About PDEA

Pune District Education Association was established in 1941, much before independence by Late Shri Baburaoji Gholap with the philosophy of eradicating illiteracy in rural area of Pune district, and in order to bring the social and educational development of the masses. The PDEA's mission is 'Bahujan Hitay Bahujan Sukh' and this is being accomplished by the trust through providing quality education. The trust successfully completed 75 years in the year 2015-16, and is being celebrated as 'Platinum Jubilee Year of the Trust'. The efforts of the trust have been recognized by the government and society. PDEA was honored with 'Best Educational Institute' award by Government of Maharashtra in the year 2000. The trust has emerged into a conglomerate of the institutions providing education from pre-primary to postgraduate and Ph.D. programs in almost all streams. The trust is spearheaded by Leader of opposition & former Deputy CM Mr. Ajit Pawar who through his dynamic abilities and vision has brought a facelift in the infrastructure facilities of the school and colleges of the trust.

College at a Glance

Baburaoji Gholap College was established in 1989 at Sangvi (Pune). It is surrounded by rapidly developing area of the suburban Aundh, Baver, Magalunge, Wakad, Pimpri, Kalewadi, etc. Its a multifaculty college affiliated to Savitribai Phule Pune University, offering UG and PG programs in Commerce, Arts, Science, Computer Science, Computer Application and B.Voc. courses. We regularly organize curricular and cocurricular activities for the overall development of the students. Majority of the faculty members are actively involved in research and extension activities

Achievement of the College

- Best College Award by SPPU 2010-11
- Best College Award by PDEA in 2009-10
- 'Jagat Janiwancha' Award by Government of Maharashtra for 2012-13 and 2013-14
- College with 'DIT-STAR COLLEGE' Scheme
- Re-accredited with 'B+' grade by NAAC (CGPA 2.64)
- College with B.Voc. Courses
- College with 'Community College' Status
- DIT-FIST by Ministry of Science and Technology

Theme

The NEP 2020 has aimed at almost doubling the Gross Enrolment Ratio (GER) in higher education to 50 per cent by the year 2035, as compared to the current GER of 26.3%. It also has provision for greater autonomy to the academic institutions offering quality higher education. National Education Policy 2020 is a progressive and futuristic document aimed to transform higher education by making it more inclusive, holistic, and multidisciplinary in nature. A holistic and multidisciplinary learning is a unique educational approach that allows pupils to learn and explore different courses or curricula from different areas of study. Learning does not remain confined to the boundaries of a particular discipline. It is to be realized that quality of education should not be considered in fragmented terms but in a more holistic and expanded manner. A holistic and multidisciplinary approach in education is indispensable for developing well-rounded individuals that possess multifaceted functional capacities. A well identified set of skills and values is needed to develop holistic individuals at different stages of learning to meet the emerging challenges and needs of the modern era. In this regard, NEP 2020 rightly remarks that education is fundamental for achieving full human potential. A quality higher education must prepare the students for more productive and satisfying lives. The New Educational Policy 2020 insists on a Multidisciplinary approach in Higher Education to broaden the scope of Higher Education through diversified fields of study and ensure flexibility and autonomy to the learner in the selection of the field of study.

About the Workshop :

The need for a National Education Policy in India was a long felt one. Such a policy is a comprehensive framework to guide the development of education in the country. Three National Education Policies (1968, 1986 and 2020) were introduced in India in the past. The emphasis of previous policies on education was mainly on issues of access to education. The National Education Policy 2020 has been brought in keeping in view the current and future needs, which is expected to usher in the large scale transformation to both the school and higher education sectors. To achieve full human potential quality education is a fundamental requirement. It is a must for the development of a just and equitable society and for the promotion of national development. The whole world is undergoing rapid changes in the knowledge landscape. In this context, the new educational policy (NEP) will replace 34 years old National Education Policy framed in 1986.

The National Education Policy - 2020 (NEP) has a vision to reinstate India in the coveted position of world educational leader at the global level. It provides an opportunity for Higher Educational Institutions (HEIs) especially those engaged in technical education, to create a system that contributes directly to transforming the country into a global knowledge superpower. This Policy aims for an inclusive and equitable Education System. At Higher education level it aspires to introduce broad based, multidisciplinary, holistic education with flexible curricula, creative combinations of subjects, integration of vocational education and multiple entries and exit points with appropriate certification.

Eminent resource persons will share their views on Implementation of multidisciplinary education at College level regarding structure of degree program, curriculum and execution of program.

AIM :

- Implementation of Multidisciplinary Programs under NEP-2020 at college level.

OBJECTIVES :

- To discuss various factors, challenges and opportunities influencing multidisciplinary curriculum and programme design.
- To develop collaborative approach at institute level and holistic understanding in designing multidisciplinary programmes.
