण असलेल्या मंगळागौरीमध्ये खेळल्या जाणाऱ्या विविध खेळ प्रकारांचा फक्त मनोरंजन हा हेतू नाही, तर त्याचे शारीरिक स्वास्थ्यासाठी अनेक उपयोग आहेत. तसेच भारतीय सण व उत्सवामध्ये वापरण्यात येणाऱ्या विविध वनस्पतींना मोठे औषधी महत्त्व आहे. त्याचा वैज्ञानिक दृष्टिकोनातून अभ्यास करणे महत्त्वाचे आहे, असे प्रतिपादन इंदिरा इन्स्टिट्यूट ऑफ मॅनेजमेंटच्या अधिष्ठाता डॉ. अंजली काळकर यांनी केले.

पुणे जिल्हा शिक्षण मंडळाच्या सांगवी येथील बाबुराव‌जी घोलप महाविद्यालयामध्ये सांस्कृतिक विभाग व वनस्पतीशास्त्र विभाग यांच्या वतीने आयोजित 'मंगळागौरीमागील शास्त्र' या कार्यक्रमाच्या उद्घाटन प्रसंगी त्या बोलत होत्या. या वेळी प्राचार्य डॉ. नितीन घोरपडे, उपप्राचार्य डॉ. लतेश निकम, वनस्पतीशास्त्र विभाग प्रमुख डॉ. चंदा हासे, सांस्कृतिक विभाग समन्वयक डॉ. माया माईनकर आदी उपस्थित होत्या.

या कार्यक्रमामध्ये महाविद्यालयातील महिला प्राध्यापक व शिक्षकेतर कर्मचारी तसेच विविध विभागाच्या विद्यार्थिनींनी पारंपरिक वेशभूषा करून बहारदार संगीताच्या तालावर फुगडी, झिम्मा, तळ्यात-मळ्यात, खुर्ची का मिर्ची, नाच गं घुमा, आटुंश पाटुंश, तिखट मीठ मसाला, तांदूळ सडू बाई, कीस बाई कीस, आळूकी-साळूकी, सासू-सुनेचे अथवा सवतींचे भांडण, आवळा वेचू की कवळा वेचू, माझी आई मोठी की तुझी आई मोठी या खेळ प्रकारांचे सादरीकरण केले.

यासाठी प्रा. सोनल कदम, प्रणित पावले, वीरेन चव्हाण यांनी विशेष तांत्रिक सहकार्य केले. कार्यक्रम यशस्वीतेकरिता डॉ. वंदना पिंपळे, डॉ. संगीता जगताप, डॉ. संगीता घोडके, तेजस्विनी नाईकवाडी, सुनीता गडकर शिक्षकेतर कर्मचाऱ्यांनी परिश्रम घेतले.

सांगवी : श्रावण महिन्यातील सणांची व खेळांची माहिती देताना डॉ. अंजली काळकर. या वेळी व्यासपीठावर उपस्थित मान्यवर.

पिंपळे निलख : मंगळागौर हा महिलांसाठीचा महत्त्वाचा सण आहे. यावेळी खेळल्या जाणाऱ्या खेळप्रकारांमध्ये मनोरंजन आणि शारीरिक स्वास्थ्य राखणे हा उद्देश असतो. भारतीय सण व उत्सवांमध्ये वापरल्या जाणाऱ्या वनस्पतींमध्ये औषधी गुण असतात. त्याबाबत इतिहासाचा मागोवा घेत वैज्ञानिक दृष्टिकोनाचा अभ्यास करणे महत्त्वाचे आहे, असे मत इंदिरा इन्स्टिट्यूट ऑफ मॅनेजमेंटच्या पदवी अधिष्ठाता डॉ. अंजली केळकर यांनी व्यक्त केले.

पुणे जिल्हा शिक्षण मंडळाच्या बाबूरावजी घोलप महाविद्यालयामध्ये सांस्कृतिक व वनस्पतीशास्त्र विभाग यांच्या संयुक्त विद्यमाने 'मंगळागौरीमागील शास्त्र' या विषयावार कार्यक्रमाचे आयोजन केले होते. यावेळी काळकर बोलत होते. यावेळी प्राचार्य डॉ. नितीन घोरपडे, उपप्राचार्य डॉ. लतेश निकम यांच्यासह सहकारी प्राध्यापक व विद्यार्थी उपस्थित होते. यावेळी झिम्मा-फुगडी, तळ्यात-मळ्यात, आळुंकी-साळुंकी, सासू-सुनेचे भांडण अशा प्रकारच्या खेळांचे सादरीकरण करण्यात आले. त्याच दरम्यान मंगळागौरीमध्ये वापरण्यात येणाऱ्या विविध वनस्पतींचे शास्त्र विभागाच्या डॉ. चंदा हासे व डॉ. राणी भगत यांनी माहिती दिली.

Aim : To carry out work in Hospitals in period of Covid-19 pandemic

Objective:

- To make people comfortable, also to help people to overcome feelings of inertia and helplessness
- To give support to old people by providing daily essentials when required at hospitals

Report:

During the COVID-19 pandemic in 2020, Baburaoji Gholap college volunteers participated in pandemic prevention and control activities and performed various types of volunteering work in hospitals. Total 18 (Eighteen) students of NCC were whole heartedly participated in the social activivty and helped the needy people as well to doctors. Prin. Dr. Nitin Ghorpade felt proudful about cadets and felicited them with floral bouquet. Official of PDEA Hon. Secretary Sandeep Kadam, Hon. Rajendra Ghadge and others congratulated all the volunteers for social work and helping the needy people. NCC officials gave the appreciation letter to Lt. Vitthal Naikwadi for this social work.

कोविड लसीकरण केंद्रांवर राष्ट्रीय छात्र सेनेचे स्वयंसेवक

ओपत्तीकाळात जपली जातेय सामाजिक बांधिलकी

सांगवी : बाबुराव घोलप महाविद्यालयातील राष्ट्रीय छात्र सेनेचे स्वयंसेवक.

पिंपळे गुरव, दि. २१ (वार्ताहर) - जुनी सांगवी येथील बाबुरावजी घोलप महाविद्यालयातील राष्ट्रीय छात्र सेनेच्या छात्रांनी कोविड-१९ मध्ये स्वयंसेवक म्हणून भाग घेत मोठे योगदान देत आहेत. पिंपरी चिंचवड शहरातील विविध भागांतील लसीकरण केंद्रांवर नागरिकांना व प्रशासनाला लसीकरणाच्या कामात हे छात्र मदत करत आपली सामाजिक बांधिलकी जोपासत आहेत.

या कार्यासाठी छात्रांना लसीकरण केंद्रावर पोहचविणे, त्यांच्या जेवणाची सोय, लसीकरण केंद्रावर उपस्थित होताना लागणारे साहित्य (पीपीई किट, सॅनिटायझर, मास्क इत्यादी) करिता २-महाराष्ट्र बटालियन एनसीसी व पिंपरी चिंचवड महापालिका यांचे सहकार्य मिळत आहे.

राष्ट्रीय छात्र सेनेचे प्रमुख लेफ्टनंट विठ्ठल नाईकवाडी व सिनिअर अंडर ऑफिसर अविनाश जाधव हे छात्रांना येणाऱ्या समस्यांचे तसेच २-महाराष्ट्र बटालियन एनसीसी व महापालिका यांच्यात समन्वयक साधण्याचे काम करीत आहेत.

स्वयंसेवक म्हणून काम करत असलेले छात्र सिनिअर अंडर ऑफिसर अविनाश राजाराम जाधव, ज्युनिअर अंडर ऑफिसर त्यागराजन बालन, सारजंट किरण निळ, कॅडेट शुभम दौड, कॅडेट ओंकार वळसे, कॅडेट नीलेश आढळ, कॅडेट ओंकार ठुळे, कॅडेट हर्षदा फुगे, कॅडेट मंगेश गायधने, कॅडेट मनोहर सुतार, लकी जोशी, कॅडेट प्रतीक्षा रासकर, कॅडेट भारती सोनवणे, कॅडेट हृषीकेश इळ्ळाळे, कॅडेट प्राजक्ता रायते इत्यादी.

राष्ट्रीय छात्र सेनेच्या छात्रांना नेहमीच देशप्रेम, आपली व्यवस्थापन, पर्यावरण जनजागृती, कुठल्याही संकटकालीन परिस्थितीत नागरिकांना मदत करण्याचे धडे दिले जातात. कोविड-१९ महामारीच्या काळात प्रत्येक जण आपला जीव कसा वाचेल याचीच काळजी घेतो; परंतु अशा परिस्थितीत देशाची, जनतेची सेवा करणारे लोक फार कमी दिसून येतात. संकटकालीन परिस्थितीत एनसीसी छात्रांचे नेहमीच मोलाचे योगदान राहिले आहे, आजही ते कोविड-१९ च्या काळात आपली जीवाची पर्वा न करता देशसेवा देण्याचे काम करत आहेत. बाबुरावजी घोलप महाविद्यालयातील राष्ट्रीय छात्र सेनेचे छात्र कोविड-१९ मध्ये स्वयंसेवक म्हणून कुठलेही मानधन न घेता स्वखर्चाने आपली सेवा देत आहेत. नागरिकांना, प्रशासनाला मदत करत आहेत. सामाजिक अंतर ठेवणे, मास्क घालणे, सॅनिटायझर वापरणे इत्यादी प्रकारच्या बाबी नागरिकांना समजावून सांगण्याचे काम करत आहेत. गर्दी आटोक्यात आणण्याचे काम हे छात्र करत आहेत. जीव धोक्यात घालून काम करण्याकरिता छात्रांच्या पालकांची सहमती फार महत्वाची असते आणि सामाजिक बांधिलकी राखत आपल्या पाल्ल्यांना परवानगी देत त्यांना हे प्रेरित करणाऱ्या पालकांचे देखील मनापासून आभार मानले पाहिजे. या सर्व छात्रांना प्रेरित करण्याचे काम राष्ट्रीय छात्र सेनेचे प्रमुख लेफ्टनंट विठ्ठल नाईकवाडी हे नेहमीच करत असतात. आजही त्यांचे मोलाचे कार्य येथे दिसून येते आहे.

राष्ट्रीय छात्र सेनेकडून नागरिकांची सेवा

सांगवीच्या घोलप महाविद्यालयातील विद्यार्थ्यांची लसीकरण केंद्रांवर मदत

पिंपरी : सबयोग सोसायटी केंद्रावर कर्तव्य बजावताना राष्ट्रीय छात्र सेनेचे विद्यार्थी.

जुनी सांगवी, ता. २३ : 'देशसेवा हीच ईश्वर सेवा' हे ब्रीद मानून कोरोना काळात आमची संपूर्ण टीम शहरातील दवाखाने व लसीकरण केंद्रांवर नागरिकांना मदत करत आहे, अशी भावना कर्नल विठ्ठल नाईकवाडी यांनी 'सकाळ'कडे व्यक्त केली.

पुणे जिल्हा शिक्षण मंडळाच्या बाबूराव‌जी घोलप महाविद्यालयातील राष्ट्रीय छात्र सेनेचे विद्यार्थी लसीकरण केंद्रांवर नागरिकांना सहकार्य करत आहेत. त्यात नागरिकांना लसीकरण केंद्रावर पोचवणे, गरजूंसाठी जेवणाची सोय करून देणे आदी कामे दोन-महाराष्ट्र बटालियन एनसीसी व पिंपरी-चिंचवड महापालिका यांच्या सहकार्यातून हे काम सुरू आहे.

छात्र सेनेचे प्रमुख लेफ्टनंट विठ्ठल नाईकवाडी व सिनिअर अंडर ऑफिसर अविनाश जाधव, ज्युनिअर अंडर ऑफिसर त्यागराजन बालन, सार्जंट किरण नीळ, शुभम दौड, ओंकार वळसे, नीलेश आढळ, ओंकार ठुळे, हर्षदा फुगे, कॅडेट मंगेश गायधने, मनोहर सुतार, लकी जोशी, कॅडेट प्रतीक्षा रासकर, भारती सोनवणे, ऋषिकेश इल्लाळे, प्राजक्ता रायते आदी विद्यार्थी पिंपरी-चिंचवड शहरातील केंद्रावर योगदान देत आहेत. दरम्यान, सामाजिक अंतर ठेवणे, मास्क वापरणे, स्वतःची व कुटुंबाची काळजी घेण्याचे आवाहन करत स्वयंसेवक सेवाकार्य करत आहेत.

विद्यार्थी म्हणतात...

ओंकार वळसे : आमच्या पालकांनी या महामारीमध्ये आम्हास काम करण्याची परवानगी दिली आहे.

हर्षदा फुगे : नागरिकांची मदत करताना देशभक्तीची भावना निर्माण होते.

लकी जोशी : मदतकार्य करताना आपत्ती व्यवस्थापनाचे धडे मिळत आहेत.

त्यागराजन बालन : कोरोनाकाळात लोकांची मदत करताना स्वतःबद्दल अभिमान वाटत आहे.

> राष्ट्रीय छात्र सेनेच्या छात्रांना नेहमीच देशप्रेम, आपत्ती व्यवस्थापन, पर्यावरण जनजागृती, कुठल्याही संकटकालीन परिस्थितीत नागरिकांना मदत करण्याचे धडे दिले जातात. कोविडकाळात प्रत्येक जण आपला जीव कसा वाचेल, याचीच काळजी घेतो. परंतु, अशा परिस्थितीत देशाची, जनतेची सेवा करणे आपले कर्तव्य आहे. या परिस्थितीत एनसीसी छात्रांचे नेहमीच मोलाचे योगदान राहिले आहे.
> - जे. एस. बाली, कर्नल

> सामाजिक बांधिलकी राखत आपल्या पाल्यांना परवानगी देत, त्यांना प्रेरित करणाऱ्या पालकांचे देखील मनापासून आभार मानले पाहिजेत.
> - प्रा. नितीन घोरपडे, प्राचार्य, बाबूरावजी घोलप महाविद्यालय

DEPARTMENT: NATIONAL SERVICE SCHEME

Academic Year- 2021-22

Activity Name: Swachhateche Kirtan **Date: 20.7.2021**

Aim – The "Swachateche Kirtan" initiative aims to promote cleanliness and hygiene through the medium of devotional songs, fostering a sense of community responsibility towards maintaining a clean environment.

Objectives: Its objectives include raising awareness about sanitation practices, inspiring behavioral change, and engaging communities in collective efforts to achieve a cleaner and healthier living environment.

In response to the challenges posed by the Covid-19 pandemic, Baburaoji Gholap College in Sangvi and Poona College in Pune collaboratively organized an online lecture on "Swachateche Kirtan" on July 20, 2021, in celebration of "Ashadhi Ekadashi." The National Service Scheme (NSS) Department spearheaded this initiative, featuring esteemed Kirtankars Shri Anil Kengnar and Shri Swamiraj Bhise.

Under the visionary leadership of Dr. Nitin Ghorpade, the Principal of B.G. College, and Dr. Anwar Shaikh, the Principal of Poona College, the NSS Program Officer Mr Dnyaneshwar Jambhulkar, along with Mrs Amruta Inamdar, Dr. Arjun Doke, and Dr Akbar Sayyad, played pivotal roles in coordinating this impactful activity. The collaboration between the two colleges showcased the strength of unity and shared commitment to community well-being.

The online lecture, conducted on the Zoom Meeting platform, attracted 138 students and various other college staff members. The event began with an inaugural address, wherein the importance of celebrating "Ashadhi Ekadashi" amidst the pandemic was emphasized, highlighting the need for cultural and spiritual activities to uplift community spirits during challenging times.

Scanned by CamScanner

Baburaoji Gholap College Pune - 27 Sangvi

Shri Anil Kengnar and Shri Swamiraj Bhise, as the main Kirtankars, skillfully intertwined devotional music with the crucial message of cleanliness and hygiene. Their expertise and engaging presentation style captivated the audience, fostering a deep understanding of how cultural practices could be instrumental in promoting societal responsibility towards a cleaner environment.

Dr.Nitin Ghorpade, as the Chairman of the program, shared valuable insights into the significance of cultural events in fostering community bonds and resilience during unprecedented times. His speech added a scholarly touch to the proceedings, inspiring participants to reflect on the broader implications of cultural engagement in the context of the ongoing pandemic. The lecture was interactive, allowing participants to pose questions and share their thoughts on the intersection of cultural practices, spirituality, and sanitation. The coordination team, led by the NSS Program Officer and supported by other faculty members, ensured the seamless flow of the event, creating an environment conducive to learning and reflection.

In conclusion, the "Swachateche Kirtan" online lecture on July 20, 2021, stands as a testament to the colleges' commitment to holistic education and community welfare. The collaboration between Baburaoji Gholap College and Poona College, guided by the NSS Department, successfully blended cultural richness with a contemporary message, leaving a lasting impact on the 138 students and various staff members who actively participated in this enlightening event.

in collaboration with IQAC H. V. Desai College, Pune

Aim: To habituate the students and staff to do Atharva Shirsha Pathan for calm and stable life

Objectives:

- To aware the students about Atharvarsha pathan .
- To educate the students and staff regarding positive benefits of Atharva Shirsha pathan and science involved in it.
- To make the student and staff of various colleges and society to feel calm and stable in Covid-19 Pandemic.

Report: On the occasion of Ganesh Chaturthi festival and due to Covid Pandemic all were stuck in the homes so with aim to keep the mind stable and cool so as to get more positive energy with initiative of Prin. Nitin Ghorpade sir the idea of Atharva Shirsha Pathan was generated. This activity was carried out in collaboration withIQAC department of H.V. Desai College, Pune. During this programme Dr.Maya Mainkar explained the importance of Atharva Shirsha and introduced the guest Dr. Veelina Inamdar, Shri Pratik Gholap and Shri Santosh Khajindar. Dr. Veelina Indamdar in her talk said that -One can atone for the sins of the previous night by chanting this song first thing in the morning. One can become sinless by reciting this hymn every day, both in the morning and the evening. One gains Vak Siddhi i.e. power of speech by reciting this during the Turiya Sandhya, which is the midnight meeting of Turiya and Turiyatita. Prin. Dr. Nitin Ghorpade explained the objectives behind organizing this activity. Activity was co-ordinated by Dr. Maya Mainkar and Dr. Prakas Pangare. All the students and faculties were attended it on online zoom mode. Total 76 students and staff attended this activity.

Outcome:

- Students get to know the Atharva Shirsha and when its Pathan/Chanting can be done.
- Total 76 students and staff get benefited by this collaborative activity

[Ganpati Atharvashirsha Pathan Program By Baburaoji Gholap College - YouTube]

P.D.E.A's BABURAOJI GHOLAP COLLEGE, SANGVI, PUNE-27

DEPARTMENT: NATIONAL SERVICE SCHEME

Activity Name: Atharvashirsh Pathan Program

Date: 19.9.2021

Aim - The aim of organizing an online Atharvashirsh pathan (recitation) is to facilitate the remote participation of individuals in the sacred practice of reciting Atharvashirsha, a Vedic hymn, for spiritual and religious purposes.

Objective –

1) Making this significant spiritual activity more accessible,
2) Promoting cultural and religious continuity, and fostering a sense of community among participants in a digital format.

On the occasion of Anant Chaturdashi, Principal Dr. Baburaoji Gholap College of Sangvi of Pune District Education Board, which is at the forefront of implementing innovative activities. On the concept of Nitin Ghorpade, the online activity of Ganapati Atharvashirsha Pathan was organized in association with IQAC Committee, Cultural Department, Parents' Sabha Committee and Haribhai Desai College. The program started with a Ganesha hymn sung by Pooja Vanshetty, a 2nd year Arts student of Haribhai Desai College. Principal Dr. Nitin Ghorpade, Dr. Willina Inamdar, Dr. Maya Mainkar, Dr. Sangeeta Jagtap, Prof. Prakash Pangare, Pratik Gholap, Prof. Santosh Treasurer and other dignitaries were present.

While introducing the program, Dr. Haribhai Desai College Art Board Head. Willina Inamdar explained the purpose and importance behind organizing the Atharvashirsha Pathan program. Also while quoting Sanskrit Subhasita, he explained the importance of scriptures stating that the motivation to work is internal. Baburaoji Gholap College Principal Dr. Nitin Ghorpade explained the concept of Atharvashirsha Pathan activity organized on the occasion of Anant Chaturdashi stating that Atharvashirsha means stability of thoughts. Also explaining in detail the different forms of Lord Ganesha, the importance and meaning of Ganesh Aarti, he prayed at the feet of Vignaharti that the crisis of Corona may be avoided soon and the next Ganeshotsav can be celebrated with enthusiasm.

On this occasion Dr. Willin Inamdar and Dr. Maya Mainkar recited the Atharvashirsha in her bright style and very clear pronunciation while guiding the audience on how the state of mind should be while reciting the Atharvashirsha, which posture to sit in. Prateek Gholap, Administrative Officer of Haribhai Desai College, while explaining the importance of Atharvashirsha, cited the various forms of Lord Ganesha and the thoughts of saints about it. Also, when a work is not completed, the chanting of Atharvashirsha sheds light on various incidents in Ganesha Purana, giving information about how to make the work successful by keeping the mind focused. Explaining the importance of mantra chanting, Haribhai Desai College librarian Santosh Khajindar said that there are 108 types of mental disorders in humans and each disorder is recited 108 times for peace. Also, Namasmarana explained the concept of worldly and transcendental happiness by stating that personality deepens and the outlook towards life changes.At the end of the program, Ganesh devotees present Dr. Willin Inamdar and Dr. Together with Maya Mainkar, they chanted the mantra 'Om Gan Ganpatey Namah' 108 times online in their respective places.This program is coordinated by Dr. Maya Mainkar expressed thanks to Dr. Composed by Sangeeta Jagtap.For the technical success of the program Prof. Sonal Kadam, Prof. Kirti Karanjawane, Viren Chavan provided special support.More than 250 students, teachers and parents of Baburaoji Gholap College and Haribhai Desai College participated in the said program through Zoom App and YouTube Live.

Physical and mental health
One day workshop
I-CASH (Internal Cell for Sexual Harassment)
Tuesday 28/12/2020

The I-Cash Committee organized a one-day workshop on Physical and Mental Health for teachers and students on Tuesday, December 28, 2021. The planning of this workshop was done jointly by BaburaojiGholap College Sangvi, Dr.BabasahebAmbedkar College Aundh, and College of Ayurveda, Nigdi. The workshop was conducted in three sessions. Opening Ceremony, Session First Pre-Marital Counselling, Second Ayurveda - Happy and Healthy Lifestyle and last but not the least Closing ceremony.

On the occasion of the inauguration, Prof.Dr.SangeetaGhodke, gave introductory speech being an i-Cash Coordinator. Dr.ArunAndhale, Principal of Dr.Ambedkar College, Aundh informed about the mental health and its benefits. Dr.RaginiPatil, Principal of Ayurveda College gave some examples of harassment of males by female employers while talking about men and women. She emphasised a need to create awareness in the society about sex education. These problems can be solved easily after understanding each other. In his presidential address, Principal Dr. Nitin Ghorpade gave an example that culture is being endangered due cross cultural exchanges. He gave emphasis on pre-marital counselling. Imitation of West hampers age old Indian culture, he opines. Dr.MadhaviDevdas offered vote of thanks to everyone.

The workshop was conducted in two sessions. In the first session, Dr.Trupti Kale had an open discussion with the students about sex education. The coordination of this session was entrusted to BabasahebAmbedkar College, Aundh. Dr.NaliniPacharne and Dr.ReshmaDivekar from Ambedkar College successfully conducted this session.

The coordination of the second session was entrusted to the Ayurveda Ayurveda College, Nigdi. It had been successfully hosted by Dr.MadhaviDevdas. Dr.RupaliKhobragade, Dr.MayuriJadhav and Dr.MadhuriPhadtare from this college had guided the audience on different topics. Dr.Khobragade discussed Ayurveda and diet. Dr.MayuraJadhav explained what Panchkarma is and when to do Panchkarma. Dr.MadhuraPhadtare gave information on how to make Chyavanprash at home. In very simple and easy words, he emphasized the importance of Ayurveda for good health. On this occasion, Dr. Nitin Ghorpade felicitated the experts.

The program had been coordinated Dr.Sangita Ghodake, I-CASH coordinator, BGC. New Year's calendar was distributed to the attendees by Ayurveda College, Nigdi. The event was attended by over 600 students and professors, both online and offline. The workshop was conducted in a composite manner both offline and online. Prin Dr Nitin Ghorpade was a real source behind the workshop. Dr Mainkar offered vote of thanks in the concluding session.

पुणे जिल्हा शिक्षण मंडळाचे

बाबुरावजी घोलप महाविद्यालय नवी सांगवी,पुणे

शारीरिक आणि मानसिक स्वास्थ्य

एक दिवसीय कार्यशाळा

28/12/2020 मंगळवार

शारीरिक आणि मानसिक स्वास्थ्य या विषयावर आधारित आय - कॅश समितीच्यावतीने प्राध्यापक तसेच विद्यार्थी यांच्यासाठी एक दिवसीय कार्यशाळेचे आयोजन मंगळवार दिनांक 28 डिसेंबर 2021रोजी करण्यात रोजी करण्यात आले होते. या कार्यशाळेचे नियोजन बाबुरावजी घोलप महाविद्यालय सांगवी , डॉक्टर बाबासाहेब आंबेडकर महाविद्यालय औंध , आयुर्वेद महाविद्यालय निगडी यांच्या संयुक्त विद्यमाने संपन्न झाले. कार्यशाळेचे

स्वरूप तीन सत्रांमध्ये करण्यात आले होते. उद्घाटन समारंभ सत्र पहिले पूर्व समुपदेशन सत्र दुसरे आयुर्वेद - आनंदी आणि आरोग्यवर्धक जीवन शैली आणि समारोप असे करण्यात आले.

उद्घाटन प्रसंगी प्राध्यापक डॉक्टर संगीता घोडके यांनी आयकॅश समन्वयक प्रास्ताविक केले. या कार्यक्रमाला डॉक्टर आंबेडकर महाविद्यालयाचे प्राचार्य डॉक्टर अरुण आंधळे सर यांनी मानसिक स्वास्थ्य आणि त्यातून होणारे फायदे याबद्दल माहिती दिली तसेच आयुर्वेद कॉलेजच्या प्राचार्या डॉक्टर रागिनी पाटील यांनी स्त्री-पुरुषांच्या संदर्भात बोलताना काही उदाहरणे देऊन केवळ स्त्रियांचीच नाही तर पुरुषांची सुद्धा मानसिक पिळवणूक केली जाते यासंदर्भात आपले मत व्यक्त केले. लैंगिक शिक्षनाबद्दल समाजामध्ये जागृती होणे गरजेचे आहे.एकमेकांना समजून घेतल्यानंतर या समस्या सहजपणे सोडवल्या जाऊ शकतात. अध्यक्षीय मनोगतामध्ये प्राचार्य डॉक्टर नितीन घोरपडे सर यांनी विवाह पूर्व समुपदेशन करणे तसेच पाश्चिमात्य कृतीच्या अनु करणामुळे संस्कृती धोक्यात येत आहे हे उदाहरणासहित पटवून दिले. डॉक्टर माधवी देवदास यांनी सर्वांचे आभार मानले.

सदर कार्यशाळा दोन सत्रांमध्ये घेण्यात आली.पहिल्या सत्रात विद्यार्थ्यांशी डॉक्टर तृप्ती काळे यांनी लैंगिक शिक्षणाबाबत मुक्त चर्चा केली.विद्यार्थ्यांनी आपल्या समस्या मोकळेपणाने डॉक्टरांसमोर व्यक्त केल्या आणि डॉक्टरांनी त्या समस्यांचे निराकरण केले. या सत्राचे संयोजन बाबासाहेब आंबेडकर महाविद्यालयाकडे सोपवण्यात आले होते. कर महाविद्यालयाच्या डॉक्टर नलिनी पाचरणे व डॉक्टर रेश्मा दिवेकर यांनी हे सत्र यशस्वीपणे पार पाडले.

दुसऱ्या सत्राचे संयोजन आयुर्वेद आयुर्वेद महाविद्यालय निगडी यांच्याकडे सोपवण्यात आले. डॉक्टर माधवी देवदास यांनी सूत्रसंचालन केले. या महाविद्यालयातील डॉक्टर रूपाली खोब्रागडे वडॉक्टर मयुरी जाधव व डॉक्टर माधुरी फडतरे त्यांनी वेगवेगळ्या विषयावर प्रेक्षकांना मार्गदर्शन केले होते. डॉक्टर खोबरागडे यांनी आयुर्वेद आणि आहार याविषयी चर्चा केली. डॉक्टर मयुरा जाधव यांनी पंचकर्म म्हणजे काय तसेच पंचकर्म कधी करावे संबंधी माहिती सांगितली . डॉक्टर मधुरा फडतरे यांनी घरच्या घरी च्यवनप्राश कसे बनवावे या संदर्भात माहिती दिली. अत्यंत साध्या आणि सोप्या शब्दात स्वस्थ आरोग्यासाठी आयुर्वेदाचे महत्व पटवून दिले. याप्रसंगी डॉक्टर नितीन घोरपडे यांनी तज्ञ व्यक्तींचा सत्कार केला.

या कार्यक्रमाचे सूत्रसंचालन डॉक्टर माईनकर मॅडम यांनी केले. तसेच या कार्यशाळेचे डॉक्टर घोडके मॅडम यांनी समन्वयक म्हणून नियोजन केले. आयुर्वेद महाविद्यालयाकडून यावेळेला उपस्थितांना नवीन वर्षाची दिनदर्शिका वाटण्यात आली. कार्यक्रमाला ऑनलाईन आणि ऑफलाईन असे मिळून सहाशे च्या वर विद्यार्थी आणि प्राध्यापक उपस्थित होते. कार्यशाळा समिश्र पद्धतीने ऑफलाइन आणि ऑनलाईन अशा प्रकारे संपन्न झाली.

National co-operative societies Association 25th Sept. 2021

('Co-operative Service Society' campaign)

Pune District EducationAssociations Baburaoji Gholap College located in Sangvi was broadcasted live National Cooperative Council in five villages of Mulshi Taluka, Chande, Chale, Lavale, Karmoli and Dongargaon under the campaign 'Sahakar Se Samriddhi' by the Ministry of Cooperatives.

At the beginning of the program, the principal of the college Dr. Nitin Ghorpade guiding the guest teams. said that the current Minister of Cooperatives in the National Council of Cooperatives Hon. Amit Shah will guide. He also appealed to the team members to strictly follow the government regulations regarding Covid-19 in view of the current situation.

The program was broadcasted in the hall of Gram Panchayat office located in Chande village. Since vaccination is going on in the village at this time, the college professors explained the importance of vaccination to the villagers present. Sarpanch of Chande village Ashok Oval, Deputy Sarpanch Reshma Khanekar and present member of Pune Zilla Parishad Shankar Mandekar gave special support in the program. For the success of the program, Prof. Vijay Ghare, Dr. Manisha Shewale, Dr. Satish Akar, Dr. Dnyaneshwar Mahajan, Prof. Saddam Ghatwale worked hard. At this time 51 villagers have registered in this program.

National Service Scheme Program Officer Prof. Dyaneshwar Jambhulkar, Prof. Prakash Pangare, Prof. Vikram Maltumkar, Lieut. Vitthal Nayakwadi, Dinesh Bhagat, Ajay Kasab visited Karamoli and Chale village. Sarpanch Sharad Kedari, Gramsevaka Rani Adsul, Police Patil Mahesh Alhat were present on this occasion and appreciated Baburaoji

घोलप महाविद्यालयातर्फे शासकीय योजनांबाबत जनजागृतीद्वारे राष्ट्रीय सेवा योजना दिन साजरा

पुणे : प्रतिनिधी

पुणे जिल्हा शिक्षण मंडळाच्या सांगवी येथील बाबुरावजी घोलप महाविद्यालयाद्वारे राष्ट्रीय सेवा योजना दिनानिमित्त महाविद्यालयाचे प्राचार्य डॉ. नितीन घोरपडे यांच्या मार्गदर्शनाखाली चांदे, चाले, लवळे, करमोळी व डोंगरगाव या मुळशी तालुक्यामधील पाच गावांमध्ये सहकार मंत्रालयाद्वारे 'सहकार सेवा समृद्धी' या अभियानातर्गत राष्ट्रीय सहकारी परिषदेचे थेट प्रक्षेपण करत शासकीय योजनांबाबत जनजागृती करण्यात आली.

कार्यक्रमाच्या सुरुवातीला भेट देणाऱ्या पथकांना मार्गदर्शन करताना महाविद्यालयाचे प्राचार्य डॉ. नितीन घोरपडे म्हणाले की, नव्याने निर्माण झालेल्या सहकार मंत्रालयाद्वारे ग्रामीण भागाच्या विकासासाठी केंद्र शासनाकडून चालवल्या जाणाऱ्या विविध योजनांबद्दल राष्ट्रीय सहकारी परिषदेमध्ये विद्यमान सहकार मंत्री अमित शहा हे मार्गदर्शन करणार आहेत. तसेच ग्रामीण विकासा करिताच्या शासकीय योजनांची माहिती ग्रामस्थांपर्यंत पोहोचणे गरजेची असून, सद्य स्थिती लक्षात घेता कोविड - १९ विषयक शासन नियमांचे काटेकोर पालन करण्याचे आवाहन पथकातील सदस्यांना केले.

चांदे गावामध्ये ग्रामपंचायत कार्यालयातील सभागृहात या कार्यक्रमाचे प्रक्षेपण करण्यात आले.

यावेळी गावामध्ये लसीकरण सुरू असल्यामुळे महाविद्यालयातील प्राध्यापकांनी उपस्थित ग्रामस्थांना लसीकरणाचे महत्त्व पटवून दिले. यावेळी चांदे गावचे सरपंच अशोक ओव्हाळ, उपसरपंच रेश्मा खानेकर तसेच विद्यमान पुणे जिल्हा परिषद सदस्य शंकर मांडेकर यांनी या कार्यक्रमासाठी विशेष सहकार्य केले. चांदे गावातील कार्यक्रमाच्या यशस्वीतेसाठी प्रा. विजय घारे, डॉ. मनीषा शेवाळे, डॉ. सतीश एकार, डॉ. ज्ञानेश्वर महाजन, प्रा. सद्दाम घाटवाले यांनी परिश्रम घेतले. यावेळी ५१ ग्रामस्थांनी या कार्यक्रमासाठी उत्स्फूर्त सहभाग नोंदविला.

करमोळी व चाले गावातील पथकामध्ये राष्ट्रीय सेवा योजना कार्यक्रम अधिकारी प्रा. ज्ञानेश्वर जांभूळकर, प्रा. प्रकाश पांगारे, प्रा. विक्रम मालतुमकर, लेफ्ट. विठ्ठल नाईकवाडी, दिनेश भगत, अजय कसाब यांचा समावेश होता. याप्रसंगी सरपंच शरद केदारी, ग्रामसेविका राणी अडसूळ, पोलीस पाटील महेश अलहट यांनी विशेष उपस्थिती राहत बाबुरावजी घोलप महाविद्यालयाचे विशेष कौतुक केले. या कार्यक्रमामध्ये करमोळी व चाळे गावातील अनुक्रमे ५५ व ४६ ग्रामस्थांनी सहभाग घेतला.

लवळे गावामध्ये डॉ. राणी भगत, प्रा. विद्या पाठारे यांनी प्रोजेक्टर द्वारे उपस्थित सुमारे ४९ ग्रामस्थांसमोर सदर कार्यक्रमाचे प्रक्षेपण वे यावेळी लवळे गावचे सरपंच निलेश गा माजी सरपंच संजय सातव, ग्रामपंचायत स अजित चांदिलकर, राणी केदारी यांची वि उपस्थिती होती.

डोंगरगाव येथे आयोजित कार्यक्रमा गावच्या सरपंच धनश्री पालकर, माजी स पुंडलीक पासलकर, माजी ग्रामपंचायत स विष्णु जोरी यांची प्रमुख उपस्थिती होती. या राष्ट्रीय सेवा योजना कार्यक्रम अधिकारी अ इनामदार, प्रा. सोनल कदम, डॉ. नरसिंग वि विजय चंदनशिवे, श्रीराज भोईटे यांनी कार्यक्रम यशस्वितेसाठी प्रयत्न केले. यावेळी ४७ ग्रामस्थ या कार्यक्रमासाठी हजेरी लावली.

या संपूर्ण उपक्रमांमध्ये महाविद्यालय प्राचार्य डॉ. नितीन घोरपडे, उपप्राचार्य डॉ. ल निकम यांनी भेट देत कार्यक्रमाचा आढावा ग्रामस्थांचा सक्रिय सहभागासाठी काय क येईल, याबाबत आवश्यक त्या सूचना के यावेळी बाबुरावजी घोलप महाविद्यालया सचिन शितोळे यांनी विशेष सहकार्य के शासकीय योजनांची माहिती ग्रामीण भागा पोहोचवण्यासाठी घोलप महाविद्यालय क असलेल्या उल्लेखनीय कार्याबद्दल समाजा सर्व स्तरातून महाविद्यालयावर कौतुकाचा व होत आहे.

Baburaoji Gholap College
DEPARTMENT OF ZOOLOGY
'World Wildlife Week'

1st- 8th October 2021

'World Wildlife Week' is celebrated every year from 1st- 8th October. The Department of Zoology of Baburaoji Gholap College organized week long celebration of 'World Wildlife Week'. The motto of wildlife week is the preserving of fauna and animal life of India. It was started in the year 1952 with the vision of saving lives of various Indian species. Wildlife week was inaugurated virtually at the hands of Principal of Baburaoji Gholap College Dr. Nitin Ghorpade Sir. In his inaugural speech he stressed the importance of animals as they maintain the balance of environment and also stressed the need of ecological conservation. Each and every species has immense contribution in the environment and also survival of human beings itself. Miss Atmaja Avirupa Das in her inaugural session delivered talk on 'Interesting Birds of India with special reference to habitat conservation' in which the speaker mesmerized the participants with varieties of colorful birds and highlighted the need of its conservation. On the occasion Head of department of Zoology Dr. Vaishali M Bansod highlighted the event for promoting awareness towards wildlife preservation. The students of SYBSc displayed posters based on wildlife animals, effects of pollution on sea and ocean animals, national forest etc. virtually. The faculty from Science, Arts and Science were also present. They appreciated motivated the students for their efforts of presentation. Vice Principal Dr. L. K. Nikam, Prof. V. S. Ghare, Dr. Rani Bhagat, Dr. Maya Mainkar, Prof J. Wadshingkar and Prof. Saddam Ghatwale motivated the students.

Vaccination camp organized by Gholap college for vaccinating students is commendable: Vice-Chancellor Dr. Nitin Karmalkar

Baburaoji Gholap College, Sangvi Board of Student Development and College Corona Prevention Committee of Pune District Education Association conducted a vaccination campaign for college students on 20th October 2021. It is important for everyone to take the corona vaccine in the current situation. When the education system starts in the traditional way, it is necessary to fully vaccinate the students who are an important element in the education system. Therefore, the vaccination camp organized by Baburaoji Gholap College, Sangvi for the first time among the colleges affiliated to S.P. University Pune, which is conscious about the health of students, is definitely appreciable and an inspiration for all the colleges, said Vice-Chancellor of Savitribai Phule Pune University by Vice-Chancellor Dr. Nitin Karamalkar.

He was speaking on the occasion of the inauguration of a vaccination camp organized for college students in association with Pimpri-Chinchwad Municipal Corporation Sangvi Hospital and Board of Student Development of the college and Corona Prevention Committee at Baburaoji Gholap College in Sangvi of Pune District Education Association.

Pune District Education Association Honorary Secretary Adv. Sandeep Kadam presided over the programme. On this occasion Dr. Savitribai Phule Pune University, the founder of the Department of Commerce. Parag Kalkar, Board of Student Development Director Dr. Santosh Parchure, Principal Dr. Nitin Ghorpade, Savitribai Phule Pune University Executive Council Member Hon. Santosh Dhore, Vice Principal Dr. Latesh Nikam, Student Development Officer. Vijay Ghadage and other dignitaries were present.

While introducing the camp, the principal of the college Dr. Nitin Ghorpade explained the purpose and importance behind organizing the vaccination camp for the students. Also the Deputy Chief Minister of Maharashtra State Hon. According to the orders of Hon. Shri. Ajitdada Pawar(President, Pune District Education Association's), to complete the vaccination of all the students by filling the google form, analyzing it and planning a specific dose of vaccine (CovidShield / Covaxine), arrangements to avoid overcrowding etc.

While guiding the attendees, Savitribai Phule Pune University Student Development Board Director. Santosh Parchure specially congratulated Baburaoji Gholap College and volunteers for organizing the vaccination camp as well as doing excellent work as volunteers during the corona period keeping in mind the social responsibility.

Honorary Secretary of Pune District Education Board Adv. Sandeep Kadam stated that the opening of colleges in offline mode is an important matter for the education sector, while the traditional education system was stopped due to Kovid-19, he informed about the various activities organized by Pune District Education Board in collaboration with Savitribai Phule Pune University for the educational growth of students. Also, expressing the opinion that the threat of Corona is not averted while life is returning to normal under the Unlock campaign, he challenged to follow the government rules regarding covid-19.

On this occasion, during the Kovid era, the students of the National Students' Union of the college, Under the guidance of Principal Dr. Nitin Ghorpade, they went to vaccination centers in various parts of Pimpri-Chinchwad city to help the citizens and the administration in the work of vaccination, sensitize the citizens about the use of masks and sanitizers, and bring the crowd under control. Vice-Chancellor Dr. Dignitaries including Nitin Karamalkar praised the students profusely. 15 students of Rashtriya Chhatra Sena were honored by dignitaries for this social work.

Sangvi Hospital of Pimpri-Chinchwad Municipal Corporation, 3M Company, United Way, Bangalore and Vaccines on Wheels provided special support for this vaccination campaign. At the beginning of the camp, all the teachers, non-teaching staff and students present in the college were given an antigen test. In which 123 teachers and non-teaching staff and 160 students, a total of 283 people were tested. This time all antigen test came negative. Senior Medical Officer of Sangvi Hospital Dr. Vijaya Ambedkar, Dr. Ravindra Mandpe, Medical Officer Dr. Kishore Hande, Dr. Shraddha Kokre as well as Dr. 3M Company. Yogita Sawant, Dr. The team led by Madhavi Gadve successfully immunized around 159 students during the day, 56 who received one dose and 103 who did not receive one dose separately classifying male and female students into one dose and none.

In accordance with the government rules regarding Kovid-19, the coordination of the inaugural session was held in the college hall by Prof. Jitendra Vadshingkar and vote of thanks Dr. Vijay Ghadage (Student Development Officer).

Pune District Education Association Vice President Shri. Rajendraji Ghadge, Honorary Secretary Adv. Sandeep Kadam, Treasurer Adv.. Mohanrao Deshmukh all office bearers including have congratulated the college and the college is being showered with praise from all walks of life.

For the success of the said camp Prof. Vijay Ghare, Dr. Shakuntala Mane, Dr. Sangeeta Ghodke, Prof. Prakash Pangare, Prof. Amrita Inamdar, Dr. Vidya Pathare,

CHAPTER-8

Natural Resources: Plants: A plant diversity survey of Karmoli Village

Dr. D.M. Mahajan and Dr. R.B. Bhagat
Department of Botany

The college has selected the village Karmoli in Mulshi Tehsil of Pune District (Maharashtra). Department of Botany have carried out a survey for plant diversity and its significance on 17th December 2021. It was a great experience for students who learnt lot many things while working with the local people. In all three teachers and forteen students were involved in the survey.

Introduction:

Majority of the rural population in India is directly dependent on biodiversity and ecosystems for almost their entire basic needs: water, food, medicine, clothing, housing etc. Western Ghats is one of the 34 biodiversity hotspots of the world. The Western Ghats are exceptionally rich in plant and animal species. Unfortunately, due to heavy human pressures this tremendous biodiversity is getting destroyed fast. Water resources are drying up and getting less in quantity for the growing population.

This region is rich not only for wild biodiversity but also for the crop species and varieties. We had many local varieties of crops and fruit plants of which we had very high diversity. Our natural areas are rich treasure of medicinal plants. The local people were aware of its use. The forests are overexploited due to high developmental pressures, encroachments for agriculture, dams etc. The forests are an important source of many ecological services. Now a days, we are facing the consequences (floods, landslides, threats to wildlife, loss of endemic species, etc.) of forest degradation. We have fragmented our forests, as a result the plant diversity is declining. Decline in forest resources is linked to poor quality life in villages. This further results in large scale migration to urban areas. The unplanned development in this region is harmful to the ecosystem and biodiversity; and therefore, any kind of development being proposed in Western Ghats should be responsive to the fragility and rich biodiversity.

Hypothesis:

Our villages are exceptionally good in natural resources such as plants, crops animals, medicinal plants, soils, water, etc. Unfortunately, due to heavy anthropogenic pressures these enormous resources are getting destroyed fast. Biological resources are vanishing fast due to uncontrolled encroachments and exploitation. Water resources are drying up and getting less in quantity for the growing population. So, to understand the status of these resources, our college has decided to survey these resources through the participation of students and teachers.

Aim:

Documentation of plant diversity of village Karmoli, Tal Mulshi (Part of Northern Western Ghats)

Objectives:

To prepare the plant species checklist.
To enlist endemic and RET species
Documentation of ethno-botanically important and wild vegetable plants
Documentation of agricultural crops.

Materials and Methods:

Study area: Karmoli

The surveys for plant biodiversity assessment were conducted in and around the Karmoli village (Mulshi) of Pune District. The village lies in the Western Ghats; Mulshi valley and located at 18° 32' 11" N latitude and 73° 36' 33" E longitude; and situated approximately 35 Km from Pune. It is situated 4 km away from sub-district headquarter Paud (tehsildar office). Karmoli is a small Village/ hamlet. It comes under Karmoli Panchayath. The general topography of the area is undulating with gentle slopes. It slopes towards south-east direction. It is marked with isolated agricultural farms and a river. The main land use pattern is agriculture, settlements, and reserved forest. The average elevation of land surface is observed to be 584 m above the MSL. As per 2009 stats, Chale is the gram panchayat of Karmoli village. Local Language is Marathi.

The total geographical area of village is 201.09 hectares. Karmoli has a total population of 884 peoples, out of which male population is 467 while female population is 417. The estimated population in 2022 is 990. There are about 187 houses in Karmoli village. Pincode of Karmoli village locality is 412108. Pune is nearest town to Karmoli for all major economic activities. Female Population is 47.2%. Village literacy rate is 64.0% and the Female Literacy rate is 26.1%.

In Karmoli village population of children with age 0-6 is 103 which makes up 11.65 % of total population of village. Average Sex Ratio of Karmoli village is 893 which is lower than Maharashtra state average of 929. Child Sex Ratio for the Karmoli as per census is 873, lower than Maharashtra average of 894.

Karmoli village has lower literacy rate compared to Maharashtra. In 2011, literacy rate of Karmoli village was 72.47 % compared to 82.34 % of Maharashtra. In Karmoli Male literacy stands at 81.31 % while female literacy rate was 62.60 %.

As per constitution of India and Panchyati Raaj Act, Karmoli village is administrated by Sarpanch (Head of Village) who is elected representative of village.

Education

Government Pre-Primary and Primary Schools are available in this Village. Nearest Govt ITA College is in Aundh. Nearest Govt Pre Primary School is in Chale. Nearest Govt Secondary School and Govt Senior Secondary School are in Paud. Nearest Govt Disabled School, Govt Engineering College, Govt Medical College, Govt MBA college and Govt

Polytechnic College are in Pune. Nearest Govt Arts and Science Degree College is in Pirangut.

Agriculture

Total area of Karmoli is 201.09 Hectares as per the data available for the year 2009. Total sown/agricultural area is 126 ha. About 12 ha is un-irrigated area. About 114 ha is irrigated area. About 12 ha is irrigated by other sources of water. About 2.77 ha is in non-agricultural use. About 6.59 ha is used permanent pastures and grazing lands. About 9 ha is lying as current fallow area. About 21 ha is culturable waste land. About 21.55 ha is lying as fallow land other than current fallows. About 14.18 ha is covered by barren and un-cultivable land. 18 hours agricultural power supply in summer and 20 hours agricultural power supply in winter is available in this village. Total irrigated area in this village is 114 hectares.

Drinking-Water and Sanitation

Untreated Tap Water Supply all-round the year and in summer available. Uncovered Well and Tube Wells/Boreholes are other Drinking Water sources. Open Drainage System Available in this Village. This Village Covered Under Total Sanitation. There is system to Collect garbage on street. Drain water is discharged directly into water bodies.

Communication

Landline available. Mobile Coverage is available. There is no Internet Centre in less than 10 km. No Private Courier Facility in less than 10 km.

Transportation

Public Bus service available in this village. There is no Railway Station in less than 10 km. No Nearest National Highway in less than 10 km. Nearest State Highway is in less than 5 km. District Road passes through this village. Pucca road, Kuccha Road and Foot Path are other Roads and Transportation within the village.

Land and Natural Resources in Karmoli

Total area of Karmoli is 201.09 Hectares as per the data available for the year 2009. Total sown/agricultural area is 126 ha. About 12 ha is un-irrigated area. About 114 ha is irrigated area. About 12 ha is irrigated by other sources of water. About 2.77 ha is in non-agricultural use. About 6.59 ha is used permanent pastures and grazing lands. About 9 ha is lying as current fallow area. About 21 ha is culturable waste land. About 21.55 ha is lying as fallow land other than current fallows. About 14.18 ha is covered by barren and un-cultivable land.

Plant surveys

We prepared a simple plan for plant diversity studies at village level with the help of our students. The plan was carried out experimentally with the participation of students and teachers. A reconnaissance survey was carried out to have an overview of the species composition of the area. The surrounding area exhibits a land use pattern that mainly consists of reserved forests and agricultural land with sparse trees on the bunds. The reserved forests

and agriculture fields were interspersed with settlements. The sampling locations were determined by considering the land use pattern. The geology, topography, climate, and the soil have a close bearing on the nature of vegetation. These features were considered while selecting the sampling sites.

The biodiversity surveys were conducted to document the terrestrial and aquatic flora of the area (Photo-1). The area is having vegetation with diverse species composition. Intensive field surveys were made for documenting the various floral species. We used random walk method for listing the floral species. More emphasis was given to document and quantify the maximum possible number of species.

Photo-1: Students on field survey for plant diversity documentation

Photo-1: Students on field survey for plant diversity documentation

Identification

The methods followed in the field were based on the procedure outlined in 'The Flora of Maharashtra State' and 'Flora of Khandala'. The floristic studies were based on extensive exploration of the village area. The field surveys involved the preparation of an inventory of different species of plants including trees, shrubs, climbers, and herbs in the area. All plant species were identified with the help of expert taxonomist and literature published by

Botanical Survey of India. Observations were also made on the agricultural patterns, agricultural weeds and cultivated and introduced plant species.

Observations and Results:

The topography of Karmoli village is almost hilly with undulating to steep slopes. The natural vegetation/ forest type in this area is moist deciduous. Large to medium-sized trees along with shrubs constitute majority of the vegetation. Diversity of herbaceous species is always more in monsoon months and declines as the rainy season recedes. The summers are hot and dry.

The hillsides are covered with dense mixed forest. Epiphytes are occasional in appearance. Climbers are frequent. The main composition of these forest is – *Syzygium cumini, Bridelia retusa, Mangifera indica, Terminalia elliptica, Ficus racemosa, Ficus religiosa, Bombax ceiba,* and the undergrowth of shrubs like *Carrisa, Leea asiatica,* and *Pogostemon benghalensis* along with few other species. The only bamboo species was *Dendrocalamus strictus*. Here and there it forms virtually pure patches in the hills. The epiphytic orchids reported include *Aerides crispum,* and *Dendrobium*.

Total number of subspecies, species, genera, families

Flora refers to the plant species occurring in area. The extensive field surveys (supported by literature surveys) resulted in documentation of 485 plant species. The taxonomic distribution of documented plant species is illustrated in **Table 1**, and **Appendix-I** (Check list of flowering plants). The list includes the botanical name of species, habit, family, and status.

Table 1: Taxonomic attributes

Plant Type	No. of Species	No. of Genera	No. of Families
Angiosperms	485	314	82
Pteridophytes	09	09	09
Bryophytes	09	08	08
TOTAL	**503**	**331**	**99**

The documented species belonged to 331 genera and 503 species of 99 families (including Angiosperms, Pteridophytes, and Bryophytes) indicating the floristic richness of Karmoli village. The most dominant group was Angiosperms having 485 species that are distributed in 314 genera and 82 families. Other groups also represented very well forming a unique amalgamation of flora and vegetation. Among angiosperms the most represented family (**Table 2**) was Fabaceae (54 species), Asteraceae (45 species), Poaceae (39 species), Acanthaceae and Convolvulaceae (22 species each) and Euphorbiaceae (19 species). Similarly, the most abundant genera (**Table-3**) were *Ipomoea* (10 species), *Ficus* (09 species), *Euphorbia* (08 species), *Acacia* and *Cassia* (07 species each), *Alysicarpus* and *Indigofera* (6 species each), *Argyrea* and *Crotalaria* (05 species), and *Cyperus* (4 species).

Table 2: Abundant families

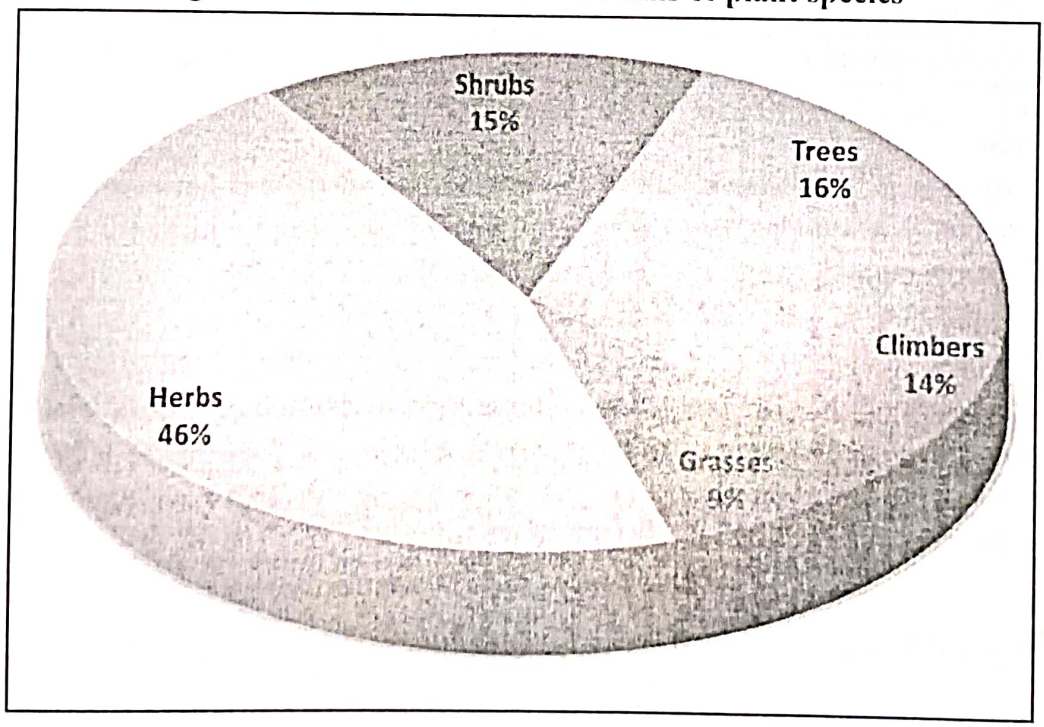
Family	No. of Species
Fabaceae	54
Asteraceae	45
Poaceae	39
Acanthaceae	22
Convolvulaceae	22
Euphorbiaceae	19
Malvaceae	13
Caesalpiniaceae	12
Lamiaceae	12
Mimosaceae	11

Table 3: Abundant genera

Genus Name	No. of Species
Ipomoea	10
Ficus	9
Euphorbia	8
Acacia	7
Cassia	7
Alysicarpus	6
Indigofera	6
Argyreia	5
Crotalaria	5
Cyperus	4

The habit-form wise analysis (**Figure-1**) presented a predominance of herbs (46%) and trees (16%) followed by shrubs (15%), and climbers (14%) and grasses (9%). The Pteridophytes and Bryophytes are represented by 09 species each.

Figure-1: Distribution of habit-forms of plant species



Lower group flora:

Cryptogams have a fundamental role in ecosystem function. They play central roles in the formation and stabilizations of soils, the decomposition of dead organic material and nutrient cycling. They form symbiotic relationships with most vascular plants and are an important food source for many other organisms.

The lower group of plants needs very specific habitats and environmental conditions. Ecologically, these are probably most important as primary colonizers and stabilizers. They are very sensitive to their habitats. The Karmoli village provides a good habitat for lower flora.

Pteridophytes:

The pteridophytes have an important and subtle ecological role, both in water-retention and stabilizing mobile surfaces like landslips, and scree slopes. They provide shelter and humidity for a remarkable diversity of invertebrates. Pteridophytes are an integral part of the food web in many of our important habitats. The Pteridophytes documented in this area are listed in **Table 4**.

Table 4: List of Pteridophytes

Botanical Name	Habit	Family
Adiantum lunulatum	Herbs	Adiantaceae
Cheilanthus albomarginata	Herbs	Cheilanthaceae
Lycopodium sp.	Climber	Lycopodiaceae
Pleopeltis sp.	Epiphytic herbs	Polypodiaceae
Pteris biaurita	Large herbs	Pteridoideae
Azolla pinnata	Aquatic herbs	Salviniaceae
Selaginella ciliaris	Small Herb	Selaginellaceae
Tectaria sp.	Herbs	Tectariaceae
Nephrolepis sp.	Herbs	Thelypterideae

Bryophytes:

Bryophyte is a collective term for mosses, liverworts, and hornworts. Bryophytes have fragmented distributions. Bryophytes are typically associated with more moist habitats where they grow on soil, tree trunks and branches, fallen timber, debris, and rocks. Many of them are found only in small scattered and isolated populations of very small numbers of plants with little ecological resilience and apparently not capable of spreading to other un-colonised but seemingly suitable areas. This presents conservation problems. The bryophyte flora of the village is moderately rich. This region provides good micro-habitats for the growth and survival of bryophytic flora. The bryophyte species that are documented during field work are listed in **Table 5**.

Table 5: List of bryophytes

Botanical Name	Family	Habitat and Distribution
Antheceros erectus	Anthocerotaceae	Damp soils
Plagiochasma sp	Aytoniaceae	On wet rocky or soil surface
Bryum sp.	Bryaceae	On calcareous soils and walls
Cyathodium sp.	Cyathodiaceae	Wet and damp cutting of hill and rock
Notothylas sp.	Notothyladaceae	Damp plaines

Botanical Name	Family	Habitat and Distribution
Pogonatum sp.	Polytrichaceae	Laterite soils
Riccia discolor	Ricciaceae	Moist soils, shady and exposed places
Riccia glauca	Ricciaceae	Moist soils and stream banks
Targionia sp.	Targionaceae	Damp soils

Threatened and Endemic Species:

As the village area falls in Western Ghats, it represents fairly good number of endemic and threatened plant species. The list of endemic and threatened plant species is provided in **table-6**. In all 19 species fall in a category of 'endemic to India', out of which one is in endangered category of Botanical Survey of India and IUCN, and 04 are at lower risk. One species is endemic to Maharashtra. Remaining 4 species are under lower risk.

Table 6: Threatened and endemic plant species.

Botanical Name	Local Name	Habit	Family	Status
Amorphophallus commutatus	Suran	Herb	Araceae	EI/LR
Argyreia sericea	Gavel	Climber	Convolvulaceae	EI
Cajanus lineatus	Rantur	Herb	Fabaceae	EI
Canscora decurrens		Herb	Gentianaceae	EI
Carvia callosa	Karvi	Shrub	Acanthaceae	EI/LR

Ecosystem Service:

Most of the ecosystem services on which we and much of the agricultural system rely are being degraded or overexploited. Unpredictable weather, floods, overuse of chemical fertilizers and declines in soil fertility are severely impacting our agricultural system. The degradation of ecosystem services such as freshwater provision, climate regulation and soil fertility clearly have implications for the long-term viability of the business's dependent on them. Ecosystem services – also called 'ecological services' are the benefits that people obtain from ecosystems. Examples include freshwater, timber, climate regulation, and protection from natural hazards, erosion control and recreation.

Provisioning services:

Food: Crops, Livestock, poultry, Wild foods

Timber: *Terminalia, Lagerstroemia, Tectona, Mitragyna*, etc.

Biomass fuel: Fuel wood and charcoal, grain for ethanol production, dung

Fresh Water: Freshwater for drinking, cleaning, cooling, and household purpose.

Genetic Resources: Genes used to increase crop resistance.

Biochemicals: Medicines, biocides, food additives

Natural Medicines: crude drugs obtained from plants

Pharmaceuticals: *Gloriosa*, *Chlorophytum*, extracts used for pest control.

Regulating services:

Air quality regulation: Water body and vegetation as carbon sink.

Water quality regulation: Permeable soils facilitate aquifer recharge. River floodplains and wetlands retain water.

Climate regulation at global and regional scale: Forests capture and store carbon dioxide.

Water purification and waste treatment: Wetlands remove harmful pollutants from water by trapping metals and organic materials. Soil microbes degrade organic waste, rendering it less harmful.

Disease and pest regulation: Predators from nearby forests – such as bats, toads, and snakes – consume crop pests.

Pollination: Bees from nearby forests pollinate crops.

Cultural services:

Recreation and ecotourism: Camping and bird watching.

Ethical values: Spiritual fulfilment derived from sacred lands and rivers.

Supporting Services:

Nutrient recycling: Decomposition of organic matter contributes to soil fertility.

Primary production: Plants transforms sunlight and nutrients into biomass, thereby forming the base of the food chain in ecosystems.

Water cycling: Transfer of water from soil to plants, plants to air, and air to rain.

Agriculture:

Traditional farming, especially paddy fields, were observed in the village area. Agriculture is the traditional occupation of local people in Karmoli. The traditional agriculture is still under practice at some places, where the crops like *Eleusine coracana* are produced. The land-use around the village is farming, mainly cultivated with crops like Rice (*Oryza sativa*), and Chana (*Cicer arieatinum*). Recently the farmers shifted towards Suercane cultivation. The other crops taken are *Eleusine coracana* and *Amaranthus hybridus*. **Table 7** lists the various crops cultivated in the village. The leafy vegetable crops are *Spinacia oleracea*, *Raphanus sativus*, *Coriandrum sativum*, and *Amaranthus sp.* Several local varieties/ landraces of rice, and ragi are cultivated occasionally.

The important fruit plants are *Mangifera indica* (Mango), *Psidium guajava*, and *Syzigium cumini* (Jamun). The wild fruit species are *Ziziphus mauritiana*, *Emblica officinalis*, and *Cordia dichotoma*. The farms are interspersed with human habitation, villages, and townships.

The open areas around the agricultural fields and open foothills are infested with highly invasive weeds like *Eupatorium odoratum*, and *Hyptis suaveolens*. Other common herbs include *Cassia tora, Alysicarpus, Sida, Celosia, Desmodium, Acanthospermum, Phyllanthus, Ageratum, Tephrosia, Vigna, Alternanthera, Vernonia, Achyranthes, Euphorbia, Crotolaria, etc.*

Table 7: Agricultural crops under cultivation/ wild

Crop Type	Crops species
Cereals	Rice (*Oryza sativa*)
Millets and minor millets	Finger millet (*Eleusine coracana*), foxtail millet (*Setaria italica*), and common millet (*Panicum miliaceum*)
Oilseeds	Sesame (*Sesamum indicum*), Niger (*Guizotia abyssinica*), and Linseed (*Linum usitatissimum*)
Fruits	Mango (*Mangifera indica*), Jackfruit (*Artocarpus heterophyllus*), Lemon (*Citrus limon*), Custard apple (*Annona squamosa*), and Guava (*Psidium guajava*)
Medicinal and Aromatic Plants	*Embelia tsjeriam-cottam, Garcinia indica, Gloriosa superba, Pueraria tuberosa,* and *Rubia cordifolia*
Leguminous vegetables	Cowpea (*Vigna unguiculata*), and lablab bean (*Lablab purpureus*) are important leguminous vegetables.
Shoots and leafy vegetables	*Alocasia, Amaranthus viridis, A. spinosus,* and *Celosia argentea*
Vegetables	*Canavalia ensiformis* and *Solanum torvum.*

Crop Type	Crops species
Fruits	*Carissa spinarum, Cordia myxa, Phoenix sylvestris, Syzygium cumini* and *Ziziphus mauritiana.*
Beverages	*Phoenix sylvestris*
Dye yielding plants	*Butea monosperma* and *Indigofera cassioides*
Cash Crops	Suercane

Summary and Conclusion:

The students under the guidance of teachers have created an excellent database. Their valuable contribution covers many aspects of village biodiversity, such as: plant diversity of land and water, wild plants used as food, medicinal plants and their uses and crop varieties.

In all 503 plant species were documented. The documented species belonged to 331 genera and 99 families (including Angiosperms, Pteridophytes, and Bryophytes) indicating the floristic richness of Karmoli village. The most dominant group was Angiosperms having 485 species that are distributed in 314 genera and 82 families. Other groups also represented very well forming a unique amalgamation of flora and vegetation. Among angiosperms Fabaceae, Asteraceae, Poaceae, Acanthaceae and Convolvulaceae families represents majority of the vegetation. Similarly, the most abundant genera were *Ipomoea, Ficus, Euphorbia, Acacia, Cassia* and *Alysicarpus*. Crop and cultivated fruit species documented were 34.

In all 19 species fall in a category of 'endemic to India', out of which one is in endangered category of Botanical Survey of India and IUCN, and 04 are at lower risk. One species is endemic to Maharashtra. Remaining 4 species are under lower risk.

Suggestions /Recommendations:

Realizing the situation of plant diversity following suggestions are made

- The rich plant diversity should be conserved through people's participation
- The importance of sustainable use of biodiversity should be highlighted
- There should be fair and equitable share of benefits from use of bio-resources.
- The valuable knowledge about biodiversity that our people is having should be documented and protected.

Significance of this Exercise:

- Students and teachers gaining first-hand knowledge of plant diversity
- Students become efficient communicators
- Student get exposed to environmental problems faced by villagers
- Environmental education is compulsory for the colleges
- Science students of colleges are required to submit student research projects for their examination. The students can utilise their work on village level biodiversity for preparing these reports
- The teachers will be able to familiarise with much of plant diversity and environment in their surroundings and can use such experiences for better teaching

- Young teachers can identify and choose research programmes of their choice related to biodiversity/ecology.
- The work under this activity can be considered as extension education and help in making environmental awareness among the society.
- The students will be moulded into better, eco-conscious citizens in the future.

DEPARTMENT: NATIONAL SERVICE SCHEME

Activity Name:Pulse Polio Training Activity

Date: 24.02.2022

Aim - To educate and equip them with the knowledge and skills necessary for effective polio vaccination campaigns in the community.

Objective –

1) Training volunteers in vaccine administration, communication strategies,

2) creating awareness about the importance of polio immunization, ultimately contributing to the eradication of polio from the region.

NSS Department of College and Health Department of PCMC, Pimple Nilakhhavejointly organized Pulse polio Training program for NSS Volunteers on 24th Feb 2022. In this activity, DrAtreLaxmikant, Dr Yogesh Valvisar, Dr Archana Shindefrom Health department came and given training to NSS Volunteers. DrLaxmikantAtre has given valuable guidance on pulse polio campaign and importance of good health for success of life.

In this activity, **65**NSS Volunteers have been participated. This activity was conducted under the guidance of Principal Dr Nitin Ghorpade and coordinated by DrDnyanesh Mahajan and NSS Program Officers Prof D.S. Jambhulkar, MrsA.M.Inamdar, Mr Saddam Ghatwale and MrJitendraWadshingkar.

महाविद्यालय पत्ता: सांगवी ता.: हवेली(महानगर
पालिका हद्द वगळून) जि: पुणे पिनकोड: 411027

विषय :-नवलेखक शिबीर

महोदय/महोदया,

वरील विषयास अनुसरून आपणास कळविण्यात येते की, सावित्रीबाई फुले पुणे विद्यापीठ विद्यार्थी विकास मंडळ व आपले महाविद्यालय यांच्या संयुक्त विद्यमाने नवलेखक शिबीर ('क' गट) शासन व स्थानिक प्रशासनाच्या कोविड अनुरूप वर्तन व कोविड प्रतिबंधात्मक सर्व नियम व निर्बंधांच्या अधीन राहूनच या योजनेची परिस्थितीनुरूप अंमलबजावणी करून आयोजित करण्यास आपणास मान्यता देण्यात येत आहे. माहे मे 2022 पूर्वी नवलेखक शिबीर आयोजित करण्यात यावी. सदर कार्यशाळा आयोजनासाठी आपल्या महाविद्यालयास रु. 5000 /- पर्यंत अर्थसाह्य मंजूर करण्यात आलेले आहे. या व्यतिरिक्त नवलेखक शिबीरकरिता होणारा ज्यादा खर्च महाविद्यालयाने करावा.

संचालक विद्यार्थी विकास मंडळ तसेच संबंधित मा. जिल्हा समन्वयक यांचेशी विचारविनिमय करून कार्यशाळेची कार्यक्रम रूपरेषा निश्चित करावी. सदर कार्यशाळेसाठी सावित्रीबाई फुले पुणे विद्यापीठाशी संलग्नित आपल्या महाविद्यालयाच्या परिसरातील संबंधित सर्व महाविद्यालये, मान्यताप्राप्त परिसंस्थांना पत्र पाठवून आवश्यकतेनुसार सबंधीताना सहभागी करून घ्यावे.

सदर कार्यशाळा झाल्यानंतर १५ दिवसांच्या आत / १५ मार्च, २०२२ पूर्वी सदर कार्यशाळा झाल्यास माहे मार्च,२०२२ किंवा केंद्रीय लेखा परीक्षणाच्या वेळी हिशेब या विभागास सादर करावा. सोबत विद्यार्थ्यांची यादी, विद्यार्थी अभिप्रायासह (Feedback Form) तसेच या उपक्रमाविषयी प्रातिनिधिक स्वरुपात काही विद्यार्थ्यांची स्फूट टिप्पणी, कार्यशाळेचे फोटो, कार्यवाहीचा अहवाल www.unipune.ac.in-Students Development-BSD Online-College Login-Main Menu-Students' Development-Central Audit-Scheme Proposal FeedBack येथे ऑनलाईन पद्धतीने भरून त्याची प्रत, खर्चाचा तपशील, त्यासबंधीची मूळ देयके (नवीन वित्तीय धोरणानुसार) मा. प्राचार्यांच्या स्वाक्षरीसह या कार्यालयास प्राप्त झाल्यानंतर पुढील योग्य ती कार्यवाही करण्यात येईल. कळावे, ही विनंती.

१. शासन व स्थानिक प्रशासनाच्या कोविड अनुरूप वर्तन व कोविड प्रतिबंधात्मक सर्व नियम व निर्बंधांच्या अधीन राहूनच या योजनेची अंमलबजावणी करावी.
२. शासन निर्देशानुसार संपूर्ण लसीकरण झालेले असल्याची खात्री करून घेऊनच इच्छुक विद्यार्थ्यांना या योजनेत समाविष्ट करावे.
३. या योजनेच्या अंमलबजावणीच्या अनुषंगाने स्थानिक प्रशासन, आरोग्य विभाग, संस्था प्रशासन, महाविद्यालय प्रशासन इत्यादी यंत्रणांकडून आवश्यकतेनुसार योग्य ती परवानगी प्राप्त करून घेण्यासंबंधी आपण आपल्या स्तरावर कार्यवाही करावी.
४. विद्यार्थ्यांकडून कोविड अनुरूप वर्तन व समूहशिस्त यांचे काटेकोरपणे पालनसुनिश्चित करण्यासाठी आपल्या स्तरावर विद्यार्थ्यांना अथवा / तसेच पालक यांची समूह सहभागासाठी संमती अथवा हमी आवश्यकतेनुसार प्राप्त करून घ्यावी.
५. कोविडच्या पार्श्वभूमीवर विद्यार्थ्यांच्या आरोग्याची, संपूर्ण सुरक्षेची सर्वस्वी जबाबदारी ही सबंधित महाविद्यालय/ परिसंस्थेचीच आहे; याची नोंद घ्यावी.
६. कोविड अनुरूप वर्तन आणि कोविड प्रतिबंधात्मक नियम व निर्बंधांचे उल्लंघन झाल्यास संबंधित प्राधिकृत यंत्रणांकडून होणाऱ्या कायदेशीर प्रशासकीय/दंडात्मक इत्यादी स्वरूपाच्या संभाव्य कार्यवाहीस सबंधित महाविद्यालय/परिसंस्था संपूर्णपणे जबाबदार असून याबाबत विद्यापीठाचे कोणत्याही प्रकारचे प्रशासकीय/आर्थिक उत्तरदायित्व असणार नाही.
७. या योजनेत सहभागी होऊ इच्छिणाऱ्या विद्यार्थ्यांना च्या लसीकरणाची माहिती या विभागाच्या पत्र क्रमांक विविमं/२०२१-२२/०३४, दिनांक २८/१०/२०२१ नुसार भरणे अनिवार्य आहे.(संबंधित पत्र विद्यापीठाच्या संकेतस्थळावर विद्यार्थी विकास मंडळाच्या परिपत्रकात उपलब्ध आहे.)

BABURAOJI GHOLAP COLLEGE, SANGVI, PUNE

NAVLEKHAK SHIBIR REPORT

Date :- 12th Mar 2022

Pune District Education Association's Baburaoji Gholap College, Sangvi and Savitribai Phule Pune University Board of Student Development and Marathi Department jointly organized a novelist camp in the college on 12/3/2022. Senior writer and editor journalist Mahavir Jondhale was present as the keynote speaker for the program.

The program was jointly organized by Vidyarthi Vikas Mandal and Marathi Vibhag with the objective of creating new writers from the colleges and giving scope to their innate talents. 15 students from various colleges were present for this program. 70 students of the college were directly present. Apart from this, about 75 students were present online. More than 160 students were directly and indirectly present in this program.

Dr. Vijay Ghadage, Student Development Officer made the introductory remarks. In it, he explained the various programs being conducted by the Student Development Board and the usefulness of this novelist camp. Guided the students by observing the power of writing, Marathi literary tradition.

Dr. Nitin Ghorpade, Principal of the College, elaborated on the need for reading and writing skills in today's world. After the inauguration, the first session of the Novelist Camp was held. Experience is very important for what a writer writes and college students should write with a focus on innovation, editor journalist Mahavir Jondhale said.

National Service Scheme (NSS)

"Five Days Workshop on Planning of Historic Sites Adoption"

Date-20/03/2022

Report

With aim to conserve and protect the Historical sites and to inculcate the values among the students for future sustainable conservation of forts the five days workshop was organised. The programme was organised by National Service Scheme and Baburaoji Gholap College Sangvi in association with Savitribai Phule Pune University, on occasion of the celebration of "**Amrit Mahotsav year of Indian Independence**", on "historical sites adoption scheme" The programme was inaugurated on 20/03/2022 in presence of Principal Dr. Nitin Ghorpade, Vice Principal Dr. Latesh Nikam. Prof. Saddam Hussain. Prof. Santosh Karbhari and other staff of NSS.

Program Officer of the said workshop Dr. Jitendra Wadshingkar. College Vice Principal Dr. Latesh Nikam explained the necessity to create awareness among the tourists about historical places as well as conservation of historical places. Principal Dr. Nitin Ghorpade expressed the opinion that there is a need to preserve our historical heritage while providing fundamental guidance to the students and given the presentation in visual system. Mr. Bhushan Phadtare highlighted the elements of the forts, temples, caves, palaces, palaces, museums, Baravs and gave guidance on how volunteers can contribute to the conservation of historical sites by adopting a constructive approach through the National Service Scheme. The inaugural session was moderated by Dr. Jitendra Wadshingkar and Prof. Dnyaneshwar Jambhulkar. More than 70 NSS students and teachers were present for this lecture online and offline.

Second Lecturer on **'Shiva Memorial in Pune: Preservation of History and Culture'** by Dr. Sopan Shende gave a motivational and inspirational lecture on "Shivaji Maharaj in Pune city". Explaining that Shiv Smarak is an important source for understanding the work of Shiva Raya, he gave an informative discussion on the responsibility of cleaning, maintenance and repair of the statue, its sanctity and protection, celebrations, ceremonies and

arrangements. Vice Principal of the college explained the concept of erecting a statue. Dr. Latesh Nikam expressed the opinion that through the statue we get the energy of the brilliant work of great men. The program was co-ordinated by Dr. Amrita Inamdar and Dr. Narsingh Giri. Around 75 students and teachers attended the lecture online and offline.

On third day lecture was organized on topic **'Historical Weapons and Coins'** by Shri. Ravindra Jagdale. An exhibition of ancient weapons and coins was organized in the college. In this exhibition, Marathi and Moglai style Katyar, Dandapatta, Marathi arrow, brick, katti, sosanpatta, barchha along with rare coins of Maratha, Mughal, Bahmani period like Ramtanka, Hon, Damdi Paisa, Akbar Dum. The exhibition was held. The program was co-ordinated by Prof. Sachin Bhosle and Dr. Kranti Borawke. About 80 students, teachers and history lovers participated online and offline for this lecture.

On the fourth day, the Principal of Desai College Dr. Ganesh Raut gave talk on **'Heritage Walk'**. Principal Dr. Nitin Ghorpade presided over the programme. On the occasion, Morning session chief National Service Scheme Program Officer. Dr. Jitendra Wadshingkar, Prof. Dnyaneshwar Jambhulkar, Dr. Amrita Inamdar, Prof. Saddam Hussain and Dr. Vandana Pimple was present. Saluting the memory of martyrs Bhagat Singh, Sukhdev and Rajguru who sacrificed their lives for Indian freedom on the occasion of the first Martyr's Day. While explaining the concept of 'Heritage Walk', Principal Dr. Ganesh Raut told about the neglected aspects towards historical places and its importance. Principal Dr. Nitin Ghorpade congratulated and appreciated the talk, it was mentioned that there are more than 250 historical places in Pune city. Also, expressing the opinion that historic buildings tell the philosophy of our life, he presented a comparative study of the work done all over the world for the conservation of historical places.

Principal of the college Dr. Nitin Ghorpade explained the concept of this five-days workshop and expressed the hope that this workshop will develop interest in history among the students and motivate the students to take care of Historical sites. At the same time, he explained that it is necessary to look at everywhere from a career point of view. The workshop was co-ordinated by Prof. Kirti Karanjawane and vote of thanks was proposed by Prof. Santosh Karbhari. More than 80 students and teachers participated in online and offline mode for this lecture.

The five-day historic sites adoption scheme workshop was concluded with a heritage walk at Parvati and a special lecture by Indrayani College, Talegaon Dabhade Dr.Pramod

Borade while presenting the topic of **'Conservation of historical forts'**, he first presented the history of the mountain area in his very effective style and gave information about the historical forts and forts of Maharashtra. He also highlighted the importance of forts in Hindu Swarajya and the work done by Chhatrapati Shivaji Maharaj for culture and language conservation, stating that the forts have been of unique importance since the mythological times. At the same time, giving information about the architectural design of the forts made for security, he expressed the opinion that conservation of the forts is the need of the hour.

College Principal Dr. Nitin Ghorpade expressed special thanks to Savitribai Phule Pune University for providing the financial support for the workshop and to get an excellent opportunity to learn something different through experience to the students. On the basis of the information obtained from this workshop, the students were urged to prepare a plan for the conservation of the fort through group discussion. The students of the travel and tourism department of the college visited the historical places such as Peshwa Vastu Museum, temples, Nanasaheb Peshwa Samadhi and discussed with the Parbati Sansthan regarding the growth of tourism.

Introduction of this closing ceremony Dr. Jitendra Wadshingkar, Sutrasanchalan Dr. Vijay Balghare and Dr. Amrita Inamdar were present. About 60 students of the Department of History and Tourism participated in this heritage walk and about 70 students, teachers and history lovers participated online and offline for the lecture organized by YouTube Live. For the success of this activity, Dr. Kranti Borawke, Prof. Ratna Chaudhary, Prof. Santosh Karbhari, Prof. Sachin Bhosle, Dr. Jyoti Ramod, Prof. Bhaskar Ghodke, Dr. Dipak Chinchwade, Dr. Savita Vasunde, Prof. Kirti Karanjawane, Mr. Praneet Pawle, Mr. Ramdas Chinchwad, Mr. Santosh Kumbhar, Mr. Nilesh Shinde, Mr. Sachin Shitole worked hard.

Pune District Education Board

Baburaoji Gholap College Sangvi, Pune-27

National Service Scheme (NSS)

"University Level Mountaineering and Wildlife Study Camp"

(26th May to 28th May 2022)

Report

Savitribai Phule Pune University and Pune District Education Associati Baburaoji Gholap College Sangvi, NSS department jointly planned a three-university level camp at Harishchandragarh from 26th May to 28th May 2(The camp was inaugurated with the auspicious hand of Hon. D. D. Pad Rajur Ramge Forest Officer, Forest Division, Rajur, Akole Taluk.

While guiding the students of the National Service Scheme. Hon Padwale, Range Officer told the students why wildlife is useful and how necessary to conserve wildlife? He told them about the innovative experien he had during is surveys in various forests. He especially appreciated Gh College for organizing this three-day University level camp by telling t what care should be taken while experiencing wildlife in these three day Harishchandragad and Kalsubai Sanctuaries under Nashik Forest Park.

Mr. Anil Mare guest from Anatrao Pawar College guideded tudent care to be taken during the trekking. On the second day, the particpat students climbed the Harishchandragad, Konkan Kada and Taramati P which is an second highest peak in Maharashtra. Dr. Arjun Doke, Head Geography department gave a lecture on how this area is geographically how the plateus are formed. Dr. Rani Bhagat from department of Botany guided the students about fort biodiversity and rare plants in the area as wel

how to conserve the resources for sustainable development and how stiff ar of Harishchandragad area protects the RET species.

Hon. Principa Dr. Nitin Ghorpade participated in the climbing activ While guiding the st dents, he explained the importance of historical places expressed his concern about their deteriorating condition. Also stating that expected to create public awareness among the tourists regarding conservation of historical places, the youth expressed the opinion that necessary to take the initiative in this regard. Volunteers cleaned the histor water tanks and took necessary measures for the conservation of these tanks to store the water for wildlife and trekkers. National Service Scheme Progr Officer Prof. Dyaneshwar Jambhulkar, along with students Shubham Dau Akanksha Ingle, Harshada Phuge, Ankit Chandalia, Pawan Mane, Vina Kamble, Rohit Ghodke, Riddhi Bhosle, Anjali Shinde, Bharat Rathod. I Joshi, Tamanna Shaikh, Tejas Gaikwad, Manoj Gaikar worked hard. At time local residents and tourists who came for climbing joined this so activity also they are overwhelmed by this social work, around 160 volunte of the NSS Department from various colleges affiliated to Baburaoji Gho College and Savitribai Phule Pune University participated in this camp.

At the concluding ceremony of this camp, Principal Dr. Nitin Ghorp explained the concept of this camp organized in Harishchandragad area whic rich in biodiversity and a major tourist attraction for adventure tourism. It also mentioned tha through such camps, students get essential experience their future life and contribute to their personality development. In this, stud from various colle es of Pune, Ahmednagar and Nashik districts affiliate Savitribai Phule Pune University thanked the college for providing a diffe kind of experience by giving them the opportunity to participate in this camp

For the success of the said camp, National Service Scheme Prog Officer Dr. Jitendra Wadshingkar, Prof. Dnyaneshwar Jambhulkar, Dr. V Doke, Dr. Rani Bhagat, Dr. Vidya Pathare, Lieut. Vitthal Naikwadi, P Pawan Hande, Prof. Neelam Khomane, Prof. Saddam Ghatwale, Prof. Nag Bhalerao, Vinod Ranpise, Nilesh Shinde, Santosh Kumbhar, Sachin Shit Aniket Kulkarni have done special efforts and Rajur Forest Range Office un Nashik Forest Department has given special support for this

पुणे जिल्हा शिक्षण मंडळाचे

बाबुरावजी घोलप महाविद्यालय सांगवी,पुणे-२७

राष्ट्रीय सेवा योजना

"विद्यापीठस्तरीय गिर्यारोहण व जीवसृष्टी अभ्यास शिबीर"

अहवाल

सावित्रीबाई फुले पुणे विद्यापीठ आणि पुणे जिल्हा शिक्षण मंडळाचे बाबुरावजी घोलप महाविद्यालय सांगवी, राष्ट्रीय सेवा योजना विभाग यांच्या संयुक्त विद्यमाने हरिश्चंद्रगड येथे तीन दिवसीय विद्यापीठस्तरीय शिबिर आयोजित करण्यात आले होते .सदर शिबिराचे उद्घाटन मा. डी. डी. पडवळे राजूर वनविभागाचे वनपरिक्षेत्र अधिकारी यांच्या हस्ते झाले. याप्रसंगी प्राचार्य डॉ. नितीन घोरपडे, समन्वयक डॉ. जितेंद्र बडशिंगकर, प्रा. अनिल मरे यांची प्रमुख उपस्थिती होती.

राष्ट्रीय सेवा योजनेच्या शिबीरार्थींना मार्गदर्शन करताना राजूर वनविभागाचे वनपरिक्षेत्र अधिकारी मा.डी. डी. पडवळे यांनी विद्यार्थ्यांना वन्यजीवन कसे आहे त्याची उपयुक्तता का आहे हे सांगून वन्यजीवन संवर्धन होणे कसे गरजेचे आहे.हे सांगून त्यांना आलेले नावीन्यपूर्ण अनुभव सांगितले.या तीन दिवसात वन्यजीवन अनुभवत असताना कोणती काळजी घ्यावी हे सांगून या तीन दिवसीय शिबिराचे आयोजन केल्याबद्दल घोलप महाविद्यालयाचे विशेष कौतुक केले. तसेच नाशिक वनपरिक्षेत्र अंतर्गत हरिश्चंद्रगड व कळसूबाई अभयारण्यामध्ये असलेल्या विपुल प्राणी व वनस्पती संपदेची विद्यार्थ्यांना माहिती दिली महाविद्यालयाचे प्राचार्य डॉ.नितीन घोरपडे सरांनी महाविद्यालयाच्या यावर्षीच्या मासिकाची थीम संवर्धन अशी का ठेवली हे सांगून प्राणी वनस्पतीचे संवर्धन किती महत्वाचे आहे या विषयी माहिती सांगितली. या शिबिराच्या उद्घाटन समारंभामध्ये महाविद्यालयातील इतिहास विभाग प्रमुख डॉ. जितेंद्र बडशिंगकर यांनी हरिश्चंद्रगड परिसराचा इतिहास विद्यार्थ्यांसमोर उलगडला.

दुसऱ्या दिवशी सहभागी विद्यार्थ्यांनी हरिश्चंद्रगड, कोकण कडा व महाराष्ट्रातील दुसऱ्या क्रमांकाचे सर्वोच्च शिखर असलेल्या तारामती शिखरावर गिर्यारोहण केले. यामध्ये गिर्यारोहण करत असताना भूगोल विभाग प्रमुख डॉ. अर्जुन डोके यांनी भौगोलिकदृष्ट्या हा परिसर कसा आहे रांजणखळगे कसे निर्माण होतात याविषयी व्याख्यान दिले. वनस्पती शास्त्र विभागातील डॉ. राणी भगत यांनी अनुक्रमे हरिश्चंद्रगड परिसराची परिसरातील जैवविविधता आणि दुर्मिळ वनस्पती या विषयी मार्गदर्शन केले. या शिबिरामध्ये बहुतांश विद्यार्थी पहिल्यांदाच गिर्यारोहण करत होते.प्रा. मरे सर यांनी गिर्यारोहण कसे करावे त्यासाठी काय खबरदारी घ्यावी याविषयी माहिती सांगितली.

महाविद्यालयाचे प्राचार्य डॉ. नितीन घोरपडे हे गिर्यारोहण सहभागी झाले होते. विद्यार्थ्यांना मार्गदर्शन करत असताना ऐतिहासिक स्थळांचे महत्त्व विशद करत त्यांच्या होत असलेल्या दुरवस्थेबद्दल चिंता व्यक्त केली. तसेच ऐतिहासिक स्थळांच्या संवर्धनाबाबत पर्यटकांमध्ये जनजागृती होणे अपेक्षित आहे असे नमूद करत यादृष्टीने युवकांनी पुढाकार घेणे गरजेचे असल्याचे मत व्यक्त केले.या शिबिरामध्ये हरिश्चंद्रेश्वर मंदिर परिसरातील स्वच्छता, कचरा, प्लास्टिक, शेवाळ, टाकाऊ पदार्थ यामुळे मोठ्या

प्रमाणात दुरवस्था झालेल्या चौकोनी कुंडांची स्वयंसेवकांनी स्वच्छता केली या कुंडांच्या संवर्धन होण्याच्या दृष्टीने आवश्यक उपाययोजना केल्या. राष्ट्रीय सेवा योजना पर्यावरण अधिकारी प्रा. ज्ञानेश्वर जांभुळकर, सुभम दौंड, आकांक्षा इंगळे, हर्षदा फुगे, अंकित भंडारिगा, पवन माने, विनायक कांबळे, रोहित घोडके, रिद्धी भोसले, अंजली शिंदे, भरत राठोड, सलित जोशी, तमन्ना शेख, तेजस गायकवाड, मनोज गायकर या स्वयंसेवकांनी परिश्रम घेतले. यावेळी स्थानिक रहिवासी व गिर्यारोहणासाठी आलेल्या पर्यटकांनी स्वयंसेवकांच्या या सामाजिक कार्याचे भारावून जात त्यांना शाबासकीची थाप दिली.या शिबिरामध्ये बाबुरावजी घोलप महाविद्यालय तसेच सावित्रीबाई फुले पुणे विद्यापीठाशी संलग्नित विविध महाविद्यालयांमधून राष्ट्रीय सेवा योजना विभागाचे सुमारे १६० स्वयंसेवक सहभागी झाले होते.

या शिबिराच्या समारोप प्रसंगी प्राचार्य डॉ. निलीन घोरपडे यांनी जैवविविधतेने संपन्न व साहसी पर्यटनासाठी पर्यटकांचा प्रमुख आकर्षण असलेल्या हरिश्चंद्रगड परिसरामध्ये आयोजित या शिबिराची संकल्पना स्पष्ट केली. तसेच अशा प्रकारच्या शिबिरांमधून विद्यार्थ्यांना भावी आयुष्यासाठी आवश्यक अनुभवाची शिदोरी मिळत त्यांचा व्यक्तिमत्व विकास होण्यास हातभार लागतो, असे नमूद केले. यामध्ये सावित्रीबाई फुले पुणे विद्यापीठाशी संलग्नित पुणे, अहमदनगर व नाशिक जिल्ह्यातील विविध महाविद्यालयातील विद्यार्थ्यांनी या शिबिरामध्ये सहभागानी संधी देत एक वेगळ्या प्रकारचा अनुभव उपलब्ध करून दिल्याबद्दल महाविद्यालयाचे आभार मानले.

सदर शिबिराच्या यशस्वितेकरिता राष्ट्रीय सेवा योजना कार्यक्रम अधिकारी डॉ. जितेंद्र वडशिंगकर, प्रा. ज्ञानेश्वर जांभुळकर, डॉ. अर्जुन डोके, डॉ. राणी भगत, डॉ. विद्या पाठारे, सेप्ट. विठ्ठल नाईकवाडी, प्रा. पवन हांडे, प्रा. नीलम खोमणे, प्रा. सदाम घाटबांधे, प्रा. नागेश भालेराव, विनोद रणसिंगे, निलेश शिंदे, संतोष कुंभार, सचिन शितोळे, अनिकेत कुलकर्णी, यांनी विशेष परिश्रम घेतले असून नाशिक वन विभाग अंतर्गत येणाऱ्या राजूर वनपरिक्षेत्र कार्यालयाने याकरिता विशेष सहकार्य केले आहे.

Baburaoji Gholap College Sangvi, Pune 411027

Department of Marathi 2021-2022

Marathi Language Preservation Fortnight

On the occasion of Marathi Language Preservation Fortnight, an online lecture was organized by Marathi Department on 'Reading Culture and Creation Process of Novel'. Principal Dr. Nitin Ghorpade was the president of the programmers.

Radical changes in the field of information technology and the Internet are distancing students from humanity as they connect with the entire world. While guiding the subject of 'Reading culture and the process of creation of novel', Prof. Manoj Borgaonkar expressed his firm opinion that there should be no gap between ones writing, speaking and living. We must learn to read people. At the same time, while explaining the concept of 'Nadishta novel', he pointed out that man should learn to read nature and he also that guided how various events have affect our sensitive mind. At the same time he talked about varies eminent personalities and their lives along with his own memories about his reading passion. Dr. Vijay Balghare introduced the peacker . Conducted by Suvarna Khodade. The said lecture was organized on Zoom meeting app. The lecture was telecasted live on the YouTube channel of the college through YouTube Live. In which more than 180 students, teachers and literature lovers participated.

Name of the activity-Forts in Shivaji Maharaj Era Date-18/02/2022

Aim: To inculcate values of Shivaji Maharaj in youth and motivate and teach them about Forts built by Shivaji Maharaj as evidence of his visionary leadership, military prowess, and architectural mastermind.

Objective:

- To set off on a voyage to learn about the historical significance of the forts built by Shivaji Maharaj.
- Learn how these outstanding contributions influenced his reign, upheld a legacy, and left a lasting impression on Indian history.
- **Report**: There is a deep connection between the forts and the Shivaji Maharaj. Fort building and defense were major concerns during Shivaji Maharaj's rule. These fortified buildings served as important strongholds, command hubs, and representations of Maratha might. They had a built-in advantage in defense against opposing forces due to their strategic placement atop hills and other natural fortifications. The forts served as safe havens for Shivaji Maharaj's army, providing safety and shelter, supporting efficient planning, and facilitating decisive counterattacks when necessary. To inculcate the values of Great Shivaji Maharaj and various forts that won by him and the bravery of Maharaj a guest lecture of Mr. Shramik Gojamgunde was arranged on 18th Fe. 2022. Prin. Dr. Nitin Ghorpade welcomed the guest and guided students regarding importance of Forts and main objective behind organizing this lecture. In his talk he said that Forts built by Shivaji Maharaj are evidence of his visionary leadership, military prowess, and architectural genius. NCC CO-Ordinator Lt. Vitthal Naikwadi introduced the guest. Through lectures on forts in Shivaji Maharaj Era the students came to know the importance of Ahimsa in society and management skills of great Shivaji. In presidential address by Hon. Adv. Mohanrao Deshmukh thanked Mr. Shramik for his wonderful lecture. Vice Prin. Dr. Latesh Nikam proposed vote of thanks.

Report

06/06/2022

On Monday 6th June 2022, an online event was organized on the theme of Shiv Rajyabhishek Day and Environment Day on behalf of the History Department of the college. This day was celebrated to commemorate the golden moment of Shivaji Maharaj's enthronement when the Hindavi Swaraj of Maharashtra was created.Principal of the college, Dr. Nitin Ghorpade was present for the program.

While talking to the students he said that during the medieval period Chhatrapati Shivaji Maharaj started a new era by his coronation called Shiv Shak. This event is worth writing in golden letters. Dr. Jitendra Wadshingkar talked about the difficulties faced by Chhatrapati Shivaji Maharaj before his coronation, how the coronation took place and what was the importance of the coronation ceremony.

After this, Dr.Rani Bhagat, the Department of Botany, delivered a lecture on Biodiversity Ecosystem and its Conservation. In it, she said, biodiversity has been an essential basis for life on the Earth for about one and a half to three million years. It is still not possible to classify many types of micro-organisms. She asserted that it is necessary to preserve biological Diversity ecosystems if humans want to live in good health in the future. The coordinator of the said program was Dr. Jitendra Wadshingkar and Prof. Santosh Sasturkar anchored the program. Vote of thanks was delivered by Prof. Santosh Karbhari. Dr. Suvarna Khodde, Dr. Vijay Balghare, Dr. Arjun Doke and others were present for the program.

Department of History

Dated 7 March 2022

Lecture on International Women's Day

A lecture was organized on the occasion of International Women's Day by the Department of History on Monday, 7th March 2022. Renowned lawyer, Adv. Jyoti Sorkhade was invited as the chief guest and a resource person. The Principal, Dr. Nitin Ghorpade was the president.

Adv. Jyoti Sorkhade said, "It is necessary to make women aware of the law regarding female foeticide and women." The information about the law about female foeticide and the female is given in the Constitution of India. The Principal said that equality between men and women should start from us. Head of the History Department, Dr. Jitendra Wadshingkar said that inspiration should be taken from the history of ancient India that men and women were equal. Dr. Jyoti Ramod and Prof. Santosh Karbhari were present on the occasion.

I-CASH COMMITTEE OF PDEA'S BABURAOJI GHOLAP COLLEGE, SANGVI
AND
WISPER AND GILLETTE SPONSORED
ONE DAY WORKSHOP
ON
HYGIENE AND PERSONALITY DEVELOPMENT
13th May 2022

I-CASH committee of PDEA's BaburaoiGholap College, Sangvi along with Gillette and whisper companies organized one day workshop on 'Hygiene and Personality Development' on 13th May 2022. It was sponsored by Gillette for boys and Wisper sponsored for girl students of the college. Hygiene consciousness was the main motive of the workshop along with personality development of the students. The workshop was held in the seminar hall of the college from 10.00 to 1.00 pm. There were two sessions that were arranged for girls and boys separately. The first session was for girl students of the college. Prof. Dr. SangitaGhodake, I-CASH coordinator delivered introductory speech through which she explained the work of the committee and various workshops that have been organized for overall development of college students. Ms. Anurita Gaikwad, senior clerk gave an introduction of the resource person in brief. DrRupa Shah, Pratibha College of Commerce, Chinchwad was the resource person. Being personality development trainer, she motivated girls regarding handling family and professional life successfully. She gave minute tips of maintaining hygiene during menstrual period. Prin. Dr. Nitin Ghorpade was the president of the session. He spoke on the importance of hygiene and personality development for girls. Dr. Vandana Pimple offered vote of thanks with concluding remarks. Ms. KirtiKaranjawane anchored the session. Ms. RupaliRasale, Ms. Preeti Joshi and Ms. JyotiRamod handled the responsibilities like registration, sitting arrangement, stage decoration and such other duties.

The second session was organized for boy students of the college. It was sponsored by Gillette. Prof. Dr. SangitaGhodake, Coordinator, I-CASH delivered introductory speech in which she spoke about equality of the sexes. She asked boys to register their complaint if there is any injustice at workplace or at home. Dr.

Career Guidance and Competitive Examination Cell

Report 14th May 2022

'More Odisha Diary: Commissioner's Interaction with Youth'

Interaction of youth with Commissioner

The program, **'More Odisha Diary: Commissioner's Interaction with Youth'** jointly organized by P. D. E A's Career Guidance and Competitive Examination Cell and Library Department, Baburaoji Gholap College on 14th May 2022 in college auditorium.

Keynote Speaker- Hon. Rajesh Patil, Municipal Commissioner, Pimpri Chinchwad Corporation, Pune.
Honourable guest: Anna Bodhde, Deputy Commissioner, Pimpri Chinchwad Corporation, Pune.
Chairperson: Adv. Sandeep Kadam, Savitribai Phule Pune University Senate Member and Pune District Education Association's Honorary Secretary.

Principal of the college, Dr. Nitin Ghorpade introduced the program. While explaining the concept and importance of this innovative program he said that such an initiative would inspire the students and boost their confidence for preparation of competitive exams.

While interacting with the students in 'More Odisha Diary: Commissioner's Dialogue with Youth', Rajesh Patil, a dutiful officer in the Indian Administrative Service, shared his inspiring journey to become an officer in the Indian Administrative Service despite his poor financial condition.

In question answer session, students Pratima Jetithor, Shubham Daund, Harshda Fuge, Sudarshan Giram, Aniket Jadhav, Tanay Sudhar, Ashwini Dabhade, Sanika Kumbhar asked various questions regarding the book **'More Odisha Diary'**, to Hon. Rajesh Patil. He interacted with them by answering the questions asked on the experience of handling and many bold decisions taken while working. In this dialogue, he also highlighted the challenges faced by the people in remote and tribal areas while working in the state of Odisha and the local issues in Mayurbhanj district.

Chairperson Adv. Sandeep Kadam appealed to the students to fix their goals from the college life and expressed the need to keep them updated with the times. He also shared his experience from the book 'More Odisha Diary' and expressed hope that future officers would emerge from such initiative. About 600 students participated in this program both offline and online.

विषय:- आभार पत्र ...

महोदय,

महाविद्यालयात स्पर्धा परीक्षा समिती अंतर्गत शनिवार दिनांक १४-५-२०२२ रोजी सकाळी ठीक १०.३० वा. 'महाविद्यालयीन युवकांशी संवाद' या कार्यक्रमाचे आयोजन केले होते. सदर कार्यक्रमास आपण आपल्या व्यस्त दिनक्रमातून वेळ काढून प्रमुख पाहुणे म्हणून उपस्थित राहून आपण लिहिलेल्या **'मोर ओडिशा डायरी'** या पुस्तकावर संवाद साधुन युवकांना प्रेरित केले. विद्यार्थ्यांना अतिशय मौलिक असे मार्गदर्शन केलेत यासाठी महाविद्यालय आपले मनपूर्वक आभारी आहे. यापुढील काळातही आपल्याकडून असेच सहकार्य व्हावे ही अपेक्षा.

कळावे,

आपला विश्वासू,

डॉ. नितीन घोरपडे

'योग्यवेळी निर्णय न घेतल्यास चांगल्या संधी मुकण्याचा धोका'

लोकसत्ता प्रतिनिधी

पिंपरी : विद्यार्थ्यांनी आत्मपरीक्षण करत भविष्याच्या दृष्टीने प्रगल्भ असणे आवश्यक आहे, असे मत पिंपरी पालिकेचे प्रशासक तथा आयुक्त राजेश पाटील यांनी सांगवीत बोलताना व्यक्त केले.

सांगवीतील बा. रा. घोलप महाविद्यालयातील स्पर्धा परीक्षा मार्गदर्शन केंद्र व ग्रंथालय विभागाच्या वतीने आयोजित विद्यार्थ्यांशी संवाद या कार्यक्रमात ते बोलत होते. पुणे जिल्हा शिक्षण मंडळाचे मानद सचिव संदीप कदम अध्यक्षस्थानी होते.

पिंपरी पालिका आयुक्त राजेश पाटील यांचे आयोजकांच्या वतीने संदीप कदम यांनी स्वागत केले.

प्राचार्य नितीन घोरपडे, उपप्राचार्य डॉ. लतेश निकम, पालिकेचे सहायक आयुक्त अण्णा बोदडे आदी उपस्थित होते. आयुक्तांनी त्यांचा आतापर्यंतचा प्रवास उपस्थित विद्यार्थ्यांसमोर उलगडला.

पाटील म्हणाले की, विद्यार्थ्यांनी करीअरबाबतीत सजग राहत योग्य वेळी निर्णय घेणे महत्त्वाचे आहे. अन्यथा आपण अनेक संधीना मुकतो. वाचन व अनुभवाने आपल्या उणिवा जाणून घेत स्वतःला विकसित करता येते. आत्मपरीक्षणातून विकासाची नवीन दिशा मिळत असते. प्रतिमा जेटीथोर, शुभम दौंड, हर्षदा फुगे, सुदर्शन गिराम, अनिकेत जाधव, तनय सुधार, अश्विनी दाभाडे, सानिका कुंभार आदी विद्यार्थ्यांनी विचारलेल्या प्रश्नांना आयुक्तांनी मनमोकळेपणाने उत्तरे दिली.

प्रास्तविक नितीन घोरपडे यांनी, सूत्रसंचालन डॉ. विजय बालघरे यांनी केले. डॉ. क्रांती बोरावके यांनी आभार मानले.

Name of the activity- Palki Marg Swachata Abhiyan Date-22nd June 2022

Aim: To create social awareness for health hygiene.

Thousands of warkari are traveling from village Dehu to Pandharpur as part of the "**Pandharpur Wari**" program, while NSS volunteers have organized a cleanliness effort during the palkhi procession at Dapodi under the guise of "Sant Tukaram Maharaj." The students have been engaged in a number of social awareness-related projects through which they educate villages along the wari's route as well as the warkaris in the procession and spread social messages. "The places are strewn when the palkhis move forward after their halts for rest and food as thousands of people trek miles from Pune to Pandarpur as part of the palkhi processions of Sant Dnyaneshwar and Sant Tukaram. These youngsters therefore sanitize the area while the palkhis proceed. On this day, our volunteers participated in a cleanliness campaign and helped a lot of warkaris. cleanliness drive under the “Swachh Wari-Swastha Wari- Nirmal Wari- Harit Wari” initiative held by Savitribai Phule Pune University. Prin. Dr Nitin Ghorpade, All NSS Program officers and Morning Session In-charge Dr V. V. Pimple were presented at this program. 42 (forty Two) Student Participated in this activity.

Department of National Service Scheme (NSS)

Name of Activity – Palakhi Marg Swacchata Abhiyaan

Date – June 22, 2022

No of Participated Students – 150

- **Aim – Create the Social Awareness Among the NSS Volunteer**
- **Objective – 1) To Express the Environmental Awareness Through the Teaching of Saints**

This activity was conducted on 22nd June 2022. NSS Volunteers cleaned campus at Dapodi in 'Pandharpur Wari' program in which lakhs of warkari walking distance from Dehu to Pandharpur by taking the name of "Sant Tukaram Maharaj." Our volunteers have served many warkaris on this day in participating cleanliness drive under the "Swachh Wari-Swastha Wari- Nirmal Wari- Harit Wari" initiative held by Savitribai Phule Pune University. Prin Dr Nitin Ghorpade, All NSS Program officers and Morning Session Incharge Dr V.V.Pimple were presented at this program.

To create awareness, the Importance of Cleanliness in Social Gathering, Savitribai Phule Pune University and PDEA's Baburaoji Gholap College National Service Scheme Department organized a cleanliness campaign after the arrival of

Saint Tukaram Maharaj Palkhi in Dapodi area on the occasion of Ashadhi Wari, a volunteer of National Service Scheme Department of the college gave a message of social service by cleaning the area.

The principal of the college Dr. Nitin Ghorpade expressed the opinion that from the teachings of saints, there is a need to clean the environment along with cleaning the mind. Also, the volunteers who got the opportunity to serve in the palkhi ceremony, which is an important part of Warkari sect and the cultural identity of Maharashtra, appealed to them to strive to create their own personality from the experiences they have received.

As part of this cleanliness drive, the volunteers of the National Service Scheme Department collected garbage, plastic bottles, and waste material from Chhatrapati Shivaji Maharaj statue area, Dapodi Railway Gate and Palkhi rest area. The special thing is that when plastic was banned by the government, instead of using plastic garbage bags, they disposed of the garbage properly by filling it in the cloth bags brought with them. Total 150 students participated in the campaign. The college is being showered with appreciation from all levels for organizing this campaign by conveying the message of social and environmental conservation through its work.

A Report on

Biodiversity Conservation Trail at Korigad, Tal. Mulshi, Pune.

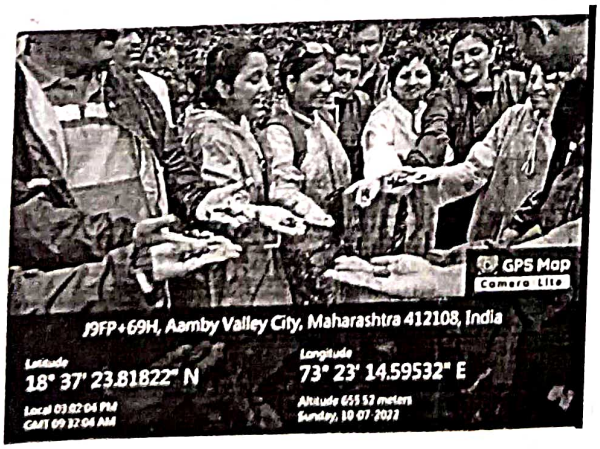
Aim : The conservation, management or restoration of natural resources.

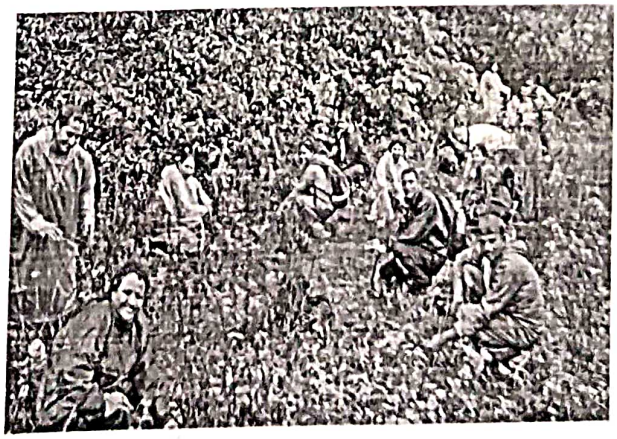
Objectives: Arrangement of Biodiversity Conservation Trail has following objectives-.

1. To conserve the diversity of species and sustainable utilization of species and ecosystem.
2. To maintain life-supporting systems and essential ecological processes.
3. To increase public awareness
4. To conserve all varieties of old and new flora, fauna and microbes.
5. To protect natural habitats.

Botanical studies never be bound in the walls of laboratory, keeping this in mind, a Arrangement of Biodiversity Conservation Trail was planned on 17 July 2022 by Department of Botany, Baburaoji Gholap College Sangvi on the occasion of Birthday of Hon. Ajit Pawar, Precident, Pune District Education Association

In one day conservation trail around 15 faculties and 09 students from various departments of Baburaoji Gholap College Sangvi were participated in sowing the seeds of different RET plants including- Kanak champa, Arjun, Behda, Hirda, Jackfruit, Mango, Sita Asoka etc under activity incharge Dr. Rani Bhagat.





Baburaoji Gholap College Sangvi, Pune-27

As per the Programme, All the faculties reached at the destination korigad at 9.30 am by their own vehicle transportation. Dr Rani Bhagat Ma'am explained very well the importance of biodiversity conversation in daily life. After then seed sowing activity of medicinal plant, fruit plant was done.

Activity carried out under All Bachelor of Vocational Department

Program on 12th August 2022.

Name of Activity-"Seminar on Speech Skill and Information Technology"

Date-12th August 2022

Pune District Education Association's

BABURAOJI GHOLAP COLLEGE, SANGVI, PUNE-411 027

Name of Activity-Seminar on Speech Skill and Information Technology for All B.Voc. Departments

"Seminar on Speech Skill and Information Technology"

Program on 12th August 2022

Aim:- The primary aim of the seminar is to bridge the gap between the evolving demands of the job market, specifically in the information technology (IT) sector, and the skill sets of students. The focus is on enhancing speech skills, a crucial aspect often overlooked in conventional educational curricula, and providing insights into the diverse career opportunities within the dynamic field of information technology.

Objective:-

1. Promoting Speech Skills:
2. Understanding the IT Landscape:
3. Career Guidance in Information Technology:
4. Integration of Speech Skills in Education:
5. Industry-Ready Graduates

Introduction: The Baburaoji Gholap College in Sangvi organized a seminar on speech skills and information technology (IT) careers. The program aimed to highlight the significance of communication skills, especially in the context of the rapidly evolving IT landscape in India.

Context of the Seminar: As India completes 75 years of independence, the nation is undergoing a transformative phase marked by rapid digitization and technological advancements. These changes are both a cause and an effect, emphasizing the need for individuals to save time and enhance quality through reliance on fundamental digital resources. The rise of ICT-enabled businesses across the country, involving over 400 million professionals, is a testament to this unprecedented transformation.

Job Opportunities and Skill Requirements: The survey conducted in 2020 revealed that 33% of companies felt the need to hire additional workers due to their efforts in digital transformation. However, the number of workers needed decreased by 19% compared to previous times. In light of these changes, individuals working in any sector

must develop excellent speech skills, especially in the realm of information technology, to remain competitive in the job market.

Educational Initiatives: Recognizing the importance of developing communication skills along with technological expertise, educational institutions are integrating speech skills into their curricula. The Baburaoji Gholap College, under the guidance of Dr. Nitin Ghorpade, the principal, organized a workshop on "Speech Skills and Information Technology" within various vocational courses, such as fashion technology, software development, travel and tourism, retail management, and beauty therapy.

Key Speakers and Insights: The inauguration of the workshop featured speeches from prominent personalities, including Prof. Dipali Joshi, Prof. Saddam Ghatwale, Prof. Rushikesh Hiwale, and Prof. Rupali Rasale. The first session, conducted by Mr. Amol Rasakar, the director of the Abhiman Institute of Technology and Management, provided comprehensive guidance on oral and non-verbal communication, CV and personal information, educational qualifications, and other relevant information necessary for effective communication.

Career Opportunities in IT: In the second session, Mr. Nehal Kudale, a cyber security consultant at TCS Limited, shed light on career opportunities in the IT sector. He emphasized the need for a solid educational background, technical skills, and awareness of global job opportunities for individuals aspiring to work in information technology.

Conclusion: The seminar on speech skills and information technology careers at Baburaoji Gholap College in Sangvi was a significant initiative to prepare students for the evolving job market. It not only highlighted the importance of communication skills but also provided valuable insights into the dynamic field of information technology. Such initiatives play a crucial role in bridging the gap between education and industry requirements, ensuring that students are well-equipped for the challenges and opportunities of the digital era.

National Cadet Corps (NCC)

Name of the Activity- Har Ghar Tiranga and Tree Plantation Date-13/08/2022

This campaign was took place to commemorate 75 years of India's independence. The campaign aims to teach a sense of patriotism in the hearts of the people of India. It also aims to raise awareness of the national flag as the symbol of nationalism and national pride. The main objective of the campaign is to encourage more and more Indians to raise the tricolor in their home. Mr. Subhash Ingale from PMC Pimpri Chinchwad guided the students. Mrs. Yogita Mahaske Founder and Chairman of Deva Foundation gave plants to college which are cultivated in college campus and along the roadside. Total 52 candidates were participated in this activity. Prin. Dr. Nitin Ghorpade supported it and Dr. Vitthal Naikwadi Co-Ordinator of NCC organised this activity. Mr. Pranit Pawale, Mr. Pathare helped for this programme.

DEPARTMENT OF ZOOLOGY

'World Wildlife Week'

1st- 8th October 2022

'World Wildlife Week' is celebrated every year from 1st- 8th October. The Department of Zoology of Baburaoji Gholap College organized week long celebration of 'World Wildlife Week'. Wildlife week was inaugurated at the hands of Principal of Baburaoji Gholap College Dr. Nitin Ghorpade Sir. In his speech he mentioned about the dwindling number of common birds around us. They are the bio indicators of the health of our environment. Each and every species has immense contribution in the environment and also survival of human beings itself. Mr Rahul Kamble Wildlife Education Officer, BNHS and President of Vanya Pashu Pakshi Sanvardhan Samajik Sanstha, PCMC division enlightened the students on Snake Basic & Snake bite Mitigation. On the occasion Head of department of Zoology Dr. Vaishali M Bansod highlighted the event for promoting awareness towards wildlife preservation as many species are getting extinct and are endangered. Dr Sunetra More, Dr Jyoti Kadam anchored and delivered vote of Thanks respectively. The students of SYBSc displayed posters based on wildlife animals, effects of pollution on sea and ocean animals, national forest etc. virtually. Vice Principal Dr. L. K. Nikam, Dr D. M. Mahajan, Dr Ekar, Prof. V. S. Ghare, Dr. Rani Bhagat, Prof. Saddam Ghatwale motivated the students.

2. **News : https://www.digitalpune.co.in/news/Post.aspx?NewsId=7530**

The week long celebrations included

- Guest Lecture on Snake Bite and its mitigation by Mr. Rahul Kamble- Wildlife Education Officer, BNHS and President of

Vanya Pashu Pakshi Sanvardhan Samajik Sanstha, PCMC division.

- ❖ Guest lecture on 'Human wildlife conflict' by Prasad Chakankar- member of NGO Vanya Pashu Pakshi Sanvardhan Samajik Sanstha, PCMC division.
- ❖ Guest lecture on "Biodiversity conservation and wild life of India" by Dr. Rupesh Yadav(TCSC,Kandivali, Mumbai)
- ❖ Presenttions by SYBSc. Zoology students on various topics under biodiversity and conservation
- ❖ Outreach program for the School children

'World Wildlife Week' is celebrated every year from 1st to 8th October. The department of zoology of Baburaoji Gholap College organised a celebration of World Wildlife week. Interactions with nature and green space have great impact on learning so Baburaoji Gholap College, Department of Zoology organised a reach out programme for school students under the guidance of Dr Nitin Ghorpade and HOD Dr Vaishali Bansod. On this occasion Mr. Rahul Kamble (Wildlife Officer, BNHS) and Mr. Prasad Chakankar were co-ordinately invited for natural trail. Dr Sunetra More and Dr Jyoti Kadam are monitor and engaged students with their research in nature trail. Students from St Joseph high school, Kendriya Vidyalaya school, SSS School and Jyanraj school were actively participated in this programme. They walk along college campus area including botanical garden. The students were created a map of trail and researched place of pathway to plants the trees. As a community learners' students took pictures of variety of insects, plants, lizards, amphibians and birds also do the record of it. Students gets great opportunity to get the guidance of Mr Rahul Kamble Sir. Throughout the process the students took learned skill in the classroom and applied it for cooperatively improve the environment. This reach out programme is worthwhile to all participants.

'World Wildlife Week' is celebrated every year from 1st to 8th October. The Department of Zoology celebrated World Wildlife Week. On 8th October 2022 Department of Zoology conducted **a NATURE TRAIL.** Mr. Rahul Kamble (Wildlife Officer, BNHS) and Mr. Prasad Chakankar held Nature Trail for the students. Nature Trail is a short planned walk way through the surrounding nature. The college campus, botanical garden and the area surrounding the campus area were selected under the guidance of Nature trail expert Mr Rahul Kamble. A Nature Trail is the basis teaching tool in outdoor education and most interesting features. All FY.B.Sc. and SY B.Sc. students, teaching staff Dr Sunetra B. More and Dr Jyoti Kadam participated in this activity. Mrs. Ghare Sir encouraged the students for planned activity. The participants enjoy by observing, feeling, smelling the nature and see the habitat of different organisms. The interdependence between living beings and their environment is noticed. Many of insects, amphibians, reptiles and birds were spotted. Eutrophication in pond was also shown by the guides. Rahul Kamble explained in detail about each minute things related to species like their identification, its natural habitats, growth of the population of all organisms. This Nature trail helps to increase our awareness towards conservation of biodiversity and the techniques and solutions to local problem. Principal Dr. Nitin Ghorpade highlighted the importance of Nature trail and Head of department of Zoology Dr. Vaishali M Bansod felicitated the guests.

Name of the activity: Puneet Sankalp Pledge **Date**: 26/12/2022

Aim and Objective: To fight plastic pollution and support the Puneet Sagar Abhiyan by Govt. of India

Report:

Department of NCC organized a Puneet Sankalp Pledge on 26th Dec. 2022. Total 52 cadets(Fifty Two) were participated in this pledge.

Prin. Dr. B. N. Zaware supported this activity and Lt. Dr. Vitthal Naikwadi participated in this activity and also motivated the students.

The Puneet Sankalp Pledge

•I will preserve and protect the beaches, riverfronts and lakes around me and keep them Puneet (Clean), Pristine and Free of Plastic Waste. To combat plastic pollution, I pledge to incorporate following 10 action points in my daily life.
•I shall refuse single use plastic products like plastic bags, tea cups, bottles, cutlery and straws.
•I shall opt for alternative to plastics like using reusable steel water bottle instead of plastic water bottle.
•I shall not litter the environment by throwing plastic items.
•I shall segregate my plastic waste at home and ensure its proper disposal through local municipal authorities.
•I shall volunteer for cleanliness drive and encourage my friends to do
•I shall reduce my plastic footprint during shopping by using reusable and Eco friendly cloth bags.
•I shall endeavour to give ‘Green Gifts’ like Cloth Bags, Steel Bottles, Recycled Plastic Shirts etc. to spread the word about environment friendly items.
•I shall comply with the mantra of 3R’s i.e. to reduce, reuse and recycle the plastic items.
•I shall share my scientific knowledge on plastics and its ill effects with my parents, relatives and friends to make them aware of plastic pollution.
•I shall lead by my personal example and motivate others to act on the Puneet Sankalp in their daily lives.

Puneet Sankalp Pledge: Fifty cadets participated in the 'Puneet Sankalp Pledge' activity; it is organized by NCC & Ministry of Defense held on 26th Dec 2022. (Two demo certificates given below)

Preface

A large section of India's population lives in rural areas. It was thus relevant to know the quality of life of the people in the villages. The village people largely depended on the facilities available to the villages. The policy interventions aimed at improving the quality of life in the villages demanded information on the facilities available to the people of rural India. To understand the ground reality about the facilities and resources available in rural areas, our college has decided and undertaken the village surveys in Mulshi Tahsil of Pune District.

The survey included the collection of information on availability of facilities in the village. Understanding the socioeconomic transformation of rural society/economy has been in the agenda of social scientists for last many years. Better understanding of rural/village society facilitates policy makers to initiate appropriate policies to set in the motion of rural transformation. For understanding the rural society, social scientists have devised different methods of enquiry and established a rich tradition of intensive and in-depth village studies. Several scholars have followed a multi-disciplinary approach to understand various issues of villagers.

Baseline survey of a village involved systematic collection and compilation of data on the following areas like basic data, demographic data, housing, economic status of households, land-holding pattern, agriculture, animal husbandry, non-farm activities and its potential, health & nutritional status of women & children, educational dynamics, availability of infrastructure (physical, social, economic), social dynamics and strengths, availability of civic bodies/civil society groups, banking & credit, and coverage under various development schemes.

The Baseline Survey resulted in identifying the major socio-economic indicators of the village, and important development needs of the village.

CHAPTER-1
INTRODUCTION

This report presents the findings of survey of village Chale of Maharashtra. The survey was conducted on 29th December 2022. The living standards of people in rural areas of Maharashtra has limited dimensions. The facilities available in rural areas are limited, and access to these facilities is another problem. To understand the ground reality about the facilities and resources available in rural areas, our college has decided and undertaken the village surveys in Mulshi Tahsil of Pune District. The idea of village survey was conceived by Hon. Prin. Dr. Balkrishna Zaware. Under his able guidance, the college has selected the village Chale in Mulshi Tehsil of Pune District (Maharashtra).

The overall objective of the study was to create a dataset of various natural resources (Plants, Crops, Wildlife, Soil, Water, etc.), to capture the cultural, political, and socio-economic dynamics of the Chale village. The purpose is to assess the pace, process, and pattern of rural change by means of survey in the selected village. The focus was on socio-economic, political, and agricultural change and changing pattern of rural livelihoods and its implication for future development. The study also evaluates the efficacy of government interventions in rural areas and key drivers of changes in village economy. The study will also provide a clear picture about diagonally opposite view regarding success or failures of development schemes, besides providing panel data for policy formulations.

Methodology:

The college has designed a questionnaire to obtain relevant information from the villages. The information was collected through student's participation. A detailed enquiry on village facilities was conducted. The nature of the questionnaire is both the qualitative and quantitative to establish baseline data and to keep track of the changes over time. Qualitative data is collected through open-ended questions. It is then filled by the numerical data provided by quantitative questions. The surveys on village facilities included questions on availability of nonconventional energy sources, electricity, drinking water, irrigation and drainage systems, cooperative societies and self-help groups was enquired into, and whether any Government development schemes relating to drinking water, housing, sanitation, approach road, employment generation, pension, literacy, etc., was in force. The distance of the villages from the nearest bus stop, railway station, market, primary school, hospital, etc., and from facilities for the disabled was also recorded. The results of the enquiry on village facilities are presented in this report.

Village survey studies are complex and multidisciplinary in nature. It requires clear idea regarding village society, their livelihood, faith, and beliefs. Village studies are often influenced by the alien concepts (of the researchers) and in many cases are not representative in nature. Village studies also tend to exaggerate the unity and self-sufficiency of the village. In many instances, the scholars tried to study village community in a biotic frame of reference. They practically ignore a basic reality that Indian village is a synthesized community.

Chale Village Map

Methodology of Data Analysis:

The data compilation was performed using MS Excel, analyzing them, and returning to the villages for more details mainly in education and health sector. Google Earth was used to study the different topography around Chale village.

The data were compiled for total people in the house, sex ratio, energy use, gas connection, ration card availability, color of the ration card, education, total farmland holding, average productivity of major crops grown such as rice, wheat, channa, sugarcane, no of domestic animals (Cattlestock), whether milk is sold, vaccination, major source of income, drinking water facility, irrigation facility, whether part of SHG, farmer's union, seasonal migration, permanent migration, toilet facility, type of bank account and bank name. Then the data compiled was illustrated through graphs, pie charts, tables, histograms for the ease of analysis using MS Excel.

Interviews were conducted with the villagers. Twenty-five families were identified for the interview. Twenty different questions were asked to the villagers. The questions were regarding the income sources, expenditure, savings, government schemes, digital literacy, landuse and land cover, weather, natural resources, education, health, and sanitation, dirinking water facility, cropping pattern, animal husbandry, etc. The data was collected and presented in the report.

CHAPTER-2

चाले गावाचा स्थानिक इतिहास लेखन

डॉ . जितेंद्र यशवंत वडशिंगकर
इतिहास विभाग

शैक्षणिक वर्षे २०२२ -२3 मधील राष्ट्रीय सेवा योजनेचे हिवाळी शिबीर २६ डिसेंबर २०२२ ते १ जानेवारी २०२३ या कालावधी मध्ये मुळशी येथील चाले या गावी घेण्यात आला. चाले या गावचे राजकीय सर्वेक्षण करण्यात आले त्याचा अहवाल खालील प्रमाणे.

ध्येय: गावच्या इतिहास अभ्यासातून गावाचे ऐतिहासिक व संस्कृतिक महत्व याचा विचार करणे.
उदिष्टे: स्थानिक इतिहासाचा अभ्यास करणे

गावाचा सामाजिक,आर्थिक,सांस्कृतिक धार्मिक जीवनाचा व परंपरेचा अभ्यास करणे.

गृहीतके: प्रस्तुत गावाच्या इतिहासाच्या अनुषंगाने खालील गृहतके मांडण्यात आली आहे.

- पुण्याच्या ३० कि.मी. गाव असून ही गावात शैक्षणीक प्रगती म्हणावी एवढी झाली नाही.
- आधुनिक काळानुसार सोई सुविधांचा विकास झालेला आहे .
- सामाजिक बदल झालेला असून सर्व लोक गुण्या गोविंदाने नांदत आहेत असे दिसून आले.
- सदर गावातील तरुणांनी शहराकडे स्थलांतरित केल्यामुळे आर्थिक स्थिति सुधारल्याचे दिसून येते. स्त्रियाची स्थितित बदल झालेला नाही.

प्रस्तावना :

प्रत्येक माणसाला आपला भूतकाळ जाणून घेण्याची इछा असते. माणसाला आपल्या गावाचा इतिहास माहिती असणे आवश्यक आहे. आपणास जर आपल्या गावाचा इतिहास माहिती नसेन तर देशाचा इतिहास कसा माहिती असेल म्हणून चालेगावचा इतिहास शोधून त्याचे लेखन करण्याचे प्रयोजन जग, खंड. देश, राज्य, जिल्हा, तालुका व गाव अश्या पिऱ्यामिड पद्धतीने इतिहासाचा अभ्यास केला जातो. गावागावाचा इतिहास मिळून देशाचा इतिहास बनणार आहे, म्हणून कुसगावचा इतिहास शोधून त्या गावाची ऐतिहासिक पार्श्वभूमी विशद करणे.

अलिकडचा इतिहास हा राजे राजवाड्यांच्या व्यक्तीगत जीवनातून बाहेर पडून इतिहाच्या अभ्यासाच्या कक्षा सौराष्ट्र आहेत. इतिहास विषयाची व्याप्ती वाढत आहे. त्यातच त्या गावाचा, जिल्हाचा. तालुक्याचा असेल तो जिल्ह्याचा प्रकल्प सुरू आहे स्थानिक इतिहास हा इतिहासाचाच एक प्रकल्प आहे. स्थानिक कुसगावच्या सामाजिक, राजकीय, आर्थिक, जीवनाच्या रूढी परंपरांचा अभ्यास करणे हाही एक उद्देश आहे.

चतु:सीमा:

चाले गाव मुळशी तालुक्यातील एक गाव आहे. चाले गावची एकूण जमीन ४४७.९५ हेक्टर एवढी आहे. या चाले, सावरगाव आणि करमोळी या तीन गावांची मिळून ग्रुप ग्रामपंचायत चाले या गावी आहे. ही तीनही गावांची एकूण जमीन ९७८.९७ हेक्टर एवढी आहे. या तीनही गावांची लोकसंख्या ही २०११ च्या जनगणनेनुसार पुढीलप्रमाणे आहे.

१. चाले :- ८३७

२. सावरगाव :- ८८४

३. करमोळी :- ४३९

चालेगावची ऐतिहासिक पार्श्वभूमी:

सदरचे गाव मुळशी परिसरातील असून मुळशी परिसरातील आहे. चालेगाव हे एक छोटे गाव असून चोहू बाजूला डोंगर रांगा आहे. चाले गावाच्या चारी बाजूला डोंगर रांगां आहेत. गावात चार वाड्या आहेत.

गावचे समाजजीवन:

प्राचीन काळानुसार चाले गावाचा व समाजाचा विकास होत गेलेला दिसतो. समाज व्यवस्थेत एकत्र कुटुंबपद्धती आहे. कुटुंबात पितृसताक पद्धती आहे. सर्व कुटुंबातील सर्व गुण्या गोविंदाने राहत असलेले दिसतात. सामाजात आर्थिक बाबतीत एकोपा असल्याचे दिसून येते. समाज रचनेवरून गावात सर्व जाती जमातींना समान वागणूक दिली जाते त्यामुळे गावातील वातावरन शांत आहे. कोणत्याही प्रकारचे जातीय गट तर नाहीत. सर्व जाती धर्माचे लोक गावामध्ये एकोप्याने राहतात गावाच्या एकंदरीत पहाणीवरून व काही ग्रामस्थांच्या मुलाखतींमधून असे स्पष्ट जाणवले की या गावात हिंदू समाज मोठ्या प्रमाणात आहे.

सर्वसाधारणपणे खुला वर्ग मोठ्या प्रमाणात आहे. दहिभाते आणि खैरे या आडनावाचे लोक जास्त आहेत. त्याचबरोबर बौद्ध, मातंग, तेली, कोळी आणि वडार समाज चाले गावात आढळतात. मात्र मुस्लीम समाज या गावामध्ये नाही. या गावातील प्रमुख व्यवसाय शेती आहे. भातशेती आहे त्याचबरोबर उसाचे पीक देखील घेतले जाते पण त्याचे प्रमाण अल्प आहे. काही प्रमाणात कडधान्ये देखील घेतले जातात उदा. मसूर, वाटणा आणि हरभरा इ. शेतीला पूरक असे जोड धंदे म्हणजे दुग्ध व्यवसाय आणि पशुपालन होय. या गावातील काही कुटुंबामधील लोक नोकरीसाठी पुणे आणि मुंबई या दोन शहरांमध्ये स्थाईक झाले आहेत. गावामध्ये किराणा मालाची तीन दुकाने आहेत आणि दुध डेरी दोन आहे. कोरोना महामारीच्या काळात ग्रामपंचायतीच्या मार्फत सॅनीटायजर, साबण, मास्क यांचे वाटप करण्यात आले. या महामारीच्या संदर्भात आवश्यक ती जनजागृती करण्यात आली होती.

गृहरचना:

चालेगाव हे चोहो बाजूंनी डोंगररांगाणी वेढलेले असल्या मुळे तेथे पावसाचे प्रमाण जास्त आहे. त्यामुळे गावातील घरांची रचना उतरत्या छपरांचीआहेत. थोड्याफार प्रमाणात आधुनिकतेची जोड दिसून येते काही घरे सीमेंट कॉन्क्रेटची पण आहेत.

आर्थिक जीवन:

चालेगावात परंपरागत चालत आलेला शेती व्यवसाय आहे, मुख्यपीक गहू, भात, ऊस, मका, ज्वारी हे आहेत. त्या प्रमाणे शेतीला पूरक जोड व्यवसाय म्हणून दुध व्यवसाय, पशुपालन हे व्यवसाय दिसून येतात. या गावात गोमुख संस्था कार्यरत असल्याच्या खुणा आढळून आल्या. चाले गावामध्ये किराणा 3 दुकान आहेत. गावात आठवडे बाजार भरत नाही. पौड या ठिकाणी आठवडे बाजरासाठी जावे लागते. गावातील तरुण मुलांचा नोकरीसाठी शहराकडे ओढा असलेला दिसून येतो. त्यामुळे गाव आर्थिक दृष्ट्या संपन्न असल्याचे दिसले.

गावाचा शैक्षणीक विकास:

चाले गावामध्ये लहान मुलांसाठी आंगणवाडी व आहे. जिल्हा परिषदेची प्राथमिक शाळेचे सांगणिकरण झालेले आहे. सदरची शाळा १ मे १९५६ पासून सुरु झालेली आहे. या शाळेत इयत्ता ७वी पर्यंत शिक्षण दिले जाते. व माध्यमिक व व्यवसायिक शिक्षणासाठी पौड व करमोळी या ठिकाणी जावे लागते.

धार्मिक जीवन:

चाले या गावातील धार्मिक दृष्ट्या या गावाला खूप महत्व आहे. गावात एकूण 3 मंदिर आहेत. गावात भैरवनाथ, जाखुबाई व विठ्ठल रुक्मिणीचे मंदिर, इ. मंदिरे आहेत. या गावात विठ्ठल रुक्मिणीच्या मंदिरात हरीनाम सप्ताहामध्ये भजन कीर्तन महाप्रसाद हे कार्यक्रम आयोजित केले जातात. गावामध्ये छोटे मोठे सन आनंदाणे साजरे केले जातात. या वेळेस सर्व जाती जमातीचे लोक एकत्र येतात.

राजकीय जीवन:

चालेगावाची लोकसंख्या १३१४ असून गावात ग्रामपंचायत आहे. गावतील सखाराम गेनू केदारी, व सुनिल तुकाराम केदारी हे पंचायत समितिवर सदस्य आहेत. कुसगाव हे कुस्ती क्रीडा क्षेत्रातिल नावाजलेले गावात ग्राम सेवकाचे कार्यालय आहे. ते १९७० साली स्थापन झाले आहे. गावाचे तलाठी कार्यालय पाचाने या गावी आहे. गावातील पहिले सरपंच म्हणून सखाराम गेनू केदारी हे १९७० साली पहिले सरपंच झाले. गावात मुस्लिम समाजाची १८ घरे आहेत. गावात भैरवनाथच्या

मंदिरात तंटा मुक्ती केंद्र भरते. गावामध्ये छोटे ग्रंथालय आहे. या गावामध्ये निवडणूक न होता ग्रामपंचायत सर्व सदस्य बिनविरोध निवडले गेले आहेत मुळशी तालुक्यातील हे पहिले गाव आहे.

गावाच्या एकंदरीत पहाणीवरून व काही ग्रामस्थांच्या मुलाखतींमधून असे स्पष्ट जाणवले की या गावात हिंदू समाज मोठ्या प्रमाणात आहे. सर्वसाधारण खुला वर्ग मोठ्या प्रमाणात आहेत. दहिभाते आणि खैरे या आडनावाचे लोक जास्त आहेत. त्याचबरोबर बौद्ध, मातंग, तेली, कोळी आणि वडार समाज चाले गावात आढळतो मात्र मुस्लीम समाज या गावामध्ये नाही. या गावातील प्रमुख व्यवसाय शेती आहे. भातशेती आहे त्याचबरोबर उसाचे पीक देखील घेतले जाते पण त्याचे प्रमाण अल्प आहे. काही प्रमाणात कडधान्ये देखील घेतले जातात उदा. मसूर, वाटणा आणि हरभरा इ. शेतीला पूरक असे जोड धंदे म्हणजे दुग्ध व्यवसाय आणि पशुपालन होय. या गावातील काही कुटुंबामधील लोक नोकरीसाठी पुणे आणि मुंबई या दोन शहरांमध्ये स्थाईक झाले आहेत. गावामध्ये किराणा मालाची तीन दुकाने आहेत आणि दुध डेरी दोन आहे. कोरोना महामारीच्या काळात ग्रामपंचायतीच्यामार्फत सॅनीटायजर, साबण, मास्क यांचे वाटप करण्यात आले. या महामारीच्या संदर्भात आवश्यक ती जनजागृती करण्यात आली होती.

चाले गावतील राजकीय व्यवस्था:

चाले गाव मावळ विधानसभा आणि लोकसभा मतदार संघात येते. या गावचे आमदार सुनील शेळके आहेत. तसेच बारामती लोकसभा मतदार संघाअंतर्गत हे गाव येत असल्यामुळे सध्या सुप्रियाताई सुळे या लोकसभा मतदार संघातील लोकसभा खासदार आहेत. गावामध्ये ग्रुप ग्रामपंचायत कार्यालय आहे. चाले गाव ग्रामपंचायतीची स्थापना १९५६ साली झाली. गावातील पहिले सरपंच बनण्याचा मान १९५६ साली कोंडीबा धों. दहिभाते यांना मिळाला होता. या गावामध्ये शिवसेना व राष्ट्रवादी कॉंग्रेस या दोन्ही पक्षाचे मोठ्या प्रमाणात वर्चस्व आहे. चाले या ग्रुप ग्रामपंचायतीचे सरपंच सध्या शिवसेनेचे आहेत. त्यांचे नाव श्री. गणेश नथू दहिभाते आहे. तर उपसरपंच सौ. रुपाली कैलास साठे या आहेत.

एकूण नऊ ग्रामपंचायत सदस्य आहेत त्यांची नावे पुढीलप्रमाणे

१. श्री. शरद मारुती केदारी
२. सौ. अरुणा दिगंबर केदारी
३. सौ. राजश्री शेखर जायगुडे
४. श्री. निलेश जयवंत दहिभाते
५. श्री. दीपक कचरनाथ चाळेकर
६. सौ. मंगल सुरेश साळुंखे

महिलांचे प्रमाण राजकारणात अल्प आहे. पहिली महिला सरपंच २००५ साली झाली. एकूण आत्ता पर्यंत पाच महिला सरपंच पदी निवडून आलेल्या आहेत. त्यांची नावे:-

१. सौ. मुक्ताबाई ह. दहिभाते (पहिली महिला सरपंच)

२. सौ. श्रद्धा महेश आल्हाट
३. सौ. भारती पांडुरंग जायगुडे (प्रभारी)
४. सौ. प्रियांका मनीष गायकवाड
५. सौ. रुपाली कैलास साठे (प्रभारी)

सद्या चाले ग्रुप ग्रामपंचायतच्या ग्रामसेविका सौ. राणी डी. अडसूळ या आहेत. तर तीनही गावचे पोलीस पाटील पुढीलप्रमाणे

१. चाले – श्री. ओंकार शंकर दहिभाते
२. करमोळी – श्री. महेश विलास आल्हाट
३. सावरगाव – सौ. सरोज नितीन साळुंखे

चाले गावात महाराष्ट्र राज्य ग्रामीण जीवन उन्नती अभियानांतर्गत वरिष्ठ वर्धीनींची फेरी या अंतर्गत महिलांच्या सक्षमीकरणासाठी वरिष्ठ वर्धीनी येऊन काम करतात. या अभियानाचा उद्देश गरिबी निर्मुलन, महिला सक्षमीकरण, शास्वत उपजीविका यावर प्रशिक्षण देणे हा आहे. या अभियानांतर्गत गावातील बचत गटांना एकत्रित करून त्यांचा ग्रामसंघ बांधून त्यांना पाच दिवसाचे प्रशिक्षण वरिष्ठ वर्धिनींकडून दिले जाते. हे अभियान प्रामुख्याने महिलांसाठी आहे.

शैक्षणिक परिस्थिती:

शैक्षणिकदृष्ट्या गाव मागास असल्याचे निदर्शनास आले कारण गावामध्ये एक अंगणवाडी आणि एकच जिल्हा परिषद प्राथमिक शाळा आहे अंगणवाडी मध्ये एकूण २९ विद्यार्थी आहेत. प्राथमिक शाळेत १ ली ते ७ वी मध्ये एकूण ७५ विद्यार्थी आहे. त्यामध्ये मुलगे ३९ आहेत आणि मुली ३५ आहेत. ७५ विद्यार्थ्यांमागे ४ शिक्षक आहेत. माध्यमिक शाळा मात्र गावामध्ये नाही त्यासाठी पौड या गावी जावे लागते. सावरगाव या ठिकाणी आयटीआयचे आपल्याच पुणे जिल्हा शिक्षण मंडळाचे महाविद्यालय आहे.

निष्कर्ष:

- सदर गाव हे डोंगरामध्ये वसलेले असल्या मुळे गावाचा फारसा विकास झालेला नाही.
- गाव हमरस्त्यावर असल्याने अत्याधुनिक सुविधा थोड्या प्रमाणात विकसीत होत आहे.
- स्त्रियांच्या सामाजिक स्थितितील सुधारणा होण्याची गरज आहे.
- गावातील तरुणांचा खूप मोठ्या प्रमाणावर शहराकडे ओढा आह. तो थांबबून गावाचा विकास होण्याची गरज आहे.
- सदर गाव डोंगराच्या कुशीत वसलेले असल्याने गावातील लोक खूप जिद्दी व कष्टाळू आहे.
- सदर गावात भात शेती मोठ्या प्रमाणावर आहे भात भरडण्याच्या३ गिरण्या आहेत.

उपाय योजना:

१.या भागात पावसाचे प्रमाण जास्त असल्यामुळे पाणी आडवा पाणी जिरवा ही योजना राबवण्याची गरज आहे.

२.गावाचा औद्योगिक विकास होण्याची गरज आहे.

३.गावात रोजगाराच्या संधी उपलब्ध केल्या पाहिजे.

४.सदर गावाला लाभलेल्या निसर्गाचा पर्यटनासाठी केला पाहिजे.

५. गावात आठवडा बाजार भरवण्याची गरज आहे.

६. गावातील ऐतिहासिक विरगळ जतन करण्याची गरज आहे.

CHAPTER-3

चाले गावचे भाषिक सर्व्हेक्षण

डॉ. सुवर्णा खोडदे, डॉ. विजय बालघरे
मराठी विभाग

प्रास्ताविक:

महाराष्ट्रात पुणे जिल्ह्यातील मुळशी तालुक्यापासून जवळच निसर्ग सौंदर्याने नटलेले व चहुबाजूने सह्याद्रीच्या पर्वतरांगा मध्ये वसलेले चाले हे छोटेसे गाव आहे. या गावात दहिभाते, केदारी, जायगुडे, कोळी, वाघिरे, कुडले, गायकवाड, कुंभार, जाधव, सुतार, साठे आडनावाच्या लोकांची वसाहत आहे. या गावातील प्रमुख व्यवसाय शेती असल्यामुळे वृद्ध व्यक्ती शेतामध्ये काम करताना दिसतात. या गावातील लोकांचे राहणीमान साधे असून या गावातील लोकांचा स्वभाव मायाळू व दुसऱ्याला मदत करणारा आहे. असे गावाचे संशोधन करताना दिसून आले. या परिसरात सर्व जाती धर्माचे लोक गुण्यागोविंदाने व सलोख्याने राहतात. गावामध्ये एकत्र कुटुंब पद्धती अस्तित्वात असून सामाजिक ऐक्य व एकोपा दिसून येतो. गावातील तरुण मंडळी रोजगाराच्या निमित्ताने शहराकडे स्थलांतरीत झाले आहेत. घराची रचना ही एकासारखी नसून वैविध्यपूर्ण आहे. चाले हे गाव पुणे शहरापासून जवळ असल्यामुळे शहरीकरण वाढले आहे. त्यामुळे पुण्याचा विस्तार गावापर्यत झाला आहे. या गावातील महिलांच्या व पुरुषांच्या पोषाखामध्ये नागरी संस्कृतीचा प्रभाव दिसतो. सह्याद्रीच्या पर्वत रांगामध्ये हा परिसर वसलेला असल्यामुळे या परिसरात पावसाचे प्रमाण जास्त आहे. त्यामुळे गावातील प्रमुख पिक भात (तांदूळ) शेती आहे. या परिसरातून वाहणाऱ्या मुळा नदीवर मुळशी हे धरण बांधले असून वर्षभर या नदीला पाणी असते. चाले हे गाव मुळा नदीच्या तीरावर वसलेले असल्याने वर्षभर पाणी मुबलक प्रमाणात उपलब्ध होते. याचा फायदा शेतकरी वर्गाला होतो. त्यामुळे उस शेती व भाजीपाला येथे पिकविला जातो. या गावात प्रामुख्याने मुळा, मेथी, कांदे, पावटा, वांगी, इ. पिके घेतली जातात. या गावाला बाजारपेठचे ठिकाण पौडगाव जवळ आहे, तसेच पुणे येथील बाजार पेठेत शेतमाल विक्रीसाठी पाठवला जातो. शेती बरोबरच दुग्ध व्यवसाय गावामध्ये जोडव्यवसाय म्हणून केला जातो. अलीकडच्या काळात कुक्कुटपालन हा व्यवसाय या भागात विकसित होत आहे. गावात चौथी पर्यंत मराठी माध्यमाची जिल्हा परिषद प्राथमिक शाळा आहे. मुलांना पुढील शिक्षणासाठी पौड, पिरंगुट अथवा पुणे शहरात जावे लागते. शहरी भागात शिक्षण घेतलेले तरुण- तरुणी रोजगारसाठी शहरात स्थिर होतात. तर जे अल्प भूधारक आहेत ते शहरात अकुशल कामात गुंतलेले दिसतात. त्यामुळे गावात वयोवृद्ध माणसे अधिक असून जवळ पिरंगुट येथे औद्योगिक वसाहत

असल्याने स्थलांतरीत लोकांचे प्रमाण अधिक असल्याने त्याचा गावातील भाषेवर प्रभाव दिसून येतो. शहरीकरणाच्या प्रभावाने गावाची लोकसंस्कृती, लोकगीते, लोककथा, सणउत्सवाची गाणी हळू हळू लुप्त होत चालली आहेत.

उद्दिष्टे

१) गावातील लोकसंस्कृती, लोकभाषा आणि लोकसमजूतीचा अभ्यास करणे.

२) लोकजीवनात होणारे परिवर्तन तपासून पाहणे.

३) प्रसारमाध्यमामुळे बोली भाषेवर पडलेला प्रभाव अभ्यासणे.

अभ्यास पद्धती:

सदर गावाचा भाषिक व लोकवाङ्मयीन अभ्यास करताना मुलाखती, चर्चा आणि निरीक्षण व प्रश्नावली या पद्धतीचा वापर केला आहे. गावातील ग्रामस्थांकडून २० प्रश्नांची प्रश्नावली विविध विषयांच्या अनुशंगाने भरून घेण्यात आली. सदर अभ्यास महाविद्यालयातील कु. साहिल कांबळे, शुभम साठे, हर्षदा कडूसकर या विद्यार्थ्यानी प्रत्यक्ष भेटी व्दारे केला आहे .

गावातील धार्मिक व सांस्कृतिक जीवन :

चाले या गावात विविध जाती धर्माचे लोक समूह भावनेने एकत्र राहतात. स्थानिक स्वराज्य संस्था मध्ये चाले, करमोळी व सावरगाव अशी गावाची ग्रुप ग्रामपंचायत आहे. हे गाव पौड कोळवण मुख्य रस्त्या लगत आहे. या गावाचे श्री जाखोबाई देवी मंदिर हे गावचे ग्राम दैवत असून गावात त्याचे शेजारीच मंदिर आहे, या शिवाय गावात गणपती, मारुती, शंकर, विठ्ठल- रुक्मिणी मंदिर, श्री जाखोबाई देवीमंदिर असून या दैवतांची यांची पूजा लोक मनोभावे करतात. गावात कार्तिकी एकादशीला आणि मृत्युनतर तेराव्याला भजन होते. श्रीजोखाबाई ग्रामदैवत आहे. या गरम दैवताच उत्सव जानेवारी महिन्यात असतो. तर गावचा उरुस फेब्रुवारी महिन्यात साजरा केला जातो. . या शिवाय पारंपरिक खेळ, फुगड्या, फेर, इ. माध्यमातून गावातील स्त्रिया उत्सवाच्या निमित्ताने श्रम परिहार करताना आढळतात. गावात माळी, मराठा, कोळी, गुरव, बौद्ध, इ जाती धर्माचे लोक सर्व

धर्मीयांचे सण उत्सव मोठ्या उत्साहात साजरे करतात. तसेच एकमेकांच्या सुख दु:खात सहभागी होतात.

करमणूकीची साधने :

आधुनिक काळात गावातील करमणूकीची साधने बदलली आहेत. पारंपारिक साधनाबरोबरच टीव्ही, मोबाईल, या माध्यमाचा करमणूकीसाठी वापर करतात. पारंपरिक सणाच्या निमित्तने नागपंचमी, दसरा, दिवाळी , लग्नविधी, हळदी समारंभ आदि प्रसंगी स्त्रिया पारंपारिक उत्सवाची गाणी व लोकगीते म्हणताना आढळतात.

गावाचा भाषिक अभ्यास :

चाले गावात मराठी ही प्रमुख भाषा असून बहुतेक लोकांची ती बोली भाषा व मातृभाषा आहे. हिंदी सिनेमाच्या प्रभावाने हिंदी भाषा लोकांना अवगत आहे. गावाचा प्रमुख व्यवसाय शेती असल्याने शेती व्यवहाराशी निगडित शब्दप्रयोग लोकांच्या भाषेमध्ये मोठ्या प्रमाणात वापरले जातात. उदा. आंबवणे चिंबवणे, वाफे, सारा, पेरणी, पाभार, मोघणे इ. शब्द वापरले जातात. अलीकडच्या काळात नागरीकरणामुळे गावात रोजगाराच्या संधी वाढल्या असून शेतीकडे लोकांचे दुर्लक्ष होत आहे. त्यामुळे पारंपरिक अवजारे जाऊन त्याऐवजी ट्रॅक्टर व इतर तत्सम साधने शेतीसाठी वापरली जातात. त्यामुळे अत्याधुनिक शब्दाचा वापर सर्रास होताना दिसतो. परिणामी शेतीशी संबंधित अनेक शब्द लुप्त पावत चालले आहेत. उदा. गंजी(पेढ्याचा माच), कडबा, आंबवण. साळी, औत, इ. त्याच बरोबर सरपण, माळ लावणे, पैसा लावणे, बाज, वरवंटा, सरपण, विस्तव, इ. शब्द प्रयोग ही लोप पावत चालले आहेत.

स्त्रियांची स्थिती :

गावात पुरुषसत्ताक कुटुंबपद्धती असली तरी कुटुंबातील स्त्रियांना देखील अलीकडे महत्त्व प्राप्त झाले आहे. गावातील बहुतेक स्त्रिया शिकल्या असून त्या गृहिणी बरोबर ग्रामपंचायत सदस्य, शिक्षक, डॉक्टर, वकील, या पदावर कार्यरत आहेत. या शिवाय काही महिला औद्योगीकिकरणामुळे कारखान्यात कामगार म्हणून कार्यरत आहेत.

लोकगीते :

गावात वैशिष्टयपूर्ण व पारंपरिक ढंगाची लोकगीते अजुनही जुन्या जाणत्या स्त्रियांना मुखोद्गत आहेत. याचा सर्व्हेदरम्यान प्रत्यय आला. त्यांच्या नंतर मात्र ही लोकगीते लोप तर पावणार नाहीत ना ? असा प्रश्न पडतो. म्हणूनच त्यांचे जतन व संवर्धन करणे गरजेचे वाटते.

हळदीचे गाणे

बाळ ग याला माझ्या नवऱ्या हळद लागयली

जात्यान ईस्वर तीळ तादळाचा घाना

आता ग माझा बाळ नवरा मोतियाचा दाणा

जात्यान ईश्वर तुला तीळ तांदळाचा घास

आता ग माझ बाळ नवरा मोतियाचा घोस

मांडवाच्या दारी हळदी बाईच वाळवण माझ्या बाई ची वाळवण

आता मग माझ्या बाळ नवरा बाळाच तेलवण

लेक जाती सासरला चुलती म्हणती जाग बाई

माडवाच्या दरी हळदी कुंकवाचा पाट गेला.

तिची ग मावयली पदराला डोळा लावी, डोळ्याला पदर लावी

मांडवाच्या दरी हंड्या भांडयाच्या चवडी

हौऊसाईचा मामा बाळ घंगाळ निवडी

नवरीइचा बाप देय घेया झाला वाणी

वय सगळी घालतानि डोळ्या आल पाणी

नवरीचा बाप मांडी घालून बसला

हुंडा ग मोजताना बाप कंबरी कसला

मौखिक परंपरेने चालत लग्नातील गावयाची गाणी त्या निर्मितीमागे असलेल्या संस्कारित मनाचे प्रतिबिंब ओवीगीतामध्ये दिसून येतात. लोकसाहित्य म्हणजे पारंपरिक लोकजीवन पद्धती,

लोक माणसाची अभिव्यक्ती, लोकश्रध्दा, लोकसमजुती, लोकभ्रम, लोकरूढी, लोकविधी,परंपरेने चालत आलेल्या प्रथा , आचार , विचार , तसेच लोककला आणि मौखिक रूपातील शब्द इत्यादी बाबींचा समावेश लोकसाहित्यात येत असल्याने, लोकसाहित्य लोकजीवनाला व्यापले असेच म्हणता येईल. मौखिक रुपातील शब्द अविष्कारात लोककथा, लोकगीते, लोककला, उखाणे, म्हणी यांचा समावेश होतो.

मांडवाच्या दारी चौघडा

हातात भरला हिरवा चुडा

पायात सजला चांदीचा तोडा

झाला साखर पुडा

नारळ आता फोडां

वरातीला आणा हिरवा रंगी घोडा

..... रावच्या आणि माझा राम सीतेचा जोड ‘’

अशा प्रकारे लोकसाहित्यातील उखाणे, गोलनी उत्सवाची गाणी, हळदीची गाणी, जात्यावरची गाणी ऐकण्याची संधी या भेटी दरम्यान मिळाली.वरील गीतातून सासरी जाणाऱ्या मुलीचे वर्णन केले आहे.

जात्यावरील ओव्या

आरव्या ग वनामध्ये , कोण रडत आहे आईका

कोण रडत आईका, कोण रडत आईका

बोरी बाभळी बायका, बोरी बाभळी बायका

सीतेला ग समजावया,बोरी बाभळी बायका

आज शिक्षण, प्रसारमाध्यमे , जागतिकीकरण वैज्ञानिक शोध व वाढता विकास यामुळे अनेक नागरी आणि पाश्चात्य संस्कृतीचा प्रभाव चाले गावाच्या बोलीवर पडलेला असला तरी, त्यांच्या लोकगीतातून, म्हणी, उखाणा, पोशाख, खानपान, सण-उत्सव , चालीरीती, रूढी , व्यवसाय आणि बोलीभाषेतून लोकसंस्कृतीचा झरा अजूनही वाहताना दिसत आहे.

भाषेतील बदल सहज लोकांनी स्वीकारले. न्याहारी ऐवजी नास्ता, स्वच्छतागृहा ऐवजी टॉयलेट, पंजाबी, सूट, पेस्ट, परकर, गाऊन, कंडक्टर, ब्लाउज, बिस्किट, कार, बस, तिकीट, चेक,

पेमेंट, सिलेंडर, कुलर, टेबल असे कितीतरी शब्दांचा वापर सर्रास ग्रामीण बोलीमधून पहावयास मिळते.

मुळशी तालुक्यातील बोलीभाषेवर प्रसारमाध्यमाचा फार मोठा प्रभाव दिसतो. इंग्रजी, हिंदी मराठी या भाषांचा प्रभाव पुढील प्रमाणे दिसतो. उदा. star प्रवाह, माझा वाहिनी, व्हील, स्मार्त सुनबाई, डॉक्टर, क्लोजप, नॉनमॉटरीक सुपर डान्सर, Breaking News, Ok, Yes, रेडिओ, मोबाईल, कॉम्प्यूटर, सीरिअल, sms, message, delete, contacts, image, menu, inbox, sent, recharge, sound, clops या सारख्या कितीतरी शब्दांचा समावेश चाले गावच्या बोली भाषेत झाल्याचे निदर्शनास आले. आज खेड्यापाड्यात सुद्धा वर्तमानपत्रापेक्षा आकाशवाणी आणि दूरदर्शन, मोबाईल या प्रसारमाध्यमांचा जास्त प्रभाव दिसतो. कारण दूरदर्शनच्या माध्यमातून लोककलावंत व अभिजन कलावंत, शहरीभाषा, ग्रामीण भाषा, परप्रांतीय भाषा, पाश्चात्य भाषा. विविध बोलीभाषांचा प्रभाव चाले परिसरातील बोलीभाषेवर पडलेला दिसतो.

निष्कर्ष:

- बोली भाषेतील काही शब्द लुप्त होत आहेत.
- लोककथा, लोकगीते, लोककला आणि म्हणी हे लोकवाङ्मय यामध्ये परिवर्तन झालेले दिसले.
- गावात रोजगार उपलब्ध नसल्यामुळे तरुणांचा शहरी भागाकडे ओढ असल्यामुळे ग्रामसंस्कृती व कृषीसंस्कृती नाहीशी होत आहे.
- या गावात सरकारी योजना असल्यामुळे स्वच्छतागृह, रस्ता, आरोग्य केंद्र, शाळा यांची समस्या जाणवली नाही .
- या गावातील शेतकरी महिला एकमेकांच्या शेतावर एकोप्याने व आनंदाने एकमेकांना मदत करतात.
- ग्रामीण भागातील माणुसकी अजून जिवंत आहे.

CHAPTER-4

चाले गावच्या राजकीय आणि सामाजिक स्थितीचा अभ्यास.

प्रा. किर्ति करंजावणे, प्रा. प्राजक्ता कुंभार
राज्यशास्त्र विभाग

शैक्षणिक वर्षे २०२१-२२ मधील राष्ट्रीय सेवा योजनेचे हिवाळी शिबीर २६ डिसेंबर २०२२ ते १ जानेवारी २०२३ या कालावधी मध्ये मुळशी येथील चाले या गावी घेण्यात आला. चाले या गावचे राजकीय सर्वेक्षण करण्यात आले त्याचा अहवाल.

ध्येय:- चाले या गावची राजकीय व सामाजिक स्थिती अभ्यासणे.

उद्दिष्टे :-

१. चाले गावातील नागरिकांच्या राजकीय सहभागाचा अभ्यास करणे.
२. चाले गावचा सामाजिक विकास अभ्यासणे.
३. चाले गावातील नागरिकांची राजकीय जडणघडण तपासणे.
४. ग्रामपंचायतीची विकास कामे अभ्यासणे.

गृहीतके :-

१. चाले गावातील नागरिक राजकीयदृष्ट्या जागरूक आहे.
२. चाले गावच्या विकासात राजकीय नेतृत्वाचा सहभाग आहे.
३. चाले गावच्या राजकारणात महिलांचा सक्रीय सहभाग आहे.
४. चाले गावचा सामाजिक विकास शासकीय योजनांच्या अवलंबनाने झाला आहे.

अभ्यास/संशोधन पद्धती :-

चाले गावचा राजकीय व सामाजिक अभ्यास हा केसस्टडी पद्धतीने केला आहे. ग्रामस्थांच्या मुलाखती घेऊन राजकीय स्थितीचा अभ्यास केलेला आहे. प्राथमिक व दुय्यम साधनांद्वारे अभ्यास केलेला आहे.

प्रस्तावना :-

चाले गाव मुळशी तालुक्यातील एक गाव आहे. चाले गावची एकूण जमीन ४४७.९५ हेक्टर एवढी आहे. या चाले,सावरगाव आणि करमोळी या तीन गावांची मिळून ग्रुप ग्रामपंचायत चाले या गावी आहे. ही तीनही गावांची एकूण जमीन ९७८.९७ हेक्टर एवढी आहे. या तीनही गावांची लोकसंख्या ही २०११ च्या जनगणनेनुसार पुढीलप्रमाणे आहे.

१. चाले :- ८३७
२. सावरगाव :- ८८४
३. करमोळी :- ४३९

सामाजिक स्थिती :-

गावाच्या एकंदरीत पहाणीवरून व काही ग्रामस्थांच्या मुलाखतींमधून असे स्पष्ट जाणवले की या गावात हिंदू समाज मोठ्या प्रमाणात आहे. सर्वसाधारण खुला वर्ग मोठ्या प्रमाणात आहेत. दहिभाते आणि खैरे या आडनावाचे लोक जास्त आहेत. त्याचबरोबर बौद्ध, मातंग, तेली, कोळी आणि वडार समाज चाले गावात आढळतो मात्र मुस्लीम समाज या गावामध्ये नाही. या गावातील प्रमुख व्यवसाय शेती आहे. भातशेती आहे त्याचबरोबर उसाचे पीक देखील घेतले जाते पण त्याचे प्रमाण अल्प आहे. काही प्रमाणात कडधान्ये देखील घेतले जातात उदा. मसूर, वाटणा आणि हरभरा इ. शेतीला पूरक असे जोड धंदे म्हणजे दुग्ध व्यवसाय आणि पशुपालन होय. या गावातील काही कुटुंबामधील लोक नोकरीसाठी पुणे आणि मुंबई या दोन शहरांमध्ये स्थाईक झाले आहेत.गावामध्ये किराणा मालाची तीन दुकाने आहेत आणि दुध डेरी दोन आहे. कोरोना महामारीच्या काळात ग्रामपंचायतीच्यामार्फत सॅनीटायजर, साबण, मास्क यांचे वाटप करण्यात आले. या महामारीच्या संदर्भात आवश्यक ती जनजागृती करण्यात आली होती.

शैक्षणिक परिस्थिती :-

शैक्षणिकदृष्ट्या गाव मागास असल्याचे निदर्शनास आले कारण गावामध्ये एक अंगणवाडी आणि एकच जिल्हा परिषद प्राथमिक शाळा आहे अंगणवाडी मध्ये एकूण २९ विद्यार्थी आहेत. २९ पैकी ६ मुली आहेत तर २३ मुलगे आहेत . ३ ते ४, ४ ते ५ आणि ५ ते ६ असा वयोगट केला जातो व अंगणवाडीचे वर्ग घेतले जातात.प्राथमिक शाळेत १ ली ते ७ वी मध्ये एकूण ७५ विद्यार्थी आहे. त्यामध्ये मुलगे ३९ आहेत आणि मुली ३५ आहेत. ७५ विद्यार्थ्यांमागे ४ शिक्षक आहेत. माध्यमिक शाळा मात्र गावामध्ये नाही त्यासाठी पौड या गावी जावे लागते. सावरगाव या ठिकाणी आयटीआयचे आपल्याच पुणे जिल्हा शिक्षण मंडळाचे महाविद्यालय आहे.

राजकीय अभ्यास:-

चाले गाव मावळ विधानसभा आणि लोकसभा मतदार संघात येते. या गावचे आमदार सुनील शेळके आहेत. तसेच बारामती लोकसभा मतदार संघाअंतर्गत हे गाव येत असल्यामुळे सध्या सुप्रियाताई सुळे या लोकसभा मतदार संघातील लोकसभा खासदार आहेत. गावामध्ये ग्रुप ग्रामपंचायत कार्यालय आहे. चाले गाव ग्रामपंचायतीची स्थापना १९५६ साली झाली. गावातील पहिले सरपंच बनण्याचा मान १९५६ साली कोंडीबा धों. दहिभाते यांना मिळाला होता. या गावामध्ये शिवसेना व राष्ट्रवादी कॉंग्रेस या दोन्ही पक्षाचे मोठ्या प्रमाणात वर्चस्व आहे. चाले या ग्रुप ग्रामपंचायतीचे सरपंच सध्या शिवसेनेचे आहेत. त्यांचे नाव श्री. गणेश नथू दहिभाते आहे. तर उपसरपंच सौ. रुपाली कैलास साठे या आहेत.

एकूण नऊ ग्रामपंचायत सदस्य आहेत त्यांची नावे पुढीलप्रमाणे

१. श्री. शरद मारुती केदारी
२. सौ. अरुणा दिगंबर केदारी
३. सौ. राजश्री शेखर जायगुडे
४. श्री. निलेश जयवंत दहिभाते
५. श्री. दीपक कचरनाथ चाळेकर
६. सौ. मंगल सुरेश साळुंखे

महिलांचे प्रमाण राजकारणात अल्प आहे. पहिली महिला सरपंच २००५ साली झाली. एकूण आत्ता पर्यंत पाच महिला सरपंच पदी निवडून आलेल्या आहेत. त्यांची नावे:-

१. सौ. मुक्ताबाई ह. दहिभाते (पहिली महिला सरपंच)
२. सौ. श्रद्धा महेश आल्हाट
३. सौ. भारती पांडुरंग जायगुडे (प्रभारी)
४. सौ. प्रियांका मनीष गायकवाड
५. सौ. रुपाली कैलास साठे (प्रभारी)

सद्या चाले ग्रुप ग्रामपंचायतच्या ग्रामसेविका सौ. राणी डी. अडसूळ या आहेत. तर तीनही गावचे पोलीस पाटील पुढीलप्रमाणे

१. चाले – श्री. ओंकार शंकर दहिभाते
२. करमोळी – श्री. महेश विलास आल्हाट
३. सावरगाव – सौ. सरोज नितीन साळुंखे

चाले गावात महाराष्ट्र राज्य ग्रामीण जीवन उन्नती अभियानांतर्गत वरिष्ठ वर्धीनींची फेरी या अंतर्गत महिलांच्या सक्षमीकरणासाठी वरिष्ठ वर्धीनी येऊन काम करतात. या अभियानाचा उद्देश गरिबी निर्मुलन, महिला सक्षमीकरण, शास्वत उपजीविका यावर प्रशिक्षण देणे हा आहे. या अभियानांतर्गत गावातील बचत गटांना एकत्रित करून त्यांचा ग्रामसंघ बांधून त्यांना पाच दिवसाचे प्रशिक्षण वरिष्ठ वर्धिनींकडून दिले जाते.हे अभियान प्रामुख्याने महिलांसाठी आहे.

चाले विकास:-

१९५६ साली स्थापन झालेल्या ग्रामपंचायती मार्फत गावामध्ये आज पर्यंत अनेक विकास कामे झाली आहे. ती पुढीलप्रमाणे.

१. स्वजलधारा योजनेअंतर्गत विहिरीचे काम झाले आहे तरीही पाण्याचा प्रश्न गंभीर आहे.

२. गावात इयत्ता १ली ते ७ वी पर्यंत शिक्षणाची सोय आहे. म्हणजेच प्राथमिक शिक्षणाची सोय आहे.
३. विद्यार्थ्यांसाठी पोषक आहार योजना राबविली जाते.
४. गावात विविध आरोग्य शिबिरे घेतले जातात.
५. महाराष्ट्र राज्य ग्रामीण जीवन उन्नती अभियानांतर्गत वरिष्ठ वर्धीनींची फेरी या अंतर्गत महिलांच्या सक्षमीकरणासाठी काम केले जाते.

निष्कर्ष:-

१. खुल्या गटातील नागरिकांचे विशेषतः मराठा समाज मोठ्या प्रमाणात गावात आहे.
२. OBC, ST आणि SC प्रवर्गातील समाज गावामध्ये आहे.
३. राजकीय प्रक्रियेमध्ये महिलांचा सहभाग आहे.
४. महिलांनी सरपंच हे प्रमुख पद भूषविलेले आहे.
५. विविध शासकीय योजनांद्वारे विकासाची काहीप्रमाणात कामे झालेली आहेत पण प्रमुख समस्या मात्र अजूनही सुटलेल्या नाहीत, पाणी प्रश्नखूप मोठ्या प्रमाणावर आहे चार चार दिवस पाणी येत नाही, रस्ते दुरुस्ती, सरकारी दळणवळण साधनांचा अभाव, स्मशानभूमी दुरुस्ती

निरीक्षण:-

१. गावामध्ये शिवसेना आणि राष्ट्रवादी कॉंग्रेस पक्षाचा प्रभाव आणि वर्चस्व आहे.
२. ग्रामपंचायत असूनही पाणी, रस्ते, दळणवळण, स्मशानभूमी बाबतचे प्रश्न आजही अनुत्तीर्ण आहेत.
३. शासनाच्या योजनांमुळे गावाचा काहीप्रमाणात विकास झालेला आहे.
४. गावात फक्त प्राथमिक शिक्षणाची सोय आहे. माध्यमिक व उच्च शिक्षणासाठी गावाच्या बाहेर जावे लागते.
५. डिजिटल इंडिया या संकल्पनेनुसार ग्रामपंचायतीमध्ये संगणक, इंटरनेट सुविधा आहेत त्याचा वापर केला जातो.

सूचना:-

१. सर्वात महत्वाचे माध्यमिक व उच्च शिक्षणाची सोय गावासाठी आवश्यक आहे.
२. गावामध्ये जाण्यासाठी जो रस्ता आहे तो अतिशय खराब आहे त्यामुळे रस्त्याची सोय करणे आवश्यक आहे.
३. जीवनासाठी आवश्यक अशा पाण्याचा प्रश्न सुटणे आवश्यक आहे.

CHAPTER-5

चाले गावचे आर्थिक सर्व्हेक्षण

प्रा संतोष सास्तुरकर
अर्थशास्त्र विभाग

Best Village Practice अंतर्गत अर्थशास्त्र विभागाच्या वतीने गाव: चाले तालुका: मुळशी, जिल्हा पुणे या ठिकाणी आर्थिक सर्वे करून गावातील आर्थिक परिस्थिती अभ्यासत असताना महात्मा गांधीजींच्या विचाराप्रमाणे खऱ्या अर्थाने ग्रामीण भागाची आर्थिक उन्नती घडून आली, तरच राष्ट्रीय उन्नती होऊन सक्षम भारत होण्यास फार काळ लागणार नाही यासाठी ग्रामीण भागातील शेतकरी, शेती व्यवसाया बरोबर जोड व्यवसाय करत असेल तरच उत्पन्न वाढीचा वेग उत्तरोत्तर वाढत जाईल म्हणून हा सर्वे भविष्यकाळात चाले येथील गावकऱ्यांना तसेच शेतकऱ्यांना मार्गदर्शक ठरेल.

सर्वेक्षणाची उद्दिष्टे:

1) चाले गावातील शेतकऱ्यांची आर्थिक स्थिती उंचावण्यासाठी प्रयत्न करणे.
2) शेती व्यवसायाबरोबरच मोठ्या प्रमाणात जोड व्यवसाय कसा करता येईल या संदर्भात मार्गदर्शन करणे.

चाले गावाची आर्थिक आणि सामाजिक स्थिती:

नियमित शेती व्यवसायाप्रमाणे लोक उपजीविका करताना दिसून आले फक्त शेती करणारे 74 शेतकरी होते तसेच गावामध्ये बहुतांशी शेतकरी, शेती व्यवसायाबरोबरच जोड व्यवसाय करतानाही दिसून आले अशा शेतकऱ्यांची संख्या 117 होती. यामुळे शेतकरी हा आपल्या मर्यादित धारण क्षेत्रांमध्ये जास्तीत जास्त उत्पन्न वाढीसाठी प्रयत्न करत आहे त्यामुळे शेती व्यवसायाला आधुनिक तंत्रज्ञानाची जोड प्राप्त झाल्याचे दिसून आले.

शेती व्यवसायाला शासकीय मदत:

आधुनिक तंत्रज्ञानाच्या साह्याने शेती करत असताना यांत्रिक शेती विकसित झाली यामध्ये पारंपरिक शेती ऐवजी व्यापारी शेतीकडे शेतकरी वळले. यासाठी मर्यादित भांडवलाच्या साह्याने शेती करताना सरकारची भूमिका आणि मदत पीक हमी योजना, योग्य बाजार भाव योजना, अवर्षण प्रवण मदत, अति अतिवृष्टी मदत अशा वेगवेगळ्या योजनेच्या साह्याने मदत प्राप्त होताना दिसून आले त्यांच्या मते जेवढ्या अधिक सुविधा आणि आधार शासन उपलब्ध करून देईल तेवढ्या अधिक प्रमाणात शेतकरीसुद्धा या योजनेचा लाभ घेताना दिसून येईल, अशा पद्धतीचे काही शेतकऱ्यांनी आपले मत सर्वेक्षण करताना मुलाखतीमध्ये व्यक्त केले.

शेती व्यवसायाचे व्यापारीकरण:

चाले गावातील शेतकरी पारंपरिक शेती करत असताना आधुनिक शेती व्यवसायाकडे वाटचाल करत असताना ऊस, कापूस, भात शेती, वेगवेगळ्या प्रकारची फुले, अशा व्यवसायाकडे वळले आहेत त्यामुळे त्यांच्या वस्तूंना अतिरिक्त बाजार भाव मिळून त्यांची आर्थिक उन्नती होताना दिसून आले. तसेच त्यांना माती परीक्षण करून घेण्यासाठी मार्गदर्शन केले आणि रासायनिक खतांचा अतिरिक्त वापर पिकांना किती हानिकारक आहे त्यामुळे

जमिनीची सुपीकता दिवसेंदिवस कमी होत चाललेले आहे याचेही मार्गदर्शन केले त्यामुळे शेतकरी जैविक आणि सेंद्रिय लागवडीचा विकास करण्यासाठी तयार झाल्याचे दिसून आले.

बँक खातेधारक शेतकरी:
शेतकऱ्यांचा अभ्यास करत असताना 92 टक्के शेतकऱ्यांकडे बँक खाती होती. उर्वरित 8% शेतकऱ्यांचे बँकेमध्ये खाते नव्हते तसेच त्यामुळे त्यांना कोणत्याही पद्धतीचा आर्थिक लाभ घेता आला नाही हे आर्थिक सर्वेक्षणाच्या साह्याने तूट दिसून आले.

अत्यावश्यक कागदपत्राचा अभाव:
शासकीय योजनेचा लाभ घेण्यासाठी आधार कार्ड, पॅन कार्ड,बँक खाते, रेशन कार्ड,रहिवासी दाखला इत्यादी. वेगवेगळ्या कागदपत्रांची आवश्यकता असते यातील 2 टक्के शेतकऱ्यांकडे वरील पैकी एखादा कागदपत्राचा अभाव असल्याचे दिसून आले.

सर्वेक्षणामुळे फलश्रुती:
चाले या गावामध्ये आर्थिक सर्वे केल्यामुळे लोकांची शेतकऱ्यांची मजूर वर्गाची अभ्यास करता आला त्यामुळे त्यांच्या स्तरांमध्ये कशा पद्धतीने उत्पन्न वाढवता येईल याचे मार्गदर्शन करण्यात आले शेतकऱ्यांना जोडव्यवसाय किती महत्वाचा आहे याचे महत्त्व पटवून दिले त्यामुळे खरा विकसित भारत ग्रामीण भागातच असल्याचे सिद्ध होत असल्याचे पहावयास मिळाले.

प्रत्यक्ष सर्वेक्षणामध्ये **प्रा संतोष सास्तुरकर** यांनी संतोषी भालेराव , ऐश्वर्या वाघमारे, खवले साक्षी आणि अंधारे स्वप्नील या विद्यार्थ्यांच्या सहाय्याने प्रत्यक्ष शेतकरी आणि गावकऱ्यांकडून प्रश्नावली च्या साह्याने सर्वेक्षण पूर्ण केले. सदर सर्वेक्षण करण्यासाठी प्रश्नावली तयार करताना अर्थशास्त्र विभाग प्रमुख डॉ. एस एन माने, डॉ क्रांती बोरावके प्रा विक्रमादित्य मालतूमकर, डॉ दीपाली चिंचवडे, डॉ. रोहिणी येवले, प्रा.निशिगंधा देशमुख यांचे सहकार्य लाभले.

CHAPTER-6

चाले गावातील पर्यटनाच्या संधी

प्रा. सद्दामहुसेन घाटवाले
ट्रॅवल अँड टुरिझम विभाग

वैविध्यपूर्ण निसर्गाच्या सानिध्यात वसलेल्या मुळशी तालुक्यातील मौजे चाले गावामध्ये व्यावसायिक अभ्यासक्रम अंतर्गत चालणाऱ्या ट्रॅवल अँड टुरिझम विभागामार्फत चाले गावाला लाभलेल्या समृद्ध ऐतिहासिक व नैसर्गिक वारश्याने भविष्यामध्ये शाश्वत पर्यटन कसे विकसित करता येईल याबाबत सर्वेक्षण केले. सदर ग्राम सर्वेक्षणासाठी गावामध्ये पोहोचल्यानंतर सर्वात अगोदर दगडावर कोरिप काम केलेले शिल्प दिसतात ज्यांना इतिहासाच्या भाषेमध्ये वीरगळ असे म्हणतात.

वरील चित्रामध्ये चाले गावामध्ये आढळणाऱ्या या महत्वाच्या वीरगळी आहेत.

जागतिक स्तरावर झालेल्या जागतिकीकरण, खाजगीकरण व उदारीकरण यामुळे पारंपारिक सामाजिक जीवनाची संकल्पना बदलत आहे. विशेषतः सामाजिक ऐक्य व संस्कृती टिकवण्यासाठी ग्रामीण भागाचे महत्त्वाचे

योगदान असुन आज शहरी भागांमध्ये कृत्रिम पद्धतीने ग्रामीण जीवनाच्या अनुभूतीचा देखावा सादर केला जात आहे. त्यामुळे ग्रामीण व कृषी पर्यटनाद्वारे समाज, संस्कृती, साहित्य, लोककला समजून घेण्यासाठी कृषि व ग्रामीण पर्यटन संकल्पना विषाद केली. विशेषत कोविड - १९ काळामध्ये आंतरराष्ट्रीय पर्यटन क्षेत्राला मोठ्या प्रमाणात फटका बसलेला असताना देशांतर्गत पर्यटनामध्ये झालेल्या वाढीमुळे खऱ्या अर्थाने आपला इतिहास व संस्कृती समजून येईल. त्यामुळे कृषी पर्यटनाबरोबरच नैसर्गिक संपन्नता लाभलेल्या ग्रामीण भागामध्ये साहसी पर्यटनाचा विचार कशा प्रकारे करता येईल याबाबत माहिती देत कृषी व ग्रामीण पर्यटन विषयक विविध शासकीय योजनांची माहिती उपस्थितांना दिली. या सर्वेक्षणांनंतर पर्यटन व्यवसायाची कास धरत ग्रामीण भागामध्ये आर्थिक उत्पन्नाचे स्त्रोत निर्माण होत गावचा विकास व कायापालट कसा होईल याबाबत ट्रॅवल अँड टुरिझम विभाग सदैव प्रयतनशील असणार आहे.

CHAPTER-7

Socio economics status of Village Chale

Prof. (Dr.) Arjun Baban Doke
Department of Geography

Chale is a Village in Mulshi Taluka in Pune District of Maharashtra State, It belongs to Desh or Paschim Maharashtra region Fig. 1 represent the location of village Chale with the reference of India.

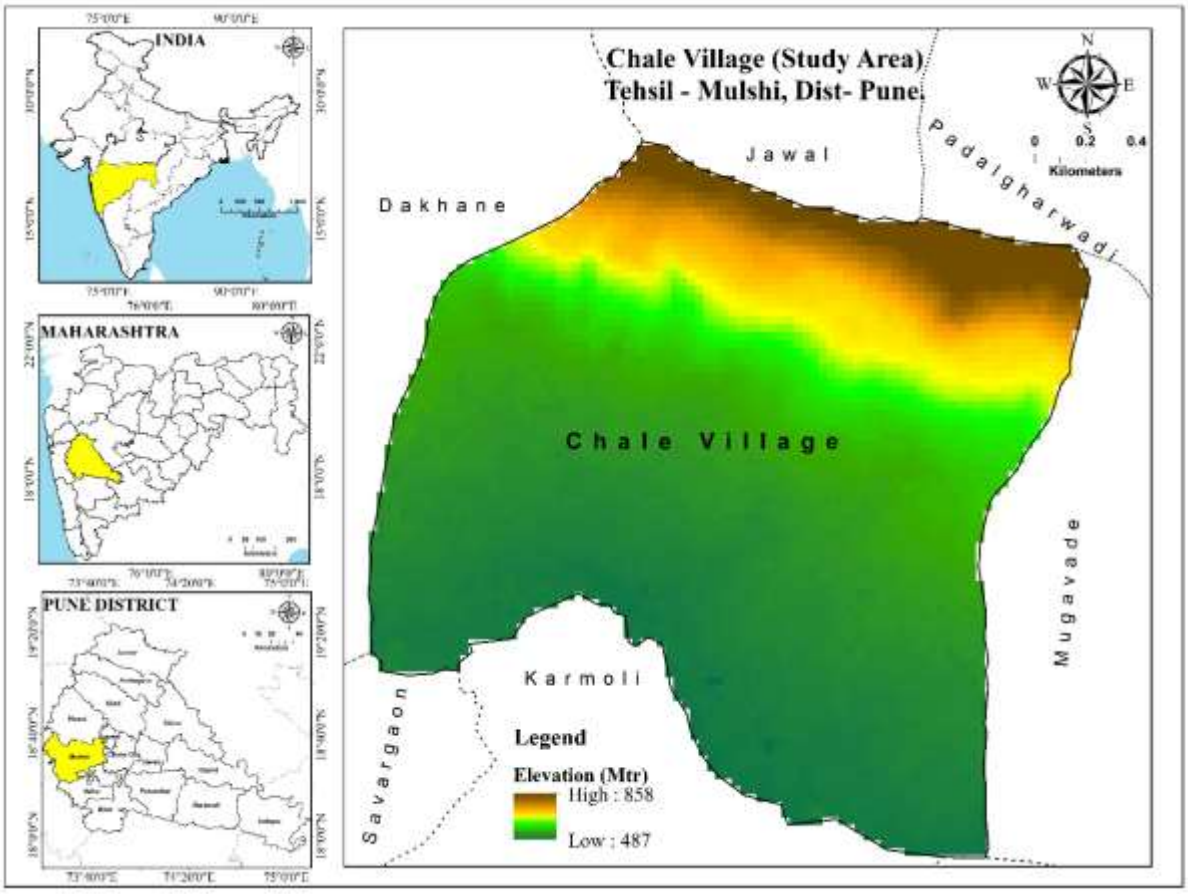

Fig.1 Location Map of Village Chale

Population characteristic of village Chale: -

According to the available data, the total population of Village Chale is 845, out of which 452 are male and 393 are female. The population below 6 years is 111, with 62 being male and 49 being female. In terms of caste composition, the population of Scheduled Caste (SC) is 23, with 12 being male and 11 being female. The population of Scheduled Tribe (ST)

is 7, with 4 being male and 3 being female. The literacy rate in Village Chale is 56.68%, with a total of 479 literate individuals. Out of these, 317 are male and 162 are female. Overall, the population in Village Chale seems to be fairly distributed between males and females, with a moderate literacy rate. However, the lower representation of Scheduled Castes and Scheduled Tribes is a point of concern and indicates the need for inclusive development policies in the area. Village Chale has a total population of 845 individuals, with 452 males and 393 females. The population below 6 years is 111, with 62 being male and 49 being female. The village has a total population of 23 Scheduled Castes (SC), with 12 being male and 11 being female. The Scheduled Tribe (ST) population in the village is 7, with 4 being male and 3 being female. In terms of literacy, the village has a total of 479 literate individuals, with 317 being male and 162 being female. It is good to see that the number of male literates is higher than that of female literates. However, the village needs to take measures to improve female literacy levels. Furthermore, the village has a total of 289 cultivators, with 128 being male and 161 being female (Table 1). There are 63 agriculture workers in the village, with 29 being male and 34 being female. Additionally, 39 individuals work as household workers, with 33 being male and 6 being female. There are also 94 other workers in the village, with 86 being male and 8 being female. The total number of workers, including both main and marginal workers, is 486, with 277 being male and 209 being female. There is only one marginal worker in the village, who is a male. Lastly, the village has a total of 359 non-workers, with 175 being male and 184 being female. It is essential to create employment opportunities in the village to provide more options for the non-working population. Overall, the population report shows that Village Chale has a decent population size, with good gender representation. The village needs to focus on improving female literacy levels and creating more employment opportunities.

Table 1: Population distribution of Chale

Total Population	845		Total Main Female Workers Population	209

Total Main Workers Population	485		Total Female Non-Workers Population	184
Total Main Male Workers Population	276			

Animal Husbandry Report: Village Chale: -

Animal husbandry plays a crucial role in the livelihoods of many households in Village Chale. The village has a significant number of livestock, including cows, buffaloes, goats, sheep, and poultry. Animal husbandry not only provides food and nutrition but also generates income for many households in the village. The village has a total of 110 cows, with 56 being male and 54 being female. The number of buffaloes in the village is 148, with 79 being male and 69 being female. Furthermore, the village has a total of 216 goats, with 119 being male and 97 being female. The number of sheep in the village is 77, with 43 being male and 34 being female. Lastly, the village has a total of 364 poultry birds, with 205 being male and 159 being female. The majority of households in the village depend on animal husbandry for their livelihoods. The animals provide milk, meat, and eggs, which are essential sources of nutrition for the households. Additionally, the animals' by-products, such as manure, are used as fertilizers for crops, thus enhancing agricultural productivity. However, the village faces some challenges in animal husbandry, such as lack of proper

veterinary care and feed shortage during droughts. The village needs to focus on providing adequate veterinary care to prevent animal diseases and increase animal productivity. Moreover, the village needs to take measures to ensure adequate feed and water for the livestock during droughts and other natural calamities. In conclusion, animal husbandry plays a vital role in the livelihoods of many households in Village Chale. The village has a significant number of livestock, including cows, buffaloes, goats, sheep, and poultry. The village needs to focus on providing adequate veterinary care and feed to ensure the animals' health and productivity.

Cropping Pattern of Village Chale: -

Village Chale has a predominantly agricultural economy, with the majority of households engaged in farming. The village has fertile soil and favorable climatic conditions, which make it suitable for agriculture. The cropping pattern in the village is diverse, with different crops being grown in different seasons. The main crops grown in the village are paddy, wheat, jowar, and pulses. Paddy is the dominant crop, with a total of 245 hectares of land being used for its cultivation. The village has a total of 140 hectares of land under wheat cultivation, with jowar and pulses being grown in smaller quantities. The village follows a crop rotation system, with paddy being grown in the kharif season (June to October) and wheat being grown in the rabi season (November to March). Pulses and jowar are grown in both kharif and rabi seasons. The crop rotation system helps in maintaining soil fertility and prevents soil erosion. The village has a total of 20 tube wells and 2 dug wells, which provide irrigation water for the crops. The village also has a small canal that provides irrigation water for a small portion of land. However, the village faces water scarcity during the summer months, which affects crop production. The farmers in the village follow traditional farming practices and use organic manure for crop cultivation. The village has a total of 60 tractors, which are used for land preparation and transportation of crops. The village also has a primary agricultural cooperative society, which provides farmers with agricultural inputs such as seeds, fertilizers, and pesticides. In conclusion, the cropping pattern in Village Chale is diverse, with paddy being the dominant crop. The village follows a crop rotation system, which helps in maintaining soil fertility. The village faces water scarcity during the summer months, which affects crop production. The farmers in the village follow traditional farming practices and use organic manure for crop cultivation. The primary agricultural cooperative society provides farmers with agricultural inputs.

Geology of Village Chale: -

Village Chale is situated in a region with complex geological features. The village is located in the Deccan Plateau, which is a large plateau that covers most of central and southern India. The geology of the Deccan Plateau is characterized by basaltic rocks, which are volcanic in origin. The village is located in an area with extensive lava flows and basaltic formations. The basaltic rocks are part of the Deccan Traps, which are a large igneous province that covers an area of around 500,000 square kilometers. The Deccan Traps were formed around 60 million years ago during the Cretaceous-Paleogene extinction event, which saw the extinction of the dinosaurs. The basaltic rocks in the village are dark in color and have a dense and fine-grained texture. The rocks are hard and durable, which makes them suitable for construction purposes. The villagers use the basaltic rocks for building houses, temples, and other structures. The village has a total of 10 wells, which provide groundwater for domestic and agricultural purposes. The groundwater in the village is derived from the basaltic rocks, which act as an aquifer. The groundwater in the village is of good quality and is suitable for drinking and irrigation purposes. The village is situated in an area with moderate seismic activity. The region is prone to earthquakes, which are caused by the movement of tectonic plates. The villagers are aware of the seismic activity in the region and take necessary precautions to prevent damage to their homes and property. In conclusion, the geology of Village Chale is characterized by basaltic rocks, which are volcanic in origin. The rocks are hard and durable, which makes them suitable for construction purposes. The groundwater in the village is derived from the basaltic rocks, which act as an aquifer. The village is situated in an area with moderate seismic activity, and the villagers take necessary precautions to prevent damage to their homes and property.

Geomorphology of Village Chale: -

Village Chale is located in a region with diverse geomorphological features. The village is situated in the Deccan Plateau, which is a large plateau that covers most of central and southern India. The geomorphology of the Deccan Plateau is characterized by extensive lava flows and basaltic formations. The village is located in an area with undulating terrain, with a maximum elevation of around 600 meters above sea level. The landscape of the village is characterized by small hills, ridges, and valleys. The hills and ridges are mostly composed of basaltic rocks, while the valleys are covered with fertile soil. The village has a total of 315

hectares of agricultural land, which is used for the cultivation of crops such as maize, soybean, and cotton. The agricultural land is situated in the valleys and is irrigated by groundwater from the basaltic formations. The village has a total of four small streams that flow through the agricultural land. The streams originate from the hills and merge into larger streams downstream. The streams are seasonal and flow only during the monsoon season, which is from June to September. The village is situated in an area with moderate soil erosion, which is caused by the heavy rainfall during the monsoon season. The villagers have implemented various soil conservation measures, such as contour farming and construction of bunds, to prevent soil erosion and conserve soil fertility. In conclusion, the geomorphology of Village Chale is characterized by undulating terrain, small hills, ridges, and valleys. The agricultural land is situated in the valleys and is irrigated by groundwater from the basaltic formations. The village has small streams that flow through the agricultural land, and the streams are seasonal and flow only during the monsoon season. The villagers have implemented soil conservation measures to prevent soil erosion and conserve soil fertility.

Soil Report of Village Chale: -

Village Chale is in an area with diverse soil types and soil formations. The village is situated in the Deccan Plateau, which is a large plateau that covers most of central and southern India. The soil formation in the Deccan Plateau is influenced by the underlying basaltic formations, which are a result of extensive lava flows. The soil in the village is mainly formed by weathering of the underlying basaltic rocks. The soil is characterized by a red to brown color, with a clayey texture. The soil in the village is classified as Alfisols, which are moderately weathered soils with high fertility and good moisture retention capacity. The depth of the soil in the village varies from place to place. In the valleys, where the agricultural land is located, the soil depth ranges from 30 cm to 120 cm. The soil in the valleys is deep and fertile, and is suitable for the cultivation of crops such as maize, soybean, and cotton. In the hilly and rocky areas, the soil depth is relatively shallow, ranging from 5 cm to 30 cm. The soil in the hilly and rocky areas is less fertile and has low moisture retention capacity. The vegetation in these areas is dominated by shrubs and grasses. The villagers in the village have adopted various soil conservation measures to prevent soil erosion and conserve soil fertility. These measures include contour farming, construction of bunds, and use of organic fertilizers. In conclusion, the soil in Village Chale is mainly formed by weathering of the underlying basaltic rocks. The soil is classified as Alfisols, which are

moderately weathered soils with high fertility and good moisture retention capacity. The depth of the soil in the village varies from 5 cm to 120 cm, depending on the location. The villagers have implemented soil conservation measures to prevent soil erosion and conserve soil fertility.

Education Development Report of Village Chale: -

Village Chale has made significant progress in the field of education in recent years. The village has one primary school, one secondary school, and one higher secondary school. The primary school has classes up to the fifth standard, while the secondary school has classes up to the tenth standard, and the higher secondary school has classes up to the twelfth standard. The literacy rate in the village has been steadily increasing over the years. As per the latest census data, the literacy rate in the village is 56.6%, with male literacy at 68.2% and female literacy at 44.1%. The village has a total of 479 literate persons, of which 317 are males and 162 are females. To further improve the quality of education, the village has taken several initiatives. The primary school has introduced digital classrooms to make learning more interactive and engaging for the students. The secondary school has started offering computer education to its students to equip them with necessary skills for the future. The higher secondary school has introduced vocational training programs to provide students with practical skills that they can use to gain employment. The village has also formed a committee to oversee the education development in the village. The committee consists of members from the village council, the school management committees, and the local community. The committee works to identify the educational needs of the village and to implement measures to address them. In conclusion, Village Chale has made significant progress in the field of education in recent years. The village has one primary school, one secondary school, and one higher secondary school. The literacy rate in the village is steadily increasing, and the village has taken several initiatives to improve the quality of education. The formation of an education committee further highlights the village's commitment to education development.

Slope, Slope Direction, and Elevation of Village Chale: -

Village Chale is located in a hilly terrain with a varying slope, slope direction, and elevation. The village is situated at an altitude of 732 meters above sea level and is surrounded by hills on all sides. The highest peak in the vicinity of the village is located at an

elevation of 972 meters above sea level. The slope of the village is moderate to steep in some areas. The slope ranges from 5% to 40%, with the steepest slopes found on the hills surrounding the village. The slope direction of the village is towards the east and south-east. The village is located on the western side of the hills, and the slope gradually increases towards the east and south-east. The varying slope and slope direction have an impact on the land use pattern and agriculture in the village. The areas with steeper slopes are generally not suitable for agriculture and are instead used for forestry or other non-agricultural purposes. The areas with moderate slopes are used for horticulture and mixed cropping. The areas with gentler slopes are used for growing crops such as wheat, maize, and rice. The elevation of the village also has an impact on the temperature and climate of the village. The village has a pleasant climate throughout the year due to its higher elevation. The average temperature in the village ranges from 18°C to 28°C. The village receives an average rainfall of 1200 mm per year, which is mostly concentrated during the monsoon season. In conclusion, Village Chale is situated in a hilly terrain with varying slopes, slope directions, and elevation. The steeper slopes are not suitable for agriculture, while the moderate slopes are used for horticulture and mixed cropping. The elevation of the village has an impact on the temperature and climate, making the village pleasant throughout the year.

Rainfall in Village Chale: -

Village Chale is located in a region with a tropical climate, characterized by high temperatures and a distinct wet and dry season. The village receives most of its rainfall during the monsoon season, which typically starts in June and lasts until September. The average annual rainfall in the village is around 1200 mm, with the heaviest precipitation occurring in July and August. The rainfall distribution in the village is not uniform, with some areas receiving more rainfall than others. The variations in rainfall can be attributed to the local topography, including slope and elevation, as well as other factors such as wind direction, temperature, and humidity. The heavy rainfall in the village during the monsoon season plays a crucial role in the agricultural activities in the region. The rainfall is used to irrigate crops, replenish the groundwater table, and maintain the soil moisture content. The farmers in the village generally grow crops such as wheat, rice, maize, and vegetables, which require a significant amount of water for their growth and development. However, the heavy rainfall during the monsoon season also poses a risk of flooding and landslides in the hilly terrain of the village. The steep slopes and high precipitation can cause soil erosion, leading

to landslides and soil degradation. The village has implemented various measures such as terracing, contouring, and afforestation to mitigate the impact of heavy rainfall on the environment and agriculture. In conclusion, the Village Chale receives a significant amount of rainfall during the monsoon season, which plays a crucial role in the agriculture activities in the region. However, the heavy rainfall also poses a risk of flooding and landslides, requiring proper measures to be taken to mitigate its impact.

Temperature in Village Chale: -

Village Chale is located in a tropical region and experiences a hot and humid climate throughout the year. The village has a typical monsoon-influenced climate, with distinct wet and dry seasons. The average annual temperature in the village is around 27°C, with the maximum temperature reaching up to 40°C during the summer months of April and May. The minimum temperature in the winter months of December and January can drop to around 10°C. The diurnal temperature variation in the village is relatively low, with a range of around 8-10°C between day and night temperatures. The temperature in the village is influenced by various factors such as elevation, topography, wind direction, and proximity to the sea. The temperature is relatively higher in the low-lying areas of the village, while the temperature decreases as one moves to higher elevations. The temperature is also affected by the surrounding hills and valleys, which can cause temperature inversions and localized variations in temperature. The high temperature in the village during the summer months can have adverse effects on human health and agriculture. The village has implemented various measures to mitigate the impact of high temperature, such as the use of shade nets and cooling mechanisms in agriculture and the provision of drinking water and cooling centers for human beings. In conclusion, Village Chale experiences a hot and humid climate throughout the year, with high temperatures during the summer months. The temperature in the village is influenced by various factors, including elevation and topography. The village has implemented various measures to mitigate the impact of high temperature on agriculture and human health.

Humidity in Village Chale: -

Village Chale experiences a hot and humid climate throughout the year, with high levels of humidity in the monsoon season. Humidity is the amount of moisture present in the air, and it plays a critical role in determining the comfort level and health of the people living

in the area. The village has an average annual relative humidity of around 70%, with the highest levels observed during the monsoon season. The humidity levels during the monsoon season can reach up to 90%, which can cause discomfort and health issues for the people living in the area. High humidity levels can also affect agriculture by promoting the growth of fungal diseases and pests. The humidity in the village is influenced by various factors such as temperature, wind direction, and proximity to the sea. The high temperature in the village during the summer months causes the moisture to evaporate from the land surface, leading to a decrease in humidity levels. On the other hand, the presence of a water body such as a river or lake can increase the humidity levels in the area. To mitigate the impact of high humidity levels, the village has implemented various measures such as the use of dehumidifiers and air conditioning systems in buildings, the provision of adequate ventilation, and the promotion of personal hygiene practices such as bathing and wearing light and breathable clothing. In conclusion, Village Chale experiences high levels of humidity, particularly during the monsoon season. The humidity levels in the village are influenced by various factors such as temperature and proximity to water bodies. The village has implemented various measures to mitigate the impact of high humidity levels on human health and agriculture.

Sunlight in Village Chale: -

Sunlight is an essential factor that influences various aspects of life, including agriculture, health, and tourism. Village Chale is located in a tropical region, which means that it receives abundant sunlight throughout the year. The village has an average of around 8 hours of sunlight per day, with the duration varying throughout the year. During the summer months, the village receives more than 9 hours of sunlight per day, while in winter, the

duration decreases to around 7 hours per day. The sunlight in the village is influenced by various factors such as cloud cover, the position of the sun, and the altitude of the area. Sunlight plays a critical role in agriculture as it is necessary for the photosynthesis process, which is the basis of plant growth. In Village Chale, the abundant sunlight supports the growth of various crops such as rice, wheat, and vegetables. The village is also known for its production of cash crops such as sugarcane, cotton, and tobacco, which require high levels of sunlight for their growth. Sunlight also has an impact on human health, as it is necessary for the synthesis of vitamin D, which is essential for bone health. The sunlight in Village Chale can also promote tourism, as it is known for its beautiful beaches and natural landscapes that are best enjoyed in the sunlight. In conclusion, Village Chale receives abundant sunlight throughout the year, which plays a critical role in agriculture, human health, and tourism. The sunlight in the village is influenced by various factors such as cloud cover, the position of the sun, and the altitude of the area. The village's abundant sunlight supports the growth of various crops and contributes to the local economy.

Vegetation and Species in Village Chale: -

Village Chale is situated in a tropical region, which is characterized by lush green vegetation. The village is home to a diverse range of plant species, which are well-adapted to the local climate and soil conditions. The vegetation in the village is dominated by trees, shrubs, and grasses, which provide habitat and food for a variety of animals and birds. The primary vegetation type in Village Chale is tropical evergreen forest, which is characterized by tall trees with broad leaves that remain green throughout the year. Some of the prominent tree species found in the village include teak, rosewood, sandalwood, and mango. These trees provide valuable timber and fruits, which are a significant source of income for the local population. Apart from the evergreen forest, Village Chale also has deciduous forest, which sheds its leaves during the dry season. This forest type is dominated by trees such as sal, mahua, and semal. The deciduous forest provides valuable fuelwood, timber, and fodder for livestock. In addition to the forests, Village Chale has extensive grasslands, which are characterized by short grasses and occasional shrubs. The grasslands provide grazing grounds for livestock and are also an essential habitat for small animals such as rodents and hares. The vegetation in Village Chale supports a diverse range of animal species, including elephants, tigers, leopards, and deer. The forest also supports a wide range of bird species, including woodpeckers, hornbills, and parrots. In conclusion, Village Chale is home to a diverse range of vegetation types and species, which are well-adapted to the local climate and soil conditions. The evergreen forest and deciduous forest are the dominant vegetation types in the village, and they provide valuable timber, fruits, and fuelwood. The grasslands provide grazing grounds for livestock and support small animal species. The vegetation in the village supports a diverse range of animal and bird species, making it a unique and important ecosystem.

Land use and Land Cover report of village Chale 2021:

The land is necessary for human survival because it’s available for the human with living space (Bhagawat, 2011). The scientist Stamp in the Britain is given a contribution regarding land use mapping study. Stamp 1962 defined the concept of land use. The land provided the all necessary and legitimate needs of the country (Stamp, 1930). According to Nanavati conservation of land is also connected with land use (Nanavati, 1951). This needs strong scientific, rational and economic preparation to use available resource of land, on

another side we have to maintain ecological and socio-economic balance (Mohammad, 1980).

Remote sensing data has been used for land use/land cover mapping as well as change dictation in different parts of the India (Gautam and Narayanan, 1983; Sharma et al., 1984; Jain, 1992; Brahabhatt et al., 2000). The present-day remote sensing data provide the change detection (LULCC) and monitoring of earth surface resources (Aher and Dalvi, 2012). The land use is the result of a combination of both natural genesis and human influences which have been brought to bear on it in the past and of those which are still active in the present (Vink, 1975). Satellite remote sensing imagery and it's coupled in GIS environment for land use/land cover analysis is a key to many diverse applications such as environment, forestry, hydrology and agriculture (Parlhad and Deore, 2010). Watershed management tools useful for any areas of natural resource management (Deshmukh et al., 2012) planning and monitoring depend on accurate information about the land cover in a region. The accurate representation of terrestrial vegetation is a key requirement for global change research (Jung et al. 2006; Lambin et al. 2001). The vegetation map is an essential base map for managing natural resources as vegetation provides a base for all living beings and plays an essential role in affecting global climate change, such as influencing terrestrial CO2 (Xiao et al. 2004). In the vegetation protection and restoration programs, it is necessary to obtain the current status of vegetation cover and change (Egbert et al. 2002; He et al. 2005). The traditional methods such as field surveys, literature reviews, map interpretation and collateral and ancillary data analysis, are not effective to acquire vegetation covers because they are time-consuming, date lagged and often too expensive. The present years remote sensing (RS) techniques are being widely used for vegetation mapping as well as monitoring and change dictation (Boyd et al., 1999; Ingram, 2005; Lu et al., 2004; Maynard et al., 2007; Dadhwal et al., 2009) identification of the vegetation types using spectrometer (spectral reflectance of the vegetation) (Zianis et al., 2005).

Chale is a very important village in Western Maharashtra. In the present study, describes the physical, social and economic aspects of village Chale The geographical location, physiography, geomorphology, drainage, geology, climate, soil, natural vegetation, irrigation, cropping pattern, animal husbandry, markets, transportation, industrial and economic development of village Chale have been discussed in this study. Built-up area: The village has a built-up area covering approximately 15.41 hectares. This includes residential, commercial, and other constructed areas.

Materials and Methods:

Landsat TM FCC (bands 4, 3 and 2, scale 1: 50,000, December 2016) were used for this study. The Landsat TM image was obtained in four separate images hence it was first mosaicked in Erdas Imagine software 14 before projecting it to UTM WGS 84 coordinate system. The study area was extracted by subsetting from the whole image. The flowchart of the research methodology can be divided into five stages: (i) preparation of reference maps for gathering the existing and relevant information in the spatial form, (ii) pre-field classification of the satellite data, (iii) ground trothing, (iv) post-field correction and (v) field verification of the final map. The spectral variation of each vegetation type were extracted from digital data by interpreting satellite images based on the interpretation elements such as the image colour, texture, tone, pattern and association information etc. The standard "false color" composite. Vegetation looks in shades of red. Coniferous trees will seem darker red than hardwoods. This is a very popular band combination and is useful for vegetation studies. Usually, deep red hues indicate broad leaf and/or healthier vegetation while lighter reds signify grasslands or sparsely vegetated areas. Diverse methods have been developed to do this. Those methods can be broadly grouped into unsupervised classification or supervised classification depending on whether or not true ground data are inputted as references. The flow chart of the research methodology is shown in Figure 2.

Crop land:

The village has a significant amount of land dedicated to agricultural purposes, with approximately 283.12 hectares being utilized for crop cultivation. This land is likely used for growing various crops, such as grains, vegetables, fruits,

Forest area:

Village Chale has a considerable forest area, covering approximately 159.61 hectares. This indicates the presence of natural forests and vegetation, which provide habitat for various wildlife species and contribute to the ecological balance of the region.

Scrub land:

The village has a small portion of land categorized as scrub land, covering approximately 7.37 hectares. Scrub lands typically consist of low-growing vegetation, including shrubs and small trees.

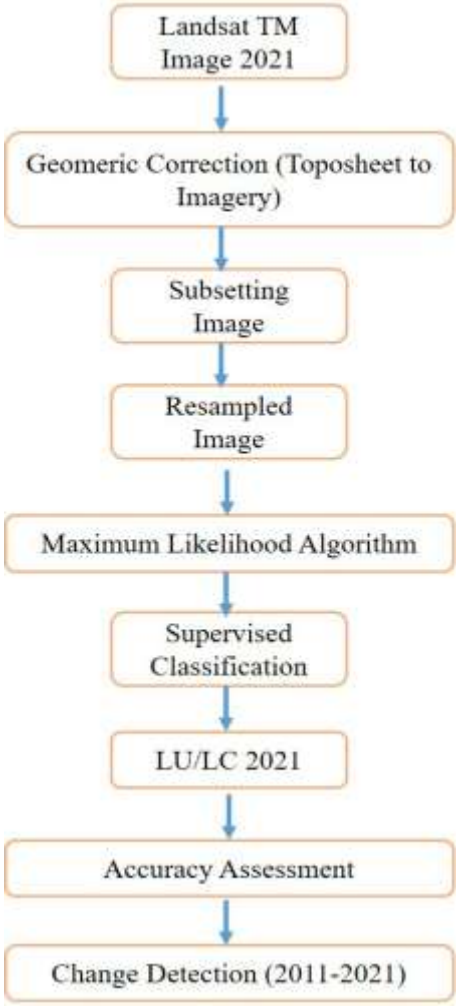

Fig. 2. Flow Chart of Research Methodology etc.

Table 2 Land use and Land Cover Statics of Village Chale

Class	Area in Hectar
Built Up (Rural)	16.41
Crop land	283.12
Forest	159.61
Scrub land	7.37
Waterbody	8.87
Grand Total	**475.39**

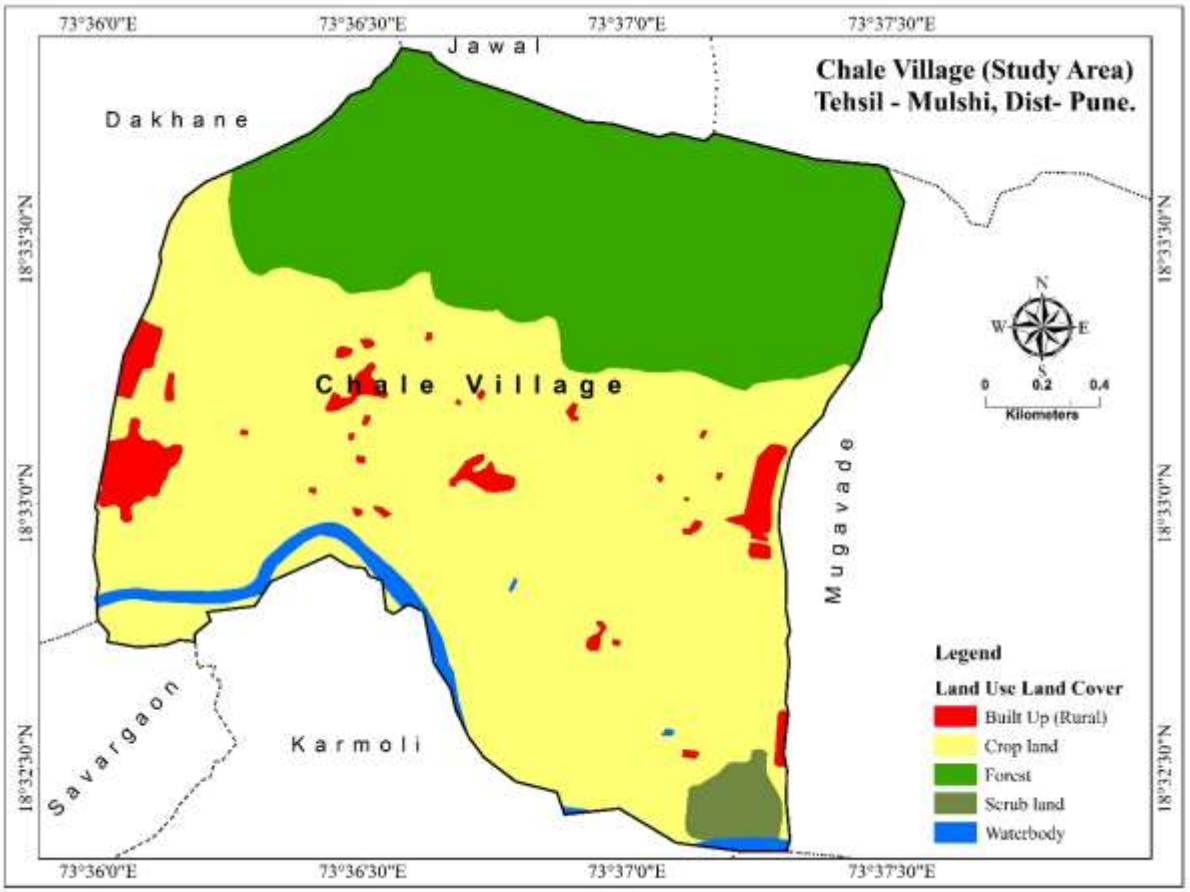

Fig.3 Land use and Land Cover of Village Chale

Waterbody: Village Chale has an area dedicated to water bodies, encompassing approximately 8.87 hectares. This could include lakes, ponds, rivers, or other water resources that play a vital role in supporting aquatic ecosystems and providing water for various purposes.

Overall, the total area of Village Chale is reported to be 475.39 hectares, with a diverse range of land uses and land covers. The distribution of land among built-up areas, crop lands, forests, scrub lands, and water bodies indicates a mix of human settlements, agricultural activities, natural vegetation, and water resources within the village's boundaries.

CHAPTER-8

A plant diversity survey of Chale Village

D.M. Mahajan
Department of Botany

The college has selected the village Chale in Mulshi Tehsil of Pune District (Maharashtra). Department of Botany have carried out a survey for plant diversity and its significance on 29th December 2022. The students are involved in this field survey. The students learnt lot many things while working with the local people. The teachers have guided the students for the field survey. We did documentation of flowering plants of this village. This area is a mix of village, agriculture, small ghats, hilly region, thickets, and dry deciduous forest.

Introduction:

The Western Ghats are exceptionally rich in plant and animal species. Unfortunately, due to heavy human pressures this tremendous biodiversity is getting destroyed fast. Water resources are drying up and getting less in quantity for the growing population. This region is rich not only for wild biodiversity but also for the crop species and varieties. We had many local varieties of crops and fruit plants of which we had very high diversity. Our natural areas are rich treasure of medicinal plants. The local people were aware of its use. The forests are overexploited due to high developmental pressures, encroachments for agriculture, dams etc. The forests are an important source of many ecological services. Now a days, we are facing the consequences (floods, landslides, threats to wildlife, loss of endemic species, etc.) of forest degradation. We have fragmented our forests, as a result the plant diversity is declining. Decline in forest resources is linked to poor quality life in villages. This further results in large scale migration to urban areas. The unplanned development in this region is harmful to the ecosystem and biodiversity; and therefore, any kind of development being proposed in Western Ghats should be responsive to the fragility and rich biodiversity. Our villages are exceptionally good in natural resources such as plants, crops, animals, medicinal plants, soils, water, etc. Unfortunately, due to heavy anthropogenic pressures these enormous resources are getting destroyed fast. Biological resources are vanishing fast due to uncontrolled encroachments and exploitation. Water resources are drying up and getting less in quantity for the growing population. So, to understand the status of these resources, our college has decided to survey these resources through the participation of students and teachers.

Aim: Documentation of plant diversity of village Chale, Tal Mulshi (Part of Northern Western Ghats)

Objectives:

To prepare the plant species checklist.

To enlist endemic and RET species
Documentation of ethno-botanically important and wild vegetable plants
Documentation of agricultural crops.

Materials and Methods:

Study area: Chale: The surveys for plant biodiversity assessment were conducted in and around the Chale village (Mulshi) of Pune District. The village lies in the Western Ghats; Mulshi valley and located at 18º 33' 88" N latitude and 73º 36' 7.2" E longitude; and situated approximately 40 Km from Pune. It is situated 4.2 km away from sub-district headquarter Paud (tehsildar office). Chale is a small Village/ hamlet. It comes under Chale Panchayath. The general topography of the area is undulating with gentle slopes. It slopes towards south-east direction. It is marked with isolated agricultural farms and a river. The main land use pattern is agriculture, settlements, and reserved forest. The average elevation of land surface is observed to be 604 m above the MSL. As per 2009 stats, Chale is the gram panchayat of Chale village. Local Language is Marathi. Chale village is in Mulshi tehsil of Pune district in Maharashtra, India. It is situated 4.2 km away from sub-district headquarter Paud (tehsildar office) and 35km away from district headquarter Pune. As per 2009 stats, Chale village is also a gram panchayat.

Education: Government Pre-Primary and Primary Schools are available in this Village. Nearest Govt ITI College is in Aundh. Nearest Govt Pre Primary School is in Chale. Nearest Govt Secondary School and Govt Senior Secondary School are in Paud. Nearest Govt Disabled School, Govt Engineering College, Govt Medical College, Govt MBA college and Govt Polytechnic College are in Pune. Nearest Govt Arts and Science Degree College is in Pirangut.

Land and Natural Resources in Chale: Total area of Chale is 475.39 Hectares as per the data available for the year 2009. Total sown/agricultural area is 283.12 ha. About 7.37 ha is used permanent scrub land /pastures and grazing lands. About 160 ha is lying as forest land.

Plant surveys: A reconnaissance survey was carried out to have an overview of the species composition of the area. We prepared a simple plan for plant diversity studies at village level with the help of our students. The surrounding area exhibits a land use pattern that mainly consists of reserved forests and agricultural land with sparse trees on the bunds. The reserved forests and agriculture fields were interspersed with settlements. The sampling locations were determined by considering the land use pattern. The geology, topography, climate, and the soil have a close bearing on the nature of vegetation. These features were considered while selecting the sampling sites.

The biodiversity surveys were conducted to document the terrestrial and aquatic flora of the area. The area is having vegetation with diverse species composition. Intensive field surveys were made for documenting the various floral species. We used random walk method for listing the floral species. More emphasis was given to document and quantify the maximum possible number of species.

Identification: The methods followed in the field were based on the procedure outlined in 'The Flora of Maharashtra State' and 'Flora of Khandala'. The floristic studies were based on extensive exploration of the village area. The field surveys involved the preparation of an inventory of different species of plants including trees, shrubs, climbers, and herbs in the area. All plant species were identified with the help of expert taxonomist and literature published by Botanical Survey of India. Observations were also made on the agricultural patterns, agricultural weeds and cultivated and introduced plant species.

Observations and Results: The topography of Chale village is almost hilly with undulating to steep slopes. The natural vegetation/ forest type in this area is moist deciduous. Large to medium-sized trees along with shrubs constitute majority of the vegetation. Diversity of herbaceous species is always more in monsoon months and declines as the rainy season recedes. The summers are hot and dry.

The hillsides are covered with dense mixed forest. Epiphytes are occasional in appearance. Climbers are frequent. The main composition of these forest is – *Syzygium cumini, Bridelia retusa, Mangifera indica, Terminalia elliptica, Ficus racemosa, Ficus religiosa, Bombax ceiba,* and the undergrowth of shrubs like *Carrisa, Leea asiatica,* and *Pogostemon benghalensis* along with few other species. The only bamboo species was *Dendrocalamus strictus*. Here and there it forms virtually pure patches in the hills. The epiphytic orchids reported include *Aerides crispum,* and *Dendrobium.*

Total number of subspecies, species, genera, families: Flora refers to the plant species occurring in area. The extensive field surveys (supported by literature surveys) resulted in documentation of 485 plant species. The taxonomic distribution of documented plant species is illustrated in **Table 1**, and **Appendix-I** (Check list of flowering plants). The list includes the botanical name of species, habit, family, and status.

Table 1: Taxonomic attributes

Plant Type	No. of Species	No. of Genera	No. of Families
Angiosperms	445	298	81
Pteridophytes	07	07	07
Bryophytes	09	08	08
TOTAL	**461**	**313**	**96**

The documented species belonged to 313 genera and 461 species of 96 families (including Angiosperms, Pteridophytes, and Bryophytes) indicating the floristic richness of Chale village. The most dominant group was Angiosperms having 445 species that are distributed in 298 genera and 81 families. Other groups also represented very well forming a unique amalgamation of flora and vegetation. Among angiosperms the most represented family (**Table 2**) was Fabaceae (52 species), Asteraceae (43 species), Poaceae (35 species), Acanthaceae and Convolvulaceae (20 species each) and Euphorbiaceae (17 species). Similarly, the most abundant genera (**Table-3**) were *Ipomoea* (09 species), *Ficus* (07

species), *Euphorbia* (07 species), *Acacia* and *Cassia* (06 species each), *Alysicarpus* and *Indigofera* (5 species each), *Argyrea, Crotalaria* and *Cyperus* (04 species).

Table 2: Abundant families

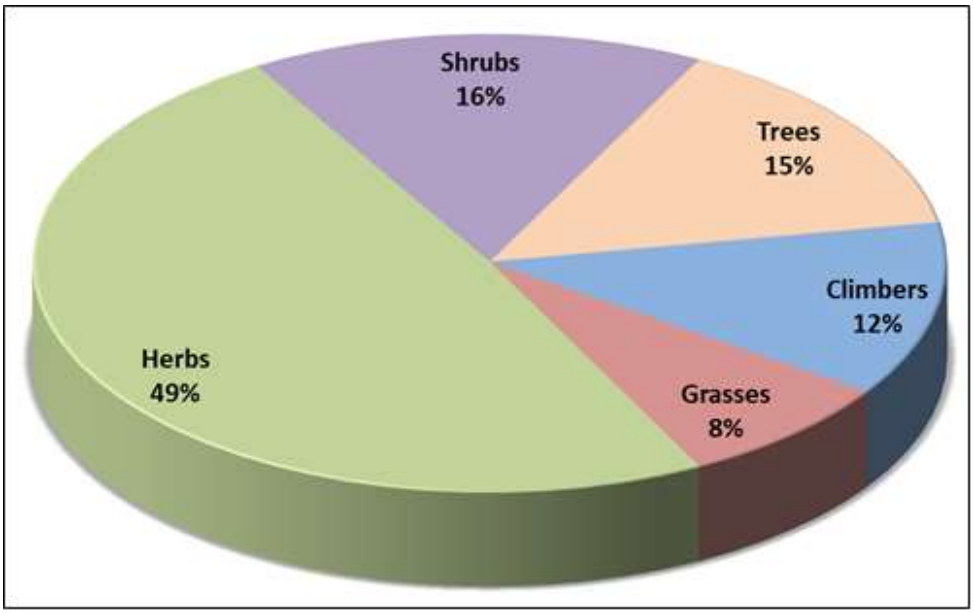
Family	No. of Species
Fabaceae	52
Asteraceae	43
Poaceae	35
Acanthaceae	20
Convolvulaceae	20
Euphorbiaceae	17
Malvaceae	12
Caesalpiniaceae	11
Lamiaceae	11
Mimosaceae	10

Table 3: Abundant genera

Genus Name	No. of Species
Ipomoea	9
Ficus	7
Euphorbia	7
Acacia	6
Cassia	6
Alysicarpus	5
Indigofera	5
Argyreia	4
Crotalaria	4
Cyperus	4

The habit-form wise analysis (**Figure-1**) presented a predominance of herbs (49%) and shrubs (16%) followed by trees (15%), and climbers (12%) and grasses (8%). The Pteridophytes and Bryophytes are represented by 07 and 09 species respectively.

Figure-1: Distribution of habit-forms of plant species



Lower group flora:

Cryptogams have a fundamental role in ecosystem function. They play central roles in the formation and stabilizations of soils, the decomposition of dead organic material and

nutrient cycling. They form symbiotic relationships with most vascular plants and are an important food source for many other organisms.

The lower group of plants needs very specific habitats and environmental conditions. Ecologically, these are probably most important as primary colonizers and stabilizers. They are very sensitive to their habitats. The Chale village provides a good habitat for lower flora.

Pteridophytes: The pteridophytes have an important and subtle ecological role, both in water-retention and stabilizing mobile surfaces like landslips, and scree slopes. They provide shelter and humidity for a remarkable diversity of invertebrates. Pteridophytes are an integral part of the food web in many of our important habitats. The Pteridophytes documented in this area are listed in **Table 4**.

Table 4: List of Pteridophytes

Botanical Name	**Habit**	**Family**
Adiantum lunulatum	Herbs	Adiantaceae
Cheilanthus albomarginata	Herbs	Cheilanthaceae
Pleopeltis linearis	Epiphytic herbs	Polypodiaceae
Pteris biaurita	Large herbs	Pteridoideae
Azolla pinnata	Aquatic herbs	Salviniaceae
Selaginella ciliaris	Small Herb	Selaginellaceae
Nephrolepis sp.	Herbs	Thelypterideae

Bryophytes: Bryophyte is a collective term for mosses, liverworts, and hornworts. Bryophytes have fragmented distributions. Bryophytes are typically associated with more moist habitats where they grow on soil, tree trunks and branches, fallen timber, debris, and rocks. Many of them are found only in small scattered and isolated populations of very small numbers of plants with little ecological resilience and apparently not capable of spreading to other un-colonised but seemingly suitable areas. This presents conservation problems. The bryophyte flora of the village is moderately rich. This region provides good micro-habitats for the growth and survival of bryophytic flora. The bryophyte species that are documented during field work are listed in **Table 5**.

Table 5: List of bryophytes

Botanical Name	**Family**	**Habitat and Distribution**
Antheceros erectus	Anthocerotaceae	Damp soils
Plagiochasma sp	Aytoniaceae	On wet rocky or soil surface
Bryum sp.	Bryaceae	On calcareous soils and walls
Cyathodium sp.	Cyathodiaceae	Wet and damp cutting of hill and rock
Notothylas sp.	Notothyladaceae	Damp plaines
Pogonatum sp.	Polytrichaceae	Laterite soils
Riccia discolor	Ricciaceae	Moist soils, shady and exposed places
Riccia glauca	Ricciaceae	Moist soils and stream banks
Targionia sp.	Targionaceae	Damp soils

Threatened and Endemic Species: As the village area falls in Western Ghats, it represents fairly good number of endemic and threatened plant species. The list of endemic and threatened plant species is provided in **table-6**. In all 14 species fall in a category of 'endemic to India', out of which one is in endangered category of Botanical Survey of India and IUCN, and 03 are at lower risk. Remaining 3 species are under lower risk.

Table 6: Threatened and endemic plant species.

Botanical Name	Local Name	Habit	Family	Status
Cajanus lineatus	Rantur	Herb	Fabaceae	EI
Canscora decurrens		Herb	Gentianaceae	EI
Carvia callosa	Karvi	Shrub	Acanthaceae	EI/LR
Cyanotis tuberosa	Abhali	Herb	Commelinaceae	LR
Ensete superbum	RanKeli	Shrub	Musaceae	EI/LR
Eranthemum roseum	Dasmuli	Herb	Acanthaceae	EI
Exacum pumilum	Jambhli-chirayat	Herb	Gentianaceae	EI
Haplanthodes verticillatus	Jakara	Herb	Acanthaceae	EI/LR
Impatiens latifolia	Terda	Herb	Balsaminaceae	EI
Iphigenia magnifica		Herb	Liliaceae	EI/EN
Jasminum malabaricum	Kasur	Climber	Oleaceae	EI
Neanotis lancifolia	Tanoti	Herb	Rubiaceae	EI
Rhamphicarpa longifolia	Tutari	Herb	Scrophulariaceae	LR
Rungia crenata	Rungia	Herb	Acanthaceae	LR
Senecio edgeworthii	Hiwali-sonki	Herb	Asteraceae	EI
Tabernaemontana heyneana	Chandani	Tree	Bignoniaceae	EI
Vernonia indica	Sahdevi	Herb	Asteraceae	EI

EI: - Endemic to India; EN: Endangered; LR:- Lower Risk.

Ecosystem Service: Most of the ecosystem services on which we and much of the agricultural system rely are being degraded or overexploited. Unpredictable weather, floods, overuse of chemical fertilizers and declines in soil fertility are severely impacting our agricultural system. The degradation of ecosystem services such as freshwater provision, climate regulation and soil fertility clearly have implications for the long-term viability of the business's dependent on them. Ecosystem services – also called 'ecological services' are the benefits that people obtain from ecosystems. Examples include freshwater, timber, climate regulation, and protection from natural hazards, erosion control and recreation.

Provisioning services:

Food: Crops, Livestock, poultry, Wild foods

Timber: *Terminalia, Lagerstroemia, Tectona, Mitragyna*, etc.

Biomass fuel: Fuel wood and charcoal, grain for ethanol production, dung

Fresh Water: Freshwater for drinking, cleaning, cooling, and household purpose.

Genetic Resources: Genes used to increase crop resistance.
Biochemicals: Medicines, biocides, food additives
Natural Medicines: crude drugs obtained from plants.
Pharmaceuticals: *Gloriosa, Chlorophytum*, extracts used for pest control.

Regulating services:
Air quality regulation: Water body and vegetation as carbon sink.
Water quality regulation: Permeable soils facilitate aquifer recharge. River floodplains and wetlands retain water.
Climate regulation at global and regional scale: Forests capture and store carbon dioxide.
Water purification and waste treatment: Wetlands remove harmful pollutants from water by trapping metals and organic materials. Soil microbes degrade organic waste, rendering it less harmful.
Disease and pest regulation: Predators from nearby forests – such as bats, toads, and snakes – consume crop pests.
Pollination: Bees from nearby forests pollinate crops.

Cultural services:
Recreation and ecotourism: Camping and bird watching.
Ethical values: Spiritual fulfilment derived from sacred lands and rivers.

Supporting Services:
Nutrient recycling: Decomposition of organic matter contributes to soil fertility.
Primary production: Plants transforms sunlight and nutrients into biomass, thereby forming the base of the food chain in ecosystems.
Water cycling: Transfer of water from soil to plants, plants to air, and air to rain.

Agriculture:

The cropping pattern in the village is diverse, with different crops being grown in different seasons. The main crops grown in the village are paddy, wheat, jowar, and pulses. Paddy is the dominant crop, with a total of 245 hectares of land being used for its cultivation. The village has a total of 140 hectares of land under wheat cultivation, with jowar and pulses being grown in smaller quantities. The village follows a crop rotation system, with paddy being grown in the kharif season (June to October) and wheat being grown in the rabi season (November to March). Pulses and jowar are grown in both kharif and rabi seasons. The crop rotation system helps in maintaining soil fertility and prevents soil erosion. The village has a total of 20 tube wells and 2 dug wells, which provide irrigation water for the crops. The village also has a small canal that provides irrigation water for a small portion of land.

The traditional agriculture is still under practice at some places, where the crops like *Eleusine coracana* are produced. The land-use around the village is farming, mainly cultivated with crops like Rice (*Oryza sativa*), and Chana (*Cicer arieatinum*). Recently the farmers shifted towards Suercane cultivation. The other crops taken are *Eleusine coracana* and *Amaranthus hybridus*. **Table 7** lists the various crops cultivated in the village. The leafy

vegetable crops are *Spinacia oleracea*, *Raphanus sativus*, *Coriandrum sativum*, and *Amaranthus sp.* Several local varieties/ landraces of rice, and ragi are cultivated occasionally.

The important fruit plants are *Mangifera indica* (Mango), *Psidium guajava*, and *Syzigium cumini* (Jamun). The wild fruit species are *Ziziphus mauritiana*, *Emblica officinalis*, and *Cordia dichotoma*. The farms are interspersed with human habitation, villages, and townships. The open areas around the agricultural fields and open foothills are infested with highly invasive weeds like *Eupatorium odoratum*, and *Hyptis suaveolens*. Other common herbs include *Cassia tora*, *Alysicarpus*, *Sida*, *Celosia*, *Desmodium*, *Acanthospermum*, *Phyllanthus*, *Ageratum*, *Tephrosia*, *Vigna*, *Alternanthera*, *Vernonia*, *Achyranthes*, *Euphorbia*, *Crotolaria*, *etc.*

Table 7: Agricultural crops under cultivation/ wild

Crop Type	**Crops species**
Cereals	Rice (*Oryza sativa*)
Millets and minor millets	Finger millet (*Eleusine coracana*), foxtail millet (*Setaria italica*), and common millet (*Panicum miliaceum*)
Oilseeds	Sesame (*Sesamum indicum*), Niger (*Guizotia abyssinica*), and Linseed (*Linum usitatissimum*)
Fruits	Mango (*Mangifera indica*), Jackfruit (*Artocarpus heterophyllus*), Lemon (*Citrus limon*), Custard apple (*Annona squamosa*), and Guava (*Psidium guajava*)
Medicinal and Aromatic Plants	*Embelia tsjeriam-cottam*, *Garcinia indica*, *Gloriosa superba*, *Pueraria tuberosa*, and *Rubia cordifolia*
Leguminous vegetables	Cowpea (*Vigna unguiculata*), and lablab bean (*Lablab purpureus*) are important leguminous vegetables.
Shoots and leafy vegetables	*Alocasia*, *Amaranthus viridis*, *A. spinosus*, and *Celosia argentea*
Vegetables	*Canavalia ensiformis* and *Solanum torvum.*
Fruits	*Carissa spinarum*, *Cordia myxa*, *Phoenix sylvestris*, *Syzygium cumini* and *Ziziphus mauritiana.*
Beverages	*Phoenix sylvestris*
Dye yielding plants	*Butea monosperma* and *Indigofera cassioides*
Cash Crops	Suercane

Summary and Conclusion: In all 461 plant species were documented. The documented species belonged to 313 genera and 96 families (including Angiosperms, Pteridophytes, and Bryophytes) indicating the floristic richness of Chale village. The most dominant group was Angiosperms having 445 species that are distributed in 298 genera and 81 families. Other groups also represented very well forming a unique amalgamation of flora and vegetation. Among angiosperms Fabaceae, Asteraceae, Poaceae, Acanthaceae and Convolvulaceae families represents majority of the vegetation. Similarly, the most abundant genera were *Ipomoea*, *Ficus*, *Euphorbia*, *Acacia*, *Cassia* and *Alysicarpus*. Crop and cultivated fruit

species documented were 34. In all 14 species fall in a category of 'endemic to India', out of which one is in endangered category of Botanical Survey of India and IUCN, and 03 are at lower risk. Remaining 3 species are under lower risk.

Suggestions /Recommendations:

Realizing the situation of plant diversity following suggestions are made.

- The rich plant diversity should be conserved through people's participation.
- The importance of sustainable use of biodiversity should be highlighted.
- There should be fair and equitable share of benefits from use of bio-resources.
- The valuable knowledge about biodiversity that our people is having should be documented and protected.

Significance of this Exercise:

- Students and teachers gaining first-hand knowledge of plant diversity.
- Students become efficient communicators.
- Student get exposed to environmental problems faced by villagers.
- Environmental education is compulsory for the colleges.
- Science students of colleges are required to submit student research projects for their examination. The students can utilise their work on village level biodiversity for preparing these reports.
- The teachers will be able to familiarise with much of plant diversity and environment in their surroundings and can use such experiences for better teaching.
- Young teachers can identify and choose research programmes of their choice related to biodiversity/ecology.
- The work under this activity can be considered as extension education and help in making environmental awareness among the society.
- The students will be moulded into better, eco-conscious citizens in the future.

CHAPTER-09

Natural Resources: Soil and Water

Dr. Latesh Nikam and Dr. Sujata Hande
Department of Chemistry

Under the guidance of Principal Dr. Balbrishna Zaware sir we have carried water and soil analysis project at **Chale** on 29th Dec 2022. It was a great pleasure and enjoyed working with the peoples of **Chale.** They helped us to collect the sample and carry out further analysis by our 06 students. The observations and result of water and soil sample is as given below:

Students Involved:

PG [M Sc –II (Organic and Analytical)]

1. Yash Wani
2. Omkar Bhujgurav
3. Nikhil Ghadge
4. Madhuri Sahane
5. Pallavi Gaikwad
6. Harshad Udhnde

Public Water supply

Sr.No.	Property	Value
1	Conductivity	645mu
2	pH	4.13
3	Hardness	180
4	Turbidity	3.2
5	Sulphate	BDL
6	TDS	125 ppm
7	Chloride	7 ppm
8	Alkalinity	120
9	Sodium	5.00 ppm
10	Potassium	7.12 ppm
11	Calcium	1.50 ppm

(BDL: Below Detection Limit)

Name of User: (Bore Water)

Sr.No.	Property	Value
1	Conductivity	525mu
2	pH	5.5
3	Hardness	60
4	Turbidity	46 NTU
5	Sulphate	BDL
6	TDS	270 ppm
7	Chloride	6 ppm
8	Alkalinity	7.5
9	Sodium	1.22 ppm
10	Potassium	3.22 ppm
11	Calcium	4.33 ppm

BDL: Below Detection Limit

Name of User: River Side

Sr.No.	Property	Value
1	Conductivity	600mu
2	pH	4.2
3	Hardness	90
4	Turbidity	10.6
5	Sulphate	BDL
6	TDS	156 ppm
7	Chloride	BDL
8	Alkalinity	150
9	Sodium	4.78 ppm
10	Potassium	3.92 ppm
11	Calcium	1.13 ppm

BDL: Below Detection Limit

Name of User: Common Drinking Water (Source well)

Sr. No.	Property	Value
1	Conductivity	389mu
2	pH	4.3
3	Hardness	450
4	Turbidity	2.7

5	Sulphate	BDL
6	TDS	170ppm
7	Chloride	18 ppm
8	Alkalinity	155
9	Sodium	2.58ppm
10	Potassium	3.93ppm
11	Calcium	2.24ppm

BDL: Below Detection Limit

Conclusion:

1. Public **Drinking Water** Standards require **chloride** levels not to exceed 250 mg/L. Criteria for protection of aquatic life require levels of less than 600 mg/L for chronic (long-term) exposure and 1200 mg/L for short-term exposure.

2. **Hardness** is most commonly expressed as milligrams of calcium carbonate equivalent per liter. **Water** containing calcium carbonate at concentrations below 60 mg/l is generally considered as soft; 60–120 mg/l, moderately hard; 120–180 mg/l, hard; and more than 180 mg/l, very hard.

3. The **pH** of pure **water** is 7. In general, **water** with a **pH** lower than 7 is considered acidic, and with a **pH** greater than 7 is considered basic. The normal range for **pH** in surface **water** systems is 6.5 to 8.5, and the **pH** range for groundwater systems is between 6 to 8.5.

4. Na- **drinking-water sodium** does not exceed 20 mg/L. In order to avoid adverse effects on taste.

II. Analysis of Soil:

Sample 1:

Sr. No.	Property	Value
1	Organic Carbon	0.324%
2	Moisture Content	0.36g
3	pH	In KCL+= 5.43 In H_2O = 6.24
4	Sodium	1.03ppm
5	Potassium	1.41ppm
6	Calcium	2324ppm
7	Phosphate	1.78%

Sample 2:

Sr. No.	Property	Value
1	Organic Carbon	0.426%
2	Moisture Content	1.2g
3	pH	In KCL+= 4.45 In H_2O = 5.50
4	Sodium	2.66
5	Potassium	2.46
6	Calcium	2.97
7	Phosphate	2.8%

Sample 3:

Sr. No.	Property	Value
1	Organic Carbon	0.264%
2	Moisture Content	1.0g
3	pH	In KCL+= 3.86 In H_2O =6.10
4	Sodium	2.53
5	Potassium	4.57
6	Calcium	4.50
7	Phosphate	2.34%

Sample 3:

Sr. No.	Property	Value
1	Organic Carbon	0.462%
2	Moisture Content	1.21g
3	pH	In KCL+= 4.91 In H_2O = 5.74
4	Sodium	2.50
5	Potassium	2.26
6	Calcium	1.40
7	Phosphate	2.4%

Sample 3:

Sr. No.	Property	Value
1	Organic Carbon	0.448%
2	Moisture Content	4.20g

3	pH	In KCL+= 2.90 In H_2O = 5.92
4	Sodium	3.43
5	Potassium	1.66
6	Calcium	1.57
7	Phosphate	2.2%

Sample 3:

Sr. No.	Property	Value
1	Organic Carbon	0.269%
2	Moisture Content	1.50g
3	pH	In KCL+=2.65 In H_2O = 4.98
4	Sodium	2.44
5	Potassium	1.46
6	Calcium	3.50
7	Phosphate	3%

Sample 3:

Sr. No.	Property	Value
1	Organic Carbon	0.142%
2	Moisture Content	3.22g
3	pH	In KCL+= 1.34 In H_2O = 5.82
4	Sodium	2.65
5	Potassium	2.47
6	Calcium	2.42
7	Phosphate	2.86%

Conclusion:

1. Organic Carbon-Soil organic carbon is the basis of soil fertility. It releases nutrients for plant growth, promotes the structure, biological and physical health of soil, and is a buffer against harmful substances. Organic material is manufactured by plants using carbon dioxide from the air and water.

2. Soil moisture is a key environmental control of plant growth and microbial activity, affecting both organic carbon (C) inputs and CO_2 outputs of soil. Soil moisture, temperature, pH, inorganic nutrients, texture, and porosity of soil also impact organic matter decomposition or heterotrophic (microbial) respiration.

CHAPTER-10

Energy Survey of Village Chale, Taluka Mulshi, District Pune.

Dr. Satish Ekar
Department of Physics

Introduction:

The Department of Physics of Baburaoji Gholap College conducted an energy survey of the Chale village in the Mulshi tehsil. Sixteen students of the department of physics conducted this survey in coordination with the help of national service scheme (NSS) department of the college on 29th December 2022. Careful and optimistic use of the conventional and non-conventional energy helps in the development of the economy of the nation.

Objectives:

Following three major parameters were used for the present study.

1. Energy sources available and equipment being used in the village.
2. Energy availability and its efficient use at public places
3. Energy conservation and extent of use of non-conventional energy sources.

Methodology:

The survey and questionnaire method were used to obtain the data of energy use pattern and villagers energy needs at Chale. Following four prominent steps were taken in survey and questionnaire method.

1. Observations and interviews of family.
2. In questionnaire, the questions related to the equipment used in household and in agriculture were introduced.
3. Survey of 45 houses were completed.
4. The recommendations and suggestions are based upon the observations and inputs in the survey.

Using the above-mentioned methodology, survey for energy consumption and energy needs of the villagers was carried out.

Sr. No.	Total houses in the village	Families participated in survey	Families denied participation in the survey	Total number of families surveyed
1.	250	45	06	51

Observations:

In the survey it has been observed that out of 45 families 10 were agricultural laborers, 03 were having small scale businesses like poultry and ship goat farm business and remaining 32 family's livelihoods depending upon agriculture (Farmers).

Energy equipment used in Chale village:

Sr. No.	Electrical equipment	Number of families using
1	LED lamps	45
2	Television	32
3	Electric water heater	00
4	Solar water heater	01
5	Electric motor	05
6	Electric iron	10
7	Solar lantern	05
8	Agricultural waste for heating water	41
9	LPG for preparing food	32
10	Cow dung	21

It has been observed that in almost all families LED lamps were being used. The most advanced electrical equipments were not found in the majority of the family. In the cases of emergency of power cuts, people use candles, charging battery and traditional oil lamps. The electrical energy is being used only for domestic purpose. No commercial use is observed. All families have their monthly electric consumption bill is around Rs. 700/-. Government (Public Distribution System department) has stopped the supply of kerosene to households, and it compels the villagers to use conventional lamps and candles for the lightning purposes. The agriculture produced west is being used in majority of the houses for water heating. Looking at their economic income status, it has been found that the prices of electric supply and equipment is out of their reach. That is why the conventional energy sources are being used on the large scale. At the public places the use of electricity is much less and the lightning arrangement is inadequate. For many days the power cut/load shedding is almost for more than 4 hours. The villagers have to face a great hardship. The government LPG scheme for poor is known to the villagers but still today 30% families are not being benefited. Like other villages in the state the basic energy needs of these people are at primary level and it is needed to be improved. Villagers are needed to be trained about the equipment using non-conventional energy sources such as solar energy and wind energy.

Instructions:

It is found that villagers are not aware about the use of non-conventional energy sources such as solar energy and it is recommended that people should be we made aware about the benefits of using non-conventional energy appliances such as solar cooker, solar dryer, solar concentrator, solar water heater and solar panels. Energy saving and energy conservation should be the two basic programs that the villagers should be made aware about. They should be provided some financial help from the government and NGOs.

Recommendations:

According to the results of survey, it is recommended that the authorities should implement the programs, to make aware the villagers about the non-conventional energy sources such as solar Energy equipment. The agricultural west should not be used as a fuel for domestic purposes. Use of CFL lamp, go bar gas etc. and associated schemes are needed to be implemented on war footing. The government authorities and Gram Panchayat should lead in this awareness program.

Principal

CHAPTER-11

SUMMARY

The village Chale lies in the Western Ghats; Mulshi valley and located at 18° 33' 04.42" N latitude and 73° 36' 03.77" E longitude and at an altitude of 604m; and situated approximately 35 Km from Pune. It is situated 4 km away from sub-district headquarter Paud (tehsildar office). Chale is a small Village/ hamlet. It comes under Chale Panchayath. The general topography of the area is undulating with gentle slopes. It slopes towards south-east direction. It is marked with isolated agricultural farms and a river. The main land use pattern is agriculture, settlements, and reserved forest. The average elevation of land surface is observed to be 603 m above the MSL. As per 2009 stats, Chale is the gram panchayat of Chale village. Local Language is Marathi.

The total geographical area of village is 475 hectares. Chale has a total population of 845 peoples, out of which male population is 452 while female population is 393. There are about 187 houses in Chale village. Pincode of Chale village locality is 412108. Pune is nearest town to Chale for all major economic activities. Female Population is 47.2%. Village literacy rate is 64.0% and the Female Literacy rate is 26.1%.

The village have adequate primary educational facilities and higher education facilities within 20 km. The village, especially the women and youth of the village are earning through agriculture, agriculture labour, business, and 50% have jobs. The main occupation of this village is agriculture. Dairy business and animal husbandry are complementary to agriculture. Rice, Wheat, and Sugarcane are chief crops. The bore well and River are important source of irrigation. The irrigation method used was drip and flooding. The only grocery store was found in the village. The youth of the village is attracted to urban life due to more employment opportunities.

The social structure is well integrated through unique traditions. Hindu community is large in this village, while the Buddhist and Muslim communities are relatively small; yet its noteworthy that both the minority communities are included in the decision-making process in the village. Due to overall development in communication and other technological progress, there seems to change in livelihood. Many words and sayings of local language and some traditions are disappearing slowly.

Chale comes under Bhor-Mulshi Assembly and Lok Sabha constituencies. The MLA of this village is Sangram Thopte and as this village comes under Baramati Lok Sabha constituency. Supriyatai Sule is currently a Lok Sabha MP from this Lok Sabha constituency.

Development is done through government schemes. Primary education is available. There is no consistency in availability of electricity in the village. Toilets are constructed by villagers at their own expense. Under 'Digital India' mission Gram Panchayat has computer with internet facility; however, load-shading, and untrained staff are the limitations.

As the village of Chale has been blessed with a rich cultural heritage and natural richness. Under the guidance of Prof. Saddamhussein Ghatwale (Head, Department of Travel and Tourism Management), the students interacted with villagers as well as professionals who depend on the tourism business. Our college team has identified the tourism potential of this village. The team has suggested agrotourism, adventure tourism, and rural tourism to the villagers.

The floral and crop diversity surveys were also made which resulted in documentation of 461 plant species indicating rich diversity. Out of these 14 were under threat categories. Crop and cultivated fruit species documented were 34. The habit-form wise analysis represented a predominance of herbs (49%) and shrubs (16%) followed by trees (15%), and

climbers (12%) and grasses (8%). The Pteridophytes and Bryophytes are represented by 7 and 8 species respectively.

The pH of pure water is between 7 and 6.5. The normal range for pH in surface water systems is 6.5 to 8.5, and the pH range for groundwater systems is between 6 and 8.5. Hardness is most expressed as milligrams of calcium carbonate equivalent per liter. Water containing calcium carbonate at concentrations below 60 mg/l is generally considered as soft; 60–120 mg/l, moderately hard; 120–180 mg/l, hard; and more than 180 mg/l, very hard. Public Drinking Water Standards require chloride levels not to exceed 250 mg/L. Criteria for protection of aquatic life require levels of less than 600 mg/L for chronic (long-term) exposure and 1200 mg/L for short-term exposure.

Soil organic carbon is the basis of soil fertility. It releases nutrients for plant growth, promotes the structure, biological and physical health of soil, and is a buffer against harmful substances. Organic material is manufactured by plants using carbon dioxide from the air and water.

Soil moisture is a key environmental control of plant growth and microbial activity, affecting both organic carbon (C) inputs and CO_2 outputs of soil. Soil moisture, temperature, pH, inorganic nutrients, texture and porosity of soil also impact organic matter decomposition or heterotrophic (microbial) respiration.

The energy surveys were made. Villagers were not aware about the use of solar energy, and it is recommended that people should be made aware about the benefits of using non-conventional energy appliances. According to the results of survey, it is recommended that the authorities should implement the programs, to make aware the villagers about the non-conventional energy sources such as solar Energy equipment. The agricultural west should not be used as a fuel for domestic purposes. Use of CFL lamp, go bar gas etc. and associated schemes are needed to be implemented on war footing. The government authorities and Gram Panchayat should lead in this awareness program. One of the purposes of this field visit was to study and analyze the awareness of digital literacy among villagers. The digital literacy of Chale village was average. During the survey we noticed that the age group above 55 have little to no awareness about any digital technologies. In younger age group the awareness of digitization was above average.

CHAPTER-12

SUGGESTIONS

- बोली भाषेतील काही शब्द लुप्त होत आहेत. असे शब्द जतन करणे गरजेचे आहे.
- लोककथा, लोकगीते, लोककला आणि म्हणी हे लोकवाङ्मय यामध्ये परिवर्तन झालेले दिसले.आहे. मुळ वाङ्मय लिखित अथवा ध्वनिमुद्रित स्वरुपात जतन करणे आवश्यक आहे.
- शेतीसाठी जोड व्यवसाय सुरू करणे
- शासकीय योजनेचा लाभ घेण्यासाठी सर्व पत्रकांची पूर्तता करणे/जोपासणे
- शेतीमध्ये यांत्रिक तंत्राचा वापर करून उत्तम बाजारपेठ मिळविण्यासाठी प्रयत्न करणे.
- पारंपरिक पीक पद्धतीऐवजी व्यापारी पिकांचा आपल्या व्यवसायात अंतर्भाव करणे.
- शेतजमिनीचा पोत सुरक्षित ठेवण्यासाठी रासायनिक खताचा वापर टाळून नैसर्गिक खतांचा जास्तीत जास्त वापर करणे.
- ग्रामीण व कृषी पर्यटनाद्वारे समाज, संस्कृती, साहित्य, लोककला समजून घेण्यासाठी कृषि व ग्रामीण पर्यटनास चालना देणे. कृषी पर्यटनाबरोबरच नैसर्गिक संपन्नता लाभलेल्या ग्रामीण भागामध्ये साहसी पर्यटनाचा विचार करणे.
- The village needs modern facilities.
- The social status of women needs to be improved.
- The youth of the village are attracted to the city in large numbers.
- The road to the village needs to be improved.
- The village needs a weekly market.
- The water and soil quality are to be maintained.
- The rich plant diversity should be conserved through people's participation.
- The importance of sustainable use of biodiversity should be highlighted.
- There should be fair and equitable share of benefits from use of bio-resources.
- The valuable knowledge about biodiversity that our people is having should be documented and protected.
- Realizing the situation of plant, crop, and animal diversity, it should be conserved through people's participation.
- A nursery can be established to grow saplings of rare, endangered, and threatened plant species. These RET species can be re-established in their natural habitats.
- According to the results of survey, it is recommended that the authorities should implement the programs, to make aware the villagers about the non-conventional energy sources such as solar Energy equipment. The agricultural waste should not be used as a fuel for domestic purposes. Use of CFL lamp, gobar gas etc. and associated schemes are needed to be implemented on war footing. The government authorities and Gram Panchayat should lead in this awareness program.
- The village Chale has been blessed with a rich cultural heritage and natural richness. So, it's suggested to promote tourism activities.

ANNEXURE-I

List of plant species observed within Chale village.

Botanical Name	Local Name	Habit	Family	Status
Abelmoschus esculentus	Bhendi	Herb	Malvaceae	Cultivated
Abelmoschus manihot	Ran-bhendi	Shrub	Malvaceae	Frequent
Abrus precatorius	Gunj	Climber	Fabaceae	Frequent
Abutilon indicum	Mudra	Shrub	Malvaceae	Frequent
Abutilon pannosum	Kasili	Shrub	Malvaceae	Occasional
Acacia auriculiformis	Austrelian Babhul	Tree	Mimosaceae	Frequent
Acacia catechu	Khair	Tree	Mimosaceae	Frequent
Acacia chundra	Lal-khair	Tree	Mimosaceae	Frequent
Acacia leucophloea	Hivar	Tree	Mimosaceae	Frequent
Acacia nilotica	Babhul	Tree	Mimosaceae	Frequent
Acacia pennata	Shembi	Shrub	Mimosaceae	Frequent
Acacia torta	Chilar	Climber	Mimosaceae	Frequent
Acalypha ciliata		Herb	Euphorbiaceae	Abundant
Acalypha hispida	Khokli	Herb	Euphorbiaceae	Abundant
Acalypha indica	Khokli	Herb	Euphorbiaceae	Abundant
Acanthospermum hispidum	Shingada-kata	Herb	Asteraceae	Abundant
Achyranthes aspera	Aghada	Herb	Amaranthaceae	Abundant
Acorus calamus	Vekhand	Herb	Araceae	Occasional
Aegle marmelos	Bel	Tree	Rutaceae	Occasional
Aeschynomene indica L.	Kinomin	Shrub	Fabaceae	Abundant
Ageratum conyzoides	Osadi	Herb	Asteraceae	Abundant
Ageratum houstonianum		Herb	Asteraceae	Frequent
Albizia lebbeck var. *lebbeck*	Shireesh	Tree	Mimosaceae	Frequent
Albizia procera	Kinai	Tree	Mimosaceae	Frequent
Allamanda cathartica	Allamanda	Shrub	Apocynaceae	Cultivated
Alloteropsis cimicina		Grass	Poaceae	Abundant
Aloe vera	Korphad	Shrub	Liliaceae	Scarce
Alstonia scholaris	Satvin	Tree	Apocynaceae	Frequent
Alternanthera bettzichiana		Herb	Amaranthaceae	Abundant
Alternanthera sessilis	Chubukata	Herb	Amaranthaceae	Abundant
Alysicarpus bupleurifolius		Herb	Fabaceae	Frequent
Alysicarpus longifolius	Shevra	Herb	Fabaceae	Abundant
Alysicarpus monilifer	Shevra	Herb	Fabaceae	Abundant
Alysicarpus pubescens	Durangi-shevra	Herb	Fabaceae	Abundant
Alysicarpus tetragonolobus	Lal-shevra	Herb	Fabaceae	Abundant
Alysicarpus vaginalis (L.) DC.	Shevra	Herb	Fabaceae	Abundant
Amaranthus spinosus	Katemath	Herb	Amaranthaceae	Abundant
Amaranthus tricolor	Chaulai	Herb	Amaranthaceae	Frequent
Amaranthus viridis	Math	Herb	Amaranthaceae	Abundant

Botanical Name	**Local Name**	**Habit**	**Family**	**Status**
Ammannia baccifera	Bhar-jambhal	Herb	Lythraceae	Abundant
Ammannia multiflora		Herb	Lythraceae	Abundant
Amorphophallus commutatus	Suran	Herb	Araceae	EI/LR
Ampelocissus latifolia	Ran-draksha	Climber	Vitaceae	Abundant
Anagallis arvensis	Indraneel	Herb	Primulaceae	Abundant
Andrographis paniculata	Kalmegh	Herb	Acanthaceae	Frequent
Andropogon pertussis	Kusal	Grass	Poaceae	Abundant
Andropogon triticeus	Kusal	Grass	Poaceae	Abundant
Anisomeles indica	Gopali	Herb	Lamiaceae	Frequent
Annona reticulata	Ramphal	Tree	Annonaceae	Cultivated
Annona squamosa	Sitaphal	Shrub	Annonaceae	Cultivated
Anogeissus latifolia	Dhavda	Tree	Combretaceae	Occasional
Argyreia elliptica	Bondvel	Climber	Convolvulaceae	Frequent
Argyreia involucrata	Kondani	Climber	Convolvulaceae	Frequent
Argyreia nervosa	Samudrashok	Climber	Convolvulaceae	Frequent
Argyreia sericea	Gavel	Climber	Convolvulaceae	EI
Argyreia strigosa	Dudh-vel	Climber	Convolvulaceae	Frequent
Arisaema tortuosum	Sapkanda	Herb	Araceae	Frequent
Aristida setacea		Grass	Poaceae	Abundant
Artemisia japonica	Davna	Herb	Asteraceae	Frequent
Artemisia nilagirica	Dhor-dawna	Shrub	Asteraceae	Frequent
Artocarpus heterophyllus	Phanas	Tree	Moraceae	Frequent
Asparagus racemosus	Shatavari	Climber	Liliaceae	Scarce
Asystasia dalzelliana		Herb	Acanthaceae	Frequent
Azadirachta indica	Neem	Tree	Meliaceae	Scarce
Bacopa monnieri	Nirbrahmi	Herb	Scrophulariaceae	Occasional
Bambusa arundinacea	Bambu	Shrub	Poaceae	Frequent
Barleria cristata	Koranti	Herb	Acanthaceae	Scarce
Barleria prionitis	Katekoranti	Shrub	Acanthaceae	Occasional
Bauhinia purpurea	Rakta-Kanchan	Tree	Caesalpiniaceae	Occasional
Bauhinia racemosa	Aapta	Tree	Caesalpiniaceae	Frequent
Bidens biternata		Herb	Asteraceae	Abundant
Biophytum sensitivum	Lajwanti	Herb	Oxalidaceae	Abundant
Blainvillea acmella		Herb	Asteraceae	Abundant
Blepharis asperrima	Dikana	Herb	Acanthaceae	Abundant
Blepharis maderaspatensis	Kate-maka	Herb	Acanthaceae	Abundant
Blepharis repens		Herb	Asteraceae	Abundant
Blumea lacera	Burando	Herb	Asteraceae	Abundant
Blumea obliqua		Herb	Asteraceae	Abundant
Boerhavia erecta	Punarnava	Herb	Nyctaginaceae	Abundant
Boerhavia repens	Punarnava	Herb	Nyctaginaceae	Abundant
Bombax ceiba	Katesavar	Tree	Bombacaceae	Abundant
Bougainvillea spectabilis	Boganvel	Climber	Nyctaginaceae	Cultivated
Brachiaria mutica		Grass	Poaceae	Abundant

Botanical Name	**Local Name**	**Habit**	**Family**	**Status**
Bridelia retusa	Asana	Tree	Euphorbiaceae	Abundant
Butea monosperma var. monosperma	Palas	Tree	Fabaceae	Frequent
Caesalpinia decapetala	Chilhar	Climber	Caesalpiniaceae	Frequent
Caesulia axillaris	Maka	Herb	Asteraceae	Abundant
Cajanus lineatus	Rantur	Herb	Fabaceae	EI
Cajanus scarabaeoides	Rantur	Herb	Fabaceae	Abundant
Canavalia ensiformis	Abai	Climber	Fabaceae	Frequent
Canna indica	Kardal	Herb	Cannaceae	Cultivated
Canscora decurrens		Herb	Gentianaceae	EI
Canscora diffusa	Kilwar	Herb	Gentianaceae	Abundant
Cardiospermum helicacabum	Kapalphodi	Climber	Sapindaceae	Abundant
Carica papaya	Papai	Shrub	Caricaceae	Scarce
Carissa congesta	Karvand	Shrub	Apocynaceae	Abundant
Carthamus tinctorius	Ambadi	Herb	Asteraceae	Frequent
Carvia callosa	Karvi	Shrub	Acanthaceae	EI/LR
Caryota urens	Bherli-mad	Tree	Arecaceae	Frequent
Cassia absus	Chimar	Herb	Caesalpiniaceae	Abundant
Cassia alata		Shrub	Caesalpiniaceae	Frequent
Cassia fistula	Bahava	Tree	Caesalpiniaceae	Frequent
Cassia occidentalis		Shrub	Caesalpiniaceae	Frequent
Cassia siamea	Kasod	Tree	Caesalpiniaceae	Cultivated
Cassia tora	Takla	Herb	Caesalpiniaceae	Abundant
Cassia uniflora	Ran-takla	Herb	Caesalpiniaceae	Frequent
Casuarina equisetifolia	Suru	Tree	Casuarinaceae	Cultivated
Catharanthus roseus	Sadaphuli	Herb	Apocynaceae	Cultivated
Cayratia trifolia	Ambat-vel	Climber	Vitaceae	Frequent
Celastrus paniculatus	Mal-kangni	Shrub	Celastraceae	Abundant
Celosia argentea	Kurdu	Herb	Amaranthaceae	Abundant
Cenchrus ciliaris		Grass	Poaceae	Abundant
Cestrum nocturnum	Ratrani	Shrub	Solanaceae	Cultivated
Chloris barbata		Grass	Poaceae	Abundant
Chlorophytum tuberosum	Kuli	Herb	Liliaceae	Abundant
Chrysopogon fulvus	Kusal	Grass	Poaceae	Abundant
Chrysopogon schoenanthus	Kusal	Grass	Poaceae	Abundant
Clematis gauriana	Mor-vel	Climber	Ranunculaceae	Occasional
Clematis smilacifolia	Jambhali-jai	Climber	Ranunculaceae	LR
Cleome gynandra	Pandhri-tilwan	Herb	Cleomaceae	Abundant
Cleome rutidisperma		Herb	Cleomaceae	Scarce
Cleome viscosa	Pivli-tilvan	Herb	Cleomaceae	Abundant
Clerodendrum inerme	Koynel	Shrub	Verbenaceae	Frequent
Clerodendrum serratum	Bharang	Shrub	Verbenaceae	Frequent
Clitoria ternatea var. pilosula	Pandhra-Gokarn	Climber	Fabaceae	EI
Clitoria ternatea var. ternatea	Nila-Gokarn	Climber	Fabaceae	Frequent
Cocculus vilosus	Vasan-vel	Climber	Menispermaceae	Abundant

Botanical Name	**Local Name**	**Habit**	**Family**	**Status**
Cocos nucufera	Naral	Tree	Arecaceae	Cultivated
Coldenia procumbens		Herb	Molluginaceae	Abundant
Colocasia esculenta	Alu	Herb	Araceae	Abundant
Combretum albidum	Madvel, Piluki	Climber	Combretaceae	Frequent
Commelina benghalensis	Kena	Herb	Commelinaceae	Frequent
Commelina forsskalaei	Kenpat	Herb	Commelinaceae	Frequent
Commelina hasskarlii	Kamalini	Herb	Commelinaceae	Frequent
Convolvulus arvensis	Chan-vel	Climber	Convolvulaceae	Abundant
Conyza stricta		Herb	Asteraceae	Abundant
Corchorus aestuans		Herb	Tiliaceae	Abundant
Corchorus trilocularis	Kaduchinch	Herb	Tiliaceae	Frequent
Cosmos bipinnatus	Sonkusum	Herb	Asteraceae	Frequent
Cosmos diversifolium	Sonkusum	Herb	Asteraceae	Occasional
Costus speciosus	Pev	Herb	Costaceae	Frequent
Crinum asiaticum	Lily	Herb	Amaryllidaceae	Scarce
Crinum viviparum		Herb	Amaryllidaceae	Frequent
Crossandra infundibuliformis	Aboli	Shrub	Acanthaceae	Scarce
Crotalaria hebecarpa	Godhadi	Herb	Fabaceae	Abundant
Crotalaria juncea	Tag	Herb	Fabaceae	Abundant
Crotalaria pallida	Jangli-tag	Herb	Fabaceae	Frequent
Crotalaria retusa	Dingala	Shrub	Fabaceae	Frequent
Crotalaria spectabilis	Khulkhula	Shrub	Fabaceae	Frequent
Cryptolepis buchanani	Kavli	Climber	Periplocaceae	Frequent
Curculigo orchioides	Kali-Musli	Herb	Hypoxidaceae	Frequent
Cuscuta hyalina	Amarvel	Climber	Cuscutaceae	Occasional
Cyanotis cristata	Nabhali	Herb	Commelinaceae	Frequent
Cyanotis fasciculata	Nilwanti	Herb	Commelinaceae	Frequent
Cyanotis tuberosa	Abhali	Herb	Commelinaceae	LR
Cyathocline purpurea	Gangotra	Herb	Asteraceae	Occasional
Cynadon dactylon	Durva	Grass	Poaceae	Frequent
Cynanchum callialata	Chumchum	Climber	Asclepiadaceae	Occasional
Cynanchum tunicatum	Panchali	Climber	Asclepiadaceae	Occasional
Cynoglossum zeylanicum		Herb	Boraginaceae	Frequent
Cyperus castaneus		Grass	Cyperaceae	Frequent
Cyperus compressus	Lavhala	Grass	Cyperaceae	Abundant
Cyperus iria		Grass	Cyperaceae	Abundant
Cyperus nutans	Lavhala	Grass	Cyperaceae	Abundant
Dactyloctenium aegypticum		Grass	Poaceae	Abundant
Dalbergia lanceolaria	Phanshi	Tree	Fabaceae	Abundant
Dalbergia latifolia	Shisvi	Tree	Fabaceae	Frequent
Dalbergia paniculata	Sisvi	Tree	Fabaceae	Frequent
Dalbergia sissoo	Sisu	Tree	Fabaceae	Frequent
Datura innoxia		Shrub	Solanaceae	Abundant
Datura metal	Dhotra	Herb	Solanaceae	Abundant

Botanical Name	**Local Name**	**Habit**	**Family**	**Status**
Delonix regia	Gulmohor	Tree	Caesalpiniaceae	Cultivated
Dendrobium ovatum	Dande-Amri	Herb	Orchidaceae	Occasional
Dendrocalamus strictus	Bambu	Shrub	Poaceae	Frequent
Dendrophthoe falcata var. falcata	Bandgul	Shrub	Loranthaceae	Frequent
Desmodium dicotomum	Chikta	Herb	Fabaceae	Abundant
Desmodium heterocarpon	Jambhli-dashmi	Herb	Fabaceae	Abundant
Desmodium triflorum	Ran-methi	Herb	Fabaceae	Abundant
Desmodium triquetrum	Kak-ganja	Herb	Fabaceae	Frequent
Dichanthium annulatus	Kusal	Grass	Poaceae	Abundant
Digera muricata	Gitan	Herb	Amaranthaceae	Abundant
Digitaria ciliaris		Grass	Poaceae	Abundant
Dioscorea bulbifera	Kadu-karanda	Climber	Dioscoriaceae	Frequent
Dioscorea pentaphylla		Climber	Dioscoriaceae	Occasional
Diplocyclos palmatus	Shivlingi	Climber	Cucurbitaceae	Occasional
Dolichandrone falcata	Medshingi	Tree	Bignoniaceae	Occasional
Duranta erecta	Duranta	Shrub	Verbenaceae	Cultivated
Eclipta prostrata	Maka	Herb	Asteraceae	Frequent
Eleusine indica	Ran-nachani	Grass	Poaceae	Abundant
Emblica officinalis	Aavla	Tree	Euphorbiaceae	Occasional
Emilia sonchifolia	Sadamandi	Herb	Asteraceae	Abundant
Ensete superbum	RanKeli	Shrub	Musaceae	EI/LR
Eragrostis ciliaris		Grass	Poaceae	Abundant
Eragrostis unioloides	Siteche Pohe	Grass	Poaceae	Frequent
Eragrostris tenella		Grass	Poaceae	Abundant
Eranthemum roseum	Dasmuli	Herb	Acanthaceae	EI
Eriocaulon heterolepis		Herb	Eriocaulaceae	Abundant
Eriocaulon sedgewickii		Herb	Eriocaulaceae	Abundant
Eriocaulon stellulatum	Chandni-gonda	Herb	Eriocaulaceae	Abundant
Eriochloa procera		Grass	Poaceae	Abundant
Erythrina suberosa	Pangari	Tree	Fabaceae	Occasional
Erythrina variegata	Pangara	Tree	Fabaceae	Frequent
Eucalyptus globulus	Nilgiri	Tree	Myrtaceae	Cultivated
Eucalyptus maculata	Nilgiri	Tree	Myrtaceae	Cultivated
Eupatorium odoratum	Ranmuli	Shrub	Asteraceae	Frequent
Euphorbia dracunculoides		Herb	Euphorbiaceae	Frequent
Euphorbia geniculata	Dudhi	Herb	Euphorbiaceae	Abundant
Euphorbia heyneana		Herb	Euphorbiaceae	Abundant
Euphorbia hirta	Gondhan	Herb	Euphorbiaceae	Abundant
Euphorbia laciniata	Lal-dudhi	Herb	Euphorbiaceae	Abundant
Euphorbia lathyrus	Sabar	Shrub	Euphorbiaceae	Frequent
Euphorbia parviflora	Gulabi-dudhi	Herb	Euphorbiaceae	Abundant
Euphorbia thymifolia	Dudhi	Herb	Euphorbiaceae	Abundant
Evolvulus alsinoides	Vishnukrant	Herb	Convolvulaceae	Abundant
Exacum petiolare	Nili-chirayat	Herb	Gentianaceae	Occasional

Botanical Name	**Local Name**	**Habit**	**Family**	**Status**
Exacum pumilum	Jambhli-chirayat	Herb	Gentianaceae	EI
Ficus amplissima	Pimpri	Tree	Moraceae	Occasional
Ficus benghalensis	Wad	Tree	Moraceae	Occasional
Ficus benjamina	Nandruk	Tree	Moraceae	Occasional
Ficus exasperata	Bhui-umbar	Shrub	Moraceae	Occasional
Ficus heterophylla	Datir	Tree	Moraceae	Occasional
Ficus hispida	Kala-umbar	Tree	Moraceae	Occasional
Ficus microcarpa	Nandruk	Tree	Moraceae	Occasional
Ficus racemosa	Umbar	Tree	Moraceae	Frequent
Ficus religiosa	Pimpal	Tree	Moraceae	Frequent
Fimbristylis dichotoma		Grass	Cyperaceae	Abundant
Flacourtia indica	Tambat	Tree	Flacoutiaceae	Frequent
Flemingia strobilifera (L.) R.Br.	Kanphuti	Shrub	Fabaceae	Frequent

Ipomoea hederifolia	Ganeshvel	Climber	Convolvulaceae	Frequent
Ipomoea marginata	Amti-vel	Climber	Convolvulaceae	Frequent
Ipomoea nil	Nili-pungli	Climber	Convolvulaceae	Frequent
Ipomoea obscurva	Pivli-pungli	Climber	Convolvulaceae	Occasional
Ipomoea staphylina	Sitaphuli	Climber	Convolvulaceae	Occasional
Ischeamum indicum		Grass	Poaceae	Abundant
Ischeamum pilosum		Grass	Poaceae	Abundant
Ixora coccinea	Pitkuli	Shrub	Rubiaceae	Occasional
Ixora nigricans	Kat-kuda	Tree	Rubiaceae	Occasional
Ixora parviflora	Lokhandi	Shrub	Rubiaceae	Occasional
Ixora pavetta		Shrub	Rubiaceae	Occasional
Jasminum malabaricum	Kasur	Climber	Oleaceae	EI
Jasminum multiflorum	Ran-mogra	Climber	Oleaceae	Occasional
Justicia adhatoda	Adulsa	Shrub	Acanthaceae	Frequent
Justicia glauca		Herb	Acanthaceae	Frequent
Justicia procumbens		Herb	Acanthaceae	Abundant
Kyllinga brevifolia Rottb.		Herb	Cyperaceae	Abundant
Lagascea mollis	Bondal	Herb	Asteraceae	Abundant
Lamprachaenium microcephalum		Herb	Asteraceae	Abundant
Lannea coromandelica	Shimti	Tree	Anacardiaceae	Abundant
Lantana camara	Ghaneri	Shrub	Verbenaceae	Frequent
Launaea procumbens	Pathari	Herb	Asteraceae	Frequent
Lavandula bipinnata	Ghodegui	Herb	Lamiaceae	Frequent
Lawsonia inermis	Mehandi	Shrub	Lythraceae	Occasional
Leanotis nepetiifolia	Deepmal	Herb	Lamiaceae	Frequent
Leea indica	Dinda	Shrub	Leeaceae	Occasional
Lepidagathis cuspidata	Kate-adulsa	Shrub	Acanthaceae	Frequent
Leucas ciliata	Burumbi	Herb	Lamiaceae	Frequent

Botanical Name	**Local Name**	**Habit**	**Family**	**Status**
Leucas lanata		Herb	Lamiaceae	Occasional
Leucas longifolia	Dudhani	Herb	Lamiaceae	Occasional
Leucena latisiliqua	Subabhul	Tree	Mimosaceae	Cultivated
Limnophila indica		Herb	Scrophulariaceae	Frequent
Limnophila repens		Herb	Scrophulariaceae	Frequent
Linum mysorense	Undri	Herb	Linaceae	Abundant
Ludwigia octovalvis	Pan-lavang	Herb	Onagraceae	Occasional
Luffa acutangula	Dodka	Climber	Cucurbitaceae	Cultivated
Luffa cylindrica	Ghosale	Climber	Cucurbitaceae	Cultivated
Lycopersicom esculentum	Tomato	Herb	Solanaceae	Cultivated
Malachra capitata	Ran-Ambadi	Herb	Malvaceae	Abundant
Mangifera indica	Aamba	Tree	Anacardiaceae	Abundant
Martynia annua	Nakti	Herb	Martyniaceae	Abundant
Maytenus rothiana	Henkal	Shrub	Celastraceae	Frequent
Melia azadirach	Limbara	Tree	Meliaceae	Occasional
Melia dubia	Nimbara	Tree	Meliaceae	Occasional
Melilotus indica	Van-methi	Herb	Fabaceae	Abundant
Mentha arvensis	Pudina	Herb	Lamiaceae	Abundant
Merremia aegyptia		Climber	Convolvulaceae	Frequent
Merremia vitifolia	Navli	Climber	Convolvulaceae	Frequent
Modecca bracteata		Climber	Passifloraceae	Occasional
Mollugo pentaphylla	Jharasi	Herb	Molluginaceae	Abundant
Momordica dioica	Kartoli	Climber	Cucurbitaceae	Frequent
Morus alba	Tuti	Shrub	Moraceae	Cultivated
Mucuna pruriens	Khajkuily	Climber	Fabaceae	Occasional
Muntingia calabura		Tree	Elaeocarpaceae	Cultivated
Murraya koenigii	Kadhipatta	Shrub	Rutaceae	Occasional
Murraya paniculata	Kamini	Tree	Rutaceae	Scarce
Neanotis lancifolia	Tanoti	Herb	Rubiaceae	EI
Nerium indicum	Kanher	Shrub	Apocynaceae	Occasional
Nichandra physaloides	Popti	Herb	Solanaceae	Frequent
Nyctanthus arbor-tristis	Prajakta	Shrub	Oleaceae	Cultivated
Ocimum americanum	Ram-tulsi	Shrub	Lamiaceae	Frequent
Ocimum tenuiflorum		Shrub	Lamiaceae	Cultivated
Olismenus compositus		Grass	Poaceae	Frequent
Operculina turpethum	Nisottar	Climber	Convolvulaceae	Frequent
Oryza sativa	Bhat	Grass	Poaceae	Cultivated
Osyris quadripartita		Shrub	Santalaceae	Occasional
Oxalis corniculata	Ambushi	Herb	Oxalidaceae	Frequent
Panicum montanum		Grass	Poaceae	Abundant
Panicum notatum		Grass	Poaceae	Abundant
Paracalyx scariosus	Ran-ghevda	Climber	Fabaceae	Frequent
Paspalidium flavidum		Grass	Poaceae	Abundant
Passiflora foetida	Vel-ghani	Climber	Passifloraceae	Occasional

Botanical Name	**Local Name**	**Habit**	**Family**	**Status**
Pavetta indica	Papat	Shrub	Rubiaceae	Occasional
Pedilanthus tithymaloides		Shrub	Euphorbiaceae	Cultivated
Peltophorum pterocarpum	Sonmohar	Tree	Caesalpiniaceae	Cultivated
Pennisetum polystachion		Grass	Poaceae	Abundant
Pennisetum setosum		Grass	Poaceae	Abundant
Pentanema indicum	Sonkadi	Herb	Asteraceae	Frequent
Pergularia daemea	Utaran	Climber	Asclepiadaceae	Frequent
Peristrophe paniculata		Herb	Acanthaceae	Abundant

Best College Award
by Savitribai Phule Pune University, Pune, Year : 2015
Recognised as DBT- Star College

Courses Available

B.A.
Marathi, Economics, English, Politics, History

B.Com.
Cost and Works Accounting , Banking and Finance
Marketing and Salesmanship

B.B.A (C.A.)

B.Sc. - Botany, Chemistry, Physics

B.Sc. (Computer Science)

B.Voc.
Software Development, Fashion Technology
Retail Management, Beauty therapy and Aesthetics,
Travel and Tourism Management

M.Voc.
Fashion Technology
Software Development and Management

Post Graduate Courses
M.Sc. (Botany), M.Sc. (Physics)
M.Sc. (Comp.Sci.),
M.Sc.(Organic Chemistry), M.Sc. (Analytical Chemistry),
M.Sc.(Environmental Science)
M.A. (Marathi, History, Economics, English, Politics)
M.Com.

Certificate Courses
Certificate Course in Goods and Services Tax (GST)
Certificate Course in Laboratory Chemisty-Rubber
Certificate Course in Massage Therapy
Certificate Course in Animation and Multimedia
Certificate Course in Agro Tourism

Research Centres :
Economics, Physics, Commerce, Chemistry, Environmental Science

Advanced Diploma
Biomedical Instrumentation

3 February 2023

P.D.E.A's

BABURAOJI GHOLAP COLLEGE, SANGVI, PUNE-27

DEPARTMENT OF NATIONAL SERVICE SCHEME

ACADEMIC YEAR-2022-23

NOTICE

3	23/03/2023	9.30 am to12.00	Understanding Patriarchy Understanding Equity andEquality	Impact of Patriarchy Understanding gender Equity to achieve equality Gender equality is the liberation of menas well as women	Ms.Swati Ranade

				Introduction to Reciprocal Approach to achieve Gender Equality	
4	24/03/2023	7.30am to10.00	Contribution to the prevention of harassment	Contributing to prevention of sexual harassment	Ms. Samruddhi Panse
5	25/3/2023	7.30am to10.00	Legal provisions for prevention of sexual harassment	Preconditions for the effective working of sexual harassment complaints Role of men in the prevention of sexual harassment at the workplace Gender-sensitive language, work culture, and workplace	Ms. Samruddhi Panse

Written Examination for this course was conducted on 4/20/2023 at 9.00am to10am. The course was conducted as per the given schedule. Total 339 students of F.Y B.com participated in this course.

Course outcome

- The course helps the students to change their perspective towards gender and gender sensitivity.
- Students became aware about gender issues in the society and their role to reduce the inequality.
- The course helps in developing capacity building among the students to enable them to take decisions to remove gender biases in all fields of life.

The faculty members of the department Dr. Deepali Chinchwad, Mr Santosh Sasturkar and Dr Rohini Yewale assisted in the organization and execution of the course. Dr. Kranti Borawake, Dr. Mane S. N. took efforts for the success of the course. It was conducted under the valuable guidance of Honorable Principal Dr. Balkrishna Zaware.

PDEA's Baburaoji Gholap College, Sangvi, Pune-27
National Service Scheme (NSS)
A Special Indrayani River Prakrama Camp, Marah 2023

A Report

Aim: To carry out Indrayani River Parikrama and do the social activities

Objectives:

- To support students in cultivating a self-reliant mindset and potential for leadership.
- Assisting students' in delegating tasks and cultivating skills for cohabitation.
- To foster the growth of social and civic duties.
- To assist students in realizing their responsibilities in the community.
- To give the studentss a better understanding of the community in which they operate.

A special Indrayani Parikrama Camp was organized by NSS Department of, T. J. College, Yerawada, in association with National Service Scheme, Savitribai Phule Pune University on March 28, 2023. The volunteers of 8 colleges participated in this special camp along with PDEA's Baburaoji Gholap College, Sangvi. Mr. Dinesh Bhagat, NSS Officer, Prof. Dnyaneshwar Jambhulkar and 4 NSS volunteers were involved in this programme from our College. All the participants of our college reached at the Mausoleum (Samadhi) of Chhatrapati Sambhaji Maharaj at Tulapur at 3 O'clock. After completing all the formalities of submission of the documents, all the volunteers and NSS personnel received NSS 'T' Shirts. After the arrival of the chief guests, Dr. Chakane, Principal, Tikaram Jagannath College, Yerawada, guided all the participants regarding the history of village, Tulapur and formation of its name. He also guided how the camp will proceed and how and what work is to be done by all the volunteers. While inaugurating the Camp, he informed the participants about the relationship of Kavi Kalash and Chhatrapati Sambhaji Maharaj. NSS Programme Officer of T. J. College divided all the students into different groups.

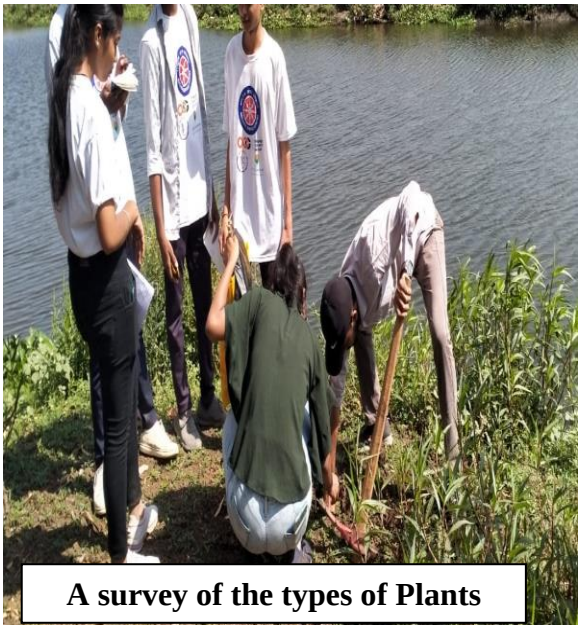
The groups worked on their assigned tasks, each group was assigned a programme officer who conducted soil testing, water testing, and a survey of the types of plants found in the area, the next morning. All test items collected were handed over and reported to the responsible teachers, in the evening.

The volunteers conducted a survey of the village and Indrayani River early in the morning on March 30, 2023 and in the afternoon between 1 pm and 3 pm certificates of the participation were given to the volunteers and the camp concluded at 6 pm.

Outcome of the activity:

- Students did Plant biodiversity survey and understood the documentation of diversity, indigenous and exotic plant species and its harmful effect
- Students learned the collection of soil sample to test the chemical composition and deposition of heavy metals or other things

- Students learned to work for community to keep the surroundings clean and passed massage to society not to throw the waste or discharge chemicals in river
- The learned the outcome of togetherness work and to help each other



A survey of the types of Plants

Soil Testing Programme

A survey of the village and Water Testing

Certificate Distribution among the Volunteers
